Why training at SFS is the BEST thing you could do for your career

The IT field is getting increasingly complex these days. So many technologies, so many platforms, so many types of development methodologies! If you are confused we don't blame you but we do recommend you train with us at SFS, it's the vital step to getting yourself a rockstar IT career.

WHY? Here are 7 good reasons

We keep pace with the times

We offer trainings that are current, relevant and in demand. For e.g. training in Salesforce implementation and Mobile App development for iPhone and Android.

We focus on training for specific platforms not just technologies

Hiring for IT jobs is usually very specific. Nobody looks for just a PHP professional, they are more likely to look for an engineer familiar with Magento to cite an example.

Getting to know the SDLC lifecycle

We train you to know and work within the boundaries of the Software Development Lifecycle. You'll get know everything from creating the SRS documentation to software testing.

Work with actual software engineers

Your SFS faculty is a team of experienced software engineers, many of whom are senior professionals with positions of responsibility so you can look forward to learning from veterans in the trenches.

Skilled code optimization

One of the practical aspects of writing code is that it needs to be clean and light. We teach you how to write and optimize code flawlessly.

Soft skills and technical workshops

At SFS we have quite a few workshops and talks organized for students whether on soft skills, communication etiquette or technical topics. It's a great way to learn!

Entrepreneurship opportunities with SACC

The Startup Accelerator Chamber of Commerce or SACC as it is popularly known is an initiative co-promoted by Netsmartz, our flagship company. As such you will get the opportunity to attend Startup Weekends for free and learn how to transform your ideas into business plans with invaluable knowledge on how to get funding, pitching ideas to investors and getting the right branding etc.

What the SACC does

- Organizes Bootcamps for awareness
- Organizes Startup Weekends
- Acceleration and fund raising assistance
- Runs Startup in a Box, a co-working space
- Encourages women entrepreneurs
- Provides free online learning content for entrepreneurs through SACC University

The Startup Accelerator Chamber of Commerce

Our flagship company Netsmartz has spearheaded the creation of the Startup Accelerator Chamber of Commerce (SACC) and Manipal Dhariwal, Netsmartz CEO also serves as the Chapter President. The SACC is a group of like-minded, selfless entrepreneurs and professionals committed to developing the Startup eco-system in Punjab and Chandigarh thus encouraging entrepreneurship and creating jobs in the region.

Headquartered in Chandigarh, India, SACC is a non-profit that has a strong footprint in Punjab, Haryana and UP through its vibrant and highly networked community of established entrepreneurs, mentors, professionals and students.

Shri Manoharlal Khattar, Haryana CM with Manipal Dhariwal, Netsmartz CEO at Haryana SACC inauguration.

Startup Weekend, Punjab in progress

Startup in a Box meeting room

Netsmartz is our flagship company and is a premium provider of IT services globally. Software and Mobile App Development, eLearning, Digital Marketing, Infrastructure services and Platform Integration are some of the services we provide.

Software Depot Online is our group company that is largely concerned with launching and marketing of our proprietary products.

CloudSmartz consults, develops, and manages on a full spectrum of IT needs: Business Consulting, Application Development, Hosted Solutions and more.

Altolia retails the Altolia brand, a premium range of elevator shoes and a boon to all short men!

Organizations we associate with for training

Partnering with NSDC for the Udaan Scheme to train the youth of J&K

Sebiz Finishing School has joined hands with NSDC (National Skill Development Corporation) under the Udaan Scheme, to train 200 Jammu and Kashmir youth in the next 3 years. All the candidates will be offered placement after completion of training. Our training and education will promote new competencies in the young recruits from J&K to create industry-ready, skilled IT professionals.

How we are training the candidates

The students are getting trained by us on the latest Web based Applications like iPhone, Android, Java, PHP and .NET. Our major thrust is on providing hands on experience on the chosen technology through live projects. We are using a full spectrum of training technologies — including e-learning, instructor-led courses and traditional methodologies. Besides IT training we are also focusing on Personality Enhancement and Entrepreneurship Development.

Sebiz Finishing School -education and beyond

Sebiz Finishing School came into existence with the express goal of creating industry-ready freshers who could fulfil the hiring requirements within our own companies.

Today SFS is fast becoming an education hub in the Tricity area. It has been in existence for over 10 years and has shaped a lot of great careers. SFS has helped train over 2000 IT graduates and place over 1500 graduates in jobs. It offers a range of products and services ranging from Industrial Training , Online Courses, Weekend Workshops for working professionals to Corporate Training.

What makes SFS training special?

- Quizzes, seminars, workshops and cultural activities
- Training on SDLC right from SRS creation to testing
- Trained faculty consisting of experienced developers
- Individual computer assigned to each student
- Well stocked library and training material
- Recreation room and cafeteria
- Project workshops conducted by development heads
- Work on unique live projects
- Project Viva preparation
- Soft skills training by in-house trainers and external
