About CZUB

Nestled in the rolling hills of the southeastern Czech Republic is Ceska Zbrojovka, Uhersky Brod (CZUB for short).

The Uhersky Brod plant is the largest small arms factory in the world, including over 200 acres of buildings alone. Ceska Zbrojovka translates to Czech weapons factory and Uhersky Brod is the town where it is located. The factory was built in 1936. Just 12 months after the ground was broken, the first machines were turned on. This "Can do" attitude has made and kept CZUB on the forefront of the small arms industry.

Visit your local gun shop, pick up a CZ, and see why CZ firearms are revered the world over.

At CZ-USA we are constantly adding new products and configurations to our product line to meet the sporting needs of the U.S. customer. We are doing everything that we can to help our customers have a safe and successful experience when using our products in the field, in competition, or daily life.

The American pattern stocks are now available on sporter and varmint weight rifles in both centerfire and rimfire models. Beginning in 2004 the American pattern stock is also offered on the CZ 550 Safari Magnums in 2 grades of American black walnut, and 3 laminate color configurations.

The 2004 catalog contains 6 cartridges new to CZ rifles (.17 Remington, .221 Fireball, .270 WSM, 7mm WSM, 300 WSM, and .458 Lott) and we are working on more all the time.

The new Model 712 and 720 semi-auto shotguns will get the job done whether in the duck blind or behind a pointer. Finally the little CZ 2075 RAMI is now available in the U.S., and is perfect for off duty officers or concealed carry permit holders.
