Send us the item number(s) to get our best price and more detailed information
E-Mail to: allobp@yahoo.com

For matching/learning/adding new keys to any car, you will need the following:

- 1- Find the correct key and the correct TRANSPONDER CHIP.
- 2- Write key data to the transponder chip by transponder programmer such as Z-Bull, Tango Programmer ... etc.
- 3- Now you need a key programming tool to add the new pre-coded keys to the car's immobilizer unit via OBD using T-300, AD100, AK90... etc, or you may use a diagnostic tool as in VAG cars you may use the VCDS, or VAG Commander.
- 4- But to proceed with any IMMO Functions (matching new keys or IMMO OFF/ON, or matching new ECU or Dashboard ... etc.) you have to know the PIN CODE first, before starting any of the above procedures.
- 5- You may read the PIN Code by using very Expensive tools (work by OBD connection or by dump such as ICC IMMO Calc.) or you can use our PIN Code Calculators by Dump file, and in this case all you need is a good serial programmer to read memory device on dashboard, ECU, BSI, or in IMMO box, then you can use any of our related IMMO Software to read PIN code or IMMO-OFF/ON or even adding new keys by dump editing in some other cases according to the available dump functions that can be found on each program.
- 6- If you don't know exactly what Hardware and software you may need to support the group of cars of your interest for all IMMO functions and key programming, then please e-mail us with the cars list of your interest and which functions you are targeting to be supported for your vehicles list, then we will reply to you with optimum solutions and we can also supply you with all hardware and software according to your needs with high quality products and best prices too.

So all you need for now, write down the vehicles list of your interest and which IMMO functions you need to support, then download our IMMO Software Catalog, then Pick the right software programs according to your needs (select programs by Item#), then e-mail us with your order and any other IMMO/Key programming tools you may also need to buy, then we will reply to you ASAP with our best prices and our payment procedure and information.

Please always contact us to get latest price and relative manuals+supported vehicles list, all shown prices below have been changed
Send us the item number(s) to get our best price and more detailed information

ITEM# New-5

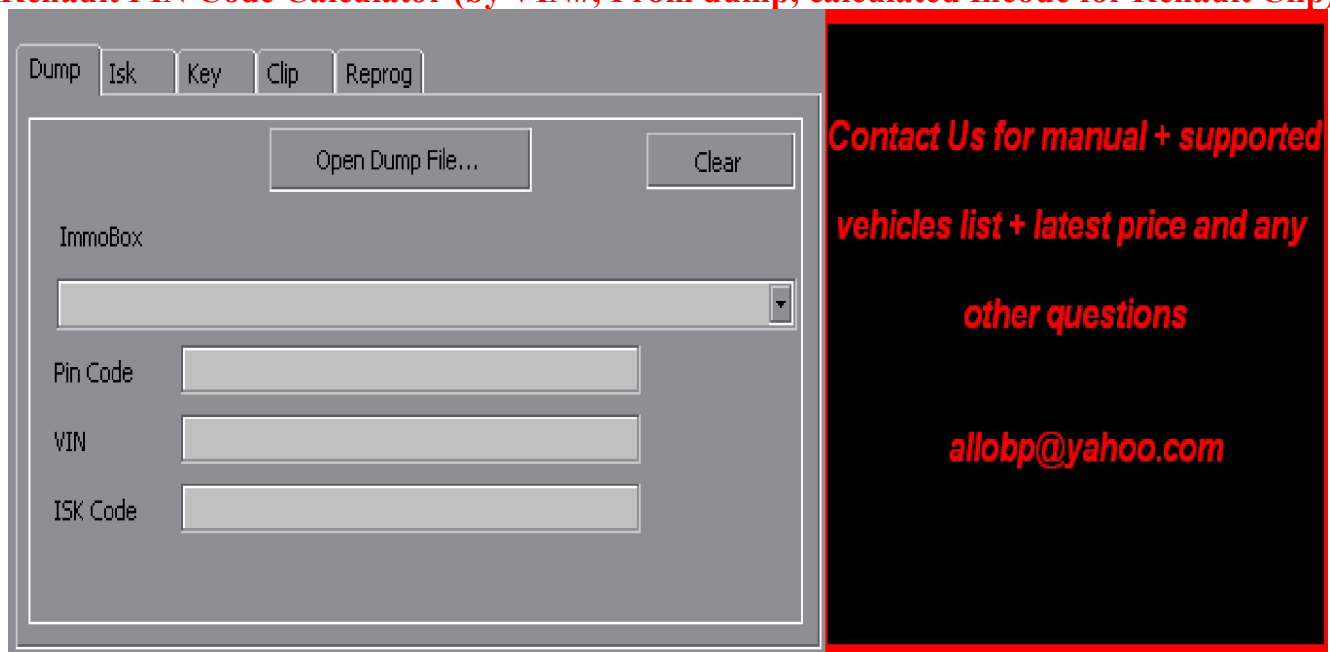

Car Software for IMMO decoding and EGR disabling tools (V 5.2 2012 update)

The screenshot displays the 'CAR SOFTWARE 5.2' interface. On the left, there is a grid of 40 car brand logos arranged in 8 rows and 5 columns. The brands include: Alfa Romeo, Audi, BMW, Citroen, Fiat, Land-Rover, Mercedes-Benz, MG, Mini, Mitsubishi Motors, Saab, SEAT, Skoda, Smart, Suzuki, DaeWoo, FIAT, Ford, IVECO, LANCIA, Nissan, Opel, Peugeot, Renault, Rover, Toyota, Volkswagen, Volvo, and Hyundai. On the right side, there is a search filter section with the text 'Filtra soluzioni:' followed by radio buttons for 'Tutti', 'Immo', 'EGR', and 'Altri'. Below this is a large grey rectangular area. Underneath the grey area, there are two input fields: 'Selezione marca' and 'Soluzioni presenti' (containing the number '120'). At the bottom right, there is a black box with red text: 'Contact Us for manual + supported vehicles list + latest price and any other questions' and the email address 'allobp@yahoo.com'.

ITEM# New-9

Renault PIN Code Calculator (by VIN#, From dump, calculated Incode for Renault Clip)

The screenshot shows the 'Renault PIN Code Calculator' software interface. At the top, there are five tabs: 'Dump', 'Isk', 'Key', 'Clip', and 'Reprog'. Below the tabs, there is a section with two buttons: 'Open Dump File...' and 'Clear'. Underneath, there is a label 'ImmoBox' followed by a dropdown menu. Below the dropdown, there are four input fields labeled 'Pin Code', 'VIN', and 'ISK Code'. To the right of the software interface, there is a black box with red text: 'Contact Us for manual + supported vehicles list + latest price and any other questions' and the email address 'allobp@yahoo.com'.
