ABBREVIATIONS—K.=knit; P.= purl; st.=stitch; sl.=slip; w.fwd.= wool forward; w.ft.=wool front—bring wool to front of needle; w.b.=wool back—take wool to back of needle; w.r.n.=wool round needle: w.o.n.= wool on needle; p.s.s.o. = pass slip stitch over; tog.=together; t.b.l.=through back of loops; inc. = increase by working into front and back of stitch; dec.= decrease by working 2 sts. together; beg.=beginning; alt.=alternate; rep.= repeat; patt.=pattern; incl.=inclusive; ins.=inches; Cr.1F.=Cross 1 Front by inserting point of right-hand needle behind first st. into 2nd st. and knit, then into first st. and knit, then slip both sts. off needle together; Tw.2B.=Twist 2 back by knitting into back of 2nd st., then back of first st. on left-hand needle and slipping 2 sts. off needle together; Tw.2F.=Twist 2 Front by knitting into front of 2nd st., then front of first st. on left-hand needle and slipping 2-sts. off needle together; Tw.2P.=Twist 2 purlwise by purling into front of 2nd st., then front of first st. on left-hand needle and slipping 2 sts. off needle together.

HOW TO CHECK YOUR TENSION— Before you knit these designs check your tension carefully. Take a pair of No. 12 needles and some Patons Beehive Baby Wool, Patonised. Cast on 17 sts., and work in stocking stitch-1 row knit; 1 row purl-for 21 rows. Cast off; press very lightly on wrong side. The tension should be $8\frac{1}{2}$ sts. and $10\frac{1}{2}$ rows to one

square inch and the knitted square should measure 2 inches each way. If the square is bigger your work is too loose; try a size finer needle. If it is smaller your work is too tight; try a size coarser needle. If you knit to the correct tension in stocking stitch, you will knit naturally to the correct tension for any stitch in this book. If you alter the needles to obtain the correct tension in stocking stitch corresponding alterations must be made to the needles throughout.

SIZES—The figures in square brackets [] refer to the large size.

MAKING UP—Except where otherwise stated a flat seam is used.

RIMPLE—Because of Rimple's special nubbly character, the knitted fabric is subject to slight variations in size and may produce a more casual, easy-fitting garment than is usual with classic P & B brands.

WASHING DOUBLE KNITTING— As some of these designs use a sub-

stantial weight of double knitting wool, special care in washing and drying is essential if they are to keep their shape. Surplus water should be removed as quickly and as thoroughly as possible (a light wringer is permissible); while the garments are wet they should be continually supported and should on no account be hung up to dry.

WASHING BABIES' HANDKNITS

Baby clothes need more washing than any others—but this suits woollies because they should in any case be

washed frequently and lightly.

Both Patons Beehive Baby Wool and Quickerknit Baby Wool are Patonised: this shrink-resist finish, developed by, and exclusive to, P & B, ensures that garments will not shrink or stretch and will keep their new-look freshness through repeated washings, provided these recommended methods are used: 1. Wash handknits by hand, not machine. Use soap, soap flakes and soap powders or, especially in hard water, detergents—don't use bleaches, they scorch wool brown.

Follow exactly maker's instructions about quantities. Don't use too little soap, especially in hard water; if you rub to remove dirt, fabric will felt and this cannot be rectified.

Dissolve washing product completely in hot water; add cold until suds are lukewarm for soap products, cool for detergents. Prepare enough washing water to cover garment completely. When every speck of washing powder or soap has completely dissolved, put garment in and work suds through gently and quickly for about two minutes. Don't rub, let garment soak, or lift it above surface of water.

All-white woollies: before washing for first time, especially thick wools, steep for 30 minutes in bowl of cold water

(exact amount does not matter) to which 3 or 4 tablespoons of household ammonia have been added—but don't use ammonia for white garments with coloured stripes. Ammonia neutralises any acid which may have been left by the dyeing process.

- 2. Rinse thoroughly in cool water, changing until it comes clear. Whenever you lift garment from water, support it with both hands: unsupported wet garments soon distort—especially double knittings.
- 3. Dry handknits by quickly getting rid of as much water as you can. Don't pull or twist garment, but squeeze between towels, or fold in towel and pass through light rubber wringer, after removing any buttons which may break and cause damage.

Ease garment into shape and, if possible, lay flat in airing cupboard—don't try to dry it quickly in front of a fire.

If you must hang it up—lengthwise across a line or rack, please; fold sleeves back so that they do not hang down and stretch. If you dry garment outside, keep it in the shade—wet wool scorches and turns brown in the sun.

When the garment is dry, reblock to correct size and shape, and lightly press under damp cloth.

Drying Machines. Spin dryers are very suitable for woollies, but tumbler dryers should never be used as their tumbling action causes felting.
