IACUC Update

Institutional Animal Care and Use Committee
The University of Texas at Austin

"Introduction to Wildlife" offered in the AALAS Learning Library

Do you conduct studies with wildlife in research? If so, there is a new AALAS Learning Library (ALL) module "Introduction to Wildlife." This module will provide information on:

- Protocol review issues
- Occupational health issues
- Transportation and holding of wild caught animals
- Capture methods
- Marking or identification methods
- Proper permits from local and federal agencies
- Recognition and management of pain and distress in wild animals
- Euthanasia, and more!

At the July 14, 2014 Full Committee Review, the IACUC voted to require this module for all non-fish, non-amphibian, non-traditional laboratory animal users, effective December 1, 2014. For a specific listing of affected species, please refer to the attached listing.

On December 1, 2014, all species listed in the attached listing will be coded in eProtocol for this course. At that time, you will not be able to submit any protocol action (e.g., Amendment, Continuing Review, New Protocol, etc.) if any personnel on your protocol(s) do not have the "Introduction to Wildlife" (course ID 3928) course in their training profile.

IACUC Website

The IACUC website is a valuable resource to investigators. It contains links to informational materials, meeting dates and deadlines, and contacts pertaining to animal research on campus and nationally.

We are continually evaluating the website to better serve you. Be sure to check back frequently for new updates.

Meeting Requirements for Alternative Searches: Webinar Available for Viewing

A recording of the OLAW Online Seminar "Meeting Requirements for Alternatives Searches: Information for IACUCs and Investigators" broadcast on June 26, 2014, has been posted on the OLAW website.

In this webinar, Kathleen Gregory, reference librarian at the University of Denver, provided information for IACUCs and researchers about the alternatives search required by the USDA Animal Welfare Regulations.

The recording and supporting materials can be found on the Education Resources webpage.

When you view the webinar, please email Justin McNulty (jmcnulty@austin.utexas.edu) so that your TXClass training record can be documented.

eProtocol Tip of the Month

Remember: Protocols, Amendments, and Continuing Review applications cannot be submitted to the IACUC for review if there are any incomplete or expired training items for any personnel listed on the protocol.
