**BD-SP309** Blu-ray Disc Player

Plays Blu-ray discs with Full HD 1080p resolution, while delivering a pure data bitstream from Dolby TrueHD and DTS-HD Master audio codecs and support for Deep Color. Features 1080p upscaling of all standard DVD sources, plays AVCHD, DivX HD, WMA, JPEG, and PNG formats, and supports NetFlix Video-on-Demand.

#ONBDSP309 .....**Call or Log-on**

**BD-SP808** Blu-ray Disc Player

THX-certified to meet the most demanding standards for home theater playback. Ethernet port enables BD-Live features, while SD card slot lets you play back additional stills and video. Stellar HD video with NSV processing and 1080p upconversion.

#ONBDSP808.....**Call or Log-on**

**BDP-430** 3D Blu-ray Disc Player

Immerse yourself in the world of cinema-quality 3D entertainment. Also features BD-Live Ready, HDMI 1.3a output with x.v.Color and 48-bit Deep Color processing, 1080p video upconversion, and Full 1080/24p True Cinema video output.

#PIBDP430 .....**274.99**

**3D-Ready Blu-ray Disc Players**

Eight players featuring easy access to Web content and services through Smart Hub, media sharing across devices with AllShare, and hassle-free networking setup. All boot-up in just three seconds and support for Dolby True HD (DTS-HD is also integrated in the BD-D6500 and higher). The BD-D5100 is ethernet wired only, the BD-D5300 and BD-D5500 are Wi-Fi-enabled (require optional Wi-Fi adapter) and all models (BD-D5700 and up) have built-in Wi-Fi as well as 3D playback.

The BD-D6700, BD-D7000 and BD-D7500 deliver 3D up-conversion of movies, pictures and streaming video at the push of a button. The minimalist BD-D7000 features a hidden slot for disc loading that pops up from the center of the player and a unique cube design with a stylish silver metal casing that wraps around the player to add sophistication. The ultra-slim BD-D7500 is wall-mountable and features an elegant brushed metal finish that perfectly matches Samsung's LED and Plasma TVs.

**DENON**

**AVR-1312** 5.1-Channel (110w x 5ch) A/V Receiver

Features four HDMI 1.4a inputs and one output with support for 3D video. It also supports Dolby TrueHD and DTS-HD Master Audio. Vibration resistant construction ensures quality audio reproduction. Connect an iPod via the front panel stereo mini jack, or enjoy network music via optional Denon Networked Control Dock (ASD-3N, ASD-51W or ASD-51N). The receiver also restores compressed music sources to their original pre-compressed quality. Icon-based Quick Select buttons that let you instantly select frequently used video and music sources as well as surround modes.

**AVR-1612**

5.1-Channel (120w x 5ch) A/V Receiver

The AVR-1612 steps up with Audio Return Channel which allows audio and video content to be sent through a single HDMI cable. This eliminates the need for separate audio and video cables from the TV to the receiver. It also has a built-in USB port, allowing digital music playback from an iPod, iPhone, iPad, or USB drive.

**AVR-1712**

7.1-Channel (125w x 7ch) A/V Receiver

Steps-up with six HDMI version 1.4a inputs and HDMI Standby Pass Through. This enables the receiver to continue to pass audio and video signals over HDMI, even when the receiver is in standby (off) mode. Great for when you don't want to fire up your full surround sound system (such as late at night), but still want to access your home theater gadgets and use your TV's built-in speakers.

**AVR-1912** 7.1-Channel (125w x 7ch)

Network Streaming A/V Receiver

Steps-up with enhanced network capability and iPod connectivity. When connected to a network, it lets you listen to Internet radio, play audio files, and display images via an Ethernet connection. It also supports AirPlay, which allows you to stream music wirelessly from an iPhone, iPad, iPod touch, or iTunes. Or, connect an iPhone/iPod/iPad directly to the receiver with a USB cable.

**AVR-2112CI • AVR-2312CI**

7.1- and 7.2ch Integrated Network A/V Receivers

Stepping up, the AVR-2112CI (7.1ch) and AVR-2312CI (4.2ch) incorporate Apple AirPlay, Direct iPod/iPhone/iPad connection via USB, Internet Radio, Web Browser function, DLNA supported audio and photo streaming from network connected devices (such as PCs and NAS drives), and PC setup and control via RS-232 port.

**VSX-521-K • VSX-821-K** 5.1-Channel 3D Ready AV Receivers

3D Ready with HDMI 1.4 connectivity, the VSX-521-K and VSX-821-K also offer optional wireless Bluetooth transfer of audio content, support Dolby True HD, DTS Master and Dolby ProLogic IIz height channel, and enhance compressed audio files. They also offer MCACC (Multi-Channel Acoustic Calibration) which optimizes the speakers to balance out any room-induced acoustic inaccuracies. Otherwise the same, the VSX-821-K is iPod/iPhone compatible. No need to buy a separate dock to access music, videos, streaming content, and photos stored on your Apple devices.

**VSX-921-K • VSX-1021-K • VSX-1121K** 7.1-Channel 3D Ready AV Receivers

- Stepping up, VSX-921-K features 1080p HDMI up-conversion.
- The VSX-1021-K adds networking ability (Ethernet port) which lets you stream MP3, AAC, WMA, WAV, or even FLAC music files from your PC, laptop or smartphone, and AirPlay, which lets you stream music from iTunes and play it through your home theater system.
- The VSX-1121-K steps-up with THX Select 2 Plus certification, seven HDMI inputs, component inputs, and is Made for iPod,

iPhone, iPad. Meaning it carries iPod, iPhone, iPad, as well as streams audio & video with album art.

YAMAHA® RX Series

The 5.1-channel RX-V371, RX-V471, and the 7.1-channel RX-V571, RX-V671 are 3D-capable, featuring Audio Return Channel (ARC) and 1080p HDMI compatible inputs with HD Audio decoding of Dolby TrueHD and DTS HD content. They also offer Yamaha's Compressed Music Enhancer technology which restores lost detail in compressed music files. All except the RX-V371 feature front panel USB iPod/iPhone input, CINEMA DSP 3D, YPAO (Yamaha Parametric Room Acoustic Optimizer), and high-resolution graphics which can be overlaid on HD and 3D video signals, providing access to navigational icons and setup items, control over internal sources, as well as connected iPhone/iPod devices.

AVENTAGE A/V Receivers

The result of unparalleled attention to detail in design, engineering and fabrication, the AVENTAGE series brings studio-grade sound and sophisticated video enhancements to the home. For example, specially designed signature 5th foot at the bottom of each model improves structural rigidity, which reduces vibration that can cause distortion and audibly improves sound quality.

Each features full HD Audio decoding (Dolby TrueHD and DTS-HD Master Audio); Dolby Digital Plus and DTS-HD High Resolution Audio), HDMI V.1.4a 3D Pass-through with ARC (Audio Return Channel); YPAO room optimizer; analog-to-HDMI 1080p upscaling and front panel direct USB digital connections for iPhone/iPad, as well as iPhone A/V system control app compatibility.

DLNA (1.5) compatibility and Windows 7 certification enables them to easily stream Internet Radio (MP3/WMA), Rhapsody and Sirius, while easily playing music files (WAV, MP3, WMA, AAC, FLAC 96/24) from a PC or DLNA Server.

## ONKYO

**TX-SR309** 5.1-Channel A/V Surround Home Theater Receiver

Features three 3D compatible HDMI 1.4a inputs, as well as Audio Return Channel (ARC), Deep Color and xv Color, Lip Sync. Decodes Dolby TrueHD and DTS-HD Master Audio which deliver high definition, lossless audio, as well as Dolby Digital Plus and DTS-HD High Resolution Audio. Universal Port lets you connect an optional UP-A1 Dock for iPod. Front-panel audio input for MP3 players, music optimizer for compressed MP3 files. (ONTXSR309).....**Log-on**

**TX-NR509** 5.1-Channel Network A/V Receiver

Networking ability of the TX-NR509 takes you one step closer to fully integrated home entertainment. Audio files on your computer and streaming internet radio can be played through your main system, with fidelity far beyond what you're used to on a PC. Other step-up features from the TX-SR309 include four HDMI 1.4a inputs and one output, Direct Mode, and second zone stereo audio. It also has a front-panel USB port that offers a digital link for your iPod, iPhone and USB storage devices, and offers free download of Onkyo's Remote App, which lets you use your iPod or iPhone as a remote control for the system. (ONTXNR509).....**Log-on**

**TX-NR609 • TX-NR709**

## 7.2-Channel Network A/V Receivers

Steps-up with THX Select2 certification, which means it meets the world's most demanding standards for audio quality and performance, and must play at reference volume levels with minimal distortion. It also has six HDMI 1.4a inputs, analog RGB video input, and WRAT (Wide Range Amplifier Technology). It can also upscale 480i/p, 720p, and 1080i/p video sources all the way up to 4K x 2K. The TX-NR709 adds Audyssey MultEQ® XT Advanced Room-correction and Speaker Calibration.

**TX-NR809 • TX-NR1009** 7.2- and 9.2-Channel Network A/V Receivers

The TX-NR809 steps-up with eight HDMI 1.4a inputs, high-quality HQV® Vida™ processor and independent ISF calibration for each source. A massive transformer, symmetrical L/R channels, separate power and pre-amp blocks, and a highly rigid chassis provide the bedrock for a superlative audio performance. Compatible with optional UWF-1 Wi-Fi adapter via front-panel USB port. The 9.2-channel TX-NR1009 is also equipped with DTS Neo: X, a new surround sound system engineered to enhance standard 5.1 soundtracks with additional front-height, front-wide and surround-back channels.

**HT-RC360 • HT-RC370**

## 7.2-Channel Network A/V Receivers

These versatile networking A/V receivers feature six HDMI 1.4a inputs—including one on the front panel, Audio Return Channel, ultra-high resolution 4K video upscaling via Marvell Qdeo; lossless audio from Dolby and DTS; and expanded surround sound from Audyssey DSX™ and Dolby Pro Logic IIz. Also has a direct digital connection of iPod/iPhone via front-panel USB port and offers free downloadable Onkyo Remote App for iPod/iPhone. The HT-RC370 steps-up with THX® Select2 Plus™ Certification and Audyssey MultEQ® XT Advanced Room-correction and Speaker Calibration.

## IN-WALL & IN-CEILING SPEAKERS

More than any other component, speakers define the sound of an audio system. In-wall and in-ceiling speakers have made tremendous strides in recent years to the point of competing with their cabinet-style counterparts. Thus, many are turning to in-wall/ceiling solutions to maximize their living space. Extremely popular with interior designers and decorators, they offer a clean, minimalist look and near-invisible presence, thanks to their camouflage grilles. When installing your next system, you may want to consider the excellent products listed below for a heard-but-not-seen experience in a home that truly emanates music.

### SOUNDPOINT SERIES

JBL's SoundPoint in-wall and in-ceiling speakers deliver room-filling sound, yet are extremely compact with shallow mounting depths. They feature unique swivel-mount titanium laminate tweeter for crystal highs, and a rubber surround aluminum woofer for high power handling and tight, deep bass. They include a cutting template and integrated dog-ear brackets for retrofit applications. And with rough-in frames available for new construction, installation is just as easy.

- SP5 II:** In-Wall 60 watts, 5 1/4" woofer (JBSP52)..... **Log-on**  
**SP6 II:** In-Wall 80 watts, 6 1/2" woofer (JBSP62)..... **Call or Log-on**  
**SP6C II:** In-Ceiling 80 watts, 6 1/2" woofer (JBSP6C2)..... **Log-on**  
**SP6CS II:** In-Ceiling 100 watts, 6 1/2" woofer (JBSP6CS2)..... **Log-on**  
**SP8 II:** In-Wall 100 watts, 8" woofer (JBSP82)..... **Call or Log-on**  
**SP8C II:** In-Ceiling 100 watts, 8" woofer (JBSP8C2)..... **Call or Log-on**

### STUDIO L SERIES

JBL's Studio L in-wall and in-ceiling speakers are designed for serious listening. They feature pivoting titanium-laminate dome tweeters that can be aimed directly toward listeners, proprietary Elliptical Oblate Spheroidal™ (EOS) waveguides, and independent tweeter level controls to greatly improve high-frequency response and ensure that the speakers sound great anywhere in the room. Frame and grille can be painted to blend into the existing environment. They include a cutting template and integrated dog-ear brackets for retrofit applications. Rough-in frames are also available for new construction, making installation easy.

### AW880

#### Wireless Indoor Stereo Speakers

Enjoy your favorite music practically anywhere. The transmitter can connect to a CD/MP3 player, computer, or other device and transmit the stereo audio over a 900MHz band to reach the speakers up to 150' away. Each speaker features a 3" woofer and a 1.5" tweeter, push button auto-lock tuning, and a left/right/mono selector switch to determine placement in a stereo setup, or for stand-alone use. Each has a 10W amp for strong performance with low distortion.

#ACAW880..... **94.50**

### audioengine A5 Bookshelf Speakers

Designed with audiophiles in mind, the speakers deliver an impressive 50W RMS output per channel. They feature 5" Kevlar woofer and 20mm silk dome tweeter for high-quality audio output. And, because they feature dual 1/8" inputs, they are ideal for use with a computer or an MP3 player. They also include a USB port, which can be used to power and charge any USB-powered device. This allows you to use the speakers with your iPod, without draining its battery.

Sold as a pair in Black (AUSA5B) or White (AUSA5W)..... **325.00**

### Boston® SoundWare XS

#### Ultra-Compact 5.1-Channel Home Theater System

Consists of five 2-way satellite speakers each only 4 1/2" at their longest dimension. Mount them on a counter, flat on a wall or even in a corner where a wall meets the ceiling or floor. Complementing the satellites is a 100w powered subwoofer with BassTrac circuitry for deep, powerful bass with exceptionally low distortion.

SoundWare XS in White (BOSNDWREX51W) or Black (BOSNDWREX51B)..... **Log-on**  
 SoundWare XS Satellite replacement or expansion speakers in Black (BOSNDWREX)..... **69.99**

### Boston® TVee Model 25

#### Soundbar Speaker and Wireless Subwoofer

Connecting to the TV with a single cable, the slim soundbar is perfectly sized for 32" or larger flat-panel television. The soundbar has a digital input and Dolby digital decoding to provide an immersive experience, while the wireless down-firing subwoofer provides enhanced bass from anywhere in the room. 150w total power, various modes are provided for movies and music to deliver the best audio for a particular application. 3.5mm stereo mini aux input to connect MP3 player. The soundbar is controlled by your current remote, further reducing clutter and confusion.

#BOTVM25..... **Log-on**

**TVee Model 30 Soundbar and Wireless Subwoofer:** Steps up with 300w of total power, Bluetooth and 7" subwoofer. The soundbar has a set of three 3.5" Fiber Ceramic Copolymer Material mid-bass drivers and three 0.75" dome tweeters to provide realistic audio with a wide frequency response.

#BOTVM30..... **Log-on**

### Infinity® Primus® Series

Infinity's Primus speakers deliver a level of realism and subtlety beyond what you've known – even in the music and movies you know by heart. They feature superior Infinity engineering, extremely low resonance enclosures that let you hear music exactly as it was recorded, precision crossover networks, and tweeter waveguides that improve on-and-off-axis high-frequency response. Patented MMD transducers significantly improve cone performance, providing ideal rigidity and resistance to precision sound across the entire spectrum.

**JBL ES SERIES**

- Cellulose-fiber cones reinforced with a polymer coating eliminates internal resonances, without increasing cone mass. That means tighter, more precise bass and midrange reproduction.
- UHF drivers capable of 40kHz, deliver high-end nuances you've probably never experienced before in recorded audio.
- Proprietary waveguides evenly disperse high frequencies, delivering more precise imaging over a wider listening area.
- Extremely thin yet very rigid titanium laminate dome ensures accurate, undistorted high frequency response, even at loud levels.

Full HD 3D Blu-ray Home Theater Systems

Panasonic's 3D Blu-ray Disc home theater systems reproduce 3D with superb picture quality and cinema-like surround sound. They also feature built-in Wi-Fi, Universal Dock for iPod/iPhone and Skype compatibility.

They deliver powerful 3D images with dramatic effects, enhanced depth, luster and texture, and allow you to tailor the image display.

The 3D Effect Controller adjusts the amount of the depth effect for more expansive images, enabling you to enjoy 3D movies with exactly the preferred level of 3D effects.

Cinema Surround Plus compensates for the lack of a surround effect to provide natural smooth surround sound and offers an enhanced surround effect from above and around.

For space-saving elegance, the sleek, ultra slim main component measures just 1.5" high. The systems are designed to ideally match a flat panel display. Easy to install, the SC-BTT770 comes with rear wireless

speakers (available for the SC-BTT370), so there is no need for unsightly wires across the room.

The SC-BTT3700 and SC-BTT770 feature VIERA CAST with Skype allowing you to connect with friends and family around the world on any compatible TV. Convenient Auto Answering Video Message feature answers incoming calls and records video voicemail messages. These models also include a down-firing subwoofer, which achieves powerful bass. They are equipped with one HDMI output and two HDMI inputs with Standby Pass through for HD and 3D gaming and set-top box connections.

SAMSUNG

SAMSUNG

### HW-D450 • HW-D451 • HW-D550 • HW-D551 Crystal Surround Air Track Active Speaker Systems

Samsung's Crystal Surround Air Track Active Speaker Systems provide high-quality spacious sound in an unobtrusive design. The slim receiver has an integrated active speaker system, eliminating the need

for the satellite speakers and messy cabling. The compact subwoofer communicates wirelessly with the main unit to provide enhanced bass response without running cables across your room. Otherwise the same, the HW-D550 and HW-D551 step-up with 2 rear-panel HDMI inputs and one HDMI output.

- Samsung's Virtual Surround delivers surround sound effect without additional speakers. Utilizing just two stereo speakers, your ears will barely be able to distinguish the system from larger, more complex 5.1 and 7.1 channel systems. With "3D audio depth" technology, the wireless subwoofer supports the low end of the audio spectrum with thundering bass.
- Support Dolby Digital and DTS 5.1 digital audio. The receiver has analog and digital audio inputs. Seven sound modes let you optimize the system based on the type of content you want to enjoy.
- Create a sophisticated gallery effect by mounting the CrystalSurround AirTrack beneath your HDTV.
- The included wireless remote can control the system, as well as your television.

### HT-D550 1000-Watt 5.1-Channel Surround System

Includes four satellite speakers with a low-profile center channel and a powered sub-woofer.

The integrated DVD player/receiver features digital surround sound and wide connectivity

including two HDMI inputs. Playable disc types include DIVX (including XVID), MP3, WMA, WMV and JPEG. Also offers 1080p upconversion via HDMI. 8 DSP modes simulate the acoustic environments of a rock concert, theater, etc. For convenience, Auto Sound Calibration matches the audio to your room's unique acoustics via the included calibration microphone.

### HT-D4500 • HT-D5300 • HT-D5500 1000-Watt 5.1-Channel Surround Systems

Built around 1000w receiver with integrated Blu-Ray Disc player, they offer advanced Dolby and DTS decoding, fast boot-up and load time, Samsung Smart TV and Auto Sound Calibration. The

HD-D5300 and HT-D5500 also have a built-in iPod/iPhone dock and support for HDMI 1.4, so you can enjoy 3D entertainment in your home. Audio Return Channel lets you enjoy TV sound from the speakers using a single HDMI cable. The HT-D4500 and HT-D5300 are Wi-Fi ready (requires an adapter) and offer 1080p upscaling of standard DVD discs. The HT-D5500 adds built-in Wi-Fi, 2D to 3D conversion and Samsung's Crystal Amplifier which eliminates distortion by quickly sensing signal changes and enhancing response speed.

#SAHTD5500.....	<b>Log-on</b>

### The HT-D5500, HT-D6500, HT-D6730W and HT-D7530 all feature:

They support the complete 3D experience with 3D Sound Plus technology. 3D Sound Plus does for audio what the 3D processor and emitter do for video by creating the most immersive 3D experience yet. Viewers will like they are part of the action as 3D Sound Plus technology dynamically generates 3D audio to complement and enhance the 3D video playing onscreen. For example, a rocket ship blasting off will not only leap out of the screen, but 3D Sound Plus will create 3D depth sound – vertical surround and horizontal sound waves – to make the viewer feel like the rocket ship is lifting off from their living room. Built into the included 3D Blu-ray player, the 3D Blu-ray home theater portfolio features integrated support for 3D Sound Plus.

### HT-D6500W 1000-Watt 5.1-Channel Surround System

Experience 3D entertainment with this 5.1-channel, 1000W system. Treat your eyes to captivating 3D depth and clarity – even upconvert existing 2D titles to 3D. Advanced "3D audio depth" technology lets

you experience the sounds that accompany the sights. Samsung Smart Blu-ray™ puts the best of the web at your fingertips with Samsung TV Apps. And built-in WiFi means you're ready to connect right away. System includes two half-tall front-channel speakers — featuring proprietary Super Tweeter with Wideband Amp, two wireless rear surround speakers, a center-channel speaker, and a subwoofer. Super Tweeter expands the range of high frequencies up to 50kHz so that listeners can experience robust sound quality even at high frequencies.

#SAHTD6500W..... **Log-on**

### HT-D6730W 1330-Watt 7.1-Channel Surround System

All the features of the HT-D6500, this system has a high-end midnight black, glossy finish and consists of six speakers: a wide center channel speaker for clear dialogue, a large but unobtrusive passive radiator subwoofer, two tower super tweeter speakers that include embedded height channel speakers and two surround speakers. The speakers operate without protection grilles, improving sound clarity and giving them a stylishly retro appearance. Samsung's innovative Swivel Head Speakers create a clean look while delivering an immersive, vertical surround sound experience.

## LED22VH60 22" 1080p LED TV

You'll be amazed by the LED22VH60's 1080p resolution and 30,000:1 dynamic contrast ratio. It also gives you an 8ms response time so you can enjoy fast-paced action without blurring. Features two HDMI and component video inputs, VGA port for connection to PC, built-in speakers (3W x 2) and includes a full-function remote control.

**LED HDTV**

LG's LED technology provides a slim profile and delivers amazing brightness, clarity and color detail, as well as greater energy efficiency. Hook up a 1080/24p-capable Blu-ray disc player to an HDMI port of the LV2500 series, and you'll watch movies with the cinematic look that you used to only experience in a movie theater. Intelligent Sensor automatically optimizes the picture to the lighting and color conditions in the room for a more enjoyable viewing experience. USB input allows you to view pictures, videos and MP3 files from a USB drive.

- Stepping up, the LV3500 series offer Full HD 1920 x 1080 resolution
- The LV3700 adds Smart TV which lets you access limitless content, thousands of movies, customizable apps, videos and the best of the web all organized in simple to use interface.
- LV5500 steps up with TruMotion 120Hz allowing you to watch fast action with incredible smoothness.
- The LW5600 series is 3D-ready. Just add optional 3D shutter glasses.

**Plasma HDTV**

LG's Plasma TVs pack a huge amount of great high-end specs and convenience features into a wafer-thin 1" (25.4mm) frame which raises the plasma performance bar in its very reasonable price range. The 720p PT350 series combines Dynamic Contrast which delivers a ratio of 3,000,000:1, with 720p HD and the Dual XD Color Engine to offer a remarkable TV by any standard. It also employs an Intelligent Sensor to automatically calibrate the optimal settings. The 600Hz Subfield Drive flashes the plasma sub-pixels 10 times per second, rendering crystal-clear, judderless action which will definitely make gamers and sports fans happy. Includes multiple HDMI inputs and USB port.

- Stepping up, the PW350 series is 3D-ready with a 2D to 3D conversion feature that adds a 3D effect to 2D television, movies, sports, video games and images, at the touch of a button.
- The PV450 series offers Full HD 1920 x 1080 resolution (not 3D-ready)
- The 3D-ready PZ550 series adds built-in Wi-Fi and DLNA Certified
- The top-of-the-line PZ950 series is THX 3D Certified, incorporates a TruBlack Filter, and features Smart TV which lets you access limitless content, thousands of movies, customizable apps, videos and the best of the web all organized in simple to use interface.

**BRAVIA EX523 • EX620 • EX720 Series**

## LED Backlit LCD HDTV

Stepping up, the BRAVIA EX523, EX620 and EX720 feature brilliant Full HD (1080p) picture quality with Edge LED backlight. Unlike conventional LCD televisions, they use edge-mounted LEDs to light up the screen and deliver outstanding contrast and dark-scene detail. Other benefits include sharp images, rich color detail and a thin design. They also incorporate Sony's X-Reality Engine for a vivid, lifelike picture experience. This single chip solution features Sony's Intelligent Image Enhancer which divides the signal into four characteristics including texture, outline, contrast and color, and then optimizes each one individually for more vibrant and detailed images.

- With Wi-Fi capability (USB wireless LAN adapter required), you can go beyond scheduled programming and watch what you want, when you want. Enjoy the widest selection of internet entertainment including Hollywood blockbusters from Cricuity, watch hit movies with Netflix, popular TV shows on Hulu Plus, user-generated video on YouTube or listen to the latest music with Pandora.
- Easily connect to family and friends live on your HDTV wherever they are with Skype. Enjoy free high definition Skype-to-Skype video calls from the comfort of your living room. Simply attach a webcam with mic and see your friends on the big screen – it's unlike any experience you could get on a PC.
- Built-in motion sensor has the ability to scan the room and detect movement. If the sensor detects no movement it automatically turns off the picture leaving only sound. After more time and no movement, the TV turns itself off minimizing any unnecessary power draw.
- Access and share photos, videos and music on your TV by streaming them from compatible DLNA device like your PC or Playstation3 system.

<b>KDL-32EX523</b> (SOKDL32EX523) 32" (\$10 est. yearly energy cost*)	<b>Call or Log-on</b>

<b>KDL-55EX620</b> (SOKDL55EX620) 55" (\$18 est. yearly energy cost*)	<b>1888.00</b>

More than a fully-loaded HDTV, the EX720 Series features a built-in 3D sync transmitter. Once you slide on the 3D active glasses (sold separately), the on-screen image is precisely synchronized and delivered with the Full HD image intact for an immersive entertainment viewing experience. It also lets you see smooth and precise detail during fast-paced sports and movies with Motionflow™ XR 240 technology. This advanced motion processing technology delivers an unbelievably fluid picture by reducing blur caused by quick camera movements and automatically enhancing image sharpness.

<b>KDL-32EX720</b> (SOKDL32EX720) 32" (\$11 est. yearly energy cost*)	<b>898.00</b>

**BRAVIA NX720 • HX820 Series**

Stepping up from the KDL-EX720, the NX720 and HX820 feature Sony's Monolithic Design. Consisting of an elegant sheet of glass stretching from edge-to-edge, it changes the entire TV viewing environment by delivering the most innovative, stylish, and high-quality experience possible. With quality materials forming a simple, flush viewing surface with crisp edges and a smooth border, the TV's blend into your home's interior and allow you to focus completely on beautiful on-screen images without distraction from unnecessary decorative elements. Also, a unique 6° upward tilt option offers a more natural, comfortable viewing experience. The remote control features a curved top surface (making easier to access the controls) and a glossy outer surface.

- Sony's OptiContrast panel elevates the picture to the front surface of the TV and creates a dark background for rich, vibrant, high contrast picture even in well-lit rooms.
- Dynamic Edge LED Backlight lets you experience enhanced picture quality and contrast with local dimming technology. It sharpens image contrast giving an amazingly crisp picture you can see.

<b>KDL-46NX720</b> (SOKDL46NX720) 46" (\$14 est. yearly energy cost*)	<b>1888.00</b>
<b>KDL-55NX720</b> (SOKDL55NX720) 55" (\$19 est. yearly energy cost*)	<b>2608.00</b>
<b>KDL-60NX720</b> (SOKDL60NX720) 60" (\$20 est. yearly energy cost*)	<b>3148.00</b>

Otherwise the same, the HX820 features Sony's X-Reality PRO engine for incredible detail through multi-frame, pixel-by-pixel analysis of each scene. You will see optimal color, contrast and sharpness including in low resolution web videos. Additionally, the engine's multi-frame analysis helps create missing resolution and Sony's Super Bit Mapping technology incorporates 14 bit up-scaling, processing and pixel mapping to smooth gradation and improve the quality of low-tone pictures. Twice as fast as the NX720, the HX820 features Motionflow™ XR 480 technology. See smooth motion during fast action movies and sports. Reduces blur caused by quick camera movements, enhances image sharpness, and overall creates a clearer picture.

<b>KDL-46HX820</b> (SOKDL46HX820) 46" (\$16 est. yearly energy cost*)	<b>2338.00</b>
<b>KDL-55HX820</b> (SOKDL55HX820) 55" (\$18 est. yearly energy cost*)	<b>3058.00</b>

**BRAVIA XBR-HX929**

The top-of-the-line XBR-HX929 is 3D capable and features brilliant Full HD picture quality with Intelligent Peak LED backlight for outstanding contrast. The backlight uses full array local dimming for deeper blacks, while also boosting brightness in lighter scenes creating incredible on-screen contrast. It also features Sony's MotionFlow XR 960 featuring a precise backlight control that is synchronized with the liquid crystal movement from frame to frame creating clearer, sharper moving images.

Rear IR-input and two-way RS-232 offers easy integration with third-party control systems.

LED backlighting is not only more energy-efficient than its CCFL counterpart, it allows for a slimmer television design, allowing these monitors to check in at just over an inch deep without their stand. Samsung's ultra-thin bezel design adds to the visual appeal, making these displays almost all screen, and a worthy addition to almost any room.

**D6000 • D6300 Series** LED HDTV**Step-up features from the D5500 Series:**

- Auto Motion Plus 120Hz with Clear Motion Rate technology allowing you to watch fast action with incredible smoothness.
- Absorbing ambient light, Samsung's Ultra Clear Panel eliminates reflections, boosts contrast ratio, and creates a comfortable viewing environment. Enjoy crisp image details, natural skin tones, excellent shadow detail, and vibrant colors.
- They offer a world of web-connected TV entertainment with Samsung Smart TV. Built around the Smart Hub interface, Samsung Smart TVs allow you to easily search for movies, TV shows, browse the web, explore Samsung apps, chat with friends and find many other types of new interactive TV content.

- HDTV-based application store with over 200 downloadable Samsung Apps (paid and free) help people connect to their passions – whether in sports, entertainment, information, games or networking.
- Allows users to easily search for content on the TV and via Samsung Apps or other online services.
- Your Video delivers recommendations based on a user's viewing history.
- Web Browser (D6300 series only), offering full web browsing directly from the TV.

**D6400 • D6500 Series 3D LED HDTV**

**Step-up features from the D6300 Series (except no Web Browse):**

- Connect to a Blu-ray 3D player to play 3D titles or intensify your viewing experience by upconverting favorite 2D shows to 3D in real time for the ultimate "reality" TV. 3D Active Glasses sync up with the D6400 series to produce 3D images that virtually leap off the screen.
- Incorporates ONE Design ultra-thin bezel. The ONE Design concept reduces the size of the bezel to just 0.2" wide, so you can enjoy a virtually edge-less TV viewing experience. The TV also blends in with and complements its surroundings with a touch of class. And with the new ultra-slim bezel design, you'll be able to put a larger TV screen in the same space previously occupied by a smaller model.
- With Samsung 3D Sound, viewers can enjoy the thrill of both audio and visual "pop out" based on the synchronization of 3D video and audio.
- Auto Motion Plus 120Hz is combined with Samsung's unique double-rate frame transition technology – the world's fastest – to further reduce the picture frame transition time by 50% to enhance the viewing quality of 3D content.
- 3D peak algorithm enhances peak brightness by 20% while reducing power consumption by 15% in 3D scenes. The technology automatically adjusts brightness levels in dark scenes to ensure every 3D scene is bright and life-like.

**D6500 Series Only**

- Built-in 802.11 Wi-Fi • Enjoy the convenience and connectivity of free, IP-based, picture-in-picture video calls via Skype, right from your couch.

**D7000 • D7900 • D8000 Series 3D LED HDTV**

With a 240Hz refresh rate, 2 millisecond motion picture response time (MPRT) and improved LED backlight scanning, the LED D7900 and D8000 offer true-to-life 2D, 3D and HD images with outstanding clarity. In addition to the Ultra Clear Panel, they offer Micro Dimming Plus technology to provide the richest, most lifelike pictures with deep blacks and pure whites. Otherwise the same, the D8000 includes two pairs of active rechargeable 3D glasses to get you started. Samsung's active glasses are lightweight and comfortable, and will fit right over your prescription glasses.

The LED D7000 also incorporates improved backlight scanning technology and Auto Motion Plus, Samsung's proprietary frame interpolation algorithm, to create sharp 2D and 3D pictures and smooth frame transitions without blurring, even for video moving at top speeds.

For the ultimate Smart TV experience, the D7000, D7900 and D8000 Series include a QWERTY keyboard remote, making it easy to search and discover new content with the push of a button.

**PLASMA HDTV**

With sharp 2D and 3D images, virtually no motion blur, deep blacks and vivid colors, Samsung's Plasma line offers jaw-dropping picture quality uncompromised by its sleek, elegant design. Plasma +1 narrow bezel design delivers even larger screen sizes than previously available so you can enjoy outstanding immersive experience. For TV shows and movies, the innovative 600Hz subfield motion technology renders even the fastest-moving scenes with the utmost clarity and precision, so that each detail is crystal-clear. Advanced 3D technology makes the thrills truly come alive once you experience the depth and realism of 3D movie titles and TV programming.

**D450 • D490 • D530 • D550 Series**

The D450 and D490 feature 720p resolution and 600Hz Subfield Motion technology which ensures action with striking clarity. Gamers will appreciate the 0.001ms response time coupled with a high-gloss design, which optimizes contrast and sharpness and accelerates image processing. ConnectShare allows users to connect a USB thumb drive or digital camera to view videos, music playlist and pictures via the remote. Otherwise the same, the 3D-ready D490 series can connect to a Samsung Blu-ray 3D player to play 3D titles or upconvert regular 2D content to immersive 3D.

The D530 and 3D-Ready D550 step-up with Samsung Crystal Full HD Engine (1920 x 1080) chip. By unifying all of the TV's advanced imaging technologies, it expands performance, enhances all aspects of the image, and takes picture quality and image integrity to new levels of excellence. They also incorporate Samsung's exclusive Touch of Color design which integrates texture and color for a seamless look and feel. Last, the D550 is Wi-Fi ready with the addition of an optional wireless LAN adapte. This allows AllShare DLNA Networking which lets you share content from other digital devices to your TV.

**D6500 • D7000 • D8000 Series**

Stepping up, the D6500, D7500 and D8000 series feature built-in Wi-Fi for connection to the web and Samsung Smart TV. Built around the Smart Hub interface, Smart TV allows you to easily search for movies, TV shows, browse the web, explore Samsung apps, chat with friends and find many other types of new interactive TV content. The HDTV-based application store has over 200 downloadable Samsung Apps (paid and free) helping people connect to their passions – whether in sports, entertainment, information, games or networking.

The D6500 comes with Silver Square television stand, while the D7000 come with a Titan Square stand and incorporates a Real Black Filter that reduces onscreen glare caused by ambient light, so blacks and shadow details are as crisp and defined as possible.

The D8000 series steps up with Local Contrast Enhancer (LCE) and Cinema Black to further enhance black level performance. It also includes built-in access to Skype, enabling you to make video calls in high-definition from the comfort of your couch when paired with a compatible webcam. And for those seeking the ultimate smart TV experience, the D8000 series includes a remote with QWERTY keyboard, making it easy to search and discover new content.

## TOSHIBA

### C110 • E210 • G310 Series

720p and 1080p LCD (CCFL) HDTV

The 720p C110 series features 7W + 7W invisible speaker design for realistic sound with enhanced dynamic range, still image and MP3 playback via USB port, and Dynalight™, which automatically adjusts the backlight intensity based on the image content. Users can take control with Native Mode which displays the image edges normally lost to over-scanning. It also offers Gaming Mode, two HDMI inputs, 15-pin PC input, digital audio output and A/V and component input which can be used for gaming and receiving. The Full HD 1920 x 1080 E210 series steps up with Cinespeed™ LCD panel which has the 8ms or less response speed necessary for high-action movies.

The G310 Series is perfect for sports enthusiasts and action movie fans alike.

ClearFrame 120Hz technology doubles the video frames from 60 per second to 120 per second, to virtually eliminate motion blur. Whether watching a football player angling toward the end zone, or eagerly following a high speed movie chase, the picture is crisp and clear.

### SL410 • SLV411 • SL415 • SL412 • SL417 Series

720p and Full HD 1080p LED TV

All the features of the C110 series LCD TVs, the 720p SL410 Series makes the visual quality of LED more attainable. It features ultra-thin profile and 60Hz LED Panels with DynaLight technology. For those looking to cut down the clutter in their entertainment systems, the 720p SLV411 Series feature a built-in sleek slot-loading DVD Player (otherwise the same as the SL410). The SL415 Series features built-in Wi-Fi and Net TV with Yahoo! Widgets—everything you need to get instant access to online content and social networking sites. It is also voice control capable and DNLA certified.

For those looking to step up to an affordable big screen LED TV from a standard CCFL model, the SL412 Series features a 1080p resolution CineSpeed LED Panel with DynaLight™ and ClearFrame 120Hz technology on 46-inch and larger

screen sizes. Perfect for those who want fully connected TV experience on a big screen LED TV, the SL417 Series features Toshiba's ultra-thin Blade Design, 1080p resolution CineSpeed LED Panel with DynaLight™ and ClearFrame 120Hz technology, built-in Wi-Fi and NetTV with Yahoo! Widgets. It also offers AutoView which combines an ambient room light sensor and incoming video content monitoring, and then automatically sets most of the TV picture parameters for you. Expert Mode allows for more precise picture adjustments for a totally optimized home theater experience.

### TL515 Series 1080p 240Hz 3D LED TV

Toshiba's Natural 3D – also known as Passive 3D – HDTVs, the TL515 Series are ideal for viewers and gamers looking for a great 3D experience at a low cost. With an ultra-slim design, the TVs feature 1080p CineSpeed Plus LED panels with Local Dimming, 240Hz ClearScan technology for smoother action, as well as Net TV with Yahoo! Widgets and built-in Wi-Fi. Take movie watching to a whole new dimension, and let yourself be blown away with the depth and detail of 3D before your very own eyes. Enjoy games and movies in truly immersive stereoscopic 3D.

• With TriVector™ 2D to 3D conversion you can watch all of your favorite 2D TV programming, 2D Blu-ray Discs, and personal camcorder movies in high quality 3D. Users can even view their 2D digital still pictures in 3D and play their favorite 2D video games in 3D.

• 3D Resolution+ technology automatically upconverts and sharpens 3D sources that are not native full HD – such as top/bottom or left/right formats – to create a consistently high quality 3D experience.

**HDTVa**

**Directional Indoor HDTV Antenna**

This amplified indoor TV antenna uses high-gain amplifier to increase range and to enhance HDTV signal reception for your TV entertainment. Installs in just minutes.

#TEHDTV ..... **38.79**

**HDTVi Directional Indoor UHF/VHF**

**HDTV Antenna**

Tuned for optimum HDTV reception with a unique design that utilizes loop periodic elements and dipoles for receiving both UHF and VHF HDTV broadcasts, allowing you to receive more stations. Design accents today's high-tech HDTV sets and tuners.

#TEHDTVi ..... **27.23**

**HDTVo**

**Directional HDTV Antenna**

Maximize your viewing experience. HDTVo has the capability to receive all available UHF, VHF and local HDTV broadcasts. It provides amplification and high gain for high-quality picture even from distant stations. Its UHF element is highly directional and reduces signal interference.

**Wireless Video Equipment**

**TERK L-30S 2.4 GHz Wireless Audio/Video Transmitter and Receiver System**

Imagine having your AV components (satellite receiver, DVR, DVD player or a camcorder) in one room and the ability to watch them in another room, even multiple rooms, without running wires.

Or being able to listen to your computer's MP3 collection on a pair of powered speakers in another room? Terk's Leapfrog LF-30S is a wireless transmitter/receiver system that does just that. It also gives you the ability to control the AV source from the other room, so you can actually change the channels on your satellite receiver from the second TV's location. With the purchase of additional receivers, you can use it with multiple TV's throughout your home. (TELF30S) ..... **62.95**

### Harmony 1 Advanced Universal Remote

Replacing up to 15 remotes, it can control components from any brand with an infrared database that supports over 225,000 devices from over 5,000 brands. And its constantly updated. One simple press of the color touch screen and it controls the rest, including turning on the right components in the right order and setting the correct inputs. Step-by-step guides.

#HAHARMONY1.....**Call/Log-on**

### Harmony 650

Replace five remotes. Colorful LCD screen lets you see what you're doing and offers conveniences like icons for your favorite channels. It can control 5000+ different brands of devices. Use the included USB cable to hook up your 650 to your PC or Mac and then connect to the Logitech 650 Web site via your Internet connection. Tell it what equipment you have and the site will walk you through the setup.

#HAH650.....**59.95**

### Harmony 900

#### Advanced Universal Remote

Operate up to 15 devices with its extensive database of more than 225,000 devices. You can even keep your A/V gear behind closed doors, as the unit comes with an RF Extender that makes line-of-sight control unnecessary. Full-color touch screen makes it easy to see the commands you are using. Has easy-to-use backlit keys, Help button, and a guided setup that programs the device over the web. (HAH900).....**245.90**

### Harmony H1100

The perfect complement to a sophisticated living room, the Harmony 1100 puts a brilliant, 3.5", full-color touch screen in your hands. Replacing up to 15 remotes, you'll be able to turn on everything you need with just one touch. And you can customize the controls to get the commands you want, when you want. It's like no remote you've ever used before.
