

## Ignition Keys

■NOTE: The information listed below will help on ordering any replacement keys. On most models, the key identification number is stamped on the key. Record this number in the space provided in the Operator's Manual as well as on the sales receipt during each sale for reference if a consumer ever needs to replace or copy a key.

### ATV/ROV Keys

**2006-Present ROV**  
**2008-Present 400-1000 ATV (except 425)**

0430-042	Left-Side Groove with key codes of 4000-4149
0430-043	Right-Side Groove with key codes of 4150-4299

■NOTE: A dealer can order blank keys and get them cut as long as they have the original key to copy. If the customer has lost both keys, the ignition switch assembly must be replaced.

■NOTE: If a dealer wants Arctic Cat to cut the key, the dealer needs to order a Key (p/n 0409-003). Dealer must then enter the 4-digit key code (4000-4299) found on each key.

**1996-2007 ATV (except 2006-2007 250);**  
**2011-Present 350, 366, & 425**

0409-059 - A-Series	3409-011 - D-Series
0409-060 - B-Series	3409-012 - E-Series
3409-007 - C-Series	3409-013 - F-Series

■NOTE: A dealer can order blank keys and get them cut as long as they have the original key to copy. If the customer has lost both keys on a 2005 and later ATV, the ignition switch assembly must be replaced.

■NOTE: If a dealer wants Arctic Cat to cut the key for a model prior to 2005, the dealer needs to order a Key (ex: p/n 0409-059). Dealer must then enter code letter and 5 numbers (ex: E12345). Code can also be found on the ignition switch.

**2006-Present 50, 90, 250, and 300**

3304-520	Right-Side Cut
3304-521	Left-Side Cut

■NOTE: Hold the key pointing downward and the cut side is the narrow side. This will determine if the key is a right or left cut key.

■NOTE: A dealer can order blank keys and cut them as long as they have the original key to copy. If the customer has lost both keys, the ignition switch assembly must be replaced.

■NOTE: If a dealer wants Arctic Cat to cut the key, the dealer must order Key (p/n 0409-003). Dealer must specify the three digit code and specify if it is a left or right cut key.

### Snowmobile Keys

**2010-Present 4-Stroke Snowmobile**

0430-042	Left-Side Groove with key codes of 4000-4149
0430-043	Right-Side Groove with key codes of 4150-4299

■NOTE: A dealer can order blank keys and get them cut as long as they have the original key to copy. If the customer has lost both keys, the ignition switch assembly must be replaced.

■NOTE: If a dealer wants Arctic Cat to cut the key, the dealer needs to order a Key (p/n 0409-003). Dealer must then enter the 4-digit key code (4000-4299) found on each key.

**1998-Present 2-Stroke Snowmobile**  
**2010-Earlier 4-Stroke Snowmobile**

■NOTE: If a dealer wants Arctic Cat to cut the key, the dealer needs to order a Key (p/n 0409-003). Dealer must then enter the code (ex: A79620).

■NOTE: Each key code is stamped and/or is molded into the head of the key (example: Electric start snowmobile keys with a "1A" code order p/n 0609-453). If a key has been lost, the code is also located on the front side of the ignition switch.

## Sizing Charts

### Adult Helmets\*

Helmet Size	Head-Hat Size	Head Circumference (in.)	Head Circumference (cm)
2XS	6 1/2-6 5/8	20 1/2-20 7/8	52-53
XS	6 3/4-6 7/8	21 1/4-21 5/8	54-55
Small	7-7 1/8	22-22 1/2	56-57
Medium	7 1/4-7 3/8	22 3/4-23 1/4	58-59
Large	7 1/2-7 5/8	23 5/8-24	60-61
XL	7 3/4-7 7/8	24 1/2-24 7/8	62-63
2XL	8-8 1/4	25 1/8-25 1/2	64-65
3XL	8 3/8-8 1/2	26-26 3/8	66-67
4XL	8 1/2-8 5/8	26 3/4-27 1/8	68-69

■NOTE: MX SnoCross helmets run about one size smaller on average than the regular shield helmets (i.e. MX SnoCross Large = Shield Helmet Medium).

### Youth Helmets

Helmet Size	Head-Hat Size	Head Circumference (in.)	Head Circumference (cm)
Medium	6 1/8 - 6 1/4	19 - 20	48 - 49
Large	6 3/8 - 6 1/2	20 - 21 1/2	50 - 51

■NOTE: This is a guideline only. Head shape can vary size.

■NOTE: Sizing charts should be used as general guides for determining approximate size. Differences in individual body shape, as well as the type of cut and style of each garment, should be considered to ensure appropriate fit. Please visit your local Authorized Arcticwear Dealer to try on your selection.

### Men's Outerwear

7	47" - 49"	26" - 27"	22" - 23"	21"

### Glossary

**Missy/Womens** - Missy sizes, also referred to as straight sizes, are the sizes most commonly carried in standard women's clothing stores and generally run from 2 to 18 in even sizes.

**Juniors** - Juniors sizes are designed for young women ages 13 to 18 and are usually cut slimmer in the hips and bust than missy sizes. They're designated by uneven sizes 0 to 17.

■NOTE: If replacing the adjustable windshield on '07 F Series and JR, Windshield Mounting Kit (p/n 4639-735) is required.

Measurements are taken vertically from dash panel to top of windshield. Style illustrations apply to indicated models only. Use reference point to determine style of windshield to order. Style of windshield for all other models is determined by measuring upward from lowest front center point on windshield to top center point. Accessory windshields do not have pre-drilled mirror mounting holes.

(B) Pin '06-'08 BC WT (Each)	1623-422

## Bearcat Trail Groomer

*The Bearcat Trail Groomer is designed to maintain a 4-ft wide trail*

- Two electric actuators that control cutting depth and wheel lift are pre-wired for the Bearcat Z1 XT GS rear outlet
- Four spring-loaded, pivoting cutting edges (front two are serrated) ('12 Bearcat Z1 XT models have pre-drilled mounting holes, '09-'11 models require drilling)
- Goose-neck hitch features an anti-scalping design
- Includes a snowmobile hitch plate with 1-7/8-in. ball that bolts directly to pre-drilled tunnel rails
- 52-in. x 96-in., 350 lb

■NOTE: The '12 Bearcat Z1 XT GS has an under-seat radiator and Groomer switches and outlet factory-installed. All other '09-'12 Bearcat Z1 XT models require a Radiator Kit (page 45) and Groomer Harness Kit when pulling a Trail Groomer.

Description	Application	p/n

### MISC. TRACKS

0602-927	Kitty Cat
1602-015	120 (10" x .688")

- 60 Durometer is a softer compound and is preferred by deep powder riders.
- 80 and 90 Durometer is a harder compound to give greater penetration and are preferred hill climb tracks.
- 80/60, 80/70 Durometer are dual compound tracks with the lug tip 60 or 70 durometer and the remainder 80 durometer.
- Tracks w/o Notch fit '03-'04 MC models.
- 2.25" tracks fit '99-'04 MC models.
- NonQuiet (NQ) Tracks can be used on competitive brands.

### MAXIMUM LUG HEIGHT

## Traction & Control

### 2012 TRACK LUG HEIGHTS AND RECOMMENDED STUD LENGTH

Model	Track Length/ Lugs	Woody's Stud Length	Stud Boy Stud Length	Model	Track Length/ Lugs	Woody's Stud Length	Stud Boy Stud Length
<b>Single-Ply Tracks</b>				<b>2-Ply Tracks</b>			
Bearcat 570	151" x 1.250"	1.325	1.375	F 800, 1100 LXR	128" x 1.000"	1.075	1.080
Bearcat 570 XT, Z1 XT	154" x 1.375"	1.450	1.500	F 1100 Turbo LXR	128" x 1.250"	1.325	1.375
XF 800, 1100 LXR (Inc Turbo)	141" x 1.352"	1.325	1.375	F 800, 1100 SP (Inc Turbo)	128" x 1.250"	1.325	1.375
XF 800, 1100 SP (Inc Turbo)	141" x 1.600"	N/A	N/A	Sno Pro 500	128" x 1.000"	1.075	1.080
				T570, TZ1, TZ1 LXR	144" x 1.000"	1.075	1.080
				TZ1 Turbo LXR	144" x 1.352"	1.325	1.375

### CAUTION

- To protect the tunnel from possible damage from the studs, install a Tunnel Protector Kit (see page 55) on models not so equipped. Do not use longer than recommended studs. Use only Arctic Cat approved Stud Templates shown on page 55.
- For Stud Length 1.325" and longer, we recommend the use of a Big Nut or Power Tower Support Nut.
- A short snowflap is required when installing studs on '07-'09 F Series, JR, Z1, and '09 CF (see page 55).
- Do not stud the original 1.250" track on the '06-'08 BC WT Turbo. Damage to the heat exchangers may occur. If you wish to install studs on '06-'08 BC WT Turbo track, the original 1.250" track must be replaced with a 1.00" track.

### Single-Ply Track Application

■NOTE: '09-'12 Track applications shown on page 47.

### ⚠ WARNING

When installing studs on a single ply track, it is important to use Arctic Cat-approved studs (proper head diameter). If approved studs (proper head diameter) are not used, studs could tear free of the track causing possible injury or even death.

**Woody's Limited Warranty**

International Engineering & Manufacturing, Inc. warrants each product manufactured by it to be free from defects in material and workmanship under use for the purpose for which it is intended. The Company shall not be liable for damage or delays caused by defective materials or workmanship; is limited to the repair or replacement at its factory of defective article or part thereof, which may be returned to the factory, transportation charges, prepaid within one (1) year after delivery to the original purchaser. Proof of purchase is also required. The Company shall be the sole judge of the existence of any defect in the article so returned. No claims for charges incurred in the removal, disassembly or reinstallation of such article shall be allowed. Product manufactured for consumer use on snowmobiles is designed for snow or ice only, use on any other surface voids warranty.

This Warranty shall not cover any article which has been misused or neglected or damaged by accident or any article which has been altered outside the Company's factory. The Warranty for studs is void unless the studs are installed with Woody's installation tools, support plates and lock nuts; according to the recommendations set forth in Woody's Instructions and Template Patterns. This Warranty does not cover bending, chipping, flaking or carbide pin breakage or pin loss from stud wear, stud replacement labor or shipping.

The Company shall, in no event be liable for consequential damage or contingent liability arising out of any total or partial failure to function of any article manufactured by it or of any equipment on or in which it is used. Failure of a user to give notice to claim as to defect claimed under the provisions of the Warranty within one (1) year after delivery to original use, such claim shall constitute a waiver by consumer of all claims with respect to goods and equipment.

No express, implied, or statutory warranty other than that herein set forth is made or authorized to be made by the Company. All returned warranties will not be accepted without a return authorization number.

Woody's® Team Woody's®, Snowmobiler Logo, Traction Master, Flat-Top, Gold Digger, Mega-Bite, Excel, Chisel Tooth, Square Digger, Round Digger, Double Digger, Road Runner, Star Stud, Top-Stock, Extender Trail III, Trail Blazer IV, Executive, and Ultra Series are trademarks and/ or trade names of International Engineering and Manufacturing, Inc. Traction Master refers to a patented product of International Engineering & Manufacturing, Inc. and is covered by US Patent No. 5,23,266 and Canadian Patent No. 2,086,186. Woody's® Mega-Bite studs are covered by US Patent No. D415, 954 and Canadian Patent No. 88,613. Woody's® Universal Template is Patent Pending.

**Woody's® Manufacturer Warranty Returns**

Call our customer service department for a Return Authorization Number. This number must be visible on the outside of the box. The product must be inspected by a Woody's technician to determine if the product is defective due to material, quality or workmanship before a final warranty determination is made. Proof of purchase is required. All returns to the manufacturer are for exchange only.

#### Stud Boy Limited Warranty

Liberty Products, Inc. warrants each product manufactured by it to be free of defects in workmanship and material while used for the purpose for which it is designed. Liberty Products, Inc. shall not be liable for damages or delays as a result of defects caused by defective workmanship or materials. Warranty is limited to the repair or replacement at Liberty Products of any defective part or product, within one (1) year of the delivery to the original purchaser, proof of purchase must accompany the product returned (freight prepaid). Liberty Products, Inc. shall be the sole judge of any defect, which might be claimed on the returned product. No other charges may be claimed in conjunction with the removal, reinstallation of such product. These products are designed and manufactured for use on snowmobiles on snow and ice only, use on other surfaces voids warranty. Warranty will be void if product has been mis-used, neglected, damaged or modified outside of Liberty Products, Inc. Does not cover bending, chipping, flaking or carbide breakage or loss from wear. Liberty Products, Inc. will not be liable for consequential damage or contingent liability arising from any total or partial failure to function of any product manufactured by it or any equipment on or in which it is used. No further warranty of any type is intended or implied or will be authorized to be made by Liberty Products, Inc.

<b>Description</b>	<b>p/n</b>
Visor - Black (2007-2009)	4272-999

**RATCHET KIT**

<b>Description</b>	<b>p/n</b>
(A) Ratchet Kit	4262-911
Ratchet Disc Set	4282-901
(B) Aluminum Shield Screws (Pair)	4262-910
(C) Top Ratchet Bar	4282-902

**CHINBAR**

<b>Description</b>	<b>p/n</b>
(A) Replacement Chinbar	4272-998
(B) Chinbar Lock Plate	4282-223

**CHIN PAD**

<b>Description</b>	<b>p/n</b>
Chin Pad	4262-933

**CHIN CURTAIN**

<b>Description</b>	<b>p/n</b>
(A) Chin Curtain	4262-912
(B) Extended Chin Curtain	4282-900

**VRE MUSIC ADAPTER CORD**

<b>Description</b>	<b>p/n</b>
Adapter Cord	4262-906
Cat Comm MP3/Satellite Radio Cord - 80"	4292-950

## High Altitude Kits

■NOTE: For more information on the High Altitude Kit Exchange Program, see page 1.

## 2012 Optional Rear Suspension Springs

Model	Standard Rear Arm Spring	Optional Rear Arm Spring	Spring Type
Bearcat 570, T570, TZ1 Models	1704-146/147	L 1704-678/679 H 1704-360/361	SQUARE SQUARE
F 800 Models, F 1100 Models	1704-576/577	L 1704-354/355 H 1704-560/561	SQUARE SQUARE
F5, F570	1704-504/505	L 1704-576/577 H 1704-710/711	SQUARE SQUARE
BC XT GS	1704-842/843	L N/A H 1704-384/385	SQUARE SQUARE
BC 570 XT/BC Z1 XT	1704-852/853	L 1704-562/563 H 1704-842/843	SQUARE SQUARE

### Rear Suspension Spring Selection Chart

This chart was compiled to assist technicians in fine-tuning the Arctic Cat rear suspension when the original springs are not satisfactory and a softer or firmer ride is desired. A longer spring in areas (D) and (E) can be selected if cut off to match the original spring. The replacement spring must match the original spring in areas (D) and (E).

■NOTE: The wire diameter and length of the spring have a large influence over the valving of the shocks.

■NOTE: When installing Springs (p/n 1704-148/149), you must also use the white Plastic Sleeves (p/n 2604-379).

2012 Models	Altitude	p/n	Components
F 570 T 570 Bearcat 570	5-9,000 ft.	5639-489	(2) 6505-029 Pilot Jet 35 (3) 0746-695 (67.0 g) Cam Arm (1) 0748-700 (P1 36°)(N) Torque Bracket

\*High Performance \*\*Improved Compression Resistance; Improved Heat Resistance \*\*\*Best Compression Resistance; Best Heat Resistance

■NOTE: The difference between a \* drive belt and a \*\* drive belt of the same dimension is hardness. A \*\* drive belt is more flexible and if used in place of a \* drive belt, the engine will run at a lower RPM.
