

INDEPENDENT ASSURANCE REPORT

To the management of GlobalSign NV/SA ("GlobalSign"):

Scope

We have been engaged, in a reasonable assurance engagement, to report on GlobalSign management's assertion that for its Certification Authority (CA) operations at its locations as detailed in [Appendix C](#), throughout the period April 1, 2019 to March 31, 2020 for its CAs as enumerated in [Appendix B](#), GlobalSign has:

- ▶ Disclosed its extended validation SSL ("EV SSL") certificate lifecycle management business practices in the applicable versions of the Certificate Practice Statements and Certificate Policies, as stipulated in [Appendix A](#), including its commitment to provide EV SSL Certificates in conformity with the CA/Browser Forum Guidelines on the GlobalSign's website, and provided such services in accordance with its disclosed practices
- ▶ Maintained effective controls to provide reasonable assurance that:
 - The integrity of keys and EV SSL certificates it manages is established and protected throughout their life cycles; and
 - EV SSL subscriber information is properly collected, authenticated (for the registration activities performed by GlobalSign)

in accordance with the [WebTrust Principles and Criteria for Certification Authorities - Extended Validation SSL, Version 1.6.2.](#)

Certification authority's responsibilities

GlobalSign's management is responsible for its assertion, including the fairness of its presentation, and the provision of its described services in accordance with the [WebTrust Principles and Criteria for Certification Authorities - Extended Validation SSL, Version 1.6.2.](#)

Our independence and quality control

We have complied with the independence and other ethical requirements of the Code of Ethics for Professional Accountants issued by the International Ethics Standards Board for Accountants, which is founded on fundamental principles of integrity, objectivity, professional competence and due care, confidentiality and professional behaviour.

The firm applies International Standard on Quality Control 1, and accordingly maintains a comprehensive system of quality control including documented policies and procedures regarding compliance with ethical requirements, professional standards and applicable legal and regulatory requirements.

Auditor's responsibilities

Our responsibility is to express an opinion on management's assertion based on our procedures. We conducted our procedures in accordance with International Standard on Assurance Engagements 3000, Assurance Engagements Other than Audits or Reviews of Historical Financial Information, issued by the International Auditing and Assurance Standards Board. This standard requires that we plan and perform our procedures to obtain reasonable assurance about whether, in all material respects, management's assertion is fairly stated, and, accordingly, included:

1. Obtaining an understanding of GlobalSign's EV SSL certificate lifecycle management business practices, including its relevant controls over the issuance, renewal, and revocation of EV SSL certificates;
2. Selectively testing transactions executed in accordance with disclosed EV SSL certificate lifecycle management practices;
3. Testing and evaluating the operating effectiveness of the controls; and
4. Performing such other procedures as we considered necessary in the circumstances.

We believe that the evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

GlobalSign's management has disclosed to us the attached comments ([Appendix D](#)) that have been posted publicly in the online forums of the Bugzilla site, as well as the online forums of individual internet browsers that comprise the CA/Browser Forum. We have considered the nature of these comments in determining the nature, timing and extent of our procedures.

Relative effectiveness of controls

The relative effectiveness and significance of specific controls at GlobalSign and their effect on assessments of control risk for subscribers and relying parties are dependent on their interaction with the controls, and other factors present at individual subscriber and relying party locations. We have performed no procedures to evaluate the effectiveness of controls at individual subscriber and relying party locations.

Inherent limitations

Because of the nature and inherent limitations of controls, GlobalSign's ability to meet the aforementioned criteria may be affected. For example, controls may not prevent, or detect and correct, error, fraud, unauthorized access to systems and information, or failure to comply with internal and external policies or requirements. Also, the projection of any conclusions based on our findings to future periods is subject to the risk that changes may alter the validity of such conclusions.

Opinion

In our opinion, throughout the period April 1, 2019 to March 31, 2020, GlobalSign management's assertion, as referred to above, is fairly stated, in all material respects, in accordance with the [WebTrust Principles and Criteria for Certification Authorities - Extended Validation SSL, Version 1.6.2.](#)

This report does not include any representation as to the quality of GlobalSign's services beyond those covered by the [WebTrust Principles and Criteria for Certification Authorities - Extended Validation SSL, Version 1.6.2.](#), nor the suitability of any of GlobalSign's services for any customer's intended purpose.

Use of the WebTrust seal

GlobalSign's use of the WebTrust Principles and Criteria for Certification Authorities - Extended Validation SSL Seal constitutes a symbolic representation of the contents of this report and it is not intended, nor should it be construed, to update this report or provide any additional assurance.

Appendix D - Publicly disclosed incidents

#	Disclosure	Publicly Disclosed Link
1	GlobalSign disclosed the misissuance of QWAC certificates.	Bugzilla Ticket Link
2	GlobalSign disclosed that there has been an issue with an OCSP responder status.	Bugzilla Ticket Link
3	GlobalSign disclosed that some SSL certificates with US country code and invalid State/Prov have been issued.	Bugzilla Ticket Link
4	GlobalSign disclosed that ICAs in CCADB, without EKU extension are listed in WTCA report but not in WTBR report.	Bugzilla Ticket Link
5	GlobalSign disclosed that OCSP responders found to respond signed by the default CA when passed an invalid issuer in request.	Bugzilla Ticket Link
6	GlobalSign disclosed that there has been a wrong business category on 3 EV SSL certificates.	Bugzilla Ticket Link
7	GlobalSign disclosed that an OCSP Responder returned invalid values for some precertificates.	Bugzilla Ticket Link
8	GlobalSign disclosed that a customer (AT&T) running an on-premise (technically-constrained) CA that chains to a GlobalSign root, issued certificates without AIA extension.	Bugzilla Ticket Link
9	GlobalSign disclosed that it misissued 4 certificates with invalid CN.	Bugzilla Ticket Link
10	GlobalSign disclosed that it issued certificates with Subject Public Key Info lacking the explicit NULL parameter.	Bugzilla Ticket Link
11	GlobalSign disclosed that it performed an untimely revocation of TLS certificate after submission of private key compromise.	Bugzilla Ticket Link
12	GlobalSign disclosed that it was not able to revoke 2 noncompliant QWACs within 5 days.	Bugzilla Ticket Link
13	GlobalSign disclosed that it was not able to revoke noncompliant ICA within 7 days	Bugzilla Ticket Link

GlobalSign

GMO INTERNET GROUP

GlobalSign Management's Assertion

GlobalSign NV/SA ("GlobalSign") operates the Certification Authority (CA) services as disclosed in [Appendix B](#) and provides Extended Validation SSL ("EV SSL") CA services.

The management of GlobalSign is responsible for establishing and maintaining effective controls over its EV SSL CA operations, including its EV SSL CA business practices disclosure on its website, EV SSL key lifecycle management controls, EV SSL certificate lifecycle management control. These controls contain monitoring mechanisms, and actions are taken to correct deficiencies identified.

There are inherent limitations in any controls, including the possibility of human error, and the circumvention or overriding of controls. Accordingly, even effective controls can only provide reasonable assurance with respect to GlobalSign's Certification Authority operations. Furthermore, because of changes in conditions, the effectiveness of controls may vary over time.

GlobalSign management has assessed its disclosures of its certificate practices and controls over its EV SSL CA services. Based on that assessment, in GlobalSign management's opinion, in providing its EV SSL Certification Authority (CA) operations at its locations as detailed in [Appendix C](#), throughout the period April 1, 2019 to March 31, 2020, GlobalSign has:

- Disclosed its extended validation SSL ("EV SSL") certificate lifecycle management business practices in the applicable versions of the Certificate Practice Statement and Certificate Policy, as stipulated in [Appendix A](#), including its commitment to provide EV SSL certificates in conformity with the CA/Browser Forum Guidelines, and provided such services in accordance with its disclosed practices.
- Maintained effective controls to provide reasonable assurance that:
 - The integrity of keys and EV SSL certificates it manages was established and protected throughout their life cycles; and
 - EV SSL subscriber information was properly collected, authenticated (for the registration activities performed by GlobalSign)
- Disclosed the attached comments ([Appendix D](#)) that have been posted publicly in the online forums of the Bugzilla site, as well as the online forums of individual internet browsers that comprise the CA/Browser Forum. We have considered the nature of these comments in determining the nature, timing and extent of our procedures.

In accordance with the [WebTrust Principles and Criteria for Certification Authorities - Extended Validation SSL, Version 1.6.2.](#)

Appendix C – Locations

Location Identifier	Country	State / Province
BE-01	Belgium	Vlaams-Brabant
CN-01	China	Shanghai
IN-01	India	Delhi
JP-01	Japan	Tokyo
JP-02	Japan	Yamaguchi
JP-03	Japan	Tokyo
JP-04	Japan	Tokyo
JP-05	Japan	Tokyo
PH-01	Philippines	National Capital Region
RU-01	Russia	Moscow
SG-01	Singapore	Central Singapore
SG-02	Singapore	Central Singapore
UK-01	United Kingdom	Kent
UK-02	United Kingdom	Greater London
UK-03	United Kingdom	Greater London
US-01	United States	New Hampshire

Appendix D – Publicly disclosed incidents

#	Disclosure	Publicly Disclosed Link
1	GlobalSign disclosed the misissuance of QWAC certificates.	Bugzilla Ticket Link
2	GlobalSign disclosed that there has been an issue with an OCSP responder status.	Bugzilla Ticket Link
3	GlobalSign disclosed that some SSL certificates with US country code and invalid State/Prov have been issued.	Bugzilla Ticket Link
4	GlobalSign disclosed that ICAs in CCADB, without EKU extension are listed in WTCA report but not in WTBR report.	Bugzilla Ticket Link
5	GlobalSign disclosed that OCSP responders found to respond signed by the default CA when passed an invalid issuer in request.	Bugzilla Ticket Link
6	GlobalSign disclosed that there has been a wrong business category on 3 EV SSL certificates.	Bugzilla Ticket Link
7	GlobalSign disclosed that an OCSP Responder returned invalid values for some precertificates.	Bugzilla Ticket Link
8	GlobalSign disclosed that a customer (AT&T) running an on-premise (technically-constrained) CA that chains to a GlobalSign root, issued certificates without AIA extension.	Bugzilla Ticket Link
9	GlobalSign disclosed that it misissued 4 certificates with invalid CN.	Bugzilla Ticket Link
10	GlobalSign disclosed that it issued certificates with Subject Public Key Info lacking the explicit NULL parameter.	Bugzilla Ticket Link
11	GlobalSign disclosed that it performed an untimely revocation of TLS certificate after submission of private key compromise.	Bugzilla Ticket Link
12	GlobalSign disclosed that it was not able to revoke 2 noncompliant QWACs within 5 days.	Bugzilla Ticket Link
13	GlobalSign disclosed that it was not able to revoke noncompliant ICA within 7 days	Bugzilla Ticket Link
