## Susan G. Komen Hawaii

Since inception in 1982 Komen has become the world's largest breast cancer organization and has funded more than \$920 million in research and provided more than \$2 billion in funding to screening, education, treatment and psychosocial support programs serving millions of people in the U.S. and more than 30 countries worldwide.

More than 40,000 women will lose their lives to breast cancer in the U.S. alone this year. It's time to change the number and Susan G. Komen has set a Bold Goal to do so, complemented by a new movement that celebrates those who have made progress possible over our first 34 years.

Komen's recently announced Bold Goal aims to reduce the current number of breast cancer deaths in the U.S. by 50 percent in the next decade. We are now rallying supporters to take the extra step – make a bigger, bolder impact and be “More Than Pink.”

### Susan G. Komen Hawaii

To date, Susan G. Komen Hawaii has funded over \$4 million for breast health and breast cancer education, screening and treatment throughout the State of Hawaii. Up to 75% of net funds raised from the Race and other fundraising events support local agencies and hospitals that provide breast education and breast health services. No less than 25% of net funds raised support breast cancer research.

### Our History

The first Komen Hawaii Race for the Cure was held in 1995 with just 800 runners. We are now about to celebrate our 24th annual Komen Hawaii Race for the Cure® and estimate that more than 5000 runners or walkers will participate again this year.
