Directors' Report

Directors' Comments

The Board of Directors present the Audited Annual Report and Accounts for HSBC Global Investment Funds (the "Company") for the year ending 31 March 2017.

The Company

The Company is a variable capital investment company, incorporated under the laws of the Grand Duchy of Luxembourg and is organized as an "umbrella" with a number of sub-funds, each of which has their own investment policies and restrictions. At present, the Company has issued shares in 73 sub-funds. During the year, the total net assets of the Company increased from USD 33.8 billion to USD 36.9 billion at year end.

The Company qualifies as an Undertaking for Collective Investment in Transferable Securities under the amended Directive 2009/65/EC of 13 July 2009 and may therefore be offered for sale in European Union Member States, subject to registration in countries other than the Grand Duchy of Luxembourg. In addition, applications to register the Company and its sub-funds may be made in other non-European countries. The Company and its sub-funds are currently registered for offer and distribution in the Grand Duchy of Luxembourg and in the following jurisdictions: Austria, Bahrain, Belgium, Brunei, Chile, Czech Republic, Denmark, Finland, France, Germany, Greece, Hong Kong, Ireland, Italy, Japan, Jersey, Jordan, Korea, Lebanon, Macau, Malta, Mauritius, Netherlands, Norway, Oman, Poland, Portugal, Qatar, Singapore, Spain, Sweden, Switzerland, Taiwan, United Arab Emirates and United Kingdom.

Responsibility of the Directors

The responsibility of the directors of the Company (the "Directors") is governed exclusively by Luxembourg law. With respect to these financial statements, the duties of the Directors are governed by general corporate law and the law of 19 December 2002 on, inter alia, the accounting and annual accounts of undertakings, as amended, and by the law of 17 December 2010 relating to undertakings for collective investment, as amended (the "2010 Law"). Since 1 July 2011, the Company is governed by Part I of the 2010 Law implementing the Directive 2009/65/EC into Luxembourg Law.

Remuneration Policy

HSBC Investment Funds (Luxembourg) S.A. ("HIFL") has implemented a remuneration policy pursuant to Directive 2014/91/EU of the European Parliament and of the Council of 23 July 2014 amending Directive 2009/65/EC on the coordination of laws, regulations and administrative provisions relating to undertakings for collective investment in transferable securities (UCITS) as regards to depositary functions, remuneration policies and sanctions (the "UCITS V Directive"), which was transposed into Luxembourg law on 1 June 2016 by way of the Luxembourg law of 10 May 2016.

The remuneration policy, which has been approved by HIFL's board of directors, includes measures to avoid conflicts of interest and seeks to promote sound and effective risk management and that neither encourage risk taking which is inconsistent with the risk profile and articles of incorporation of the Company nor impair compliance with HIFL's duty to act in the best interest of the Company.

The remuneration policy, which describes how remuneration and benefits are determined, is available at www.global.assetmanagement.hsbc.com/about-us/governance-structure, or on request from HIFL.

Total amount of remuneration paid by HIFL to its staff during the 12 months period ending 31 March 2017 is as follows:

Fixed remuneration	EUR 1,596,112
Variable remuneration	EUR 195,276
Number of beneficiaries	16

of which, the disclosure of the fixed and variable remuneration of senior management is:

Fixed remuneration	EUR 491,105
Variable remuneration	EUR 94,164
Number of beneficiaries	3

Directors' Report (continued)

Listing on the EURO MTF

As a result of new legislation, Funds whose shares are listed on an official stock exchange are subject to additional audit provisions. The Board of Directors considers that these additional provisions, whilst adding costs, do not effectively bring any real benefit to the investors. Consequently the Board has decided to cancel the listing of share classes on the Luxembourg Stock Exchange and to list the relevant classes on the EURO MTF, a Multi Trading Facility recognised as a regulated market in Luxembourg. The listing on the Euro MTF provides the funds with similar benefits currently enjoyed, without the costs.

Annual General Meeting

The next Annual General Meeting of the Company will be held on 28 July 2017.

Market overview: 1 April 2016 to 31 March 2017

Global equities

The year under review saw equity markets around the world recording strong gains, with several major indices reaching record highs. Geopolitical events were the primary drivers of performance, with surprising election results, global growth improvement, oil prices and central banks' monetary policies dominating economic headlines.

Throughout the tumultuous year, market reactions often defied expectations. In June, voters in the UK elected to leave the European Union (EU), an event that created shockwaves worldwide. After an initial sell-off, markets – especially those that stood to benefit from the subsequent drop in the value of the pound – bounced back, with most ending the year in positive territory.

The unexpected victory of Donald Trump in November's US presidential election resulted in a similar pattern: developed markets rallied as investors seemed ready to embrace the potential economic upsides of a Trump presidency (which were presumed to include an easier regulatory environment, increased infrastructure spending and pro-business tax reform). Emerging market equities initially did not fare as well, in light of the protectionist policies of the new administration, but rallied in the first quarter of 2017 as the 'Trump trade' began to unwind.

In December, representatives from OPEC and non-OPEC member nations agreed to the first production cut since 2009, driving crude prices higher and boosting the energy sector through the end of 2017. However, surplus supply once again became a concern for investors in early 2017 and energy prices weakened. Other commodities showed strength throughout the period, with precious metals faring well, particularly gold.

The latter part of 2016 saw a brief reversal for most global equities indices, but in the first two months of 2017, most markets regained lost ground. Economic indicators from the US, the UK, Europe and Japan were mostly positive, which – combined with stronger-than-expected corporate earnings for the fourth quarter of 2016 – gave a boost to markets. However, as the 12-month period ended, with UK Prime Minister Theresa May officially beginning the 'Brexit' process and President Trump failing to repeal and replace healthcare legislation in the US, markets gave back some earlier gains.

US equities

US equities advanced over the 12-month period, with most major US indices nearing or achieving record highs along the way. In June of 2016, the UK's referendum decision to leave the EU led to sharp stock market falls in the US, as it did across much of the world. However, the post-Brexit rally was also powerful. In the US, equities touched record highs in August and bond yields fell to record lows.

Although equity markets had already priced in a win for Democratic front-runner Hillary Clinton in the US presidential election, the reaction to Trump's unexpected win in November was surprisingly positive, with investors welcoming the pro-business policies of the Republican majority, such as tax reform, an easier regulatory environment, and trade protectionism. Many US companies reported stronger-than-expected earnings for the fourth quarter of 2016, which – combined with expectations for higher corporate spending – boosted share prices. Towards the end of the period, however, the Trump administration's failure to get a revised healthcare plan through Congress cast doubts about how successful the new president would be in enacting his agenda.

Directors' Report (continued)

US equities (continued)

Overall, the domestic economy remained sound; annualised GDP growth as of the third quarter of 2016 was 3.5% and 2.1% for the fourth quarter. Unemployment remained low and inflation edged higher, reaching 2.5% in February, its highest level in nearly 5 years. The Fed raised its target interest rate by 25 basis points in December 2016, the first such increase since 2015, then kept rates unchanged until March, when chair Janet Yellen announced another 25 basis-point hike, to bring the target rate to 0.75%. Yellen cited the central bank's growing confidence in the strength of economic recovery in the US.

Europe ex-UK equities

European equities made gains over the period, albeit among significant volatility and at more modest levels than other world equity markets. The first half of the period under review was dominated by the UK's decision to leave the EU, which caused notable falls for European shares. Markets began to recover in August, however, and there were some more positive economic indicators. In particular, recovering earnings in the materials and resources sectors lent support to European equities, thanks to stabilising energy prices, while reflation expectations led to financials performing better.

Easing government austerity measures, as well as some surprisingly resilient economic data across several countries, further bolstered the eurozone's positive performance. Inflation moved up to 2.0% in February, its highest rate in four years. The European Central Bank (ECB) continued to pursue its asset-purchase scheme (albeit at lower levels), while keeping rates at the levels set in April 2016. Overall, economic fundamentals appeared to be improving in many regions, and corporate earnings to date in 2017 have been encouraging.

Political risk overshadowed European markets over the year. Following a constitutional referendum in December, the Italian prime minister resigned but, as with Brexit and the Trump election, the market reaction was ultimately more muted than anticipated, and expectations of ongoing support from central banks pushed market returns higher to end 2016 on a strong note. In the early months of the new year, however, European equities retreated somewhat, in part due to jitters surrounding UK Prime Minister Theresa May's efforts to push through Brexit by March of 2017. Concerns over upcoming elections on the continent were eased somewhat when, in the Netherlands, Prime Minister Mark Rutte defeated far-right Geert Wilders; meanwhile, the French elections loomed on the horizon as the period drew to a close.

UK equities

UK equities advanced over the 12-month period, although the political and economic climate remained uncertain while the details and timeframe of 'Brexit' were being negotiated. Following the historic referendum, the Bank of England (BoE) moved quickly to cut its base rate, and announced the expansion of its corporate and government bond-buying programmes, moves that calmed equity markets.

The steady rise in UK equities culminated in the FTSE 100 index reaching an all-time closing high of 7415 on 16 March. This surprising resilience was partly due to a devalued pound, which improved the outlook for large UK companies with overseas earnings, but was also driven by stronger-than-expected economic data. Third-quarter GDP (the first post-Brexit report) was 2.2% higher year-over-year; fourth-quarter growth of 0.7% further bolstered the impression that the controversial referendum was not, as yet, having a negative economic impact; and industrial and manufacturing numbers came back with renewed vigour.

With inflation picking up, however, and Article 50 being invoked at the end of March, officially triggering the Brexit process, the longer-term forecast turned more cautious in 2017. The Office for Budget Responsibility cut back its GDP estimates for 2017 and 2018, while the BoE maintained a neutral stance on interest rates. With sterling rising in the wake of Article 50, stocks began to retreat and gave back nearly all of 2017's gains.

Japan equities

Japanese markets ended the 12 months in positive territory, despite a tumultuous period. During the sharp market falls that followed the UK's Brexit vote, investors sought the safety of both Japanese bonds and currency. This strengthened the yen, causing a fall in the export-reliant Japanese stock market that was severe enough to wipe \$50 billion from Japan's Government Pension Investment Fund, the largest pension fund in the world. In response to this, August saw Prime Minister Shinzō Abe launching a multi-billion dollar stimulus package that included extensive welfare and infrastructure spending. The Bank of Japan (BoJ) also indicated that it would make available whatever quantitative easing was required.

Directors' Report (continued)

Japan equities (continued)

Japanese equities made significant gains in the fourth quarter, thanks to a weaker yen and economic improvements in the wake of the Abe stimulus programme. While falling short of estimates, GDP data for the third and fourth quarters of 2016 showed signs of growth, spurred by external demand from improving global economies and the depreciation of the yen; the economy grew a total 1.6% over 2016. Economic forecasts for 2017 call for the Japanese economy to expand by 1.5% for a second consecutive year of growth.

Unemployment levels fell to 3.0% in the autumn – a low not seen for 21 years, and ended the period at 2.8% for March 2017. Following the Trump election in the US, the dollar strengthened against the yen, pricing in expectations in the US for growth, inflation and a rate hike – all positive news for the export-reliant Japanese economy.

The BoJ maintained its negative interest rate of -0.1%, and in September announced a yield-curve control programme to keep the 10-year Japanese Government Bond yield at 0%, which included unlimited government bond purchases by the central bank.

Asia ex-Japan equities

Shares in many Asian regions gained ground over the review period. Although they were turbulent, Chinese markets in particular demonstrated resilience. With the economy expanding further than analysts' expectations for the second quarter of 2016, Chinese stock markets made healthy gains through the summer and autumn. Other notably strong performers in the Far East region over the period were Indonesia, Korea and Thailand, all of which benefited from a post-Brexit-vote increase in investor risk appetite.

Along with other emerging markets, Chinese equities declined in the aftermath of Donald Trump's shock win in the US presidential election, sparking fears about the impact of his protectionist trade policies. However, there were encouraging signs of continued improvement in the Chinese economy, with manufacturing, construction and retail all on the rise, and fiscal stimulus measures proving so successful that cool-down measures had to be enacted to slow asset prices. Elsewhere, the long-awaited Shenzhen-Hong Kong Stock Connect launch was successful, albeit muted. As 2017 got underway, these fundamentals – as well as the gains by the Chinese yuan and offshore currency – lifted equities back into positive territory. The conversation that took place between US President Trump and Chinese leader Xi Jinping went some way towards easing concerns about the relationship between the two countries as well.

Elsewhere, other Asian equities also suffered a difficult fourth quarter of 2016 after Trump's election. His move to immediately take the US out of the Trans Pacific Partnership seemed to signal a strong protectionist agenda. However, in the early part of 2017, equity markets in most parts of the region rebounded on economic growth, as well as manufacturing and inflation data, all signs of real progress that outweighed possible protectionism concerns. The biggest gainers in the first quarter were India, where structural reforms continued to support equity prices, and South Korea, where a smooth political transition, combined with strong demand for IT/mobile memory products, boosted shares.

Emerging market equities

Emerging market equities overall had a strong period of performance over the 12-month period. In the aftermath of the Brexit vote, emerging markets worldwide benefited from the boost to share prices resulting from the fall in sterling. Although the results of the presidential election in the US in early November initially knocked back markets, given Trump's protectionist trade policies and the likelihood of the Fed raising rates again, emerging equities staged a powerful comeback, fuelled by increasingly robust global economic growth, rising commodity prices, and improvements in corporate earnings. Brazil was among the strongest-performing markets for the period as investors responded positively to the impeachment of President Dilma Rousseff, the efforts of a pro-reform government, improving inflation data and central-bank rate cuts. Argentina made a return to the economic world stage following its default in 2002, and, in Mexico, equity markets were more volatile but ultimately posted gains for the period under review. Elsewhere, Russia also performed well, given surging oil prices for much of the period. Asian emerging markets recorded solid gains as well, as tech and telecoms companies in Korea, China and Taiwan delivered encouraging earnings reports for the fourth quarter of 2016 and the first quarter of 2017.

Directors' Report (continued)

UK bonds

Yields on the 10-year gilt, the UK's benchmark government bond, ended the period lower, albeit amid price volatility. Resilient economic data in the UK, the election of Donald Trump as the US president in November, and the Federal Reserve's (Fed) interest-rate increases all contributed to the generally reflationary environment that drove bond prices down for much of the period. Inflation moved up to 2.3% in the third week of March 2017, driven by higher food and fuel costs.

In the early part of the reporting period, the UK's vote to leave the EU had a profound effect on gilts. The benchmark 10-year gilt dropped steeply from 1.376% on 24 June (the day of the referendum) to below 1%, and languished there until mid-October. Investors considered a UK interest-rate cut to be increasingly likely, a factor that helped to anchor yields. A backdrop of uncertainty, stemming from fears over the long-term consequences of Brexit, also supported gilts.

As the period began, the expectation had been for a BoE rate rise in 2016. However, following the Brexit referendum, the central bank adopted an interventionist approach, cutting interest rates from 0.5% to 0.25% – this pushed gilt yields down to record lows. The BoE also announced an enhancement to its asset-purchase programme, which meant that the bank would buy corporate bonds for the first time – although only from companies making a “material contribution to economic activity in the UK”. Corporate bond prices found new highs as the BoE's programme drove up demand for bonds and investors sought safer alternatives to the volatile equity markets.

The BoE made no further changes to rates, officially maintaining a neutral stance, although not all meeting votes in 2017 have been unanimous and some governors are hinting at a more hawkish stance. Inflation is projected to rise above the target of 2% during 2017, the BoE has suggested, as a weaker pound sterling begins to make most consumer purchases more expensive.

Global bonds

For global bond investors, political risk and fiscal policy were very much in the spotlight over the year under review. The UK's referendum on EU membership was a key theme, prompting demand for core European government bonds, with German debt particularly sought after. In the immediate aftermath of Brexit, the benchmark 10-year bund fell to a fresh low. Meanwhile, in the Swiss market, debt across almost all maturities traded at negative yields. By contrast, yields on the debt of so-called peripheral countries such as Spain, Italy and Portugal initially rose, before pulling back.

At the time, the ECB adopted a wait-and-see approach to the Brexit result, declining to extend its scheme of stimulus measures until the ramifications became clearer. Economic data painted a mixed picture initially, but signs of growth in the many of the world's economies prompted speculation that central banks would rein in their stimulus plans as inflation started to heat up. Consequently, yields rose in key markets, including Germany and France. The ECB then announced it would continue its extensive asset-purchase programme, albeit at a tapered rate. Some revision to the wording in the ECB's meeting minutes from March 2017 prompted a surge in European yields, as investors priced in a rate hike for 2018.

Elsewhere, US 10-year Treasury yields ended the period broadly flat, which belied a fair amount of volatility stemming from political-risk aversion, as well as market uncertainty about global central-bank activity and the US presidential elections. The Fed increased interest rates in the US in December 2016, as economic data pointed to strength in the US economy; a second rate hike followed in March 2017.

The run-up to the US election also caused volatility in emerging market debt, as many emerging market economies are sensitive to fluctuations in the strength of the dollar. However, in the first part of 2017, emerging market assets strongly outperformed US investment-grade and high-yield bonds.

The Japanese government unveiled a significant stimulus package of \$45 billion, promising both welfare and infrastructure spending. Meanwhile, the BoJ indicated that whatever quantitative easing was required in addition to this would be forthcoming. Japanese government bonds continued to return negative yields.

Political risk carried throughout the period; in addition to Brexit and the Trump victory, a series of elections throughout Europe, tension with North Korea and the escalation in Syria had investors driving up demands for bonds in a flight to safety in the last several weeks of the review period.

Audit Report

To the Shareholders of
HSBC Global Investment Funds

We have audited the accompanying financial statements of HSBC Global Investment Funds and of each of its sub-funds, which comprise the statement of net assets and the portfolio of investments and other net assets as at 31 March 2017 and the statement of operations and changes in net assets for the year then ended, and a summary of significant accounting policies and other explanatory notes to the financial statements.

Responsibility of the Board of Directors of the SICAV for the financial statements

The Board of Directors of the SICAV is responsible for the preparation and fair presentation of these financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation of the financial statements and for such internal control as the Board of Directors of the SICAV determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Responsibility of the “Réviseur d’entreprises agréé”

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing as adopted for Luxembourg by the “Commission de Surveillance du Secteur Financier”. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the judgment of the “Réviseur d’entreprises agréé”, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the “Réviseur d’entreprises agréé” considers internal control relevant to the entity’s preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity’s internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Board of Directors of the SICAV, as well as evaluating the overall presentation of the financial statements.

*PricewaterhouseCoopers, Société coopérative, 2 rue Gerhard Mercator, B.P. 1443, L-1014 Luxembourg
T : +352 494848 1, F : +352 494848 2900, www.pwc.lu*

*Cabinet de révision agréé. Expert-comptable (autorisation gouvernementale n°10028256)
R.C.S. Luxembourg B 65 477 - TVA LU25482518*

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements give a true and fair view of the financial position of HSBC Global Investment Funds and of each of its sub-funds as of 31 March 2017, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation of the financial statements.

Other information

The Board of Directors of the SICAV is responsible for the other information. The other information comprises the information included in the annual report but does not include the financial statements and our audit report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report this fact. We have nothing to report in this regard.

Notes to the Financial Statements

for the year ended 31 March 2017

1. Basis of presentation

HSBC Global Investment Funds (the “Company”) is incorporated under the laws of the Grand Duchy of Luxembourg as an investment company with variable capital (Société d’Investissement à Capital Variable or “SICAV”). The capital comprises various separate portfolio (a “sub-fund”) consisting of securities, cash and other sundry assets and liabilities and each sub-fund may comprise various classes of shares being distinct from the other due to their fee structure, distribution policy and target investors. The accompanying financial statements present the assets and liabilities and the statement of operations and changes in net assets of the individual sub-funds and of the Company taken as a whole. The financial statements of each individual sub-fund are expressed in the currency designated in the Prospectus for that particular sub-fund and the financial statements of the Company are expressed in United States Dollars (USD). The financial statements have been prepared in accordance with the format prescribed by the Luxembourg authorities for Luxembourg investment companies.

The consolidated financial statements of the Company are expressed in USD.

The consolidated statement of net assets and the consolidated statement of operations and changes in net assets are the sum of the statements of each sub-fund.

The Company is an officially registered investment fund under part I of the amended 2010 Law and qualifies as a UCITS fund under the European Directive 2009/65/EC.

Certain sub-funds of the Company are authorised by the Hong Kong Securities and Futures Commission under Section 104 of the “Securities and Futures Ordinance”.

In the Prospectus and in the various reports, the short names of the sub-funds are used. The complete name of each sub-fund consists of “HSBC Global Investment Funds” plus the short name of the sub-fund.

From 1 April 2016 to 31 March 2017:

a) The following sub-funds have been launched:

- ▶ Asia Bond on 29 June 2016
- ▶ Indonesia Bond on 29 June 2016
- ▶ Multi-Asset Style Factors on 7 October 2016
- ▶ Global Corporate Fixed Term Bond 2020 on 28 October 2016
- ▶ Multi-Strategy Target Return on 21 March 2017

b) The following mergers occurred:

Effective date	Merging UCITS	Receiving UCITS
9 September 2016	Oblig Inflation World	HSBC Global Investment Funds – Global Inflation Linked Bond

A report has been issued for the merger by the auditor of the merging UCITS. The merger report has accordingly been filed with the CSSF.

c) The following sub-funds have been closed:

- ▶ Korean Equity on 22 September 2016
- ▶ Singapore Equity on 22 September 2016
- ▶ Taiwan Equity on 22 September 2016
- ▶ Global Macro on 31 March 2017

Notes to the Financial Statements

for the year ended 31 March 2017 (continued)

2. Accounting policies

The following accounting policies have been used consistently in dealing with items which are considered material in relation to the Company's financial statements.

a) Accounting convention

The financial statements have been prepared under the historical cost convention modified by the revaluation of investments.

b) Assets and portfolio securities valuation

Portfolio securities and/or financial derivative instruments which are listed on an official stock exchange are valued at the last available price on the principal market on which such securities are traded. Securities traded on other organised markets are valued at the last available price or yield equivalents obtained from one or more dealers in such organised markets at the time of valuation. If such prices are not representative of their fair value, all such securities and all other permitted assets shall be valued at their fair value at which it is expected they may be resold as determined in good faith by or under the direction of the Directors.

The financial derivative instruments which are not listed on any official stock exchange or traded on any other organised market are valued in accordance with market practice as follows:

Options

Outstanding options traded on a regulated market are valued based on the intraday price or the last available market price of the instruments.

OTC options are marked to market based upon daily prices obtained from third party pricing agents and verified against the value from the counterparty.

The market value of options is included in the statement of net assets under the headings "Unrealised Gain on Options" and "Unrealised Loss on Options".

The realised gains/(losses) and change in unrealised appreciation/(depreciation) on options are disclosed in the statement of operations and changes in net assets respectively under the headings "Realised Profit/(Loss) on Derivatives" and "Change in Unrealised Appreciation/(Depreciation) on Derivatives".

Futures Contracts

Upon entering into a futures contract, the Company is required to deposit with the broker, cash or securities in an amount equal to a certain percentage of the contract amount which is referred to as the initial margin account. Subsequent payments, referred to as variation margin, are made or received by each sub-fund periodically and are based on changes in the market value of open futures contracts.

The unrealised appreciation/(depreciation) on future contracts is disclosed in the statement of net assets under "Unrealised Gain on Futures" and "Unrealised Loss on Futures". Changes in the market value of open futures contracts are recorded as unrealised appreciation/(depreciation) in the statement of operations and changes in net assets under "Change in Unrealised Appreciation/(Depreciation) on Derivatives". Realised gains or losses, representing the difference between the value of the contract at the time it was opened and the value at the time it was closed, are reported at the closing or expiration of futures contracts in the statement of operations and changes in net assets under "Realised Profit/(Loss) on Derivatives". Securities deposited as initial margin account are designated in the Portfolio of investments and other Net Assets and cash deposited is recorded in the statement of net assets. A receivable and/or a payable to brokers for the daily variation margin is also recorded in the statement of net assets.

Notes to the Financial Statements

for the year ended 31 March 2017 (continued)

2. Accounting policies (continued)

b) Assets and portfolio securities valuation (continued)

Forward Foreign Exchange Contracts

The values of the forward foreign currency exchange contracts are adjusted daily based on the applicable forward exchange rate of the underlying currency for the remaining period, until maturity. Changes in the value of these contracts are recorded as unrealised appreciation or depreciation until the contract settlement date. When the forward contract is closed, the sub-fund records a realised gain or loss equal to the difference between the value at the time the contract was opened and the value at the time it was closed.

The unrealised appreciation/(depreciation) on forward foreign exchange contracts is disclosed in the statement of net assets under “Unrealised Gain on Forward Foreign Exchange Contracts” and “Unrealised Loss on Forward Foreign Exchange Contracts”. Realised gains/(losses) and change in unrealised appreciation/(depreciation) resulting there from are included in the statement of operations and changes in net assets respectively under “Realised Profit/(Loss) on Derivatives” and “Change in Unrealised Appreciation/(Depreciation) on Derivatives”.

Interest Rate Swaps

Interest rate swaps are marked to market at each NAV calculation date. The market value is based on the valuation elements laid down in the contracts, and is obtained from third party pricing agents, market makers or internal models.

The unrealised appreciation/(depreciation) is disclosed in the statement of net assets under “Unrealised Gain on Swaps” and “Unrealised Loss on Swaps”. Realised gains/(losses) and changes in unrealised appreciation/(depreciation) as a result thereof are included in the statement of operations and changes in net assets respectively under “Realised Profit/(Loss) on Derivatives” and “Change in Unrealised Appreciation/(Depreciation) on Derivatives”.

Credit Default Swaps

A credit default swap is a credit derivative transaction in which two parties enter into an agreement, whereby one party (the protection buyer) pays the other (the protection seller) a fixed periodic coupon for the specified life of the agreement in return for a payment contingent on a credit event related to the underlying reference obligation.

If a credit event occurs, the protection seller would be obliged to make a payment, which may be either: (i) a net cash settlement equal to the notional amount of the swap less the auction value of the reference obligation or (ii) the notional amount of the swap in exchange for the delivery of the reference obligation. Selling protection effectively adds leverage to a fund's portfolio up to the notional amount of swap agreements.

Credit default swaps are marked to market at each NAV calculation date. The market value is based on the valuation elements laid down in the contracts, and is obtained from third party pricing agents, market makers or internal models.

The unrealised appreciation/(depreciation) is disclosed in the statement of net assets under “Unrealised Gain on Swaps” and “Unrealised Loss on Swaps”. Realised gains/(losses) and change in unrealised appreciation/(depreciation) resulting there from are included in the statement of operations and changes in net assets respectively under the heading “Realised Profit/(Loss) on Derivatives” and “Change in Unrealised Appreciation/(Depreciation) on Derivatives”.

Shares or units in underlying open-ended investment sub-funds are valued at their last available net asset value reduced by any applicable charges.

The Company uses the amortized cost method of valuation in valuing its portfolio of financial instruments in the form of short term debt (such as commercial paper, certificate of deposit, treasury bills). In addition, in the rare circumstances where a fixed income instrument with a time to maturity exceeding 90 days becomes stale, the Company will effectively value it at amortised cost until such date when it is either sold or its market becomes active again.

Notes to the Financial Statements

for the year ended 31 March 2017 (continued)

2. Accounting policies (continued)

b) Assets and portfolio securities valuation (continued)

Mortgage related securities - To Be Announced securities (TBAs)

TBA positions refer to the common trading practice in the mortgage backed securities market in which a security is to be bought from a mortgage pool (e.g. Ginnie Mae, Fannie Mae or Freddie Mac) for a fixed price at a future date. At the time of the purchase the exact security is not known, but the main characteristics of it are specified. Although the price has been established at the time of the purchase, the principal value has not been finalised. TBA positions are disclosed in the portfolio of investments and other net assets. The purchase of this type of security has not been settled and as a consequence, the amount corresponding to the payable due when the transaction is settled, is disclosed under "Payable to Brokers" in the statement of net assets. Negative positions in the portfolio of investments and other net assets reflect the fund's sale commitments of TBAs. The amount corresponding to the receivable due when the transaction is settled, is disclosed under "Receivable from Brokers" in the statement of net assets. The realised gains/(losses) on TBAs and changes in unrealised appreciation/(depreciation) are disclosed in the statement of operations and changes in net assets respectively under the headings "Realised Profit/(Loss) on Investments" and "Change in Unrealised Appreciation/(Depreciation) on Investments".

c) Income and expenses

Dividends are accounted for on an ex-dividend basis. Dividends are reflected in the statement of operations and changes in net assets under the caption "Investment Income/(Loss)".

Interest income on debt securities is accrued on a day-to-day basis. In the case of debt securities issued at discount or premium to maturity value, the total income arising on such securities, taking into account the amortisation of such discount or premium on an effective interest rate basis, is spread over the life of the security. Interest income on bonds are accounted for using the effective interest rate ("EIR") method. Interest income on debt securities are reflected in the statement of operations and changes in net assets under the caption "Investment Income/(Loss)".

The interest income / expense on interest rate swap contracts (IRS) are accrued on a day-to-day basis. The net interest income / expense on interest rate swap contracts (IRS) are reflected in the statement of operations and changes in net assets under the caption "Investment Income/(Loss)".

d) Foreign exchange

The cost of investments, income and expenses in currencies other than the sub-funds' relevant reporting currency have been recorded at the rate of exchange ruling at the time of the transaction. The market value of investments and other assets and liabilities in currencies other than the relevant reporting currency have been converted at the rates of exchange ruling at 31 March 2017.

e) Realised profit/(loss) on sale of investments

Realised profit/(loss) on sale of investments is the difference between the historical average cost of the investment and the sale proceeds (excluding any transaction expenses as further explained in note 5).

Notes to the Financial Statements

for the year ended 31 March 2017 (continued)

2. Accounting policies (continued)

f) Foreign currency translation

The reference currency of the fund is USD and the consolidated statements are expressed in that currency.

The books and records of each sub-fund are denominated in the reference currency of the corresponding sub-fund.

Income and expenses, assets and liabilities expressed in currencies other than the reference currency of the respective sub-funds are converted at exchange rate prevailing at year-end.

Here are the main exchange rates applied at year-end.

1 USD = EUR 0.934973

GBP 0.799712

JPY 111.433029

g) Segregated liability

The Company has segregated liability between its sub-funds; meaning, the assets of a sub-fund are exclusively available to satisfy the rights of shareholders in relation to that sub-fund and the rights of creditors whose claims have arisen in connection with the creation, operation and liquidation of that sub-fund.

h) Spot foreign currency transactions

Unsettled spot foreign currency transactions as at 31 March 2017 are recorded under "Receivable from Brokers" and "Payable to Brokers" in the statement of net assets.

i) Trailer fees and rebates

The Company pays management fees to the Management Company. Trailer fees are either taken out of the management fees or the Management Company may instruct the Company to pay a portion of the management fees directly out of the assets of a sub-fund to a recognised intermediary. In both cases, the management fees due are reduced accordingly.

3. Share capital

The Company has issued either A, B, E, I, J, L, M, N, P, R, S, W, X, Y and Z Shares to investors in one or several sub-funds as detailed below.

Within each Share Class of a sub-fund, the Company shall be entitled to create different sub-classes, distinguished by their distribution policy (Capital Accumulation (C), Distribution (D) and Monthly Distribution (M) Shares), their reference currency, their hedging activity (H) and/or by any other criteria stipulated by the Board of Directors.

All share classes are available as both "Capital Accumulation" and "Distribution" shares.

Class	Description		Minimum Initial Investment Minimum Holding
Class A	A Shares are available to all investors.	USD	5,000 Unless otherwise provided in the Sub-fund characteristics of the Prospectus
Class B	B Shares are available in the United Kingdom, Jersey and the Netherlands through specific distributors selected by the Global Distributor. B Shares may also be available in other countries through specific distributors, selected by the Global Distributor on application to the Company, who have a separate fee arrangement with their clients.	USD	5,000 Unless otherwise provided in the Sub-fund characteristics of the Prospectus

Notes to the Financial Statements

for the year ended 31 March 2017 (continued)

3. Share capital (continued)

Class	Description		Minimum Initial Investment Minimum Holding
Class E	E Shares are available in certain countries, subject to the relevant regulatory approval, through distributors selected by the Global Distributor. E Shares shall incur annual management fees equivalent to that of the Class A Shares plus 0.3% to 0.5% per annum of the Net Asset Value of Class E Shares, which may be payable to the selected distributors in certain countries.	USD	5,000 Unless otherwise provided in the Sub-fund characteristics of the Prospectus
Class I	I Shares are available to all investors through distributors selected by the Global Distributor on application to the Company.	USD	1,000,000
Class J*	J Shares are available to funds of funds managed by the HSBC Group or managed by specific entities selected by the Global Distributor on application to the Company.	USD	100,000 Unless otherwise provided in the Sub-fund characteristics of the Prospectus
Class L*	L Shares are available through distributors selected by the Global Distributor, provided that the investors qualify as institutional investors within the meaning of article 174 of the 2010 Law.	USD	1,000,000
Class M*	M Shares are available to all investors.	USD	5,000 Unless otherwise provided in the Sub-fund characteristics of the Prospectus
Class N*	N Shares are available in the United Kingdom, Jersey and the Netherlands through specific distributors selected by the Global Distributor. N Shares may also be available in other countries through specific distributors, selected by the Global Distributor on application to the Company, who have a separate fee arrangement with their clients.	USD	5,000
Class P	P Shares are available in certain countries or through certain distributors selected by the Global Distributor on application to the Company.	USD	50,000 Unless otherwise provided in the Sub-fund characteristics of the Prospectus
Class R*	R Shares are available in certain countries, subject to the relevant regulatory approval, through distributors selected by the Global Distributor on application to the Company. R Shares shall incur annual management fees equivalent to that of the Class M Shares plus 0.3% to 0.5% per annum of the Net Asset Value of Class R Shares which may be payable to specific distributors in certain countries.	USD	5,000 Unless otherwise provided in the Sub-fund characteristics of the Prospectus
Class S**	S Shares are available in certain countries or through distributors selected by the Global Distributor provided that the investors qualify as institutional investors within the meaning of article 174 of the 2010 Law.	USD	100,000 Unless otherwise provided in the Sub-fund characteristics of the Prospectus

* Successive J,L,M,N and R Share Classes in a given sub-fund may be numbered 1, 2, 3... and would be referred to as J1, J2, J3 (...), L1, L2, L3 (...), M1, M2, M3 (...), N1, N2, N3 (...) and R1, R2, R3 (...).

** Successive S Share Classes will be issued in one or different sub-funds, numbered 1, 2, 3 etc and named S1, S2, S3 etc for the first, second and third S Class launched respectively.

Notes to the Financial Statements

for the year ended 31 March 2017 (continued)

3. Share capital (continued)

Class	Description		Minimum Initial Investment Minimum Holding
Class W	W Shares are available through distributors that shall also be members or affiliated entities of the HSBC Group as selected by the Global Distributor provided that the investors qualify as institutional investors within the meaning of article 174 of the 2010 Law. No Operating, Administrative and Servicing Expenses shall be charged to Class W Shares. All the fees and charges allocated to this Class shall be paid directly by members or affiliated entities of the HSBC Group.	USD	100,000 Unless otherwise provided in the Sub-fund characteristics of the Prospectus
Class X	X Shares are available through distributors selected by the Global Distributor provided that the investors qualify as institutional investors within the meaning of article 174 of the 2010 Law and fall into one of the following categories: companies or company pension funds, insurance companies, registered charities or funds managed or advised by an HSBC Group entity and other such institutional investors, as agreed by the Board of Directors.	USD	10,000,000 Unless otherwise provided in the Sub-fund characteristics of the Prospectus
Class Y	Y Shares are available in certain countries through distributors selected by the Global Distributor on application to the Company.	USD	1,000
Class Z	Z Shares are available to investors who have entered into a discretionary management agreement with an HSBC Group entity and to investors subscribing via distributors selected by the Global Distributor provided that such investors qualify as institutional investors within the meaning of article 174 of the 2010 Law.	USD	1,000,000

The Board of Directors of the Company is authorised to issue different Classes of Shares in one or more sub-funds. Details of the characteristics of such Share Classes offered shall be determined at the sole discretion of the Board of Directors. In case of the creation of any additional Classes of Shares, the Prospectus shall be updated.

The subscription proceeds of all Shares in a sub-fund are invested in one common underlying portfolio of investments. All Shares of the same Class have equal rights and privileges. Each Share is, upon issue, entitled to participate equally in assets of the relevant class of the sub-fund to which it relates on liquidation and in dividends and other distributions as declared for such sub-fund. The Shares shall carry no preferential or pre-emptive rights and each whole Share shall be entitled to one vote at all meetings of shareholders.

The minimum initial investment amount may be waived or reduced at the discretion of the Board of Directors of the Company.

Share Class Denominations and Successive Classes:

The Share Classes issued in the different sub-funds are designated by their class name, followed by their distribution characteristics and, if applicable, their specific hedging policy and the currency into which the Base Currency is hedged. This means that for example Shares issued in Class A which are distributing income and applying a hedging policy to Euro, as defined above, would be identified as ADHEUR whereas Class I Shares accumulating income would be identified as IC.

Distribution Shares are identifiable by a "D" following the sub-fund and Class names (e.g.: Class AD), with the exception of Monthly Distribution Shares which are identifiable by an "M" following the sub-fund and Class names (e.g.: Class AM), Quarterly Distribution Shares which are identified by a "Q" following the sub-fund and Class names (e.g.: Class AQ) and Semi-Annual Distribution Shares which are identified by a "S" following the sub-fund and Class names (e.g.: Class AS).

Notes to the Financial Statements

for the year ended 31 March 2017 (continued)

3. Share capital (continued)

Within each Share Class of a sub-fund, separate currency hedged classes or currency overlay classes may be issued (suffixed by “H” or “O” and the currency into which the Base Currency is hedged or the currency into which the sub-fund total assets are primarily invested in, is hedged. These currency hedged share classes or currency overlay classes shall be named: “ACHEUR” or “ACOEUR” for a Capital-Accumulation Share Class hedged or overlay into Euro). Any fees of the Administrator or other appointed parties relating to the execution of the currency hedging policy shall be borne by the relevant currency hedged class or currency overlay class. These fees are in addition to the operating, administrative and servicing expenses detailed below. Any gains or losses shall also accrue to the relevant currency hedged class or currency overlay class.

From 20 June 2016, names of following shares classes in respective sub-funds have been changed.

Sub Fund Name	Share Class Name	
	Upto 19 June 2016	From 20 June 2016

Notes to the Financial Statements

for the year ended 31 March 2017 (continued)

4. Charges and expenses

a) Explanation of the charging structure

Investment in the Company is generally offered via charging structures, as represented by the A, B, E, I, J, L, M, N, P, R, S, W, X, Y, YP, Z and ZP Classes of Shares.

The Management Company is entitled, in respect of each Class of Shares, to a management fee to cover all investment management, investment advisory and distribution services provided in relation to the relevant class (see paragraph (b) headed “Management Fee” below).

In addition, the Company pays to the Management Company a fee to cover operating, administrative and servicing expenses. To safeguard shareholders from fluctuations in a sub-fund’s operating, administrative and servicing expenses, the Company has agreed with the Management Company that the fee charged to cover such operating, administrative and servicing expenses is fixed at an annual rate.

The potential excess of such expenses above such annual rate shall be borne directly by the Management Company (see paragraph (e) headed “Operating, Administrative and Servicing Expenses/Operating Currency Hedging Fees” below).

b) Management fee

The Company pays to the Management Company an annual management fee calculated as a percentage of the Net Asset Value of each sub-fund or share class (“Management Fee”). The Management Fee is accrued daily and payable monthly in arrears at the rates specified in the following table.

Sub-fund	Class A	Class B	Class E	Class I	Class J	Class L	Class M	Class N	Class P	Class R	Class S	Class W	Class X	Class Y	Class Z	Class ZP

Notes to the Financial Statements

for the year ended 31 March 2017 (continued)

4. Charges and expenses (continued)

b) Management fee (continued)

The maximum rate for Class E, I, J, L, M and N Shares is 3.5%.

The maximum rate for Class A, B, P, R, S, X, Y and Z Shares is as stated in the Prospectus.

No Management Fee is currently charged for Class W Shares.

The Management Fee covers investment management, investment advisory and distribution services provided in relation to the relevant sub-fund of the Company by the Management Company, the Investment Advisers and the Share Distributors. The Management Company is responsible for discharging, out of such fee, the fees of the Investment Advisers and the Share Distributors and may pay part of such fee to recognised intermediaries or such other person as the Management Company may determine, at its discretion.

HSBC Investment Funds (Luxembourg) S.A. (the "Management Company") may instruct the Company to pay a portion of the Management Fee directly out of the assets of the Company to any of such service providers or identified persons. In such case, the Management Fee due to the Management Company is reduced accordingly. If the Company invests in shares or units of UCITS (including other sub-funds of the Company) and other eligible UCIs that are managed directly or indirectly by the Management Company itself or a company with which it is linked by way of common management or control or by way of a direct or indirect stake of more than 10% of the capital or votes, then there will be no duplication of management, subscription or repurchase fees between the Company and the UCIs into which the Company invests. In derogation of this, if the Company invests in shares of HSBC ETFs PLC, then there may be duplication of management fees for any sub-fund. The maximum total management fees charged both to the relevant sub-fund and to HSBC ETFs PLC will be disclosed in the annual report, if applicable.

c) Performance fee

Summary

For certain sub-funds and Share Classes, the Management Company is entitled to receive from the net assets of a Share Class, in addition to other fees and expenses mentioned in the Prospectus dated May 2016 (including Addenda dated August 2016 and December 2016), an annual performance fee.

A performance fee shall normally be applied at Share Class level to any sub-fund issuing Class L Shares, M Shares, N Shares, R Shares, YP Shares and ZP Shares. For Class J Shares and S Shares the performance fee shall be charged only if provided for in Section 3.2. "Sub-fund Details", of the Prospectus.

A separate performance fee calculation shall be carried out for each Share Class within a sub-fund.

The following sub-funds and respective share classes are subject to performance fee.

Sub-fund	Share classes
GEM Debt Total Return	J, L, M, N, R, S21 and ZP
Global Macro (closed as at 31 March 2017)	L, M, N, R, ZP except Currency Hedged Share Classes, CHF Hedged, GBP Hedged, JPY Hedged, NOK Hedged, SEK Hedged and USD Hedged

The performance fee shall be calculated and accrued at each valuation of the sub-fund and payable at the end of the Performance Period, or on the net redemptions and/or conversions of Shares, if earlier.

If the Company invests in shares or units of UCITS (including other sub-funds of the Company) and other UCIs that are managed directly or indirectly by the Management Company itself or a company with which it is linked by way of common management or control or by way of a direct or indirect stake of more than 10% of the capital or votes, then no duplication of performance fees shall occur.

The avoidance of a double-charge of the performance fee is achieved by either i) where a sub-fund invests in shares or units of such UCITS and other eligible UCIs, and these UCITS and/or eligible UCIs charge performance fees, the sub-fund shall not charge a performance fee, or ii) where a sub-fund charges a performance fee, it shall not invest in share classes that charge a performance fee.

Notes to the Financial Statements

for the year ended 31 March 2017 (continued)

4. Charges and expenses (continued)

c) Performance fee (continued)

For the avoidance of doubt, it is clarified that the performance fee is calculated for each Share Class on the basis of the unadjusted Net Asset Value per Share, e.g. before any pricing adjustment that might be applied to the Net Asset Value per Share to mitigate the effects of transaction costs.

The performance fee calculations ensure that the Management Company cannot earn a performance fee until any underperformance against the Hurdle Rate has been recovered.

Calculation Method

The High Water Mark defines a reference point for the Net Asset Value per Share above which, after adjustment for dividend distributions if any, a performance fee becomes payable.

A sub-fund may only accrue a performance fee in the event that both of the conditions below are met:

1. The Net Asset Value per Share Return of the relevant Share Class outperforms the relevant Hurdle Rate over the Performance Period and;
2. The Current Day NAV is higher than the High Water Mark.

Where the Current Day NAV, decreases below the High Water Mark and/or the Net Asset Value per Share Return underperforms the relevant Hurdle Rate, no performance fee shall be accrued until such a decrease or underperformance has been recovered in the course of any one Performance Period.

If, at the end of the Performance Period, the Net Asset Value per Share is below the relevant Hurdle Rate and the performance fee is not paid, then the High Water Mark for the following Performance Period shall be the past year's High Water Mark plus the Hurdle Rate.

Performance Fee Accrual

At each valuation of the sub-fund:

- ▶ The cumulative "Excess Return" since the beginning of the Performance Period is calculated as the difference between the cumulative Net Asset Value per Share Return and the cumulative Hurdle Rate since the beginning of the Performance Period.
- ▶ The cumulative performance fee per Share is equal to the cumulative "Excess Return" multiplied by the Performance Rate.
- ▶ The daily performance fee per Share is calculated as the difference between the cumulative performance fee per Share on the valuation and the cumulative performance fee per Share at the previous valuation.
- ▶ The daily performance fee accrual for the Share Class is equal to the performance fee accrual per Share on the valuation multiplied by the outstanding number of Shares on the valuation for that Share Class.
- ▶ The cumulative performance fee accrual before crystallisations for the Share Class is calculated as the sum of the cumulative performance fee accrual before crystallisations at the previous valuation and the performance fee accrual of that Share Class at the valuation.
- ▶ Any performance fee accrued on net redeemed and/or converted Shares is crystallised (by taking the proportion of net redeemed and/or converted Shares to the number of Shares in issue). The daily and total performance fee accruals since the beginning of the Performance Period are adjusted accordingly.

The daily performance fee accrual can be positive or negative however the cumulative performance fee accrual shall never be reduced to below zero.

The cumulative performance fee accruals from the beginning of the Performance Period shall be, at each valuation, included in the ongoing calculation of the Net Asset Value per Share of which subscriptions, redemptions and conversions may be accepted.

Notes to the Financial Statements

for the year ended 31 March 2017 (continued)

4. Charges and expenses (continued)

c) Performance fee (continued)

Crystallisation

Crystallisation of the performance fee occurs on the last valuation of each Performance Period. Any performance fee due is payable out of the sub-fund to the Management Company in arrears after the end of the Performance Period.

Accordingly, once the performance fee has crystallised, no refund shall be made in respect of any performance fee paid out at that point in subsequent Performance Periods.

If there is a net redemption and/or conversion of Shares at any valuation before the end of the Performance Period, any accrued performance fee with respect to such redeemed Shares shall crystallise on that valuation and shall then become payable to the Management Company.

Computation of Performance Fees

Performance fees are calculated by the Administration Agent.

The Board of Directors shall ensure that the accrual represents fairly and accurately the performance fee liability that may eventually be payable by the sub-fund or Share Class to the Management Company.

Annual Payment of Performance Fees

At the end of a Performance Period the positive balance (if any) of the performance fee accrual shall become payable to the Management Company and the performance fee accrual in the Net Asset Value per Share of the relevant Share Class shall be reset to zero and a new High Water Mark set.

The performance fee, if applicable, is payable yearly immediately following the end of each Performance Period.

Performance fees payable to the Management Company in any financial year are not refundable in any subsequent accounting years.

Pursuant to the provisions of the relevant Investment Advisory Agreement, the Investment Adviser may be entitled to receive from the Management Company the whole or part of the performance fee.

In the case of liquidation or merger of a sub-fund or Share Class to which a performance fee is applicable, the performance fee shall be paid on the last valuation day before its liquidation or merger.

d) Directors' fees, expenses and interests

A Director may be a party to, or otherwise interested in, any transaction or arrangement with the Company or in which the Company is interested, provided that he has disclosed to the other Directors, prior to the conclusion of any such transaction or arrangement, the nature and extent of any interest of his therein. A Director may vote in respect of any contract or arrangement or any proposal whatsoever in which he has an interest, having first disclosed such interest. He shall not be disqualified by his office from contracting with the Company. If a Director declares his interest in any contract which the Company is considering entering into, he may be counted in the quorum of any meeting to consider the contract and may vote on any resolution to enter into such contract, provided that the decision to be taken by the Board of Directors relates to the current operations entered into under normal conditions.

The Company pays an annual fee to each of the Independent Directors amounting to EUR 50,000. The amount is accrued with every NAV calculation and paid quarterly in arrears. As at 31 March 2017, EUR 40,000 was payable to the Directors.

The Company also pays an annual fee to each of the Independent Directors who are members of the Investment Performance Working Group, a sub-committee of the Board established to monitor the investment performance and governance and risk profile of the Company's sub-funds, amounting to EUR 7,692. The amount is accrued with every NAV calculation and paid quarterly in arrears. As at 31 March 2017, EUR 3,077 was payable to the Directors.

Notes to the Financial Statements

for the year ended 31 March 2017 (continued)

4. Charges and expenses (continued)

e) Operating, Administrative and Servicing Expenses / Operating Currency Hedging Fees

The Company pays to the Management Company fees to cover certain Operating, Administrative and Servicing expenses and the execution of the currency hedging/overlay policy. The Management Company is responsible for discharging out of this fee, the expenses described below, inter alia, payable to the Depository Bank, the Administration Agent and the Registrar and Transfer Agent or any other appointed entity. If the total actual expenses described below exceeds the total of Operating, Administrative and Services Expenses and the Operating Currency Hedging Fee set for each sub-fund and Share class, the excess of such expenses above such annual percentage will be borne directly by the Management Company or its affiliates, and equally the Management Company or its affiliates may retain any surplus.

- (i) Operating, Administrative and Servicing Expenses cover the ongoing custody/depository fees and safekeeping charges payable to the Depository Bank and its correspondent banks, fees for fund accounting and administration services (including domiciliary services) payable to the Administration Agent and transfer agency fees for registrar and transfer agency services payable to the Registrar and Transfer Agent.

Operating, Administrative and Servicing Expenses also cover expenses relating to the creation of new sub-funds; the costs of the Subsidiaries (see paragraph (6) below); the Luxembourg asset-based tax d'abonnement, at the rate referred to under Section "Taxation" of the Company's Prospectus; attendance fees and reasonable out-of-pocket expenses incurred by the Board of Directors; legal and auditing fees and expenses; ongoing registration and listing fees, including translation expenses; the costs and expenses of preparing, printing, and distributing the Company's Prospectus, Key Investor Information Documents, financial reports, statements and other documents made available directly or through intermediaries to its shareholders.

This fee is set, for each sub-fund and/or Class, at a fixed percentage of the Net Asset Value of the relevant sub-fund or Class specified in the Company's Prospectus dated May 2016 (including the Addenda dated August 2016 and December 2016) (as specified in the table on page 83 and following). Such fee is accrued daily and payable monthly in arrears.

No Operating, Administrative and Servicing Expenses shall be charged to Class W Shares. All the fees and charges allocated to such Class of Shares shall be paid directly by a member or an affiliated entity of HSBC Group.

- (ii) Operating Currency Hedging Fees cover the fees of the Administration Agent or other appointed parties relating to the execution of the currency hedging policy for the currency hedged Share Classes and currency overlay Share Classes as "Profile of the Typical Investor Categories".

The maximum rate for (i) and (ii) together for Class A, B, E, I, J, L, M, N, P, R, S, X, Y, Z, YP and ZP Shares is 1.0%. However, the Board of Directors reserves the right to amend the levels of the above fees applicable to each Class of Shares. In the event of an increase of such expenses, the concerned shareholders will be given at least (i) three months notice for so long as the Class of Shares of the sub-fund is authorised by the Securities and Futures Commission in Hong Kong (or any shorter prior notice period as agreed with the Securities and Futures Commission) or (ii) one month prior notice, of such increase. During this notice period, such shareholders may request the redemption of their Shares, free of charge.

The Management Company may instruct the Company to pay a portion of the aforesaid fees directly out of the assets of the Company to any of the aforementioned service providers. In such case the fee due to the Management Company is reduced accordingly.

Notes to the Financial Statements

5. Transaction expenses and extraordinary expenses

Transaction expenses linked to security dealing are included with the cost of investments purchased and deducted from the proceeds received on sales of investments and are included in the statement of operations and changes in net assets under the heading "Transaction Fees".

Each sub-fund bears the costs and expenses of buying and selling portfolio securities and financial instruments, brokerage fees and commissions, interest or taxes payable, and other transaction related expenses. These transaction fees are accounted for on a cash basis and are paid when incurred or invoiced from the net assets of the sub-fund to which they are attributable. Transaction fees are allocated across each sub-fund's Share Classes.

The Company bears any extraordinary expenses including, without limitation, litigation expenses and the full amount of any tax, levy, duty or similar charge and any unforeseen charges imposed on the Company or its assets.

For debt securities and derivatives, transaction costs are not separately identifiable from the purchase price of the security and therefore cannot be disclosed separately.

Notes to the Financial Statements

for the year ended 31 March 2017 (continued)

6. Indian Equity and Global Emerging Markets Equity (the “sub-funds”)

The Company's wholly owned subsidiaries in Mauritius, HSBC GIF Mauritius Limited (“HSBC Mauritius”) and HSBC GIF Mauritius No. 2 Limited (“HSBC Mauritius No. 2”), (each a Subsidiary or collectively, the “Subsidiaries”) are located at Rogers House, 5 President John Kennedy Street, Port Louis, Mauritius. HSBC Mauritius manages the Indian Equity sub-fund's investments in India, whilst HSBC Mauritius No. 2 manages the Global Emerging Markets Equity sub-fund's investments in India.

HSBC Mauritius was incorporated in Mauritius on 3 October 1995. The accounts of the Indian Equity sub-fund and of HSBC Mauritius are consolidated.

HSBC Mauritius No. 2 was incorporated in Mauritius on 21 November 2007. The accounts of the Global Emerging Markets Equity sub-fund and of HSBC Mauritius No. 2 are consolidated.

The Subsidiaries have appointed CIM Fund Services Ltd, Rogers House, 5 President John Kennedy Street, Port Louis, Mauritius, to provide administrative services to the Subsidiaries in Mauritius, including maintenance of its accounts, books and records.

The Subsidiaries have appointed KPMG Mauritius, KPMG Centre, 30 St George Street, Port Louis, Mauritius, as auditors of the Subsidiaries in Mauritius to perform the auditor's duties required by Mauritius law. As previously notified, the Board has decided that the sub-funds investments will be made directly rather than through the subsidiary companies. Consequently, the sub funds will divest holdings in the subsidiary companies over a period of time at the end of which the subsidiary companies will be liquidated.

7. Taxation of the Company

The following is based on the Company's understanding of the law and practice currently in force in the Grand Duchy of Luxembourg and is subject to changes therein.

The Company is not liable to any Luxembourg tax on profits or income. The Company is however liable in Luxembourg to a tax of 0.05% per annum of its net asset value, such tax being payable quarterly on the basis of the value of the net assets of the Company at the end of the relevant calendar quarter. The tax rate is reduced to 0.01% per annum for the Euro Reserve sub-fund and Classes J, L, S, W, X and Z Shares in the relevant sub-funds. No stamp duty or other tax is payable in Luxembourg on the issue of shares.

The classes/sub-funds may be exempted from this 0.01% tax if they comply with the requirements of the articles 174 and 175 of the 2010 Law which include: (i) the shares of the class/sub-fund must be reserved to institutional investors; (ii) the exclusive object of the class/sub-fund's portfolio must be the investment in money market instruments and/or deposits with credit institutions; (iii) the remaining average maturity of the class/sub-fund's portfolio must be less than 90 days; and (iv) the class/sub-fund must benefit from the highest possible rating of a recognized rating agency.

Are also exempt from this tax:

- a) sub-funds/Classes whose Shares are reserved for (i) institutions for occupational retirement pension or similar investment vehicles, set up on one or more employers' initiative for the benefit of their employees and (ii) companies of one or more employers investing funds they hold, to provide retirement benefits to their employees;
- b) sub-funds whose main objective is the investment in microfinance institutions;
- c) sub-funds/Classes of Shares whose Shares are listed or traded on at least one stock exchange or another regulated market operating regularly, recognised and open to the public and whose exclusive object is to replicate the performance of one or more indices.

Also exempt from the tax are the value of assets represented by units/shares held in other eligible UCIs provided that such units/shares have already been subject of this tax provided for by Article 174 of the 2010 Law as amended or by Article 68 of the law of 13 February 2007 as amended.

No Luxembourg tax is payable on the realised or unrealised capital appreciation of the assets of the Company.

Notes to the Financial Statements

for the year ended 31 March 2017 (continued)

7. Taxation of the Company (continued)

Other Taxes

Under applicable foreign tax laws, withholding taxes may be deducted from interest and dividends and capital gains taxes may be payable at various rates. For the summary of foreign tax laws and practices, refer to Appendix I.

General

In many markets the Company, as a foreign investment fund, may be subject to non-recoverable tax on income and gains (either by withholding or direct assessment) in relation to the investment returns it realizes from its holdings of shares and securities in those markets. Where practicable the Company shall make claims under the relevant double tax treaties and domestic law of the countries concerned in order to minimize the impact of local taxation on the investment return and to obtain the best return for its shareholders. Those claims shall be made on the basis of the Company's understanding of the validity of such claims given the information available from the Company's depositaries, external advisers and other sources as to the interpretation and application of the relevant legal provisions by the tax authorities in the country concerned.

The Company shall seek to provide for tax on capital gains where it considers that it is more likely than not that the tax shall be payable, given the advice and information available to the Company at the date concerned. However, any provision held may be insufficient to cover, or be in excess of, any final liability.

The Company shall seek to claim concessionary tax treatment and account for tax on a best efforts basis, given the tax law and practice at that date. Any change in tax law or practice in any country where the Company is registered, marketed or invested could affect the value of the Company's investments in the affected country. In particular, where retrospective changes to tax law or practice are applied by the legislature or tax authorities in a particular country these may result in a loss for current Shareholders in the affected sub-fund. The Company does not offer any warranty as to the tax position of returns from investments held in a particular market nor of the risk of a retrospective assessment to tax in a particular market or country.

8. Net asset value disclosures

a) Closing prices

The assets of the sub-funds are valued using prices available at different times during the day of 31 March 2017, being the last business day of the reporting period.

If the Company had calculated the net asset values solely with a view to publication, the market prices used to value the net assets would have been the closing prices on 31 March 2017. However, these net asset values would not have been significantly different from those shown in these financial statements, except for the following sub-funds, for which the following variations would have been observed:

Sub-fund	Currency	% difference (in % of NAV)
Global Equity Climate Change	USD	(3.08)

b) Cross sub-fund investments

At 31 March 2017, the total cross sub-fund investments amounts to USD 196,223,399 and therefore the total consolidated net assets at the year end without cross sub-fund investments would amount to USD 36,742,791,039.

9. Forward foreign exchange contracts

As at 31 March 2017, the Company has entered into various forward foreign currency contracts, for the purpose of hedging the portfolio and the respective share classes, which obliges the Company to deliver currencies at specified dates. Open contracts are as follows:

Contracts with a settlement date of 31 March 2017 still appear because they were open at the time of the preparation and publication of the net asset value as at 31 March 2017.

Notes to the Financial Statements

10. Futures

During the course of the financial year ended 31 March 2017, the Company has entered into financial futures contracts. Upon entering into a contract the Company deposits and maintains cash as collateral. The cash margin calls needed to cover the required contract margins are adjusted daily in the Company cash accounts, and results on open positions are considered as realised at that point in time. The margin is calculated as the difference between the value of the contract at previous valuation day and the financial future value at the valuation day. The cash held in margin accounts is included in Cash at Bank in the statement of net assets.

As at 31 March 2017, the Company has the following open futures positions:

Underlying	Number of contracts purchase/(sale)	Currency	Commitment in Sub-fund currency	Maturity date	Unrealised gain / (loss) in Sub-fund currency
ASEAN Equity

Notes to the Financial Statements

for the year ended 31 March 2017 (continued)

14. Dividends

Most distributing fund share classes in issue as at 31 March 2017 have had UK Reporting Fund status, either from 1 April 2010 or from the launch of the fund share class concerned. All Distributing and Accumulating Share Classes have UK Reporting Fund status from 1 April 2013. As and when new fund share classes are launched, UK Reporting Fund applications shall be made to HM Revenue & Customs accordingly. Details of the share classes that have UK Reporting Fund status can be found on the HM Revenue & Customs' website (www.hmrc.gov.uk).

At the date of this report, the status can be found at <https://www.gov.uk/government/publications/offshore-funds-list-of-reporting-funds>.

The Company publishes annual reportable income information that shareholders require for their UK tax returns at www.kpmgreportingfunds.co.uk. If investors do not have access to the internet they can apply in writing at the registered office of the Company.

15. Other Income

Other income mainly consists of dilution levy (refer to Note 18) and reversal of capital gains tax provisions which are no longer justified.

There was no securities lending activity for any sub-funds during the year.

16. Transactions with connected persons and brokerage commission paid per sub-fund

All transactions with connected parties were carried out on an arm's length basis.

(a) Bank accounts and deposits with related parties

Bank accounts are maintained and deposits are made mainly with HSBC Bank Plc, London, a member of HSBC Group.

(b) Investment transactions with related parties

In their purchases and sales of investments, the sub-funds utilise the services of members of HSBC Group. Details of such transactions executed during the year ended 31 March 2017 are shown below.

Sub-fund	Currency	Total aggregate value of such transactions for the year	Percentage of such transactions in value to total transactions for the year	Commission paid for the year	Average rate of commission
ASEAN Equity	USD	1,614,476	12.74%	673	0.04%

Notes to the Financial Statements

for the year ended 31 March 2017 (continued)

16. Transactions with connected persons and brokerage commission paid per sub-fund (continued)

(b) Investment transactions with related parties (continued)

The investment adviser and its connected persons of the following sub-funds have entered into soft commission arrangements* with certain brokers, for which goods and services used to support the investment decision making process were received by it or its connected persons:

ASEAN Equity,
Asia ex Japan Equity,
Asia ex Japan Equity Smaller Companies,
Asia Pacific ex Japan Equity High Dividend,
Chinese Equity,
Hong Kong Equity,
Indian Equity,
Korean Equity,
Singapore Equity,
Taiwan Equity,
Thai Equity,
Managed Solutions – Asia Focused Income,
Managed Solutions – Asia Focused Growth,

* Soft commission arrangements referred to herein relate solely to research services, defined as soft commissions by the Hong Kong Securities and Futures Commission, that are utilized by the Company.

The investment adviser or its connected persons do not make direct payment for these services, but transact and agree an amount of business with brokers on behalf of the sub-funds concerned. All transactions were entered into in the ordinary course of business and on normal commercial terms.

Commissions were paid by the Company on these transactions. The goods and services utilized for the Company include the following: research and advisory services, economic and political analysis, portfolio analysis, market analysis and investment related publications.

Operating, Administrative and Servicing Expenses paid to the Management Company are specified in Note 4 (e).

The Management Company is also entitled to a Performance Fee, which is payable annually in arrears after the end of each twelve month period.

Performance Fees are disclosed in the statement of operations, whilst the Performance Fee calculation method is explained in Note 4 (c). Detailed Performance Fee information may also be found in the Prospectus dated May 2016 (including Addenda dated August 2016 and December 2016).

(c) Director holdings in the Company

Matteo Pardi acquired, prior to his appointment as a director of the Company, and holds shares in BRIC Equity, BRIC Markets Equity, Global Emerging Markets Equity, Latin American Equity, Brazil Bond, Euro High Yield Bond, GEM Debt Total Return and RMB Fixed Income sub-funds.

17. List of movements in the investment portfolio

The detailed list of movements in the investment portfolio can be obtained free of charge upon request at the registered office of the Company. The current Prospectus, the Articles of Incorporation, together with both the interim and audited annual reports are available free of charge upon request from the German payment and information officer from the Management Company.

Notes to the Financial Statements

for the year ended 31 March 2017 (continued)

18. Pricing adjustment - Single Swinging Prices (SSP)

A sub-fund may suffer dilution of the net asset value per share due to investors acquiring or disposing shares in a sub-fund at a price that does not reflect dealing and other costs that arise when security trades are undertaken by the fund management to accommodate cash inflows or outflows. In order to counter this impact, a swing pricing mechanism has been adopted to protect the interests of shareholders of the sub-fund.

In the SSP method, the expenses resulting from subscriptions and redemptions above a pre-defined threshold, for the acquisition and disposal of shares (price/offer margins, market-appropriate brokerages, commissions, charges etc.) are included in the calculation of the net asset value. The net amount resulting from the difference between subscriptions and redemptions determines the adjustment of the portfolio and thus the resulting expenses. The transaction costs incurred on the day of trading for subscriptions and redemptions will be paid by the investors who commission these transactions, and will be recorded under Other Income in the Statement of Operations and Changes in Net Assets.

If the subscriptions on a particular day of trading exceed the redemptions and the threshold for the application of an adjustment, then the fund management will add the transaction costs incurred by the excess of subscriptions at the calculated "valuation net asset value". This amount is known as the "modified net asset value". On the other hand, if the redemptions on a particular valuation day exceed the subscriptions and the threshold for the application of an adjustment, then the transaction costs resulting from the excess of redemptions will be deducted from the "valuation net asset value". The surcharge on or deduction from the transaction costs that is incurred by subscriptions or redemptions is effected at a flat rate, and is based on an average value from a previous period of a maximum of one year.

If the sub-fund has been on the market for less than one year, then depending on the sub-fund's special features this factor will be determined depending on the sub-fund's portfolio of investments, so that a representative figure results.

The table below discloses the NAV per share in each sub-fund's reference currency before swing price adjustment (the "Un-swing NAV per share") and the NAV per share in each sub-fund's reference currency after swing price adjustment (the "Swung NAV per share") for sub-funds which have been impacted by swing price adjustment on 31 March 2017.

Notes to the Financial Statements

for the year ended 31 March 2017 (continued)

19. Total expense ratio

The Total Expense Ratio ("TER") has been computed by the Administrator as required per the Swiss Funds & Asset Management Association guidelines on the calculation and disclosure of the TER of collective investment schemes. The actual expenses incurred during the year are annualised and calculated as a percentage of the average Asset Under Management of the share class for the year. The TER also includes the percentage corresponding to passive hedging fees.

Synthetic TER, which includes the TER percentage of the underlying fund of funds held in the sub-fund, is also computed by the Administrator.

20. Disclosure requirements for index-tracking UCITS:

The Economic Scale Index GEM Equity Fund, Economic Scale Index Global Equity Fund, Economic Scale Index Japan Equity Fund and Economic Scale Index US Equity Fund are the index tracking sub-funds existing at the date of this report.

Sub-fund	Performance sub-fund	Performance index	Tracking difference	Tracking error
Economic Scale Index GEM Equity Fund	21.97%	22.36%	(0.32%)	0.31%
Economic Scale Index Global Equity Fund	15.84%	15.71%	0.11%	0.13%
Economic Scale Index Japan Equity Fund	17.25%	17.62%	(0.31%)	0.17%
Economic Scale Index US Equity Fund	17.52%	17.46%	0.05%	0.06%

The Performance of the sub-funds and annualised Tracking Errors are internally calculated by HSBC Global Asset Management (UK) Limited, based upon investment accounting performance returns using close of market prices, gross of fees, based on monthly data points. For example, 12 monthly points for 1 year, 36 monthly points for 3 years and 60 monthly points for 5 years.

The anticipated level of tracking error between the Fund and the Benchmark index, in normal market conditions, is maximum 0.600% for the sub-fund Economic Scale Index GEM Equity Fund and 0.200% for the remaining three sub-funds.

The sub-funds are in line with the anticipated tracking error.

Changes in the investments of any sub-fund and re-weightings of the relevant index may give rise to various transaction costs (including in relation to the settlement of foreign currency transactions), operating expenses, custody costs, taxes, corporate actions, cash flows into and out of a sub-fund from dividend/reinvestments or inefficiencies which may adversely impact a sub-fund's tracking of the performance of an index. Furthermore, the total return on investment in the Shares of a sub-fund will be reduced by certain costs and expenses which are not taken into account in the calculation of the applicable index.

Notes to the Financial Statements

for the year ended 31 March 2017 (continued)

21. Subsequent events

As a result of new legislation, Funds whose shares are listed on an official stock exchange are subject to additional audit provisions. The Board of Directors considers that these additional provisions, whilst adding costs, do not effectively bring any real benefit to the investors. Consequently the Board has decided to cancel the listing of share classes on the Luxembourg Stock Exchange and to list the relevant classes on the EURO MTF, a Multi Trading Facility recognised as a regulated market in Luxembourg. The listing on the Euro MTF provides the funds with similar benefits currently enjoyed, without the costs.

a) The following merger will take place subsequent to year end:

Effective date	Merging UCITS	Receiving UCITS
12 May 2017	HSBC Europe Convertibles	HSBC Global Investment Funds - Euro Convertible Bond

b) The following sub-funds will be closed:

- ▶ Global Emerging Markets Investment Grade Bond on 1 June 2017
- ▶ Global Emerging Markets Corporate Debt on 30 June 2017

Appendix I (Unaudited Additional Disclosures) – Taxation of the Company (foreign countries)

The following summary is based on the Company's understanding of the law and practice currently in force in the in other jurisdictions and is subject to changes therein.

Belgium

The Belgian government has enacted a law which charges an annual net asset value tax on foreign investment funds registered with the FSMA (Financial Services and Markets Authority). An annual tax of 0.0925% is charged on the net outstanding amounts of sub-funds placed in Belgium through Belgian financial intermediaries on 31 December of the preceding year.

To date as the amounts are small, the Management Company has paid this tax cost on behalf of the Company out of the Operating, Administrative and Servicing Expenses it receives. However, should the cost become substantial or long term, the Management Company may require the sub-funds concerned to bear that tax charge for future periods.

China

On 30 June 2016, the Ministry of Finance and State Administration for Taxation ("SAT") jointly issued a supplementary circular Caishui [2016] No.70, which provides Value-Added Tax ("VAT") exemption for capital gain realized by RQFII from securities trading through entrusted onshore company in China and capital gain realized by overseas institutions approved by the People's Bank of China to make investment into the interbank local currency market.

Where the Company invests in shares and securities issued by companies tax resident (or with their primary activity) in the People's Republic of China ("PRC"), securities issued by government agencies in the PRC or other permissible PRC investments, the Company may be subject to withholding and other taxes imposed in the PRC. Pursuant to circular Caishui [2014] No.79, capital gain realized after 17 November 2014 by QFII/RQFII from transfer of equity investment assets is temporarily exempt from PRC Corporate Income Tax ("CIT"). Dividends, coupon or interest received by QFII/RQFII is subject to 10% CIT withholding. Pursuant to circular Caishui [2014] No.81, Hong Kong investors realized capital gain through the Shanghai-Hong Kong Stock Connect from A shares trading is temporarily exempt from CIT withholding. Dividends income received by Hong Kong investors currently is subject to 10% CIT withholding by the issuer. However the treaty relief may be applied if applicable. The seller should pay Stamp Duty at 0.1% of the consideration/value. The Stamp Duty is deduced by the Stock Exchange from the Settlement Amount.

On 23 March 2016, the Ministry of Finance and SAT jointly issued a notice Caishui [2016] No.36 which provides the detail implementation guidance on the further rollout of the VAT reform. From 1 May 2016 VAT has replaced PRC Business Tax ("BT") to cover all sectors that used to fall under the PRC BT. Under Notice No.36, capital gain realized by QFII from securities trading through entrusted onshore company within China and capital gain realized by Hong Kong investors through the Shanghai-Hong Kong Stock Connect from A shares trading are exempt from PRC VAT.

Hong Kong

The Company may be subject to Hong Kong profits tax in relation to a particular sub-fund if it is treated as carrying on a trade or business in Hong Kong either on its own account or through the agency of the investment adviser of that sub-fund. If the Company is treated as carrying on business in Hong Kong, a liability to profits tax, the rate of which is currently 16.5%, shall only exist in respect of any profits of the relevant sub-funds which arise in or are derived from Hong Kong from that trade or business, and which are not capital profits. Such amounts may include, but not be limited to, profits arising from the disposal of securities (except those held as capital assets) listed on the Hong Kong Stock Exchange, unlisted securities where the purchase or sale contracts are effected in Hong Kong and interest income arising from certain debt instruments where the loan funds were first made available to the issuer in Hong Kong.

Under Hong Kong tax law and practice, funds resident outside Hong Kong ("Offshore Funds") are exempted from Hong Kong profits tax providing certain conditions are met. It is intended that affairs of the Company shall be conducted as far as possible to comply with the conditions for exemption from profits tax. However, the Company can offer no warranty that such exemption will be obtained in every instance.

Appendix I (Unaudited Additional Disclosures) – Taxation of the Company (foreign countries) (continued)

India

On the basis that they are Mauritian tax residents, the Subsidiaries shall benefit from the tax advantages available to them under the India-Mauritius double taxation treaty, which became effective on 1 July 1983. The Subsidiaries shall file, through their Custodian, a declaration of Mauritian residency with the registrar of each Indian company in which it invests. Capital gains resulting from the purchase and sale by the Subsidiaries of stocks on the Indian stock exchanges will be exempt from tax on the basis that the Subsidiaries are able to benefit from the provisions of the India-Mauritius double taxation treaty.

The India - Mauritius treaty has been amended via protocol dated 10 May 2016 wherein Capital gain tax exemption on “Shares” is withdrawn in a phased manner. Investments in shares as on 31 March 2017 have been grandfathered and will not be liable to tax in India. The investments made on or after 01 April 2017 and sold on or before 31 March 2019 will be liable to tax at 50% of the tax rates applicable under Indian Domestic Tax Laws subject to satisfaction of Limitation of Benefit clause of the tax treaty. With effect from 1 April 2019, full domestic tax rate will apply (0% - 32.445% for Foreign Portfolio Investors depending on the holding period and whether the shares are listed on recognized stock exchange in India or not).

Interest on certain notified securities and bonds and on deposits in foreign currency with scheduled banks is exempt from income tax. As per amended India - Mauritius tax treaty, with effect from 1 April 2017, interest on other securities earned by a Mauritius tax resident in India will be liable to tax at the rate of 7.5%. The sale and purchase of stocks and securities is exempt from Indian Sales tax.

The above-stated tax treatment under the India-Mauritius tax treaty shall be available provided that the Subsidiaries neither have a permanent establishment nor their effective management and control in India. No guarantee or warranty can be given or should be assumed that the tax benefits of the said treaty shall continue to be available to the Indian Equity and in Global Emerging Markets Equity sub-funds in future periods due to, among others, changes in the regulatory environment in Mauritius, India or the European Union.

Dividends paid by the Indian companies are exempt from tax in the hands of the recipients if the said company pays a dividend distribution tax at the prescribed tax rate on dividends declared, distributed or paid by them on or after 1 April 2003.

India-Mauritius tax treaty benefits are subject to fulfilment of the conditions prescribed under the General Anti-Avoidance Rule.

Mauritius

The Subsidiaries are registered with the Financial Services Commission in Mauritius as global business companies. As a result they are subject to a reduced rate of Mauritian income tax on their income. In addition, no Mauritian capital gains tax shall be payable in respect of the Subsidiaries investments in India and any dividends and redemption proceeds paid by the Subsidiaries to the Indian Equity or Global Emerging Markets Equity sub-funds shall be exempt from Mauritian withholding tax. A certificate of Mauritian tax residence has been granted to the Subsidiaries by the Mauritius Revenue Authority. On the basis that they are Mauritian tax residents, the Subsidiaries have to date qualified for certain reliefs from Indian tax as set out in the Indian tax paragraph above.

United Kingdom

It is the intention of the Board of Directors to conduct the affairs of the Company so that it does not become resident in the United Kingdom. On the basis that the Company is not resident in the United Kingdom for tax purposes it should not be subject to United Kingdom corporation tax on its income and capital gains.

France

For the purpose of eligibility requirements of article 17 of the French Finance Act 2014 later Article 150-OD of the Tax General Regulation, the following sub-funds have invested in excess of 75% of equity or equity equivalent securities. Only French tax residents can benefit from the measure.

Appendix II (Unaudited Additional Disclosures) – UK SORP Disclosure

Investment Risk

Information in relation to certain investment risks are disclosed for selected sub-funds as follows:

Market risk

Market risk is the risk that the fair value or future cash flows of financial instruments will fluctuate due to changes in market variables such as market prices, foreign exchange rates and interest rates. It comprises of three major types of risks i.e. currency risk, interest rate risk and other price risk.

As invested in equities and fixed income securities, the Fund is exposed to the risk that the equity and fixed income markets decline. This risk is monitored in absolute by the equity exposure and relative to the benchmark by the calculation of the ex-ante tracking-error.

(i) Currency risk

Currency risk is the risk that the fair value or future cash flows of a financial asset will fluctuate because of changes in foreign exchange rates.

The table below summarises the following sub-funds' exposure to currency risk.

Sub-fund	Currency	Net currency exposure in Sub-fund currency
Frontier Markets		
	COP	20,056,049

	Other	689,042,029

Appendix II (Unaudited Additional Disclosures) – UK SORP Disclosure (continued)

Investment Risk (continued)

Market risk (continued)

(ii) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial asset will fluctuate because of changes in market interest rates.

The table below details the following sub-funds' exposure to interest rate risk.

	Frontier Markets USD	Global Emerging Markets Equity USD	Global Emerging Markets Bond USD	Global Emerging Markets Local Debt USD
Cash at bank	25,954,909	6,898,851	124,619,520	492,330,512
Bank overdraft	-	-	-	(1,630,000)
Bonds	221,031	-	3,701,624,619	1,435,349,116
Interest Rate Swaps	-	-	-	(324,663)
Treasury bills	-	-	99,142,577	651,999,149
Total	26,175,940	6,898,851	3,925,386,716	2,577,724,115

(iii) Credit risk

The Company is subject to credit risk as the sub-fund invests in bonds.

Analysis of direct credit risk

	Currency	Investment grade	Non-investment grade	Unrated	Total
Frontier Markets	USD	-	-	221,031	221,031
Global Emerging Markets Bond	USD	990,411,675	2,667,642,076	43,570,868	3,701,624,619
Global Emerging Markets Local Debt	USD	734,873,155	482,397,470	218,078,491	1,435,349,116
Managed Solutions - Asia Focused Income	USD	78,628,697	48,969,339	13,829,962	141,427,998

Credit risk arising on bonds is mitigated by investing in government bonds where the credit risk is minimal, or corporate bonds which are rated at least investment grade. The sub-funds also invests in high yield and emerging market bonds which are non-investment grade. The sub-fund manages the associated credit risk by requesting the investment manager to diversify the portfolio to minimise the impact of default by any one issuer.

Appendix II (Unaudited Additional Disclosures) – UK SORP Disclosure (continued)

Investment Risk (continued)

Market risk (continued)

(iv) Other price risk

Other price risk is the risk that the fair value or future cash flows of a financial asset will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk), whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting all similar financial instruments traded in the market.

Other price risk arises principally in relation to the Sub-fund's return seeking portfolio which includes shares, depositary receipts, warrants/equity linked securities, preferred shares and collective investment scheme.

The Sub-fund manages this exposure to other price risk by constructing a diverse portfolio of investments across various markets.

At the period end, the Sub-fund's exposure to investments subject to other price risk was:

Frontier Markets

	USD
Direct

Investment Risk (continued)

Fair value hierarchy

The fair value of financial instruments has been determined using the following fair value hierarchy:

Category (a) The quoted price for an identical asset in an active market.

Category (b) When quoted prices are unavailable, the price of a recent transaction for an identical asset adjusted if necessary.

Category (c) Where a quoted price is not available and recent transactions of an identical asset on their own are not a good estimate of fair value, the fair value is determined by using a valuation technique which uses:

c (i) observable market data; or

c (ii) non-observable data.

The sub-fund's investment assets and liabilities have been fair valued using the above hierarchy categories as follows:

Sub-fund	Currency	Category (a)	Category (b)	Category c(i)	Category c(ii)	Total
Frontier Markets	USD	349,901,490	6,510,371	-	-	356,411,861

Global Emerging Markets Local Debt	USD	2,024,293,094	116,228,659	-	-	2,140,521,753

Appendix III (Unaudited Additional Disclosures) – Dealing Days of the Fund

Dealing for Shares in the Company will take place on any Business Day (other than days during a period of suspension of dealing in Shares) and which is also for each Sub-fund, a day where stock exchanges and regulated markets in countries where the Sub-fund is materially invested are open for normal trading.

The Business Days which are not Dealing Days will be listed in the annual report and semi-annual reports and available at the registered office of the Company. Any amendments to such lists are also available at the registered office of the Company.

Shareholders who deal through the Company's local distributor or representative should note that there will be no dealing for the Shares of the Company in the jurisdiction in which such distributor or representative operates on a day which is not a Business Day in such jurisdiction. Shareholders in such jurisdictions can however deal via the Transfer Agent in Luxembourg.

The Company will determine the dealing/non-dealing calendar according to the latest market information obtained by the Company from time to time. Shareholders can obtain the latest dealing/non-dealing calendar of the Company from the registered office of the Company or from the Company's local distributor or representative.

HSBC Investment Funds (Hong Kong) Limited has been appointed by the Company as its Representative and Share Distributor in Hong Kong. There shall be no dealing for the shares of the Company in Hong Kong on a day which is a public or bank holiday in Hong Kong.

Appendix IV (Unaudited Additional Disclosures) – Fund Holiday Calendar for 2017

NOTE: THIS CALENDAR IS INDICATIVE AS DATES IN SOME COUNTRIES ARE SUBJECT TO CHANGE.

All HGIF Sub-funds will have no NAV calculated on the following days:

- all Saturdays and Sundays

In addition, the following Sub-funds will have no NAV calculated on the following dates:

* Other – dates on which other individual markets, which when amalgamated represent a material portion of the fund's underlying exposure, are closed.

** The NYSE and Nasdaq are open on Columbus Day (09 October) therefore equity sub-funds listing the US as a material market will not have a holiday on this date. Bond markets will be closed to trading on this date and bond sub-funds listing the US as a material market will have a holiday day delayed by one business day in line with a policy adopted by the Board of Directors.

Appendix V (Unaudited Additional Disclosures) – Investment Advisers

The Board of Directors of HSBC Global Investment Funds is responsible for the overall investment policy, objectives and management of HSBC Global Investment Funds and its sub-funds.

The Board of Directors has appointed HSBC Investment Funds (Luxembourg) S.A. as Management Company to be responsible, on a day-to-day basis under the supervision of the Board of Directors, for providing investment management in respect of all sub-funds.

The Management Company has delegated the investment management services to Investment Advisers.

The table below lists the Investment Adviser – and also where applicable the Sub-Investment Adviser(s) of each sub-fund.

Appendix VI (Unaudited Additional Disclosures) – Risk Management

General

HSBC Investment Funds (Luxembourg) S.A. (the “Management Company”) uses a risk management process that monitors the risk of the portfolio positions and their share of the overall risk profile of the portfolios on the managed funds at any time. In accordance with the Law of 17 December 2010 and the applicable regulatory requirements of the Commission de Surveillance du Secteur Financier (“CSSF”), the Management Company reports to the CSSF on a regular basis on the risk management process. The Management Company assures on the basis of appropriate and reasonable methods that the overall risk associated with derivatives does not exceed the net asset value of the portfolio. The Management Company uses the following methods:

Commitment Approach

The “Commitment Approach” is based on the positions of Financial Derivative Instruments (“FDI”) converted into their corresponding underlying equivalents using the delta approach. Netting and hedging might be considered for FDI and their underlying assets provided that the approach complies with the regulations. The sum of these underlying equivalents must not exceed the net asset value of the fund.

Value-at-Risk (“VaR”) is a mathematical approach used to estimate the potential loss of a portfolio over a specified holding period within a given confidence level. VaR can be calculated on either an absolute or a relative basis.

Absolute VaR approach

In the absolute VaR approach the VaR (99% confidence level, 20-day holding period) of the fund cannot exceed 20% of the fund net assets.

Relative VaR approach

Relative VaR is calculated in relation to a suitable benchmark or reference portfolio. Using this approach, the relative VaR cannot exceed the VaR of a reference portfolio by more than a maximum of twice (200%). The reference portfolio is a matching portfolio in comparison to the Fund's investment policy.

The Central Investment Risk Team of HSBC Global Asset Management Limited is responsible for specifying, maintaining and running the APT risk model, and ensuring that appropriate analysis and reports are available for the local risk teams to consume. The local risk teams (AMUS, AMFR, AMEU, AMHK) are responsible for running the reports they require, applying Management Action Trigger levels (“MATs”), following up with fund managers, and reporting as required to the Management Company.

The calculation of the VaR is done accordingly to the following calculation standards and in line with the standards defined in ESMA guidelines 10/788 Box 15 and CSSF CR 11/512:

- a) Confidence interval: 99%
- b) Simulation horizon: 4 weeks.
- c) Model estimation window of 181 weeks (3.5 years) used to calibrate the correlation structure of the model.
- d) Daily VaR calculation with daily data sets updates

Currently the risk team use the APT Parametric VaR approach.

APT sungard new risk system has been implemented since April 2016 (by AMFR) and June 2016 (by the rest of the risk teams) and more accurate VAR results have been obtained since. APT risk system has replaced Algorithmics in the AMG locations where the old risk system was used.

The formerly used Algorithmics risk engine used a historic simulation approach with the following parameters:

- One tailed confidence interval of 99%.
- Holding period equivalent to 1-month.
- Effective observation period of at least 250 days.
- Daily data set updates.
- Daily VaR calculation

Leverage

For sub-funds measuring and monitoring the global risk on derivatives via VaR approach, the Management Company has delegated the leverage monitoring to the respective sub-funds' Investment Advisers who determine the sum of the notional values of all the relevant FDI and estimate in this regard a degree of the expected average value (leverage). This level of leverage can, depending on the respective market conditions, derive from the actual value at the reporting date. Furthermore, the published expected/ level of leverage is explicitly not understood as an investment limit.

For the sub-funds using the sum of notionals or commitment method, the leverage has been calculated using the sum of notionals for the entire period.

Sub-fund	Starting Period	Ending Period	Leverage Methodology	Maximum Expected Level of Leverage	Realised Average Level of Leverage
1) Bond Sub-funds					
HGIF - Asia Bond (launched as at 29 June 2016)	29/06/2016	31/03/2017	Sum of Notionals	20%	0.00%
