

ICD-10 Provider Overview

Topics

- ICD Background
- DSM-5
- ICD-9-CM vs. ICD-10-CM
- What is Changing?
- Impact on Providers
- ValueOptions® Approach
- Timeline
- Provider Readiness
- Provider/Trading Partner Testing
- Resources
- Contacts
- Questions

Background

- International Statistical Classification of Diseases (ICD) and Health Related Problems:
 - Is a medical classification for disease, signs & symptoms, abnormal findings and social circumstances.
 - It is published by the World Health Organization (WHO)
- The latest versions of ICD
 - Nations adopt newer versions of ICD as their national “clinical modifications” (CM) become defined

Background

- ICD-10 (International Version)
 - Adopted by WHO in 1990
 - Used by most other countries
 - Adopted by the United States and scheduled for Go Live October 2015

- ICD-10-CM (US Version)
 - Final Rule Published in 2012
 - Compliance Date - **October 1, 2015**
 - ICD-9 code sets used to report medical diagnoses will be replaced by ICD-10 code sets.
 - The transition to ICD-10 is required for everyone covered by the [Health Insurance Portability Accountability Act \(HIPAA\)](#).

DSM-5

- Both DSM and ICD codes are used for diagnosis, but per HIPAA, ICD must be used for billing purposes.
- DSM-5 utilizes ICD-9-CM and ICD-10-CM coding depending on the date of service.
- Authorization requests will require the provider to supply the DSM-5 diagnosis using the correct ICD format depending on the requested start date.
- ValueOptions will accept ICD-9 coding for requested authorization start dates prior to October 1, 2015 and will accept ICD-10 codes beginning October 1, 2015.
- ICD-10-CM codes can be found in the DSM-5 manual.

What's Changing?

ICD-9 CM Diagnosis Codes	ICD-10- CM Diagnosis Codes
3 to 5 digits	7 characters
Alpha "E" or "V" on first character	Alpha or numeric for any character
Approximately 14,000 codes	Approximately 69,000 codes
Terminology	Similar
Severity parameters limited	Extensive severity parameters
Combination codes limited	Combination codes common

What's Changing?

- Diagnosis Code Changes – Clinical Example
 - ICD-9 → one ICD-10 code

ICD-9 to ICD-10 ICD-10 to ICD-9

[Add to your website](#)

ICD-9 293.81 > ICD-10

CODE	DESCRIPTOR
F06.2	Psychotic disorder with delusions due to known physiological condition

Source: <https://www.aapc.com/icd-10/codes/>

What's Changing:

- Diagnosis Code Changes – Clinical Example
 - ICD-9 → many ICD-10 codes

ICD-9 to ICD-10
 ICD-10 to ICD-9

Enter Code:

ICD-9 292.85 > ICD-10

CODE	DESCRIPTOR
F11.182	Opioid abuse with opioid-induced sleep disorder
F11.282	Opioid dependence with opioid-induced sleep disorder
F11.982	Opioid use, unspecified with opioid-induced sleep disorder
F13.182	Sedative, hypnotic or anxiolytic abuse with sedative, hypnotic or anxiolytic-induced sleep disorder
F13.282	Sedative, hypnotic or anxiolytic dependence with sedative, hypnotic or anxiolytic-induced sleep disorder
F13.982	Sedative, hypnotic or anxiolytic use, unspecified with sedative, hypnotic or anxiolytic-induced sleep disorder
F14.182	Cocaine abuse with cocaine-induced sleep disorder
F14.282	Cocaine dependence with cocaine-induced sleep disorder
F14.982	Cocaine use, unspecified with cocaine-induced sleep disorder
F15.182	Other stimulant abuse with stimulant-induced sleep disorder

What is Changing?

- Same content will be in many places
- Less than 5% of all ICD-9 and ICD-10 codes crosswalk 1:1
- In some cases, a single ICD-9 code could be represented by multiple ICD-10 codes or a cluster of ICD-10 codes may be required to describe a single ICD-9 code
- Some concepts will be lost when translating between ICD-9 and ICD-10
 - Substance Dependence concept has been removed from ICD-10
 - Substance Use is now defined by specific substance
- Overall, by using ICD-10, documentation will improve

ICD-10 Impact on Providers

- Systems Changes
 - Practice Management Systems
 - Billing Systems & Transactions
- Office Workflow Changes
- Documentation Changes
- Claim Submission Processes
- EDI Transactions

ValueOptions Approach

- Overall, ICD-10 conversion will affect our network providers' business processes
- ValueOptions will strive to assist providers through the ICD-10 conversion process to successfully meet the following goals:
 - Correct Documentation
 - Appropriate payment for services rendered

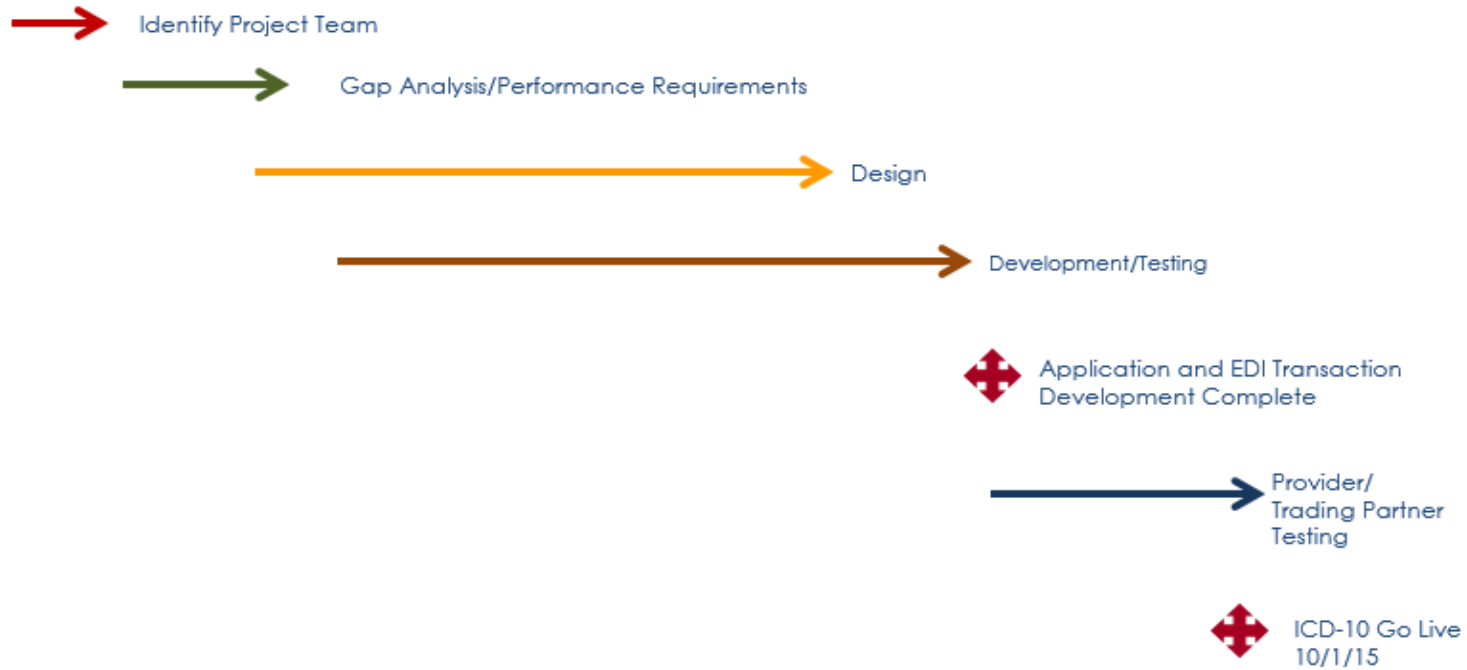

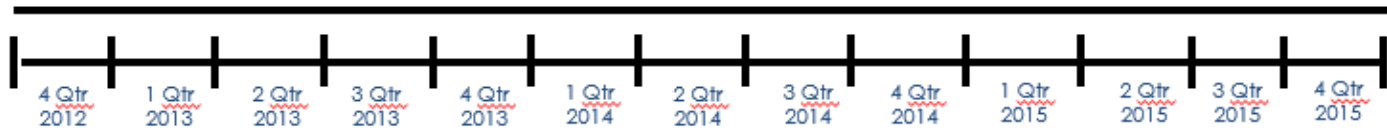

ValueOptions Approach

- General Assumptions:
 - Affected Codes:
 - Medical and behavioral health codes are in scope
 - Diagnoses: All ICD-9 diagnoses codes are being replaced
 - The compliance date for ICD-10 is October 1, 2015 and claims with dates of service on or after this date must use the new coding system.
 - Revenue codes will continue to be accepted after ICD-10
 - None of our fee schedules are currently based on ICD-10; therefore, existing Provider fee schedules are not impacted by the required code changes.

Timeline

ICD-10 Timeline

Provider Readiness

- To prepare for the ICD-10 transition providers should:
 - Create a transition team or project manager
 - Develop a conversion plan and communicate to staff
 - Determine what the overall impact will be on your organization or practice
 - Determine documentation and record changes
 - Speak with your payers, billing and IT staff
 - Reach out to trading partners about testing
 - Begin testing as soon as possible
- Access the CMS ICD-10 provider guides and checklist for further assistance with planning –
 - <http://www.cms.gov/Medicare/Coding/ICD10/ProviderResources.html>

ValueOptions Provider/Trading Partner Testing

- The ValueOptions ICD-10 development / testing is underway and started in Quarter 1 of 2014
- Testing will continue into Quarter 3 2015
- During testing, providers are able to submit test claims with both ICD-9 and ICD-10 codes to test dual use in the ValueOptions testing environment
- For testing questions and technical questions, providers can call the ValueOptions EDI Help Desk at 888.247.9311

CMS Resources

- CMS Provider Resources page
 - <http://www.cms.gov/Medicare/Coding/ICD10/ProviderResources.html>
- CMS Preparation Checklists
 - <http://www.cms.gov/Medicare/Coding/ICD10/ICD-10ImplementationTimelines.html>
- CMS has a detailed FAQ document about the ICD-10 transition available on their website:
 - <http://www.cms.gov/Medicare/Coding/ICD10/Downloads/ICD10FAQs2013.pdf>
- CMS will run Medicare claims with ICD-10 codes through end-to-end testing
 - <http://www.cms.gov/Outreach-and-Education/Medicare-Learning-Network-MLN/MLNMattersArticles/Downloads/SE1409.pdf>

ValueOptions Resources

- ICD-10 Transition Materials
