#CHANGEWWHATYOU CAN

# #CHANGEWHATYOU CAN

The world may be too big  
for us to change.

But what we can change,  
is change our world.

The space and the people around us.  
The environment we live in.  
It is what we can do. And must do.

Often, all it takes is a simple idea.  
Though at first only a few see its  
potential, and others doubt it.  
Only a few applaud its intention,  
and others question it.

But these few eventually end up  
changing the world.

One person at a time.

These are the ones who will  
drive the MG ZS EV.

And change their environment.

And eventually, the world.

One car at a time.
