FOREWORD

Dear Parents and Students,

While it has always been the aim of the school to provide students with an environment in which they can learn effectively and enthusiastically, we also encourage them to challenge themselves so that they can cope with a suitable amount of pressure and competitiveness.

Our Year 8 students are now approaching the end of their Key Stage 3 education. To prepare for their Key stage 4, students have to embark on a two-year course known as the International General Certificate of Secondary Education (IGCSE), at the end of which they will sit a series of examinations. Throughout the next two years, they also have to complete a number of coursework components. To be successful in this course, they have to work consistently hard throughout.

We adopt Cambridge Assessment International Education as our examination board, which is the largest and the most established IGCSE provider in the world. In addition, the IGCSE is a subject-specific curriculum. This means that students have to choose a number of subjects to study in depth for the next two years. The types and number of subjects offered are based on the rationale that students should follow a fairly wide and balanced curriculum. This philosophy also ties in with the Diploma Programme of the International Baccalaureate, which students will follow after the completion of their IGCSE course.

This booklet serves to outline the subjects offered by the school and provide an overview of the examination requirements. We hope that you will find this booklet informative and, if you have any queries, please contact our subject teachers or the school administrators.

Dr LAU Siu-Ling
Head Principal
Po Leung Kuk Choi Kai Yau School

INTRODUCTION

Each student's IGCSE selection will comprise a number of compulsory subjects, and a range of electives (Optional subjects). There is also an "Extra Option" available in English Literature, however, this will only be offered to those pupils who have shown outstanding ability in the subject and a passion for reading.

Chinese, English, International Mathematics and Global Perspectives will be offered as part of a core programme and are not optional. However, pupils will be entered for either *First Language* or *Second Language* English and Chinese based on their level of language proficiency. In addition, pupils must choose a minimum of at least one Science subject and one from the Individuals & Societies faculty.

Optional Subjects

In addition to English, Chinese, Maths and Global Perspectives, which must be taken by all pupils, students must indicate their preferred optional subjects in each block of subject choices. When choosing options students are reminded to observe the following rules:

1. Where possible, students will be entered for the 6 subjects they choose on the reply slip. If a subject proves to be unavailable then the student will automatically be entered for their back-up option.
2. Students must choose **at least one** Science from Biology, Chemistry and Physics.
3. Students must choose **at least one** subject from Business Studies, Economics, Geography and History.
4. Pupils **should not** choose both Business Studies and Economics
5. For linguistically able students, they may be offered English Literature. Students cannot *choose* to take this options; however, they should indicate whether they would accept it if it were offered.
6. Parents and students should note that the final choice of the subjects has to meet with the approval of the school. Where possible, students should achieve at least an M grade in their overall academic achievement in each subject they have chosen. When making the final decision, the school will take into consideration the student's ability and attitude.
7. Subjects may not run if they only attract a small number of students, in which case we will take the students' back-up choice.

Compulsory Subjects:		
	Chinese Global Perspectives	English Mathematics
Optional Subjects:		
<i>At least one from:</i>	Biology Physics	Chemistry
<i>At least one from:</i>	Business Studies Geography	Economics History
	Art Design Art Textile Design & Technology Food & Nutrition Music	Additional Mathematics Physical Education Drama ICT
Extra Option:		
	English Literature	

Changing Subjects

It is normal for students to be unsure about some subjects, particularly those they have not studied before. As such, it is possible to request a change to your subject choices after the form has been submitted. Any request must take the form of a letter outlining the reasons for the proposed change signed by the parent/guardian. This should be handed to the IGCSE Coordinator as soon as possible. However, please bear in mind that some subjects may become full, and changing into a class may not be possible. After the end of September students will no longer be able to change into a subject, however, if a student is really struggling with a subject there will be opportunities to drop subjects later in the course.

Examination Fees

The total cost of a student's IGCSE examinations will vary depending on the number of subjects they take and the exchange rate at the time of payment.

IGCSE & IBDP

After completing their IGCSEs students will complete the final stage of their education with CKY; the International Baccalaureate Diploma Program (IBDP). For those wishing to go on to tertiary education in Hong Kong or abroad, it is important they make the right choices for their IBDP.

At IBDP students are asked to take six subjects: three at Higher Level (HL) and three at Standard Level (SL). For progression to IB Diploma, students are expected to attain a minimum of 3Bs and 3Cs in their IGCSEs with additional requirements stated below:

- i. a minimum of grade B in IGCSE for all Higher Level subjects, except Mathematics;
- ii. a minimum of Grade A in IGCSE Mathematics for Higher Level Mathematics.
- iii. a minimum of grade C in IGCSE for all Standard Level subjects;

Students who do not meet the above course selection requirement but achieved a minimum of 6Cs in the IGCSE are advised to opt to complete IB Certificates.

Students must choose one subject from each of the following groups, or, they may take two options from groups 3 or 4 at the expense of a group 6 subject. The subjects we expect to offer are listed below, however, please note that our IB program is constantly growing, and by the time our current Y8 students reach Y11 we hope to be able to offer an even greater range of subjects.

<i>Group</i>	<i>Options</i>
(1) Language A	English (Literature) English (Language and Literature) Chinese (Literature) Chinese (Language and Literature)
(2) Second Language	English B Chinese B
(3) Individuals and Societies	Business and Management Economics Geography History
(4) Experimental Sciences	Biology Chemistry Physics Design and Technology
(5) Mathematics	Mathematics Mathematics Studies
(6) The Arts	Visual Arts Music

For further information on the IBDP please feel free to consult our IB Diploma Coordinators or subject teachers. Detailed information is also available on the IB website (<http://www.ibo.org/>).

FIRST LANGUAGE ENGLISH (0500)

Although English is a compulsory subject at CKY, there are differences in the courses offered, depending on each pupil's competency in English. Students will be entered into either Cambridge First Language English IGCSE (Syllabus code 0500) or Cambridge English As A Second Language IGCSE (0510), based on their progress in the subject throughout years 6-8. Those students who are confident in their use of the English language will be entered for First Language and may also be offered the option to enter for English Literature IGCSE (see page 11). All other pupils will be entered for the Second Language exam. Both First and Second Language students will also complete a Speaking and Listening component, which is separately endorsed.

If you would like to know which IGCSE you are *likely* to be entered for, please consult your English teacher.

First Language English IGCSE (0500)

The First Language Syllabus is assessed on three components:

- Reading
- Writing
- Speaking and Listening

Students selected for the English First Language IGCSE are expected to show consistent competency in their use of English in each of the three main components.

The Syllabus will develop students' ability to communicate accurately, appropriately and effectively in speech and writing. Students will be encouraged to use relevant vocabulary, to employ correct grammar, spelling and punctuation, and to display a sense of style and audience.

In addition, it will complement their other studies by developing general skills such as the ability to analyse, synthesise, make inferences, order facts and present opinions.

Assessment: First Language English is assessed through both examination and coursework.

Examination	Length of Exam	Weighting
Reading and Writing (unseen)	2 hours	50%
Coursework – three essays of between 500 and 800 words each		50%

Students will also take an oral examination but these marks will not contribute to the overall grade. Instead, the achievement of grades 1 (high) to 5 (low) will be recorded separately.

ENGLISH AS A SECOND LANGUAGE (0510)

English as a Second Language IGCSE (0510)

The Cambridge English Second Language Syllabus is intended for students who are studying English in order to promote their educational or employment prospects. It reflects the widespread use of English as a medium for academic instruction, commercial activity and entertainment.

Students will learn to use English effectively as a means of practical communication. Work will be related to the kinds of situations students are likely to encounter later in life and the kinds of topics and interests about which they are likely to need to communicate. There is a strong emphasis on the ability to understand and impart information.

The course will prepare students to work or study in an English-speaking environment and will provide a sound basis for further development of English Language skills.

Assessment: English As A Second Language is assessed through means of examination, comprising two papers, and an oral coursework component. The majority of CKY candidates will take Papers 2 and 4 (the *Extended Curriculum*) detailed below, which is eligible for the award of grades A* to G, however a *Core Curriculum* (Papers 1 and 3) is available in which a reduced curriculum is covered in the exams with only grades C to G available. If the class teacher believes a student would benefit from completing the Core Curriculum the student and their parents will be informed as soon as possible.

Examination	Length of Exam	Weighting
Reading and Writing	2 hours	70%
Listening	45 minutes	30%

The oral coursework marks will not contribute to the overall grade. Instead, the achievement of grades 1 (high) to 5 (low) will be recorded separately.

If you would like to know which IGCSE you are *likely* to be entered for, please consult your English teacher.

ENGLISH LITERATURE (0486)

At CKY we will offer Cambridge English Literature (0486) as an *extra option*, in that it is intended only for high ability candidates who are likely to achieve Grade A* to B in the IGCSE English First Language examination. Candidates offered to enter for English Literature are expected to complete both the First Language and Literature syllabi in the same amount of time normally afforded a single subject. However, English Literature should not replace another optional subject.

Assessment: The English Literature IGCSE (0486) comprises 75% examination and 25% coursework. Students will sit two examinations, which last for 1 hour and 30 minutes (poetry and prose texts) and 45 minutes (drama text). Students will be given a choice of two questions for each text. There will be a passage based and essay style question. Students will be expected to know the texts extremely well and be able to express their own opinions about them.

There are 2 pieces of coursework that must be completed, one of which will be based on one of the set texts. The other piece will be based on another piece of literature that students will study. That is not to say that students will only complete two pieces. They will complete four pieces and will choose their best two to submit to the examiner.

Examination	Length of Exam	Weighting
Paper 1 – Poetry and Prose (Close text)	1 hour 30 minutes	50%
Paper 3 – Drama (Open Text)	45 minutes	25%
Paper 5 Coursework		25%

Students should keep up their personal reading as it will help with their English levels and will give them a wider appreciation of literature. Students will also be expected to take part in classroom discussions, as they can only develop their ideas by discussing them with the class and having them questioned by others. This will enable students to formulate their ideas and become more certain of what they think. It will also help them in the English oral component.

Is Literature hard?

No. If you can think for yourself and have an opinion about what you have read then it will not be hard. It will, however, be time consuming. There is a lot of writing to be completed to practice for the coursework and the examinations, but with time it will get easier!!

If you have been selected but are not sure about whether you should take the Literature course find someone from the English Department and we will do our best to answer your questions.

“If you love reading you will love Literature!!!!”

FIRST LANGUAGE CHINESE (0509)

Aims: The Cambridge First Language Chinese IGCSE Syllabus (0509) is designed for candidates whose mother tongue is Chinese. Cambridge IGCSE First Language qualifications are accepted by universities and employers as proof of knowledge and understanding of a language. The aims of the course are:

- Enable students to communicate accurately, appropriately and effectively in writing
- Enable students to understand and respond appropriately to what they read
- Encourage students to enjoy and appreciate the variety of language
- Complement the students' other areas of study by developing skills of a more general application (e.g. analysis, synthesis, drawing of inferences)
- Promote the students' personal development and an understanding of themselves and others.

Students are also encouraged to read widely, both for their own enjoyment and to further their awareness of the ways in which the language can be used. Cambridge IGCSE First Language qualifications also develop more general analysis and communication skills such as synthesis, inference, and the ability to order facts and present opinions effectively.

Assessment: The course comprises two papers. All candidates take Papers 1 and 2 and are eligible for the award of grades A* to G.

<i>Paper 1: Reading</i>	<i>2 hours</i>	Weighting
Candidates answer two questions:		60%
Question 1 – 25 marks Candidates answer a series of comprehension questions based on Passage 1		
Question 2 – 25 marks Candidates write a summary based on Passages 1 and 2.		
<i>Paper 2: Writing</i>	<i>1 hour 15 minutes</i>	Weighting
Candidates write one composition of 400-600 characters		40%

Cambridge Foreign Language Mandarin Chinese (0547) will also be available in special cases where Chinese is not used at home. Please speak to the Chinese IGCSE teachers or the IGCSE Coordinator for details.

INTERNATIONAL MATHEMATICS (0607)

This year we follow the Cambridge IGCSE International Mathematics Syllabus (0607).

The introduction of Cambridge IGCSE International Mathematics offers schools even more choice when it comes to selecting a mathematics course that is right for their students. Cambridge IGCSE International Mathematics has been designed for international schools that want their mathematics teaching to focus more on investigations and modeling, and which better utilizes the powerful technology of graphical calculators. The course integrates well with the approach to teaching of mathematics in IB schools. The course is divided into a core tier, and an extended tier. The syllabus also introduces students to the history of mathematics and its cultural significance.

Assessment: The majority of CKY candidates will take Papers 2, 4 and 6 (the *Extended Curriculum*), which is eligible for the award of grades A* to G, however a *Core Curriculum* (Papers 1,3 and 5) is available in which a reduced curriculum is covered in the exams. If the class teacher believes a student would benefit from completing the Core Curriculum the student and their parents will be informed as soon as possible.

The assessment objectives include mathematical techniques and applying mathematical techniques to solve problems.

CORE CURRICULUM			EXTENDED CURRICULUM		
Paper	Duration	Marks	Paper	Duration	Marks
Paper 1	45 minutes	40 marks	Paper 2	45 minutes	40 marks
Paper 3	1 h and 45 min	96 marks	Paper 4	2 h and 15 min	120 marks
Paper 5	1 hour	24 marks	Paper 6	1 h and 30 min	40 marks

Contents: The topics included in International Mathematics are Number, Algebra, Functions, Geometry, Transformations in Two Dimensions, Mensuration, Coordinate Geometry, Trigonometry, Sets and Probability

GLOBAL PERSPECTIVES (0457)

The Global Perspectives course aims to enable students to develop an analytical and evaluative grasp of global issues and their causes by considering the consequences from different perspectives and the possible courses of actions. Students will be encouraged to enquire and reflect on issues in our interconnected world from a personal, national and international perspective in order to critically assess the information available to them in their ever-changing world.

As the IGCSE Global Perspectives course paves a solid foundation for IB Diploma programme students in their study of Theory of Knowledge, this course will be a core subject at CKY. This means that all students will study this course across the two years.

Assessment

The assessment components for the course are as follows:

Component	Component 1	Component 2	Component 3
Nature of Assessment	Written Examination Students answer four compulsory questions based on source material to test their evaluation of claims, arguments and evidence from different perspectives on global issues.	Individual Report Students carry out research on a global question to explore the causes and impact on a local, national and global scale.	Team Project Students collaborate with their peers to explore a topic within a cultural context and investigate on the different perspectives.
Assessed Format	Externally Assessed	Internally Set; Externally Assessed	Internally Assessed; Externally Moderated
Duration	1 hour 15 minutes	Across the academic year	Across the academic year
Marks Allotted	70 marks	60 marks	70 marks
Weighting	35%	30%	35%

Syllabus Content

Some of the topics that students will explore over the two years include:

Component 1	Component 2	Component 3
<ul style="list-style-type: none"> • Demographic Change • Education for All • Employment • Fuel and Energy • Globalisation • Law and Criminality • Migration • Transport Systems 	<ul style="list-style-type: none"> • Biodiversity and Ecosystem Loss • Changing Communities • Digital World • Family • Sustainable Living • Trade and Aid 	<ul style="list-style-type: none"> • Disease and Health • Language and Communication • Poverty and Inequality • Tradition, Culture and Identity • Water, Food and Agriculture

ADDITIONAL MATHEMATICS (0606)

“A-Maths” is now offered as an option subject at CKY, as it is recommended for those pupils who intend to take Higher Level Mathematics at IBDP.

Aims: Cambridge IGCSE Additional Mathematics (0606) is accepted by universities and employers as proof of essential mathematical knowledge and ability. Successful IGCSE Additional Mathematics candidates gain lifelong skills, including:

- the further development of mathematical concepts and principles
- the extension of mathematical skills and their use in more advanced techniques
- an ability to solve problems, present solutions logically and interpret results
- a solid foundation for further study.

Assessment: All CKY Additional Mathematics candidates will take Papers 1 and 2, which is eligible for the award of grades A* to E.

<i>Paper</i>	<i>Duration</i>	<i>Marks</i>
Paper 1 10–12 questions of various lengths No choice of question except that the last question will consist of two alternatives, only one of which must be answered. The mark allocations for the last question will be in the range of 10–12 marks.	2 hours	80
Paper 2 10–12 questions of various lengths No choice of question except that the last question will consist of two alternatives, only one of which must be answered. The mark allocations for the last question will be in the range of 10–12 marks.	2 hours	80

Content: The topics included in Additional Mathematics are: set language and notation, functions and quadratic functions, indices and surds, factors of polynomials, simultaneous equations, logarithmic and exponential functions, straight line graphs, circular measure, trigonometry, permutations and combinations, binomial expansions, vectors in 2 dimensions and matrices.

BIOLOGY (0610)

Content: At CKY we offer our students a choice of Science curricula from Biology (0610), Chemistry (0620) and Physics (0625).

Science has long been viewed as an integral part of the curriculum in education, so every student must take at least one Science subject at IGCSE. In addition, they will be able to select from any combination of two of the three subjects, or all three. For pupils that are not sure which Science they prefer, we would encourage them to take all three.

Those students considering continuing their study of Biology at IB Diploma level are strongly recommended to take IGCSE Biology and Chemistry to ensure that they have sufficient background knowledge for the advanced study of Molecular Biology.

Cambridge IGCSE Biology is accepted by universities and employers as proof of real ability and knowledge. As well as a subject focus, the biology syllabus enables students to:

- better understand the technological world, with an informed interest in scientific matters
- recognise the usefulness (and limitations) of scientific method, and how to apply this to other disciplines and in everyday life
- develop relevant attitudes, such as a concern for accuracy and precision, objectivity, integrity, enquiry, initiative and inventiveness
- further interest in, and care for, the environment
- better understand the influence and limitations placed on scientific study by society, economy, technology, ethics, the community and the environment
- develop an understanding of the scientific skills essential for further study at IBDP

Assessment: All candidates must enter for three papers. The majority of CKY candidates will take Papers 2 & 4 (the Extended Curriculum) plus Paper 6 (Alternative to Practical), which is eligible for the award of grades A* to G. However a Core Curriculum (Papers 1, 3 & 6) is available in which reduced content is tested in the Paper 1 and 3 exams, with only grades C to G available. If the class teacher believes a student would benefit from completing the Core Curriculum the student and their parents will be informed as soon as possible.

<i>All candidates take either:</i>		
<i>Core Curriculum</i>	<i>Extended Curriculum</i>	
Paper 1 45 minutes Multiple choice question paper Weighted at 30% of total available mark	<i>or</i>	Paper 2 45 minutes Multiple choice question paper Weighted at 30% of total available mark
Paper 3 1 hour 15 minutes Core theory paper Weighted at 50% of total available marks		Paper 4 1 hour 15 minutes Extended theory paper Weighted at 50% of total available marks
<i>and</i>		
Paper 6 1 hour Alternative to Practical Weighted at 20% of total available marks		

CHEMISTRY (0620)

Content: Cambridge IGCSE Chemistry is accepted by universities and employers as proof of essential chemistry knowledge and ability. As well as a subject focus, the chemistry syllabus enables students to:

- Better understand the technological world in which they live, and take an informed interest in science and scientific developments
- Learn about the basic principles of Chemistry through a mix of theoretical and practical studies
- Develop an understanding of the scientific skills essential for further study at IBDP, skills which are useful in everyday life
- Learn how science is studied and practised, and become aware that the results of scientific research can have both good and bad effects on individuals, communities and the environment.

Assessment: All candidates must enter for three papers. The majority of CKY candidates will take Paper 2 and 4 (the Extended Curriculum), which is eligible for the award of grades A* to G, however a Core Curriculum (Paper 1 and 3) is available in which a reduced curriculum is covered in the exams with only grades C to G available. If the class teacher believes a student would benefit from completing the Core Curriculum the student and their parents will be informed as soon as possible.

<i>All candidates take either:</i>		
<i>Core Curriculum</i>		<i>Extended Curriculum</i>
Paper 1 45 minutes Multiple choice question paper Weighted at 30% of total available mark	or	Paper 2 45 minutes Multiple choice question paper Weighted at 30% of total available mark
Paper 3 1 hour 15 minutes Core theory paper Weighted at 50% of total available marks		Paper 4 1 hour 15 minutes Extended theory paper Weighted at 50% of total available marks
<i>and</i>		
Paper 6 1 hour Alternative to Practical Weighted at 20% of total available marks		

PHYSICS (0625)

Content: Cambridge IGCSE Physics is accepted by universities and employers as proof of knowledge and understanding of physics. Successful candidates gain lifelong skills, including:

- confidence in a technological world, with an informed interest in scientific matters
- an understanding of how scientific theories and methods have developed, and continue to develop, as a result of groups and individuals working together
- an understanding that the study and practice of science are affected and limited by social, economic, technological, ethical and cultural factors
- an awareness that the application of science in everyday life may be both helpful and harmful to the individual, the community and the environment
- knowledge that science overcomes national boundaries and that the language of science, used correctly and thoroughly, is universal
- an understanding of the usefulness (and limitations) of scientific method, and its application in other subjects and in everyday life
- a concern for accuracy and precision
- an understanding of the importance of safe practice
- improved awareness of the importance of objectivity, integrity, enquiry, initiative and inventiveness
- an interest in, and care for, the environment

Assessment: All candidates must enter for three papers. The majority of CKY candidates will take Paper 2 and 4 (the Extended Curriculum), which is eligible for the award of grades A* to G, however a Core Curriculum (Paper 1 and 3) is available in which a reduced curriculum is covered in the exams with only grades C to G available. If the class teacher believes a student would benefit from completing the Core Curriculum the student and their parents will be informed as soon as possible.

<i>All candidates take either:</i>	
<i>Core Curriculum</i>	<i>Extended Curriculum</i>
Paper 1 45 minutes Multiple choice question paper Weighted at 30% of total available mark	<i>or</i>
Paper 3 1 hour 15 minutes Core theory paper Weighted at 50% of total available marks	
	Paper 2 45 minutes Multiple choice question paper Weighted at 30% of total available mark
	Paper 4 1 hour 15 minutes Extended theory paper Weighted at 50% of total available marks
<i>and</i>	
Paper 6 1 hour Alternative to Practical Weighted at 20% of total available marks	

BUSINESS STUDIES (0450)

Aims:

The Cambridge IGCSE in Business Studies (0450) develops students' understanding of a range of business organisations and functions as well as the wider environment in which firms operate. Students will learn how to use concepts and tools that enable them to analyse business problems, evaluate and recommend solutions. The course aims to develop students' practical skills in areas such as communication, presentations and team working, in addition to igniting their entrepreneurial spark.

Content:

IGCSE Business Studies is accepted by universities and employers as proof of an understanding of business concepts and techniques across a range of different types of businesses. Successful IGCSE Business Studies students gain lifelong skills and knowledge, including:

- Understanding different forms of business organisations, the environments in which businesses operate and business functions such as marketing, operations and finance
- An appreciation of the critical role of people in business success
- Confidence to calculate and interpret business data
- Communication skills including the need to support arguments with reasons
- Ability to analyse business situations and reach decisions or judgements.

Educational visits:

Business students will have regular opportunities to undertake field trips to organisations, which enable them to apply their learning to real-world companies and settings. Learning outside the school environment will extend students' awareness of the world of work and their understanding of how firms operate in practice.

Assessment: Candidates will take 2 exam papers (each worth 50% of total marks).

View from HSBC's Asia Headquarters

<i>Paper</i>	<i>Weighting</i>
Paper 1 (1 hour 30 minutes) Short-answer questions and structured/data response questions.	50%
Paper 2 (1 hour 30 minutes) Questions arising from a given case-study (not pre-released).	50%

Progression:

The course provides students with an ideal foundation for further learning, preparing students for business education courses at IB Diploma level, as well as gainful future employment.

DESIGN & TECHNOLOGY (D.T.) (0445)

For most pupils the Cambridge IGCSE in Design & Technology (0445) provides a safe, exciting and challenging environment to apply knowledge and skills often different from their other subjects. D.T. has academic content and requires considerable time commitment. Computer Aided Design (CAD) and Computer Aided Manufacturing (CAM) are key elements of the course.

Following from Y8, the subject further develops creativity, practical skills, independence and specialist language usage, in a multi-discipline problem-solving environment, within a broad curriculum. The subject is not gender biased, so is equally suitable for girls and boys.

Unfortunately, this year we have to restrict the number of classes to two, with 20 pupils in each.

Background: D.T. is not as familiar to many parents as some subjects. Others may have an out-dated perception based on their experiences of woodwork, metalwork, engineering drawing and home economics. D.T. is not a vocational subject and is certainly not an easy option.

Content: The full content of the course can be accessed at www.cambridgeinternational.org together with all other relevant information, including past papers. Through the subject content pupils experience:

- Knowledge with Understanding
- Problem Solving
- Communication, and
- Realisation

These are also the Assessment Objectives.

Assessment: Candidates sit two examinations and submit a school-assessed project.

Paper	Style of Paper	Duration	Weighting	Marks
1 Design	Design drawing	75 minutes	25%	50
3 Resistant Materials	Written	60 minutes	25%	50
5 School Assessed Project	Design and Manufacture	2 terms	50%	100

Progression: Students who select this subject at higher levels (Y11-12) may be looking to work in a related creative profession: architect, designer, etc. However, the broad range of skills in various categories strongly supports applications to most tertiary education courses.

DRAMA (0411)

Content: The Cambridge Drama IGCSE (0411) seeks to provide students with in-depth subject knowledge enabling them to both create and respond to meaningful theatre. In order to become an effective actor or director, students will learn about technical theatre as well as performance and communication skills. Drama students work closely together in groups with a common goal and deadline in mind, and thus learn valuable social skills, which translate well into all career areas.

Aims: The aims of the Cambridge IGCSE in Drama (0411) are to:

- Develop candidates' understanding of Drama through practical and theoretical study.
- Enable candidates to realise the performance possibilities of text and other stimuli.
- Encourage the use of dramatic forms and structures to communicate feelings and ideas to an audience.
- Help candidates acquire and develop skills in Drama, both individually and in groups.
- Develop understanding of the processes leading to performance and the elements involved in creating a performance; to be able to evaluate the various stages of performance work.
- Encourage enjoyment of drama.

Assessment: All candidates take Paper 1 (Written Examination) and Paper 2 (Coursework) and are eligible for the award of grades A* to G.

Paper 1 Written examination 2 hours 30 minutes	Paper 2 Coursework
Candidates answer questions relating to a pre-released text and three stimuli.	Internally assessed and externally moderated. Candidates submit three pieces of practical work:
Section A (30 marks) 8 to 10 short-answer questions on all of the pre-release material. Answer all questions	One individual piece (max 5 mins): either original devised work <i>or</i> a performance of an extract from a piece of repertoire.
Section B (25 marks) Answer one from three longer-answer questions on the pre-release extract.	Two group pieces (max 15 minutes each): one original devised piece <i>and</i> one performance of an extract from a piece of repertoire.
Section C (25 marks) Answer one from three longer-answer questions on the three stimuli.	
Weighting: 40%	Weighting 60%

ECONOMICS (0455)

Aims:

IGCSE Economics is regarded by universities and employers as evidence of knowledge and understanding of economics. Economics aims to develop students' knowledge and a range of quantitative and analytical skills, including:

- An understanding of economic theory, terminology and principles
- The ability to apply the tools of economic analysis
- The ability to distinguish between facts and value judgements in economic issues
- An understanding of, and an ability to use, basic economic numeracy and literacy
- The ability to take a greater part in decision-making processes in everyday life
- An understanding of the economies of developed and developing nations.

Content:

IGCSE Economics develops students' ability to: show knowledge and understanding of economics; analyse economic data in various forms; and critically evaluate information and draw conclusions. Students will follow units covering subject content which includes:

- Basic economic problem: choice and the allocation of resources
- The allocation of resources: how the market works and market failure
- The individual as producer, consumer and borrower
- The private firm as producer and employer
- Role of government in an economy
- Economic indicators
- Developed and developing economies: trends in production, population and living standards
- International aspects of economics.

Students learn about trading while visiting HK Exchanges and Clearing

Educational visits:

Students of Economics will have regular opportunities to visit a variety of organisations; these visits will often be run jointly with IGCSE Business Studies. Learning outside the school environment will enable students to understand how economic concepts are used and applied in real-world situations.

Assessment:

Paper 1 Multiple choice	45 minutes
Candidates answer 30 multiple choice questions. Weighted at 30% of total available marks.	
Paper 2 Structured questions	2 hours 15 minutes
Candidates answer one compulsory question, which requires them to interpret and analyse previously unseen data relevant to a real economic situation, and three optional questions from a choice of six. Weighted at 70% of total available marks	

Progression:

The course provides students with an excellent foundation for advanced studies in economics. Candidates who are awarded grade C to A* in IGCSE Economics, and grade B to A* in Mathematics, are well prepared to follow IB Diploma courses in Economics, or the equivalent.

FOOD & NUTRITION (0648)

The Cambridge IGCSE Food and Nutrition (0648) syllabus introduces both the theoretical and practical aspects of buying and preparing food. Dealing with diet and health in everyday life, students study the nutritional value of foods and develop the skills required to produce a varieties of products and different purposes within the course. We raise awareness into consumer needs and habits and ensure high standard of kitchen hygiene is put into practice in order to produce creative and enjoyable dishes.

Unfortunately, this year we have to restrict the number of classes to two, with 20 pupils in each.

Background: Food and Nutrition is not as familiar to many parents as some subjects. Our students would have already experienced a number of Food classes as part of our lower years (Y6-8) D.T. programme, which should adequately prepare them for the IGCSE Food and Nutrition.

Content: The full content of the course can be accessed at www.cambridgeinternational.org together with all other relevant information, including past papers. Through the subject content pupils experience:

- Knowledge with understanding
- Handling information and solving problems
- Experimental skills and investigations.

Assessment: Candidates sit one written examination and complete a timed practical exam in two parts: a 1h30m preparation exam and a 2h30m practical examination.

Paper 1 – Theory 2hrs	Weighting
Paper 1 (2hrs) Candidates answer short-answer questions, structured questions and open-ended essay questions, for a total of 100 marks.	50%
Paper 2 – Practical 2h30m with 1h30 preparation time	
Paper 2 (1 hour 30 minutes) Candidates have a planning session of 1 hour 30 minutes one week before the practical examination of 2 hours and 30 minutes. At the start of the planning session candidates are given their allocated test question (as detailed in the Confidential Instructions) and three preparation sheets. At the end of the planning session all three-preparation sheets are returned to the examiner. At the start of the practical exam the preparation sheets are returned to the candidate.	50%

GEOGRAPHY (0460)

Content: The Cambridge Geography IGCSE (0460) course aims to develop students' understanding, geographical skills and attitudes towards global problems, with an emphasis on engaging students' by making topics relevant and interesting. The syllabus includes three broad themes:

1. Population and Settlement;
2. The Natural Environment;
3. Economic Development.

Geography helps you to be more aware, to be more understanding of the problems of people who live around you, in Hong Kong and across the world. When you see newspaper or TV reports about new shopping centres and factories, unemployment, arguments about new developments or increasing landfill size, exciting changes or disasters from Asia or Africa, your Geography course will help you make sense of what is going on.

Assessment: All candidates must enter for three papers.

<i>Paper</i>	<i>Weighting</i>
Paper 1 (1 hour 45 minutes) Candidates answer three questions (25 marks for each) and must answer one question from each theme. It will involve data-response questions.	45%
Paper 2 (1 hour 30 minutes) candidates must answer all the questions. The paper will be mainly skills-based and will test a candidate's ability to handle various ways of depicting geographical information.	27.5%
Paper 3 Coursework (School-based assessment). One school-based assignment should consist of an average 2000 words.	27.5%

Progression: Students may go on to study Geography at a higher level. In addition to specific future job opportunities (Volcanologist anyone?), Geography will provide students with a broad range of skills that will enable them to work effectively in a variety of future careers.

HISTORY (0470)

Aims: The aims of Cambridge History IGCSE (0470) are multi-faceted; these include:

- Stimulating interest and enthusiasm about the past.
- Promoting the acquisition of knowledge and understanding of human activity.
- Developing the ability to evaluate pieces of information and evidence.
- Developing an understanding of key concepts like cause and consequence, continuity and change and similarities and differences.
- Encouraging international understanding.
- Encouraging the development of advanced linguistic and communication skills.
- Developing the ability to debate and form arguments with support

Assessment: The IGCSE consists of two exam papers and coursework on a variety of 20th Century topics. These include charting the causes of World War 2 from its very early beginnings of the Treaty of Versailles, through to the development of the Cold War and its impact on the world – namely specific incidents like the Cuban Missile Crisis and the Vietnam War. We will also study an in-depth core unit on Mao's China, allowing the students to deepen their knowledge of a very important cultural figure and assessing his impact on the world we live in today.

The coursework element will encourage students to research and conduct independent study of an element within the in-depth unit. The responsibility will be on the students to develop their interpretation skills and their written skills to answer an historical question on significance. This is perfect preparation for the skills required at IB, A level and for future university study.

<i>Examination</i>	<i>Length of Exam</i>	<i>Weighting</i>
Paper 1	2 hours	40%
Students will be required to answer three questions, two on the core 20th Century content and one on the depth study (China 1945-89). They will choose the questions they want to answer from a selection.		
Paper 2	2 hours	33%
Students answer a series of questions on one prescribed core topic. They will use historical sources to answer these questions.		
Coursework (maximum 2000 words)		27%
Students will produce one piece of coursework based on the depth study they have looked at. This requires a large amount of personal study and self-motivation. The depth study is based on Communist China 1945-1989.		

Does History matter to me?

Not only is History a well-respected subject when it comes to IB, A-Level or Pre-University Cambridge preparation but it will help you in the wider world as well. It teaches you how to argue a point, how to arrange evidence in a convincing way and how to present your own point of view backed up with information. History develops independent study, thinking skills and offers a myriad of transferable skills. These are skills that can be used in the world of work – from lawyers to journalists; from managing directors of huge multi-conglomerates to humble teachers! The skills you learn in History will serve you well for the rest of your life, as well as developing a better idea of the journey humankind has taken and the reasons why we are the way we are today.

I.C.T. (0417)

The Cambridge IGCSE Information and Communication Technology (0417) syllabus encourages students to develop lifelong skills including:

- The ability to understand and implement new and emerging technologies within a business environment
- How to analyse, design, implement, test and evaluate Information and Communication Technology (ICT) systems
- Considering the impact which new technologies will have on ways of working and the social, economic and ethical issues associated with them; and
- An awareness of the ways ICT can help in practical and work-related scenarios.

Aims: The aims of the Cambridge International ICT syllabus are wide ranging, which include:

1. For students to develop and consolidate their knowledge, skills and understanding in ICT and be aware of new and emerging technologies;
2. Students to develop further as autonomous users of ICT;
3. Students to continue to develop their ICT skills in order to enhance their work in a variety of subject areas;
4. Provide opportunities for candidates to analyse, design, implement, test and evaluate ICT systems;
5. Encourage candidates to consider the impact of new technologies on methods of working in the outside world and on social, economic, ethical and moral issues; and
6. Help candidates to improve their skills and increase their awareness of the ways in which ICT is used in practical and work-related situations.

The practical skills contained in the syllabus are directly applicable to the study of other subjects; at CKY we encourage pupils to apply their ICT skills to a range of contexts.

Assessment: The Cambridge **International** ICT course is assessed through one theory-based exam and two practical tests.

<i>Paper</i>	<i>Weighting</i>
Paper 1 (2 hours) Written paper testing sections 1–10 of the curriculum content and assessing the skills in Assessment objective AO2 All questions compulsory: mostly multiple choice or short answer questions, but also some requiring longer responses	40%
Paper 2 (2 ½ hours) Practical test assessing knowledge, skills and understanding of sections 11–21 of the curriculum content	30%
Paper 3 (2 ½ hours) Practical test assessing knowledge, skills and understanding of sections 11–21 of the curriculum content	30%

Music (0410)

Aims: The aims of the Cambridge Music IGCSE (0410) are to:

- Enable candidates to acquire and consolidate a range of basic musical skills, knowledge and understanding, through the activities of listening, performing and composing
- Help candidates develop a perceptive, sensitive and critical response to the main historical periods and styles of Western music
- Help candidates to recognise and understand the music of various non-Western traditions, and thus to form an appreciation of cultural similarities and differences
- Provide a foundation for the development of an informed appreciation of music
- Provide a foundation for further study in music at a higher level

With a good pass candidates are well prepared to follow courses leading to IB or A Level Music.

Assessment: The examination rewards candidates for positive achievement in the following areas:

A Listening

- Aural awareness, perception and discrimination in relation to Western music of the baroque, classical, romantic and 20th-century periods.
- Identifying and commenting on a range of music from cultures in different countries.
- Knowledge and understanding of one Western Prescribed Work and one Prescribed Focus from a non-Western culture.

B Performing

- Technical competence on one or more instruments.
- Interpretative understanding of the music performed.

C Composing

- Discrimination and imagination in free composition.
- Notation, using staff notation and, if appropriate, other suitable systems.

<i>Components and titles</i>	<i>Type</i>	<i>Weighting</i>
A – Listening Questions test understanding and perception of music from a wide range of styles and traditions	Exam (1h15m)	40%
B – Performing Component 3 Individual – One piece or two short contrasting pieces & Ensemble – One piece or two short contrasting pieces	Coursework Assessment	30%
C – Composing Component 4 (Two compositions)	Coursework Assessment	30%

PHYSICAL EDUCATION (P.E.) (0413)

Why take PE IGCSE?

Universities and employers accept Cambridge IGCSE Physical Education as proof that candidates have knowledge, skills and an understanding of a range of relevant physical activities. Candidates' knowledge, skills and understanding come from studying both practical and theoretical aspects of Physical Education. Successful Cambridge IGCSE Physical Education students gain lifelong skills, including:

- an ability to plan, perform, analyze and improve, and evaluate physical activities
- knowledge, skills and understanding of a range of relevant physical activities
- an understanding of effective and safe performance
- an understanding of the role of sport and physical activity in society and in the wider world
- an excellent foundation for advanced study
- an enjoyment of physical activity

It is recommended that students who wish to take IGCSE PE should be in sports team, although this is not essential.

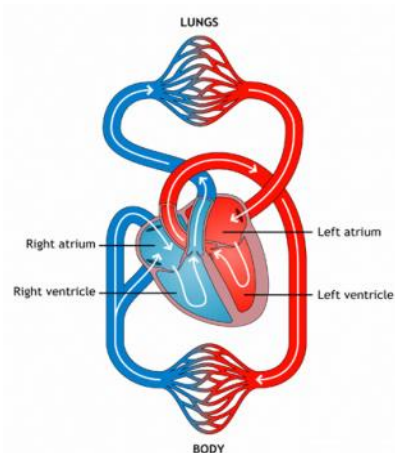

Assessment: To pass Cambridge IGCSE Physical Education, candidates are assessed under the following objectives:

AO1: physical performance including an ability to inter-relate planning, performing and evaluating whilst undertaking activity.

AO2: an ability to analyze and improve their own and others' performance.

AO3: knowledge and understanding of:

- the factors affecting performance;
- the health and safety aspects of physical activity, including the advantages and risks associated with a range of training strategies and techniques;
- the reasons for participating in physical activity.

Component 1	Component 2
Paper 1 1 hour 45 minutes	Coursework (centre-based assessment)
Section A: Candidates answer short answer questions on the three units they have studied: Factors affecting performance, Health, safety and training, Reasons and opportunities for participation in physical activity.	Candidates choose to undertake four practical activities from at least two of the seven categories listed (50% of total marks). Candidates must show the ability to analyse and improve practical performance in one of their four chosen practical activities (10% of marks).
Section B: Candidates answer three structured questions, one from each of the three units they have studied.	
40% of total marks	60% of total marks

ART & DESIGN (0400)

Content: Students studying for a Cambridge IGCSE in Art & Design (0400) will learn to use **painting, drawing and photography** to express themselves, with some **textiles, sculpture, printmaking and digital media**. We run a range of trips to interesting parts of Hong Kong and also visit exciting art galleries to inspire pupils in their own artwork.

Students who put in the time make fast progress in their technical skill, so those concerned about their current ability should not worry too much. More important is a strong work ethic and a commitment to spend at least 2 hours per week on their artwork outside of class.

Belle Lai (10E) coursework page, 2012

Art & Design is not an 'easy' subject, but those with a positive attitude can always do well, and it is extremely rewarding. Students learn to explore, analyse and create their own artwork and to work independently. They learn to keep an art journal that shows their developing ideas.

Equipment: Students are generously supplied with materials in well-equipped and modern art studios. However, all students should have a selection of art equipment such as pencils, brushes, acrylic paints, oil pastels, coloured pencils etc. to help them complete their homework to a high standard. They should also have access to the Internet and a printer at home for research purposes.

Assessment: IGCSE is assessed through coursework (50%) and a final exam (50%). Work is assessed both in school and externally.

<i>Component</i>	<i>Weighting</i>
Observational/Interpretive Assignment Exam: An 8 hour practical assignment creating an examination piece plus supporting studies	50%
Coursework Assignment One final outcome plus supporting material	50%

Progression: Students who have taken IGCSE Art may go on to study Art at the IB and tertiary level. The IGCSE is an excellent foundation for students wishing to eventually progress into the following career routes: product design, digital media, advertising, fashion, textiles, illustration, interior design, graphics, architecture, photography, and fine art, just to name a few! Art IGCSE is well-looked upon by universities and colleges as a subject that builds independent study skills, personal development and creative thinking.

ART & DESIGN TEXTILES (0400)

Qualifications gained in this course will be the same as that of *IGCSE Art and Design (0400)*, however the focus is more specific and students will work on developing textile-specific skills. The lessons will take place in a textiles studio with students able to use a vast array of resources/equipment to support them in building knowledge and skill successfully.

Students should not be concerned about their current capabilities, as the course will begin with skill-based lessons to ensure students have the necessary abilities to develop and succeed. Students with a positive attitude will always do well.

Content: Pupils learn to explore, analyze, and create their own artwork and work independently on individual ideas. Students will experience some of the following disciplines:

Printed and/or Dyed Fabric: Students will become aware of a variety of printing techniques using a range of media in execution. These include Image transfer through Heat Pressing, Batik, Tie Dye, Block printing, mono printing, screen printing, stencil printing.

Constructed: Students will learn to manipulate fabric through techniques such as Cutting, Appliqué, Smocking, Embroidery, Weaving, and Hand and Machine stitching. Along with traditional fabrics students may also wish to experiment with a variety of mediums including smart materials, plastic, wires and paper to develop such outcomes and push boundaries.

Fashion: Students will learn to construct fabrics into fashion outcomes gaining knowledge of fashion and its inclusion within textiles. Students will be encouraged to include techniques from both constructed and printing/dyeing techniques to create outcomes that are both interesting but also push the students in their creative abilities and skill with precision.

An example of recent Y9 work

Assessment: Art & Design: Textiles is assessed through a portfolio selection of their best work (50%) and a final exam (50%). Work is assessed both in school and externally.

<i>Component</i>	<i>Weighting</i>
Design Assignment	
Exam: An 8 hour practical assignment creating an examination piece plus supporting studies	50%
Coursework Assignment	
One final outcome plus supporting material	50%

Progression: Students may go onto study art at higher level. It is an excellent foundation for students wishing to go on and eventually progress into one of the following career routes: Fashion (Design, Marketing, Buying, Communication, Fashion Journalism, and Styling), Textiles, Interior Design, and Illustration to name just a few. Art IGCSE is well looked upon by universities and colleges as a subject that builds independent study skills and personal development.

FREQUENTLY ASKED QUESTIONS

How many optional subjects should I take?

Every student is different and there is no guideline number set by Cambridge International. Our timetable currently permits a maximum of 10 IGCSEs, which may rise to 11 including English Literature. However, those students who enjoy only a few subjects but find some other subjects challenging, can consider taking fewer optional subjects. If this is the case, please talk to the IGCSE Coordinator.

Those students selected to take English Literature are able to decline it, if they feel that the workload will be too great. However, we urge these students not to reduce their number of optional subjects as this may hinder their future choices.

How do I find out more about what the courses consist of?

Read this booklet carefully, as even familiar subjects can be very different at IGCSE. Your subject teachers will be able to tell you about the subject they teach and further information is available on the Cambridge IGCSE website (www.cambridgeinternational.org).

Should I choose the subjects I like?

You are more likely to do well at IGCSE if you enjoy the subjects you are studying. So, as a general rule, choose the subjects you enjoy. Do not choose a subject because you like the teacher or simply because your best friend has chosen it. Teachers change and so can friendships. You should choose because of the subject itself.

Do my options affect future career choices?

Like most students you are probably unsure what you want to do in the future and even if you have some ideas, they are likely to change in the next few years. You need to keep as many doors open as possible. Try to aim for a broad spread of subjects. Choose according to your own individual interests, abilities and career plans. If you want to know about specific entry requirements for particular Universities then talk to the school *University Guidance Director*, or your teachers.

What if I already know what I want to do in my future career?

If you are more definite in your career ideas do some research to find out what subjects you need to study and to what level you need to study them.

Will I be able to get the grades I want?

Usually you can judge this for yourself, but ask your teachers if you are uncertain of your IGCSE prospects. The subject teachers should be able to give you an indication as to how well you will fare on the course, although result predictions are rarely 100% accurate.

Will I be able to take the courses of my choice?

We will do all we can to timetable so that you can, but sometimes timetabling difficulties may prevent it. We are also restricted on the number of pupils who are able to complete certain subjects, such as Food & Nutrition and DT. For a minority of students a teacher may be reluctant to allow you on the course for your own benefit. If it is suggested that you should not choose a particular subject then you will be informed by the school. The school will make the final decision as to whether or not to enter you for each exam.

CONTACT INFORMATION

Please don't hesitate to contact the school should you have any questions about the information provided in this booklet, or any other queries relating to IGCSE options at CKY.
