Quicken 2012 Installation and Upgrade Guide

brought to you by

Reckon

In this booklet you will find everything you need to know to get you up and running with Quicken 2012, whether you are a new or existing user. We strongly recommend that you read this booklet carefully and follow the steps outlined to ensure your installation process is as smooth as possible.

If you have anti-virus software installed on your PC, it is recommended that you disconnect your Internet connection and then disable your anti-virus software, as it may interfere with software installation.

If you are upgrading from an earlier version of Quicken, pay special attention to the notes describing features that have been changed or added to Quicken since your last upgrade. You may need to perform additional steps in the upgrade process, depending on how old your current version is. The headings in each section provide a guide to finding the instructions relevant to you.

Changes for 2012

Quicken includes many changes and new features in this release. An overview of changes and features you should note is provided below.

Money Smart Calculators

Quicken now contains ASIC Money Smart Calculators which have replaced the previous FIDO calculators.

These new calculators include: Credit Card Calculator, First Home Saver Calculator, Managed Funds Calculator, Superannuation Calculator, Super vs Mortgage Calculator, Budget Planner and Retirement Planner. These calculators are great as a starter when you are considering how to handle your finances.

To open one of the Money Smart Calculators:

1. Choose **Planning** menu > **Financial Calculators**.
2. Click the calculator that you want to use, for example, Credit Card Calculator.
3. Follow the on-screen instructions.

Home Inventory Manager

Quicken 2012 introduces a brand new Home Inventory Manager, which allows you to keep an organised record of your possessions, receipts, and photos to help insurance claims go smoothly. Simplified estate planning by recording items, and noting the beneficiary associated with each.

You need to install Home Inventory Manager before you can open it in Quicken. You can choose to install Home Inventory Manager while you install Quicken 2012. Alternatively, browse your CD and navigate to `d:\HAB\DISK1\Quicken Home Inventory\installer` folder (where d: is your CD-ROM drive) then run **Qhinstall.exe** to install.

To open Home Inventory Manager:

1. Choose **Property & Debt** menu > **Quicken Home Inventory Manager**.

2. Follow the on-screen instructions.

Export data to Advance Desktop Super

Quicken Personal Plus and Quicken Home & Business now integrate with Advance Desktop Super. If you are an accountant or a manager of superannuation funds, you can export data from Quicken investment accounts to use in Advance Desktop Super.

To export Quicken data to Advance Desktop Super:

1. Choose **File** menu > **Export** > **Desktop Super**.
2. Follow the on-screen instructions.

Cash Flow Graph

Quicken Personal Plus and Quicken Home & Business have enhanced the Cash Flow Graph feature by incorporating it into the Personal Cash Flow tab so that you will get a better picture of what is coming in, going out and what is left to spend or save.

To display the Cash Flow Graph:

1. Click the **Personal Cash Flow** tab.
2. In the bottom half of the window, click the **Quarterly Cash Flow** tab.
3. Click **Go to Forecast**.

Restore a backup file

Quicken has been updated so when you choose a backup file to restore, you will be able to choose where the program is restoring the data file to, rather than restoring into the location of the currently opened file.

To restore a backup file:

1. Choose **File** menu > **Restore Backup File**.
2. Select **Local Backup** or **Online Backup** and then click **OK**.
3. Select the file you want to restore and click **OK**.

4. Select the disk drive and path or click **Browse** to indicate where you want to restore the file to.
5. Click **OK**.

Reinvest Income

With Quicken Personal Plus and Quicken Home & Business you can use the Reinvest Income function to record purchases of additional shares of a security with money paid to you by that security as dividend or interest income or capital gains distribution.

The Reinvest Income function has been updated to automatically calculate the cash carried forward and the number of shares issued when you receive a Dividend Reinvestment Plan for your security where you can purchase more shares using your dividend at a discounted price.

To enter a transaction for reinvest income:

1. Choose **Investing** menu > **Go to Investing Centre**.
2. Click your investing account from the Account Bar list.
3. Click **Transactions** in the upper-right corner.
4. Click **Enter Transaction** in the upper-left corner.
5. In the **Enter transaction** drop-down list, select **Reinvest - Income Reinvested**.
6. Enter the **Cash Bought Fwd**, if applicable.
7. Enter the Dividends.
8. Enter the **Price per share** that you are being offered for your security.

Quicken will automatically work out the Cash Carried Forward and the number of Shares Issued.

Tax line items and personal income threshold

In Quicken Personal Plus and Home & Business releases we include tax features which allow you to estimate your taxable income for a particular financial year.

Tax line items have been updated for the 2011/12 financial year to conform with the ATO Tax Pack released in July 2011. Income tracking, tax related expenses as well as Income Tax Summary report have been updated to reflect the changes.

Quicken has been updated with the new personal income thresholds for the 2011/12 financial year. The personal income thresholds are used to estimate the taxes payable at the end of each financial year.

Quicken New Zealand - Data Converter[^]

Microsoft has discontinued their personal finance product - Microsoft[®] Money on the 30th of June 2009. If you were a Microsoft[®] Money user, the Data Converter allows you to transfer your Microsoft[®] Money transactional data to Quicken.

You can choose to install Data Converter while you install Quicken 2012. Alternatively, browse your CD and navigate to d: \HAB\DISK1\mny2qdf folder (where d: is your CD-ROM drive) then run **setup.exe** to install.

[^]You can use the Data Converter tool to transfer your transactions to Quicken 2012 from Microsoft Money[®] 2008; however Microsoft Money[®] and Quicken operate using different accounting methods. Due to this limitation, the Data Converter attempts to achieve the best outcome during the conversion process.

*It is highly recommended that you read the **Quicken Data Converter** document (browse your CD and navigate to d: \HAB\DISK1\mny2qdf folder where d: is your CD-ROM then open **2012_Data_Converter.pdf**) so that you understand and accept the limitations of the Data Converter.*

Recent versions of Windows and User Access Control

If you are using Quicken 2012 on Windows Vista or Windows 7 it is recommended that you leave the default setting for User Access Control (UAC) during installation and use.

Reckon does not support Quicken in a non-UAC enabled Windows Vista or Windows 7 configuration.

Upgrading a data file from Quicken 2004 or earlier versions

If you are upgrading from Quicken 2004 or earlier versions to Quicken 2012 and have passwords associated with your data files, you should remove passwords from your data files before upgrading.

Savings accounts created in Quicken 2004 or earlier versions do not include an **Account Location** field. However, in Quicken 2012 the **Account Location** field cannot be empty. Thus, after upgrading from Quicken 2004 or earlier versions to Quicken 2012, savings accounts will display “**Spending**” in the **Account Location** field.

The new **In / Out / What’s left** feature allows users to immediately see where their money is going using various charts and tables. This feature displays information using the savings accounts that show **Spending** in the **Account Location** field.

If you are upgrading from Quicken 2004 or an earlier version to Quicken 2012 and have savings accounts set up, you should change the value in the **Account Location** field from **Spending** to **Saving**. This ensures the **In / Out / What’s left** feature displays the correct information.

To change the value in the Account Location field:

1. Place the cursor over the account name in the **at-a-glance** bar.
2. Right-click on the account name and select **Edit Account**.
The **Account details** window opens.
3. Change the **Account Location** field from **Spending** to **Saving**.

If you upgrade a data file that contains a linked account

The Quicken 2012 **Investment Activity Report** reports on all transactions from linked accounts. New transactions entered

in the linked accounts in Quicken 2012 will continue to appear in the **Investment Activity Report**.

Upgrading from CashBook 2003 or CashBook 2004

The **Itemised Category Report** in Quicken 2012 does not include account balances forward by default.

To include account balances forward:

1. Open the **Itemised Category Report**.
2. Click **Customise**.
3. Click the **Advanced** tab.
4. Select **Include All** from the **Transfers** drop-down list.

If you have at any stage had 'return of capital' transactions entered in an investment account that has a linked bank account, the **Itemised Category Report** will not add the return of capital transactions to the total.

Opening your original data file after upgrading to Quicken 2012 from any earlier version of Quicken or CashBook

When you upgrade to Quicken 2012, a backup copy of your original data file is automatically placed in a folder called **OldFiles**, which is located in the same folder as the data file you are upgrading. Use this backup copy if you need to view your original file in your previous version. You can choose **File** menu > **Restore** or **File** menu > **Open** to open the file.

Opening Quicken 2009, 2010 and 2011 data files

Quicken 2009, 2010 and 2011 data files will not go through the upgrade process and they should open without any changes. However it is strongly recommended that you do not attempt to open a Quicken 2012 file in Quicken 2009, 2010 or 2011 as it could lead to data corruption due to new features not being available in the 2009, 2010 or

2011 release. You should manually create a backup prior to opening a 2009, 2010 or 2011 file in Quicken 2012.

Deleting Categories

In Quicken, categories are labels that track how much you're spending on particular types of items. If you try to delete an existing category, make sure that no transactions have been assigned to that category. This is to ensure that the reports you run display figures correctly as there will be no uncategorised income or expenses as a result of deleting a category which has previously been used.

Reckon Tools Backup Installation

To use the Quicken 2012 online backup feature, you will need to install the Reckon Tools Backup Desktop application.

Insert the Quicken 2012 CD into the CD-ROM drive and navigate to `d:\HAB\DISK1\Backup` folder (where d: is your CD-ROM drive) and run the `setup.exe`.

Other installation problems

If you experience any other problems during installation, consider whether any of the following may be the source of your problems:

- Are you logged onto your PC as the Administrator?
- Have you shut down all applications?
- Is your anti-virus software blocking your installation of Quicken?

If none of the above appear to be causing your problem, try installing Quicken in Safe Mode. For instructions on restarting your PC in Safe Mode, refer to your Windows Help. After you have installed Quicken in Safe Mode, do not try to open it immediately. First, restart your PC in normal mode and make sure you are connected to the Internet. Open Quicken and enter your Installation Key Code to Activate.

If you do not have an Internet connection, click **Cancel** to close any activation messages and call Reckon Customer Service to Activate over the telephone.

Still having problems? Check the Quicken online knowledge browser at <http://www.quicken.com.au/Support/FAQs.aspx> and search the database for “error message”.

For example, if ‘CashBook v8’ appears in the row for your current version, then you must first upgrade your data file to CashBook 2004. Follow the upgrade instructions on the following pages carefully.

Prepare your company data file for upgrade

We strongly recommend that you follow the steps below to protect your company data and ensure its accuracy.

1. Back up your data file

1. In Quicken, open the data file you want to back up.
2. Choose **File** menu > **Backup**.
3. In the **Select the disk drive and path to backup folder** field, identify the drive that contains the backup media.
4. Click **OK** to start the backup.

For more information on how to back up, please refer to the User Guide (available on the Quicken CD) or in-product Help for "Backing up your data".

2. Validate your data file

Ensure the data file you are using is validated before upgrading your software. Validating a data file allows Quicken to verify its integrity. Choose **File menu > File Operations > Validate**. Find the data file you want to validate and click **OK**. You will need to repeat this process for every data file you want to upgrade.

3. Remove any passwords associated with your data file

To remove your password from your data file, choose **File menu > Passwords > File or Transaction**.

4. Print a selection of Reports from the data file in your currently installed version

Print a record of all business Tax reports for previous periods (e.g. Tax Detail, BAS). You can use these Reports after upgrading to confirm the data which appears in the upgraded version is correct.

Note: Some reports in Quicken 2012 have different default settings to previous Quicken versions. In some

cases, these reports may require you to customise the report to obtain the same figures.

5. **Ensure ALL unapplied Adjustments/Credits are applied to an Invoice or deleted.**
6. **Delete all Scheduled Invoices and Payments (taking note of details)**
7. **Take note of your Quicken Settings / Preferences**

Some of the settings within your company file revert to the default settings of Quicken 2012. Make a note of your personal settings and preferences so you can apply these to your upgraded data file.

8. **Saved Reports may not be available after the conversion**

We recommend that you print any Saved Reports from your current version beforehand, for your reference.

9. **ABN and Branch number may need to be re-entered in your data file after conversion**

10. **If you have customised templates**

Customised Invoice and Estimate templates from your previous version only convert directly to Quicken Home & Business if you install Home & Business in the same installation directory as your previous version of Quicken, once the previous version has been uninstalled.

11. **If you have a linked investment account**

If you upgrade a Quicken company file that contains a linked investment account, the Investment Activity Report in Quicken 2012 will always report on all transactions from both accounts. To avoid this, you should un-link the accounts in your previous version prior to upgrading.

- Explore Quicken's many new features in What's new in Quicken under the Help menu.
- Back up your data file.

DO NOT OVERWRITE YOUR PREVIOUS BACKUP!

You may choose to back up your company file to a CD-ROM or other storage media. Make sure that you label each disk correctly and store it in a safe place in case you need them later. Quicken 2012

End User Licence Agreement

THIS IS AN IMPORTANT DOCUMENT. PLEASE READ IT CAREFULLY.

This is a contract between Reckon Limited (ACN 003 348 730) (**Reckon**) and you. By using the Software supplied with this document, and the related user guides and materials (together the **Software**), you agree to be bound by the terms of this Licence. This Licence covers copies of the Software provided for evaluation or trial purposes, subscription versions and non-subscription or full versions of the Software. Some Licence provisions may not be applicable to you, depending on the particular version of the Software you have purchased or if you are using the Software for evaluation purposes. The defined terms and the rules of interpretation in this Licence are set out in clause 13.

Important: There are a number of technical features within the Software that may affect your ability to continue to use the Software. These are outlined in more detail in the terms of the Licence, but in summary:

- you are purchasing the right to use the Software, not to own it;
- if you have been provided with a Trial Version, you may only use the Software on a temporary basis to evaluate the Software's functionality and suitability for your requirements;
- the Software contains registration and activation processes to guard against illegal copying;
- to continue using the Software, those processes require you to verify your compliance with the terms under which you are licensed to use the software (for example: the number of computers on which the software is installed) and to permit continued reactivation of the Software from time to time. This involves, in all versions, periodically verifying your licence details, and in the subscription version, renewing your subscription when it falls due. Reckon may also verify subscription customers during a subscription period and not only at renewal. You will also need to reactivate your Software if you want to reinstall it (for example, if you upgrade your computer or if you have a hard drive failure, and you may incur a technical support cost for this);
- when you purchase the Software or during the course of your subscription you will be provided with an installation key code. Please keep the installation key code in a safe place. You will need it when you first install or re-install (if permitted) the Software and to reactivate the Software. Please note if you

lose your installation key code that it will not be replaced by Reckon and you will not be able to install or reactivate the Software;

- you also need a licence key to reactivate your Software. In addition, with some older versions of the Software, you will not be able to re-install or reactivate the Software if you do not have your installation key code - see details below on Reckon's sunset policy;
- there will be no charge to activate the Software initially or to reactivate your Software when you verify your licence details or renew a subscription. Reckon may charge you a fee for technical support if it needs to reissue a licence key provided also that the version of the Software you are using has not been 'sunsetted' as explained below. Reckon may also charge a fee if you need to reactivate the Software in other circumstances (for example, if you need to reinstall the Software if you upgrade your computer or due to a hard drive failure);
- if you do not verify your licence details or renew your subscription (as applicable) within the required period, the Software may continue to operate but with impaired functionality or you may not be able to access the Software at all (including printing out or viewing any of your data or records); and
- Reckon has a 'sunset policy' which means that technical support is not available for some older versions of the Software. This includes the ability to install or re-install that Software for any reason if you have lost your installation key code for those old versions. If you wish to continue using the Software in those circumstances, you will need to purchase a new copy of the current version of that Software.
- **Use of Software is not provision of professional advice:**
 - (a) The information contained in the Software may contain features designed to assist you in complying with the requirements of relevant legislation.
 - (b) In providing you with information which may relate to relevant legislation, Reckon is not engaged in rendering legal, accounting or other professional services and that nothing in the Software constitutes taxation, financial, wealth management, superannuation or other professional advice. Legal, accounting or other relevant professional advice should be obtained before taking any action in reliance on this Software.
 - (c) While relevant reports produced using the Software will be compliant with legal requirements at time of release, as these requirements may change from time to time, you should confirm compliance with your professional adviser

before relying on any such reports.

(d) The help contained in this Software is not a substitute for obtaining the appropriate independent professional advice. If legal advice or other expert assistance is required, you should seek the service of the appropriate competent professional.

- **Third Party Online Services:** The Services may contain access to, or features that interface with, third party online services ("Third Party Online Services"). Where Third Party Online Services are available, separate terms and conditions with the provider of the Third Party Online Services may apply. Charges may apply for the use of Third Party Online Services including the cost of internet access. Except as required by the Consumer Guarantees, access to Third Party Online Services may be withdrawn by Reckon at any time. Reckon does not make any recommendations in relation to the Third Party Online Services or accept any liability or responsibility for any loss or damage relating to the Third Party Online Services except as required by the Consumer Guarantees.
- **Back up & Data Retention:** You should ensure you conduct regular backups of your data. Except as required by the Consumer Guarantees, Reckon on behalf of itself and/or any of its distributors and associates, does not assume any liability with regard to your use of the Software, including but not limited to, loss of data. In addition, you should confirm your data retention requirements for tax and compliance purposes with your professional adviser.
- **Liability:** To the maximum extent permitted by any law, including the Competition and Consumer Act 2010 (Cth) Consumer Guarantees, Reckon will not be liable responsible for delays, non-performance, failure to perform, processing errors nor will the liability of Reckon include or extend to any special or consequential loss or damage suffered by you, except where required by the Consumer Guarantees.
- **Limitation of implied terms:** In relation to goods or services not ordinarily acquired for personal, domestic or household use, Reckon's (and its distributors') liability for breach of any guarantees, implied conditions or warranties that cannot be excluded is limited, to the extent permitted by law and at the option of Reckon, to repair the goods, or the cost of repairing the goods, to replacing or re-supplying the goods or services or their equivalent again or the payment of the cost of having the goods or services or their equivalent replaced or supplied again. You acknowledge that this clause, and any reliance on it by Reckon, is fair and reasonable.

Reckon will not be obliged to provide you with a replacement key code and in those circumstances you will need to purchase a new version or Upgrade in order to continue using the Software. Please go to <http://www.reckon.com.au> to see the sunset policy.

- (i) in the case of a subscription version of the Software, during the period for which you have paid the relevant subscription fees (unless further releases of the Software in question are discontinued); and
 - (i) in the case of a full version of the Software, there is a 'sunset period' during which technical support may not be available for that version. The sunset period for a version will commence on the earlier of:
 - (A) 2 years after the date on which you first installed the version on your computer; or

 - (i) provision of telephone help desk support services;

For all other technical support, Reckon may charge you a fee in accordance with its then current technical support policy.

- (b) *Terms for Online Services:* Certain Third Party Online Services are not available for all versions of the Software. For example, in the case of bank statement download services, not all banks provide services that connect to the Software. Third Party Online Services are only available for 12-month periods for subscription versions and 24-month periods for full versions. In the case of a full version, access to Third Party Online Services in the second 12-month period may be subject to payment of the applicable charges. In order to renew access to Third Party Online Services at the end of the 24-month period in the case of a full version, you will be required to have purchased or upgraded to the latest version of the Software. In the case of a subscription version, you must have renewed your subscription. Internet access is required for all Third Party Online Services. Charges may apply for the use of Third Party Online Services (in addition to the cost of Internet access levied by your ISP). Where Third Party Online Services are available, separate terms and conditions with the provider of the Third Party Online Services may apply. In some cases Reckon may be the provider. You should check with the relevant third party provider as to the terms and conditions of use. Access to Third Party Online Services may be withdrawn by Reckon at any time. Reckon will not be liable for the withdrawal of access to any Third Party Online Services. Where access is to be withdrawn, Reckon may choose to notify you in advance provided that you have supplied Reckon with a valid and up to date email address.
- (c) In some cases you may download other third party applications, for example Google Desktop supplied by Google Inc. In such cases your agreement to be bound by the terms of this Licence will also bind you to the terms of use or other similar agreements required by such third parties for use of their products.

7. LIMITED WARRANTY

This clause 7 is subject to the consumer guarantees regime as set out in Schedule 2 to the Competition and Consumer Act 2010 (Cth) (also referred to as the Australian Consumer Law), and the Consumer Guarantees Act 1993 (NZ), as amended from time to time, or other similar legislation of a state or territory of Australia or NZ respectively. ("Consumer Guarantees"). In Australia, our goods come with guarantees that cannot be excluded under the Australian Consumer Law.

You are entitled to a replacement or refund for a major failure and compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure. In New Zealand, these guarantees cannot be modified nor excluded by any contract, except in those circumstances contemplated by section 43(2) of the New Zealand Consumer Guarantees Act.

- (a) *Software provided on an 'as is' basis:* Except as required by the Consumer Guarantees, Reckon provides the Software to you on an "as is" basis and without any representations by Reckon or any of its authorised distributors regarding the use, performance or results of the use, of the Software.

During this period, subject to clause 7(c), Reckon will replace any defective media on which the Software was supplied and any Software on that media, free of charge, unless you caused damage to the media due to poor handling.

 - (A) in the body of the email, provide the IKC, detail the fault and whether a workaround has been provided by a member of Reckon's support team; and
 - (B) provide a copy of the receipt or proof of purchase and payment

Once Reckon receives the information, Reckon will provide a preliminary assessment of the claim and contact you to advise. Software assessed on a preliminary basis to be defective by Reckon will be replaced by Reckon and sent to you at Reckon's cost.

- (d) *No guarantee that Software will be error free or that its use will be uninterrupted:* While Reckon has endeavoured to

- (e) make sure that the Software works substantially as per the specifications published by Reckon from time to time, except as required by the Consumer Guarantees, Reckon does not guarantee that the Software will work on all computer hardware platforms or configurations and makes no warranty that the Software will be error free or that its use will be uninterrupted.

- (i) in the case of a subscription version of the Software, for an initial period of 12 months from the date of registration of the Software. This Licence will automatically renew for a further 12 month period upon the payment of Reckon's annual subscription fee.  - (A) you may be required to periodically verify your licence details and have the Software reactivated as per clause 3 in order to keep using the Software; and
 - (B) if you need to reinstall the Software, you will need a copy of your original CD (or other media on which the Software was provided) and the installation key code. If you do not have the CD, you will need to purchase or upgrade to a new full version and pay for the postage associated with sending the CD to you. Clauses 4(d) and 4(g) outline when Reckon may charge you a fee for the provision of a replacement key code and, more importantly, when a replacement key code will not be provided by Reckon due to the operation of Reckon's sunset policy.
- (b) *Termination by Reckon for breach*: Reckon may terminate this Licence if you are in breach of its terms or as otherwise set out in this Licence.
- (c) *Survival*: Clauses 2, 6, 7, 8 and this clause 9 will survive the termination of this Licence. Termination of this Licence will not prejudice any right which Reckon may have, or but for the termination may have had, against you for a breach of this Licence.
- (d) *Things you must do on termination*: Upon the termination of this Licence, you or your representative must promptly uninstall the Software from your computer, destroy the CD, User Guide and related materials and any copies of them in your possession or control or return or dispose of them in the manner directed by Reckon. - (c) *This Licence prevails:* If you have purchased this Software as an Upgrade to an earlier version of the Software, this Licence shall supersede any previous licence agreement.
- (d) *Not all Upgrades included:* Your subscription to the Software and any Upgrades and/or Updates under this Licence does not grant you the right to receive special versions of the Software created for certain customers or market segments, even though they may contain similar features or functions. Versions of the Software which may from time to time be offered in retail or other channels in different configurations as special promotions are not included as part of the subscription.
- (e) *No obligation on Reckon to upgrade:* Upgrades and/or Updates will be developed and released by Reckon in its sole discretion, and Reckon does not warrant or represent that it will develop or release any Upgrades and/or Updates during the term of the subscription period or Licence. Furthermore, Reckon does not warrant that the Upgrades and/or Updates will be provided to you or made available within any specified time period following the commercial release of such Upgrades and/or Updates.
