#### **Overview**

### HP ProLiant DL60 Generation9 (Gen9)

The HP ProLiant DL60 Gen9 Server provides the right density, performance and manageability for file and print, messaging, collaboration workloads and cloud environments. All in a compact 1U chassis at an affordable price to meet the needs of cost conscious service providers and SMBs.

#### **Front View**

- 1. Access Panel
- 2. Serial label pull tab
- 3. USB 2.0 connector
- UID button/LED
- 5. Health LED
- 6. NIC status LED
- 7. Power On/Standby button and system power LED
- 8. 4LFF drive

#### **Rear view**

- 1. Slot 3 PCIe3 x8 (8, 4, 1)
- 2. Slot 2 PCIe3 x8 (8, 4, 1)
- 3. Slot 1 PCle3 x16 (16, 8, 4, 1)
- 4. Power supply bay (550w shown)
- 5. Power supply power LED
- 6. Power supply power connection
- 7. Embedded 2x1GbE network adapter
- 8. UID LED
- 9. Video connector
- 10. USB3.0 connectors

Overview

#### **Internal View**

- 1. Hot swappable fans (up to 6)
- 2. HP Smart Storage Battery connector
- 3. Internal USB 3.0
- 4. SATA connector
- 5. Mini-SAS connectors
- 6. Power supply bay
- 7. Primary PCIe riser board connector
- 8. Embedded 2x1GbE network adapter
- 9. TPM connector
- 10. System Battery
- 11. Storage backup power connector for PCIe slots 1-2
- 12. Secondary PCIe riser slot
- 13. Storage backup power connector for PCIe slot 3
- 14. MicroSD slot
- 15. Processor heat sinks (processors with HP Smart Socket placed below heat sink)
- 16. DDR4 DIMM slots (up to 8)

#### **Standard Features**

#### NOTE: For more information regarding Intel Xeon processors, please see the following http://www.intel.com/xeon.

Graphics	Integrated Matrox G200eH2 video standard • 1280 x 1024 (32 bpp) • 1920 x 1200 (16 bpp)
HP Server UEFI/Legacy ROM	HP Server UEFI /Legacy ROM Unified Extensible Firmware Interface (UEFI) is an industry standard that provides better manageability and more secured configuration while interacting with your server at boot time. HP ProLiant Gen9 platform defaults to UEFI and can be factory or field configured for Legacy BIOS Boot Mode. NOTE: The UEFI System Utilities function is analogous to the HP ROM-Based Setup Utility (RBSU) of legacy BIOS. For more information, please visit http://www.hp.com/go/proliantuefi/docs. UEFI enables numerous new capabilities specific to HP ProLiant servers such as: • Secure Boot
	Operating system specific functionality
	• Support for > 2.2 TB (using GPT) boot drives
	USB 3.0 Stack
	Embedded UEFI Shell
	Mass Configuration Deployment Tool using HP RESTful API.
	PXE boot support for IPv6 networks

#### Standard Features

٠	Boot support for option cards that only support a UEFI option ROM	
---	-------------------------------------------------------------------	--

For more information please visit http://www.hp.com/go/proliant/uefi. NOTE: For UEFI Boot Mode, boot environment and OS image installations should be configured properly to support UEFI. **NOTE:** HP UEFI FIO Setting (758959-B22) can be selected to configure the system in Legacy mode in the factory. **Form Factor** 1U Rack form factor One of the following 4LFF version: depending on model 1.69" (4.29cm) Height x 17.11" (43.46cm) Width x 23.9" (60.70cm) Length Embedded **HP Integrated** Monitor your servers for ongoing management, service alerting, reporting and remote Management Lights-Out (HP iLO) management with HP iLO. Learn more at http://www.hp.com/go/ilo. UEFI Configure and boot your servers securely with industry standard Unified Extensible Firmware Interface (UEFI). Security

#### **Standard Features**

Serial interface control
Administrator's password
TPM 1.2
UEFI

#### Warranty

This product is covered by a global limited warranty and supported by HP Services and a worldwide network of HP Authorized Channel Partners resellers. Hardware diagnostic support and repair is available for three years from date of purchase. Support for software and initial setup is available for 90 days from date of purchase. Enhancements to warranty services are available through HP Care Pack services or customized service agreements. Hard drives have either a one year or three year warranty; refer to the specific hard drive QuickSpecs for details. **NOTE:** Server Warranty includes 1-Year Parts, 1-Year Labor, 1-Year Onsite support with next business day response. Warranty repairs may be accomplished through the use of Customer Self Repair (CSR) parts. These parts fall into two categories: 1) Mandatory CSR parts are designed for easy replacement. A travel and labor charge will result when customers decline to replace a Mandatory CSR part; 2) Optional CSR parts are also designed for easy replacement but may involve added complexity. Customers may choose to have HP replace Optional CSR parts at no charge. Additional information regarding worldwide limited warranty and technical support is available at: http://h18004.www1.hp.com/products/servers/platforms/warranty/index.html.

#### **Optional Features** Embedded **iLO** Essentials HP iLO Essentials is the preferred license for small and medium business that offers full Management remote server management capabilities for small and medium business via the Integrated Remote Console (IRC), virtual media, and e-mail based alerts. Learn more about HP iLO Essentials at http://www.hp.com/go/iLO/essentials. iLO Scale-Out HP iLO Scale-Out is the preferred license built for web hosting, cloud service providers, and high performance computing data centers, managing massive scale out environments. This license offers sophisticated scripting tools that provides remote access through Text Console via SSH, Dynamic power capping, Email-based Alerting and proactive notifications. For more information, visit http://www.hp.com/go/iL0/scale-out. iLO Advanced HP iLO Advanced licenses offer smart remote functionality without compromise, for all HP ProLiant servers. The license includes the full integrated remote console, virtual keyboard, video, and mouse (KVM), multi-user collaboration, console record and replay, and GUI-based and scripted virtual media and virtual folders. You can also activate the enhanced security and power management functionality. Learn more about HP iLO Advanced at http://www.hp.com/go/iloadvanced. Server Management HP Insight Control HP Insight Control, lets you deploy, migrate, monitor, remote control, and optimize your IT infrastructure through a single, simple management console. For more information, see http://www.hp.com/go/insightcontrol. **HP OneView** HP OneView Advanced is converged management that eliminates infrastructure complexity Advanced with automation simplicity. This modern architecture is designed to accelerate your IT operations across servers, storage, and network resources using software-defined approaches and automation, see <a href="http://www.hp.com/go/oneview">http://www.hp.com/go/oneview</a>. **Rack and Power** HP Rack and Power Infrastructure products and services create highly efficient and intelligent solutions for existing Infrastructure or new IT data centers. HP Rack and Power infrastructure solutions – rack infrastructure, power protection and management, performance optimized data centers (PODs) – are the foundation you are looking for to help secure your long-term IT success. These products are designed to help you react to changes in the industry. They deliver efficient, easy-to-use capabilities to manage, monitor, deploy and provision infrastructure from entry to enterprise. As an industry leader, HP is uniquely positioned to address the key concerns of power, cooling, cable management and system access. Learn more at HP Rack and Power Infrastructure. **High Performance** HP Cluster Platforms are specifically engineered, factory-integrated large-scale ProLiant clusters optimized for Clusters High Performance Computing, with a choice of servers, networks and software. Operating system options include specially priced offerings for Red Hat Enterprise Linux and SUSE Linux Enterprise Server, as well as Microsoft Windows HPC Server. A Cluster Platform Configurator simplifies ordering. http://www.hp.com/go/clusters. **HPC Interconnects** NOTE: High Performance Computing (HPC) interconnect technologies are available for this server under the HP Cluster Platform product portfolio. These high-speed interconnects are fully supported by HP when they are part of these configure to order clusters. Solutions can be defined with a lot of flexibility with the help of configuration tools. Please visit the following URL to configure HPC Clusters with InfiniBand Interconnects: http://www.hp.com/techservers/clusters/ucp/index.html. **Storage Software** Whether you need to solve a specific data protection, archiving, or storage command and control challenge, or deliver on strategic consolidation, compliance, or continuity initiatives, look no further than HP storage software. Our storage software helps you reduce costs, simplify storage infrastructure, protect vital assets and respond faster to business opportunities. Storage software that gets the job done: **Data Protection and Recovery Software** Whether you're a large enterprise or a smaller business, HP data protection and recovery software will cost-effectively protect you against disaster and ensure business continuity. **Data Archive and Migration Software** HP's storage software enables you to comply with data retention and retrieval requirements, improve

### **Optional Features**

application performance, and reduce costs by efficiently migrating infrequently accessed or less valuable data to lower cost storage.

	<ul> <li>Storage Resource Management Software (SRM) HP's storage resource management software reduces operational costs and provides the command and control foundation you need to efficiently manage and visualize your physical and virtual environments.</li> </ul>
	<ul> <li>Data Replication Software HP offers array-based and host-based replication software for use in disaster recovery, testing, application development and reporting.</li> </ul>
	<ul> <li>Storage Device Management Software Maximize your investment in HP storage and networking with software that enables hardware-specific configuration, performance tuning and connectivity management.</li> </ul>
	• <b>HP StoreVirtual VSA</b> With HP StoreVirtual VSA you can use the power of virtualization to create a virtual array within your host server. Manage it as a single pool of shared storage capacity, and scale it to match your evolving needs. HP ProLiant Gen9 servers include a 3-year limited license for HP StoreVirtual VSA software with 1TB of capacity at no extra cost. Simply select to install HP StoreVirtual VSA software during server setup within Intelligent Provisioning. More information, instructional videos, and free console management software are available at http://www.hp.com/go/vsa1TB.
	<b>NOTE:</b> For more information about Storage Software including QuickSpecs, please see: http://www.hp.com/go/storage/software.
One Config Simple (SCE)	SCE is a guided self-service tool to help sales and non-technical people provide customers with initial configurations in 3 to 5 minutes. You may then send the configuration on for configuration help, or use in your existing ordering processes. If you require "custom" rack configuration or configuration for products not available in SCE, please contact HP's Customer Business Center or an Authorized Partner for assistance. http://www.hp.com/products/configurator.

### Service and Support

Service and Support	<b>HP Technology Services for Industry Standard Servers</b> HP Technology Services delivers confidence, reduces risk and helps customers realize agility and stability. Connect to HP to help prevent problems and solve issues faster. Our support technology lets you to tap into the knowledge of millions of devices and thousands of experts to stay informed and in control, anywhere, any time.
	<b>Protect your business beyond warranty with HP Care Pack Services</b> HP Care Pack Services enable you to order the right service level, length of coverage and response time as you purchase your new server, giving you full entitlement for the term you select.
Optimized Care	Supports maintaining servers at optimum performance availability
	<b>HP Proactive Care with 24x7 coverage, three year Care Pack Service</b> HP Proactive Care helps prevent problems and stabilize IT by utilizing secure, real-time, predictive analytics and proactive consultations when your products are connected to HP. This Care Pack Service combines three years' proactive reporting and advice with our 24x7 coverage and enhanced escalation management, four hour hardware response time and two hour call back for software questions on leading industry standard software running on your HP ProLiant server. http://h20195.www2.hp.com/v2/GetPDF.aspx/4AA3-8855ENW.pdf
Standard Care Package	Supports maintaining high level of server availability
-	Foundation Care 24x7, three-year Care Pack Service HP Foundation Care 24x7 connects you to HP 24 hours a day, seven days a week for assistance on resolving issues. Hardware onsite response within four hours if needed; collaborative software included in this Care Pack service provides troubleshooting assistance on industry leading software running on your HP server. Simplify your support experience and make HP your first call for hardware or software questions. http://h20195.www2.hp.com/V2/GetDocument.aspx?docname=4AA4-8876ENW&cc=us&lc=en
Basic Care	<b>Foundation Care NBD, three-year Care Pack Service</b> HP Foundation Care Next Business Day connects you to HP during business hours for assistance on resolving issues – features next business day hardware onsite response if needed and software call back within two hours. Collaborative software support is included and provides troubleshooting assistance on industry leading software running on your server. Simplify your support experience and make HP your first call for hardware or software questions. http://h20195.www2.hp.com/V2/GetDocument.aspx?docname=4AA4-8876ENW&cc=us&lc=en
Related Services	HP ProLiant Server Hardware Installation Provides for the basic hardware installation of HP branded servers, storage devices and networking options to assist you in bringing your new hardware into operation in a timely and professional manner. http://h20195.www2.hp.com/V2/GetPDF.aspx/5981-9356EN.pdf
	<b>Factory Express for Servers and storage</b> HP Factory Express offers configuration, customization, integration and deployment services for HP servers and storage products. Customers can choose how their factory solutions are built, tested, integrated, shipped and deployed. For more information on Factory Express services for your specific server model please contact your sales representative or go to: http://www.hp.com/go/factory-express.
	<b>Data Privacy Services</b> Protect your data through better media management. HP Data privacy services help manage and protect sensitive data to reduce the risk of unauthorized access to private information and help meet compliance requirements. Our retention services allow you to keep drives and other devices upon failure, our removal services provide convenient data sanitization and our recovery services allow you to safely retire IT assets and capture any remaining value from the hardware. http://www.hp.com/services/dataprivacy
	Additional HP Care Pack services can be found at: http://www.hp.com/go/cpc
Get connected to HP to improve your support experience	Prevent problems with innovative, automated monitoring tools and proactive services. Combining Proactive Care Services with our remote support technology such as Insight Online provides you with expert advice and personalized, cloud-based automated IT support, helping to prevent unplanned down time and solve problems quickly. For more information, visit: http://www.hp.com/go/proactiveinsightexperience

#### Service and Support

**HP Support Center** Personalized online support portal with access to information, tools and experts to support HP business products. Submit support cases online, chat with HP experts, access support resources or collaborate with peers. Learn more http://www.hp.com/go/hpsc.

HP's Support Center Mobile App\*\* allows you to resolve issues yourself or quickly connect to an agent for live support. Now, you can get access to personalized IT support anywhere, anytime. HP Insight Remote Support and HP Support Center are available at no additional cost with a HP warranty, HP Care Pack or HP contractual support agreement.

\*\* HP Support Center Mobile App is subject to local availability

Parts and MaterialsHP will provide HP-supported replacement parts and materials necessary to maintain the covered hardware product in<br/>operating condition, including parts and materials for available and recommended engineering improvements.<br/>Parts and components that have reached their maximum supported lifetime and/or the maximum usage limitations as<br/>set forth in the manufacturer's operating manual, product quick-specs, or the technical product data sheet will not be<br/>provided, repaired, or replaced as part of these services.<br/>The defective media retention service feature option applies only to Disk or eligible SSD/Flash Drives replaced by HP due<br/>to malfunction.

#### **Pre-configured Models**

For the Standard Features shipped in the "Factory Integrated Models", please see the "Configuration Information - Factory Integrated Models" section.

1. Pre-configured models ship with the configurations below. Options can be selected from the Core or Additional options section of this QuickSpecs.

2. HP does not allow factory integration of options into pre-configured models. Any additional options purchased will be shipped separately.
 3. If you desire a custom configuration please see "Configuration Information - Factory Integrated Models" section of this QuickSpecs.
 4. Not all models are available in all regions. Check with your local country HP offices for availability.

**NOTE:** All Pre-configured Models come populated with some hard drive blanks installed. Should the customer need additional hard drive blanks, they can order more using either P/N 666987-B21: HP SFF Hard Drive Blank Kit or P/N 666986-B21: HP LFF Hard Drive Blank Kit. **NOTE:** All pre-configured servers ship with a standard 6-foot IEC C-13/C-14 jumper cord (A0K02A). This jumper cord is also included with each standard AC power supply option kit. If a different power cord is required, please check the ProLiant Power Cables web page.

**Caution:** HP recommends that a minimum of two people are required for all Rack Server installations. Please refer to your installation instructions for proper tools and number of people to use for any installation.

	Entry Models	Base Models

#### **Configuration Information - Factory Integrated Models**

This section lists some of the steps required to configure a Factory Integrated Model. To ensure only valid configurations are ordered, HP recommends the use of an HP approved configurator. Contact your local sales representative for information on configurable product offerings and requirements.

1. Factory Integrated Models must start with a CTO Server.

2. FIO indicates that this option is only available as a factory installable option.

3. All Factory Integrated Models will be populated with sufficient hard drive blanks based on the number of initial hard drives ordered with the server. 4. Some options may not be integrated at the factory. Contact your local sales representative for additional information.

### Step 1: Base Configuration (choose one of the following configurable models)

[Chassis]	HP ProLiant DL60 Gen9 4LFF Non-hot Plug Configure-to-order Server	HP ProLiant DL60 Gen9 4LFF Configure-to-order Server		
SKU Number	777404-B21	777403-B21		
Processor	2 (optional) x HP	Smart Socket Guides		
DIMM Slots	8 DIMM slots for RDIM	M, LRDIMM DDR4 Memory		
Storage Controller	HP Dynamic S	mart Array B140i		
PCIe	3 PCIe	3 PCIe 3.0 slots		
Drive Cage	4LFF Non Hot Plug	4LFF Hot Plug		
Network Controller	HP Embedded Dual Port 361i Adapter Network Interface			
Fans	3 hot swap fans, non-redundant			
Management	iLO Management (standard), Intelligent Provisioning (standard), iLO Essentials (optional)			
USB	1 front, 1 internal, 2 rear			
Ears	HP Thum	bscrew Ears		

### Step 2: Choose Required Options (only one of the following from each list unless otherwise noted)

HP Processors	<ul> <li>Select one or two processors from Core options-Processor section below,</li> <li>If one processor is desired, select one xxxxx-L21</li> <li>If two processors are desired, select one xxxxx-L21 and one xxxxx-B21.</li> <li>Up to 2 processors supported. Mixing different processor models is not supported.</li> <li>DDR4 speed is the maximum memory speed of the processor. Actual memory speed may depend on the quantity and type of DIMMs installed.</li> <li>For the Intel® C600 Chipset E5-2600 Series, the letter preceding the model number indicates the Product Line (E3, E5, E7); 2600x v#, 2 = number of CPUs in a Node, 6 is socket/segment designation, 00 = Processor SKU, x = L for low power SKUs and v# (not yet designated) = version number.</li> </ul>
HP Memory	<ul> <li>Select one or more memory from Core options-Memory section below,</li> <li>LRDIMM, RDIMM are all distinct memory technologies and cannot be mixed within a server. The majority of ProLiant Gen9 servers support LRDIMM and RDIMM.</li> <li>HP memory from previous generation servers are not qualified or warranted with this HP ProLiant Server. HP SmartMemory is required to realize the memory performance improvements and enhanced functionality listed in this document for Gen9.</li> <li>If only one processor is installed, only half of the total DIMM slots are available. When populating with two processors all DIMM slots are available.</li> <li>Kits described as LP include Low Power DIMMs. For more information on ProLiant Energy Efficient Features, see: http://www.hp.com/go/proliant-energy-efficient.</li> <li>Depending on the memory configuration and processor model, the memory speed may run at 2133MHz, 1866MHz, 1600MHz or 1333MHz. Please see Memory Population Table or the Online Memory Configuration Tool at: http://www.hp.com/go/ddr4memory-configurator.</li> </ul>
HP Power Supplies	<ul> <li>Select one or more power supplies from Core Options-Power Supplies section below:</li> <li>Prior to selecting a power supply option, it is highly recommended that you review your server configuration in the HP Power Advisor tool to determine the right size power supply for your server configuration. The HP Power Advisor is located at: http://www.hp.com/go/hppoweradvisor.</li> </ul>

#### **Configuration Information - Factory Integrated Models**

• Mixing of power supplies in the same server is not supported. All power supplies must be of the same input voltage, output rating, and efficiency rating. If non-matching power supplies are installed, you may receive an error message and/or experience operational issues with your server.

### **Step 3: Choose Additional Factory Integratable Options**

HP Unique Options	Select one or more Unique options from Core options section below.				
	<ul> <li>This section may contain FIO options, please see the Unique options section below.</li> <li>FIO indicates that this option is only available as a factory installable option.</li> </ul>				
HP Drives	Select one or more drives from Core options-HP Drives section below:				
	<ul> <li>The components of a storage subsystem (e.g. the drive, the HBA/controller, firmware, and the server backplane) should operate at the same data transfer rate or the system bandwidth will be negotiated down to an acceptable level for all components.</li> <li>Hard drives have either a one year or three year warranty; refer to the specific hard drive QuickSpecs for details.</li> <li>The HP ProLiant Gen9 Smart Storage solutions are equipped with re-designed Small Form Factor (SFF 2.5 in) and Large Form Factor (LFF 3.5 in) hot plug carriers for HP Qualified Hard Drives and Solid State Drives. These new carriers provide status and activity indicators as well as caution indicators for "Do Not Remove".</li> </ul>				
HP Flexible LOM	Select a FlexibleLOM from Core options-Networking section below,				
	<ul> <li>Only one FlexibleLOM can be added to the server. These options are upgradeable and can be changed from the original configuration after the server is shipped.</li> <li>For 10Gb adapters, a minimum of two Gigabytes (2 GB) of server memory is required per each adapter.</li> <li>Please see the QuickSpecs for Technical Specifications and additional information:</li> </ul>				
	http://www.hp.com/go/ProLiantNICs.				
HP Networking	Select a standup NIC adapter from Core options-Networking section below,				
	<ul> <li>Please see the QuickSpecs for Technical Specifications and additional information: http://www.hp.com/go/ProLiantNICs.</li> </ul>				
	<ul> <li>These options are upgradeable and can be changed from the original configuration after the server is shipped.</li> </ul>				
	• For 10Gb adapters, a minimum of two Gigabytes (2 GB) of server memory is required per each adapter.				
HP I/O Expansion Options	Select one or more Riser Kit options from Core options section below.				
	• To take advantage of the additional PCI slot upgrade, the second processor must be installed.				
	<ul> <li>This section may contain FIO options, please see HP I/O Expansion Options section below.</li> <li>FIO indicates that this option is only available as a factory installable option.</li> </ul>				
	• FIG indicates that this option is only available as a factory installable option.				
HP Cooling Options	Select one or more Fan Kits from Core options section below.				
	<ul> <li>This section may contain FIO options, please see HP Cooling Options section below.</li> <li>FIO indicates that this option is only available as a factory installable option.</li> </ul>				
HP Rail Kits	Select one type of rail kit from Additional options section below.				
	<ul> <li>Please take a moment to review the installation documentation that comes with the server to help you with the installation of your Gen9 server.</li> <li>To assist in the installation of the server into the rack, an optional installation tool is available by contacting your local services representative (p/n 695539-001).</li> </ul>				

#### **Configuration Information - Factory Integrated Models**

• See HP Rack Options in Additional Options section of this QuickSpecs for more rack kit choices.

**Caution:** HP recommends that a minimum of two people are required for all Rack Server installations. Please refer to your installation instructions for proper tools and number of people to use for any installation.

#### HP ProLiant DL60 Generation9 (Gen9)

#### HP OneView Media Kit Phys No Lic E5Y37A HP Operations Analytics for HP OneView LTU K8G29A HP Operations Analytics for HP OneView E-LTU K8G29AAE NOTE: Full licenses of HP OneView Advanced also provide the right-to-use HP Insight Control without additional charge. **NOTE:** Server provisioning (via 'HP Insight Control server provisioning') is licensed as part of HP OneView Advanced and provides multi-server OS and driver provisioning. Media kit #BD883A can be ordered for a physical copy of this software (USB flash drive). NOTE: Licenses ship without media. The HP OneView Media Kit can be ordered separately, or can be downloaded at: http://www.hp.com/go/oneview. NOTE: Electronic and Flexible-Quantity licenses can be used to purchase multiple licenses with a single activation key. HP Trusted Platform Module Option **HP Security** 488069-B21 **NOTE:** The TPM (Trusted Platform Module) is a microcontroller chip that can securely store artifacts used to authenticate the server platform. These artifacts can include passwords, certificates and encryption keys. Windows<sup>®</sup> BitLocker<sup>™</sup> Drive Encryption (BitLocker) is a data protection feature available in Windows Server<sup>®</sup> 2008. BitLocker leverages the enhanced security capabilities of a Trusted Platform Module (TPM) version 1.2. The TPM works with BitLocker to help protect user data and to ensure that a server running Windows Server 2008 has not been tampered with while the system was offline. For more information about TPM, including a white paper, go to: http://www.hp.com/go/TPM. NOTE: ProLiant OS pre-installed units will come with the partition required for TPM deployment. **NOTE:** The TPM key is unique to every TPM deployed server and must be retained. Misplacing or losing the key could result in data loss. HP 1U Security Bezel Kit 664918-B21 HP DL60 Gen9 Quick Release Ear FIO Kit 777324-B21 HP DL60 Gen9 Thumbscrew Ear FIO Kit 787218-B21 **HP Storage** SAS Controllers Controllers **HP Smart Array Controllers** HP Smart Array P440/4GB FBWC 12Gb 1-port Int SAS Controller 726821-B21 HP Smart Array P441/4GB FBWC 12Gb 2-ports Ext SAS Controller 726825-B21 HP Smart Array P440/4GB FBWC 12Gb 1-port Int FIO SAS Controller 761872-B21 **HP Smart Host Bus Adapters** HP H240 12Gb 2-ports Int Smart Host Bus Adapter 726907-B21 HP H240 12Gb 2-ports Int FIO Smart Host Bus Adapter 761873-B21 HP H241 12Gb 2-ports Ext Smart Host Bus Adapter 726911-B21 **HP Cable Options** HP DL60/120 Gen9 4LFF Smart Array H240 SAS Cable Kit 777385-B21 HP DL60/120 Gen9 4LFF Smart Array P440 SAS Cable Kit 777382-B21 HP DL60/80/120 Gen9 4LFF Cable FIO Kit 777331-B21 NOTE: One of the above cables is required to be selected depending on the combination of chassis and storage controller. Cable option kit descriptions include the right chassis and storage controller names. NOTE: FIO indicates that this option is only available as a factory installable option. Please select FIO option if you want the option to be factory installed. NOTE: NHP server chassis (Mod-x) includes SATA cables required to connect drives to embedded B140i SATA controller. **Optional Software** HP Secure Encryption No Media Flexible License per Drive D8S84A HP Secure Encryption No Media E-LTU per Drive D8S85AAE NOTE: HP Secure Encryption is supported when one of the supported Smart Array Controllers or the supported Smart SAS HBA (configured in a RAID mode) is installed in the server. HP Secure Encryption licensing is based on the number of physical drives requiring encryption. **NOTE:** For more information about HP Secure Encryption, go to

	http://www.hp.com/go/hpsecureencryption.	DZCDCA
	HP SmartCache No Media 24x7 Technical Support 1 Svr License	D7S26A
	HP SmartCache No Media 24x7 Technical Support Flexible License	D7S27A
	HP SmartCache No Media 24x7 Technical Support Electronic License	D7S27AAE
	<b>NOTE:</b> HP SmartCache is supported when one of the supported Smart Array Controllers is installed in the server.	
	<b>NOTE:</b> HP SmartCache comes standard (no licensing is required) if the HP Smart Array P840	
	Controller is installed in the server.	
	Optional Upgrades	
	HP 96W Smart Storage Battery with 145mm Cable for DL/ML/SL Servers	727258-B21
	<b>NOTE:</b> This option is mandatorily required with HP Smart Array controllers. One server can	
	accommodate only 1 Smart Storage Battery that would suffice the requirement of all HP	
	Smart Array controllers.

#### Memory

Memory Subsystem Architecture

Each Intel® Xeon® E5-2600v3 family processor socket contains four memory channels per installed processor with one DIMM per channel for a total of four (4) DIMMs or a grand total of eight (8) DIMMs for the server.

#### **Memory Population** guidelines

#### **General Memory Population Rules and Guidelines:**

- Install DIMMs only if the corresponding processor is installed. .
- If only one processor is installed in a two processor system, only half of the DIMM slots are available.
- To maximize performance, it is recommended to balance the total memory capacity between all installed processors and load the channels similarly whenever possible.
- When two processors are installed, balance the DIMMs across the two processors.
- White DIMM slots denote the first slot to be populated in a channel.
- Do not mix RDIMMs or LRDIMMs.
- Quad rank RDIMMs are not supported in HP ProLiant DL60 Gen9 servers.
- DIMMs of different speeds may be mixed in any order; the server will select a common optimal speed.
- The maximum memory speed is a function of the memory type, memory configuration, and processor model.
- The maximum memory capacity is a function of the memory type and number of installed processors.
- To realize the performance memory capabilities listed in this document, HP SmartMemory is required.

#### Intel Gen9 Supported Memory Bandwidth for HP ProLiant Gen9 Intel® Xeon®E5-2600v3 Series Processor Family

#### Memory Bandwidth and Capacity

[DIMM Type]	Registered Dimms (RDIMMs)						Load Reduced (LRDIMMs)	Unbuffered with ECC DIMMs (UDIMMs)	
DIMM Rank	Single	e Rank	Dual	Rank				Dual Rank	Quad Rank
DIMM Capacity	4GB	8GB	8GB	16GB				16GB	32GB
Voltage					Std	Voltage 1.2V	-		
SLOTS THAT CAN BE POPULATED									

#### Memory

16 slot servers	8	8					8		
MAXIMUM CAPACITY (GB)									
	128	256					512		
1 DIMM Per Channel	2133								

#### DIMM slot and DIMM slot and configuration diagrams configuration Basic memory slot & population diagram

coningu	au
diagram	

• Population order; start with "A" first, "B" second, "C" third, etc.

• When one processor is installed, install DIMMs in sequential alphabetic order: A, B, C, D, E, F ...

• When two processors are installed, install DIMMs in sequential alphabetic order: CPU1-A, CPU2-A, CPU1-B, CPU2-B, CPU1-C, CP2-C

CPU #1 IS PROCESSOR ON RIGHT - LOOKING FROM FRONT OF SERVER

### Technical Specifications

System Unit	Dimensions	4 LFF - 1.69 x 17.11 x	23.9 inches (4.29 x 43.46 x 60.70 cm)
	(H x W x D) Weight	Maximum:	37.44 lb (17kg)
	(approximate)	(all hard drives, power supplies, and processors installed)	
		Minimum: (one hard drive, power supply, and processor installed)	19.82 lb (9kg)
	Input	Rated Line Voltage	100 to 240 VAC
	Requirements for Standard 460W	Rated Input Current	For 550W Power Supply:
	PSU, see power		6.7 A (at 100 VAC)
	specifications tables		3.3 A (at 100 VAC)
	for detail on 460W, 750W and 1200W	Rated Input Frequency	47 to 63 Hz
	power supplies)	Rated Input Power	For 550 W Power Supply:
			< 670 W (at 100 VAC),
			< 660 W (at 200 VAC),
	BTU Rating	Maximum	For 550 W Power Supply:
			2201 BTU/hr (at 100 VAC),
	Power		2153 BTU/hr (at 200 VAC)
	Specifications	online tool located at www.hp.com/go/hpp	tem power ratings use the Power Advisor which is available via the : URL: www.hp.com/go/proliant-energy-efficient or oweradvisor - Click on the system of interest. Example: DL160 Gen9- ns of the next screens.
	Power Supply	Rated Steady-State	For 550 W Power Supply:
	Output	Power	550 W (at 100 VAC),
			550 W (at 200 VAC),
		Maximum Peak Power	For 550 W Power Supply:
		Fower	550 W (at 100 VAC),
	System Inlet Temperature	Standard Operating Support	550 W (at 200 VAC), 10° to 35°C (50° to 95°F) at sea level with an altitude derating of 1.0°C per every 304.8 m (1.8°F per every 1000 ft) above sea level to a
			maximum of 3048 m (10,000 ft), no direct sustained sunlight. Maximum rate of change is 20°C/hr (36°F/hr). The upper limit and rate of change may be limited by the type and number of options installed. System performance during standard operating support may be reduced if operating with a fan fault or above 30°C (86°F).
		Extended Ambient Operating Support	For approved hardware configurations, the supported system inlet range is extended to be: 5° to 10°C (41° to 50°F) and 35° to 40°C (95° to 104°F) at sea level with an altitude derating of 1.0°C per every 175 m (1.8°F per every 574 ft) above 900 m (2953 ft) to a maximum of 3048 m (10,000 ft). The approved hardware configurations for this system are listed at the URL: http://www.hp.com/servers/ashrae.
			System performance may be reduced if operating in the extended ambient operating range or with a fan fault.
			NOTE: Supports A3 extended ambient.
		Non-operating	-30° to 60°C (-22° to 140°F). Maximum rate of change is 20°C/hr (36°F/hr).
	Relative Humidity	Operating	Minimum to be the higher (more moisture) of -12°C (10.4°F) dew point or 8% relative humidity. Maximum to be the lower (less moisture) of 24°C (75.2°F) dew point or 90% relative humidity.

### Technical Specifications

	(non-condensing)	Non-operating	5% to 95% relative humidity (Rh), 38.7°C (101.7°F) maximum wet bulb temperature, non-condensing.			
	Altitude	Operating	3048 m (10,000 ft). This value may be limited by the type and number of options installed. Maximum allowable altitude change rate is 457 m/min (1500 ft/min).			
		Non-operating	9144 m (30,000 ft). Maximum allowable altitude change rate is 457.2 m/min (1500 ft/min).			
	Acoustic Noise	Listed are the declared A-Weighted sound power levels (LWAd) and declared average bystander position A-Weighted sound pressure levels (LpAm) when the product is operating in a 23°C ambient environment. Noise emissions were measured in accordance with ISO 7779 (ECMA 74) and declared in accordance with ISO 9296 (ECMA 109). Idle
