How to Install AVG Anti-Virus

Step-by-step instruction for college aged computer users

Computers are becoming ever more prominent in our society. Now a days it seems as though if you are not using a computer or connected to the internet you are out of the loop. People that have gotten a new computer may not know the risks behind using the internet, so downloading and installing anti-virus software is a great way to help keep them protected. You should download and install anti-virus software as soon as you get connected to the internet, or when the anti-virus software that came standard on your computer expires. The user will need a computer with internet access and about ten minutes to sit down and follow the instructions.

CAUTION: Not having anti-virus software on your computer can invite malicious malware, spyware, and viruses into your computer which could ultimately destroy your computer.

This instruction set is for Windows users only.

Materials:

-Computer -Internet Access

Downloading and Installing your Anti-Virus:

- 1. Double click on your internet browser to open the internet.
- 2. In the address bar, navigate to the website http://free.avg.com/us-en/homepage.
 - a. Once on the site, locate the area where it says **New AVG Anti-Virus Free** Edition 2011.
 - b. Click the orange button that says **DOWNLOAD NOW**.

6. A pop-up screen will appear prompting you to save the file or cancel, click the button that says **Save File**.

- 7. Navigate to the **Download** folder in your computers library.
 - a. Click **Start.**
 - b. Click on **Documents**.
 - c. The Documents folder should now be open.
 - i. On the left hand side of the Documents folder is a list of other folders, **Downloads** should be in that list.
 - ii. Double click on **Downloads**.
- 8. The **file avg_free_stb_all_2011_1170_cnet** should be the first file in the Downloads folder.
- 9. Double click on avg_free_stb_all_2011_1170_cnet.
- 10. A pop-up window will appear with the question, Do you want the following program to make changes to your computer?
 - a. The Program in question is AVG Anti-Virus.
 - b. Click Yes.
- 11. AVG Anti-Virus will then begin installing.
 - a. The user must accept the terms and conditions of the AVG 2011 License Agreement.
 - b. AVG then offers the user to try their Internet Security free for 30 days.
 - c. Click on the button that says **Basic Protection** and click **Next**.
 - d. You are then sent to the Activate Your License screen.
 - i. The License Number is already input into its respective area, the user should click **Next**.
 - e. You are then taken to the Select type of install screen.

- i. The user should click **Quick Install**.
- ii. Then hit Next.
- f. You are then prompted to activate the AVG Internet Security Toolbar on your internet browser.
 - i. Click the button and then hit Next.
- g. The Installation will then start automatically.
- h. After the installation is complete the user is now free to run their anti-virus software and browse the internet at will.
