2. Your instructor is officially certified to train by the American Council of Hypnotist Examiners. Many people offering short, ineffective trainings are not certified by any licensing board and may not know what they are doing.
3. You must be trained for the real world. Many schools do not take the time to develop a student for the real world. Not only must you discover the power within, but you absolutely must discover the secrets to helping anyone access their full potential self.

Becoming a certified clinical hypnotherapist is the next step to having the tools to truly succeed—both for your practice and your client or patient!

Ms. Covington will review your clinical notes and discuss your work before awarding you your certificate of completion for the 501 level.

### **How Long Will It Take to complete the Online Hypnotherapy Training Program?**

This is a self paced program and you can create your own learning schedule. Completion time varies depending on your learning style and amount of time you have to study and practice. ## What Our Students Are Saying:

"My name is Verena Martin and I'm a Certified Clinical Hypnotherapist. I graduated from Jane Ann Covington's hypnosis program in 2011 and since, I've opened my own business and I've been working full-time as a hypnotherapist.

It's been a wonderful experience going through Jane Ann's education program. She's an amazing person and I feel very blessed having had her as my teacher. Jane Ann has a wealth of experience, wisdom and knowledge and she shares all of it with her students to get them ready to become hypnotherapists or hypnotists and be able to work full-time or part-time running their own business.

The program also changes you as a person on the inside and it gets you ready to work with clients. It's hands-on; there's practical training involved, not just theory so you're really ready once you graduate to go out and start your own business.

So I'm very blessed having worked with Jane Ann and I can highly recommend for you to give this a try. It will not only enrich your life, but you can also enrich the lives of other people."

-Verena Martin, CCHT

"I just wanted to drop you a line to thank you for the outstanding training program. The time I spent in your training program was probably the best discovery experience of my life. I learned more practical, useful information during those three months than I learned during four years of college or high school.

I really looked forward to every day of that class, as well as watching my classmates grow and become stronger as individuals. The hands-on experience is invaluable.

I remember being surprised and delighted that we were actually DOING the things we were learning right away. I simply can't recommend your program enough to anyone who might be interested....it's great!"

-Sean Wheeler, BS, CCHT

"I felt the training program had A-to-Z coverage. WOW! Where to start? Vistas were expanded, limitations melted away, while feeling well-grounded in reality!"

-Pat Fleming, PA, CHT

"Jane Ann Covington is a skilled and dedicated educator who worked dramatically and effectively with the entire group. I've been re-educated, motivated, inspired, and thoroughly and permanently mind-altered!"

-Maria Price

"This was life-changing, practical, and presented well. Jane Ann Covington is dynamo!"

-M.A. Robertson, BA, RN, Counselor

"Having the benefit of Jane Ann Covington's many years of study and real world experience, I am now completely convinced of the value of hypnosis in modifying thought and behavior patterns. This course reinforced my previously tentative decision to move forward into further study of the mind-body connection, particularly as it related to healing and wellness." -Patricia Fitzgibbons

"As a psychotherapist, I was personally impacted by the 'processes' Ms. Covington taught us. We had so much fun learning."

-Teresa Agor-Glenn

"The best part about the training is learning from an instructor that has so much experience and expertise. The training is so thorough and there are numerous resources that are available to you. I know that I can change anything that I want in my life. I see my mind as a tool and with the knowledge gained I can help and transform my life and the lives of others." - Y. Helmi
