	Native Health and Nutrition Resources	22-26
International Native Agricultural and Health Resources		26-33

Introduction

Interested persons, advocates, managers, tribal leaders and academics alike often search for resources on food sovereignty for a myriad of reasons. First Nations Development Institute staff members often research and make references to articles, books and reports in their own work. Thanks to the insight and efficiency of one our former staff members, Bridget Guiza, this list was compiled in an attempt to house resources on food sovereignty in a central location for the benefit of First Nations' staff. Because of its value, we wanted to share this with others who often inquire about resources that may be useful in the study of Indigenous Food Sovereignty. As more and more interest on the topic is garnered, this list will continue to grow. While there are constantly new materials being developed, we hope this list serves as a starting point to begin, end or continue research into Indigenous Food Sovereignty.

National Indigenous Food Sovereignty Sources
