PTA Hears of Plans by Quin For Split Session

CARTERET—The Columbus P.T.A. held its regular meeting Tuesday evening, May 17, at the Columbus School.

An art exhibit was displayed of the works of the Columbus School pupils under the direction of Mrs. Mathison. Science, Math and Language Exhibit was also displayed by the Seventh and Eighth grad teachers.

The association will sponsor the annual eighth grade graduation party and ice cream will be distributed to the children by the P.T.A. at the annual kindergarten party.

Edwin S. Quin, superintendent of schools, recommended that the third, fourth and fifth grades go on split session until the new schools are completed.

He stated that "this will make smaller classes for better teaching and the classes will be dismissed at 4 P. M." If the Board of Education approves, this is not a final step as the purpose room may be finished before the new school term.

Mrs. Mary Desmond, principal of the Cleveland School, will use this all purpose room for the kindergarten which will leave more classrooms for the upper grades.

Carteret Slayer's Life Rocker to be Spared by Gov. Meyner Head Speakers' List at Dinner

CARTERET—Governor Meyner commuted the death sentence of Willie Butler, this borough, to life imprisonment. He was convicted of the murder of James Quackenbush, of Edison, an elderly night watchman, during a 1956 safe robbery at the Kopper Coke Co. plant in Port Reading.

Butler was convicted by a jury of the murder of James Quackenbush, of Edison, an elderly night watchman, during a 1956 safe robbery at the Kopper Coke Co. plant in Port Reading.

Strong and Deegan said Butler was convicted largely on the testimony of John Coleman, an accomplice in the crime who pleaded no defense and is now serving an indeterminate term in the Bordentown Reformatory.

Influx of Pupils is Unabated Borough Will Honor Dead of All Wars At Services Monday

Quin Sees Need of Split Sessions, Bans Basement Classrooms

CARTERET—With the rapid influx of new population, split sessions are unavoidable in the Carteret public school system. This is the opinion of School Superintendent Edwin S. Quin, who said that this picture remains unchanged unless the Board of Education finds different ways and means.

Mr. Quin has estimated that there will be at least 160 additional pupils in Cleveland School and 150 in Washington School when the 1961-1962 school season opens. "It might be even more," he said.

He also pointed out that some 50 new homes have been completed in the Carteret Hills Development with early occupancy in sight. Aside from that, he declared, more than 150 homes are under construction in the West Carteret section and these may be occupied before the year-end rolls around.

Mr. Quin said he had recommended split sessions at the Columbus School for the third to the fifth grades and at the Nathan Hale School for the third and fourth grades.

"I am not in favor of using the basement in the Columbus school for classrooms," Mr. Quin said. "I don't believe that the parents are in favor of it either."

He added that inconveniences will have to be taken in stride or a while until the two new school buildings are constructed.

Mr. Quin said he had recommended split sessions at the Columbus School for the third to the fifth grades and at the Nathan Hale School for the third and fourth grades.

Naval Reserve Poppy Sale Here Promotes Walko This Weekend

CARTERET—Joseph J. Walko, 39 Grant Avenue, has been appointed to the rate of Chief Machinery Repairman, U. S. by Mayor Stephen Skiba.

All funds raised by the sale will be used to rehabilitate disabled servicemen and their families, to aid others in readjustment problems and to provide a normal, healthy home for war orphans.

Poppy Days one basic purpose is to provide a personal means of honoring the nation's war dead.

The commanders of the Carteret veterans organizations stressed that because there is so much to be done in aiding our veterans and their dependents, each citizen of Carteret is being asked to donate a little more this year.

When the people show that they have not forgotten, veterans from all over the nation will know that their service was not in vain, the commanders said.

Aptitude Tests At High School

CARTERET—This week all freshmen at Carteret High School took a series of aptitude tests which were administered by the guidance department with the assistance of senior members of the National Honor Society.

These tests are designed to assist the student in his educational and vocational choices since they provide a profile of the student's ability in eight areas. With the guidance of his counselor he can survey the areas of endeavor which his ability or a combination of his aptitudes suggests.

Ideally he should consider his aptitudes in combination with his interests. Earlier many of the ninth graders had taken a nationally known interest inventory.

The committee reports that fifty four boys, all varsity athletes at Carteret High School, also have been invited as guests of the Carteret Sportsmen. Highlighting the evening's activity will be the awarding of the annual Most Valuable Player Trophies for each sport.

Following the dinner, "The Lads", one of the area's most popular bands will supply the music for dancing. The dance will start at 9 P. M.

TRAFFIC SAFETY HINTS OFFERED
By Edward Jannicola
Carteret Traffic Safety Chairman

CARTERET — Summer means school is out for the youngsters and extra caution for the motorists. David Green, President of the Motor Club of America, warned today.

"It's a wonderful time of the year for the youngsters," Mr. Green said, "but it's also a dangerous time. It is a dangerous time because their playing too often is unsupervised. Release from school will bring the youngsters back to the street. So engrossed are they in their play," Mr. Green continued, "they forget the safety lessons learned in the classrooms. They'll do the unexpected. Thus, a driver in a play area should automatically slow down."

While parents have a responsibility to safeguard their youngsters play activities, the burden of the motorist does not lessen and that extra caution is mandatory.

K. of P. Elects Temporary Head

WOODBRIDGE — Charles Kirschner was elected temporary chancellor commander of the new Knights of Pythias Lodge being formed in the Woodbridge area during an organization meeting held at the Independent Leader building.

Final plans for organization will be made at 8:30 P. M. June 14 at a meeting in the Woodbridge American Legion Hall, Berry Street. Efforts will be made to have the lodge ready for official acceptance into the Knights of Pythias order at a meeting June 28.

In addition to Kirschner, temporary officers include Larry Sobel, vice chancellor; Sidney Cammy, prelate; Jerry Pflaher, master at arms; Harold Lubell, master of works; Eli Simon, inner guard; Samuel Wolkofsky, outer guard; Irving Puritz, secretary; Irving Markowitz, outer guard, and Chester Willis, treasurer.

Jack Linett of Algonquin Lodge in Perth Amboy has been instrumental in forming the new lodge.

COMMUNIST CHINA — Premier Chou En-lai is regarded here as having killed any lingering hopes that United States newsmen might soon be admitted to Communist China.

Officials say the Premier made it unmistakably clear in Nepal recently that Peiping wanted to use the issue of the newsmen to force it unmistakably clear in Nepal recognition of the Communist regime.

CORRECTS MISTAKE — Coeur d'Alene, Idaho — May 23, 1924, an out-of-state couple obtained a marriage license at Coeur d'Alene. Recently, they returned to get married.

For 36 years they had assumed they were married. Both were born overseas and had little knowledge of American ways at the time. They thought the license was all there was to a marriage ceremony. Not until the man applied for a pension did they learn of their mistake.

Record total of 120,000 visited U.N. in April.

VETERANS BILL GAINS

The House has approved unanimously a bill that would put Federal aid to states for veterans' care on a daily rather than annual basis.

In most cases, it would mean an increase from \$700 to \$912.50 a year for each veteran now in a state home.

The House also approved a bill providing additional compensation for service disabled veterans with four or more children. The measure would grant \$12 a month for each child, instead of for the first, second and third children only as is now provided.

GLAMOR GIRLS

HEALTH and BEAUTY

No undergarment in the world can create a lovely figure from a too-heavy body. Not only is it important to stay slim for appearance's sake, but also for the sake of your health.

Doctors have gone on record as saying that a person is far better off being a little underweight than overweight. Unless there is a real physical reason for excess weight, there is no excuse for allowing oneself to become fat.

Some individuals have a mental complex which causes them to overeat. This complex can be controlled once it is understood. A sensible diet, coupled with the right amount of exercise, can well be called the basis of good health and good looks.

Unfortunately, there are endless fad diets in circulation. Don't try any of these.

When you have made up your mind that it is time for you to lose some weight, go to your family doctor. He will give you an examination and prescribe the kind of diet you need, and one that will be good for you.

Follow your doctor's advice as to the amount of weight to lose. It is safe for young children to be put on a diet under a doctor's direction. However, a child should never be put on a diet unless a doctor has examined him and prescribed the diet.

Nice Lad A lady was entertaining the small son of her married friend. "Are you quite sure you can eat your meat, Willy?" she asked, after watching him for a moment.

"Oh, yessum," he replied without looking up. "We often have it as tough as this at home."

AIDING MENTAL HEALTH DRIVE Dr. Roger Varney, right, President of the Middlesex County Association for Mental Health, discusses the Bell Ringer Kit with Nicholas Klein, pharmacist, employed at Menlo Pharmacy, Menlo Park Terrace. Mr. Klein is public relations chairman for the Middlesex County Pharmaceutical Association, whose members are aiding the current Mental Health drive by featuring coin canisters in their stores and by acting as collection depots for the campaign.

Information Please

The big railroad terminal was crowded when a shabby individual approached a wicket and peered inquiringly at the young woman on duty behind it.

"Excuse me, miss," he apologized, "but do you represent the Travels' Aid Society?"

"Yes," she replied.

"Den, where's de freight yards, please?"

Sarcasm Unlimited

A customer went into an expensive food store and asked the price of a peach that caught his eye.

"Thirty-five cents," said the clerk.

The customer handed him a 5-cent piece.

"Keep the change," he said.

"I stepped on a grape as I came in."

Sticks Policeman: Avenel Man Fined

WOODBRIDGE—An Avenel man was fined \$10 and costs Monday for a Saturday night attack on a Woodbridge policeman. Joseph Collie, 35, of 69 Avenel Street, Avenel, had been charged with assault and battery.

Collie was charged with hitting off duty Patrolman Roy Maskarinetz at the Green Lantern Bar and Grill, Maskarinetz and his companion, Patrolman George Lochil, forcibly restrained Collie and then called police headquarters.

U. S.-INDIA AID

Proceeds of the huge wheat and rice deal the United States and India have negotiated are to be used to help provide a long-term solution to India's age-old food problem.

It is hoped that this will make possible a 5.7 per cent annual increase in agricultural production in India's third five-year plan, beginning April 1, 1961. The annual increase was 2.8 per cent during the first Five-Year-Plan and 4 per cent during the second.

GENTLEMANLY CONDUCT

Marshfield, Wis. — The gunman who held up a loan company in Marshfield evidently had a sense of pride.

"If anything happens, be sure to tell the police I was a gentleman and did not hurt that a man in my position shall you," he told the woman clerk who robbed.

Health Hints

Block That Tick

Residents of New Jersey have been warned by the State Department of Health that the "Tick Time" phrase is more pleasant in sound than in significance. It means that now she happens to be here and that warm days are here and that grasses and foliage are plentiful again, the outdoors walker should be wary lest he fall victim to some slick tick.

Ticks are blood-sucking little animals equipped with a barbed sucker which they bury in the skin of their animal or human victims. They take blood but they can give Rocky Mountain Spotted Fever and other serious diseases. They are, therefore, dangerous and sometimes deadly.

It's wise, after field trips, to search arms, legs, and hairlines for them. If a tick is found, it should be removed with tweezers and the skin area thoroughly and antiseptically cleaned.

It's a good idea to wear protective boots and clothing when moving in tick-infested locations. It's also desirable to keep domestic animals tick-free. A tick can make you very sick. So—block that tick!

Banana Pudding

Bananas are plentiful in the States right now, and look tempting enough to catch the shopper's eye — especially if you have youngsters in the family. Below, therefore, I give you some delicious banana recipes, and hope your family will enjoy them as much as mine.

Banana-Pineapple Salad 6 slices canned pineapple Lettuce 2 bananas 1-2 cup lemon Juice 2 cups grapes

Arrange slices of pineapple on lettuce leaves. Slice the bananas and cover with lemon juice. Let stand 5 minutes and drain. Arrange a circle of banana slices around outside edge of each piece of pineapple. Heap some grapes (halved and seeded) in center of each pineapple slice. Serve with mayonnaise.

Banana Sauce 2 cups milk 1-2 cup sugar 1-4 cup flour 1 egg Mashed pulp of two bananas Scald milk in double boiler. Mix sugar, flour, egg and bananas. Add to hot milk. Cook until mixture thickens. Stir constantly. Then add vanilla.

The NEW RECORDS

By Felix (The Cat) Brown

Today's column will review the last few years, to some degree, and list some 33 long-play albums, which you could buy in all safety, for your good music collection.

These are not classics, in the sense of classical music, but they are semi-classical and they are definitely good music, with great orchestration with sizable groups playing outstanding popular music.

First, the music lover should get something by the Clebanoff Strings and Orchestra. There have been several. Most of them are based on themes from great operas or motion pictures or plays.

David Carroll has also done several albums on themes from great motion pictures, plays, etc., and at least one of these selections should be included. George Melachino has a style of music which should be welcomed in any complete collection. He has done the music of Europeans, such as Lisbon At Twilight. There are many others, and some should be included in any complete selection.

Popular music, played by great orchestras, is not to be scorned. It is, in fact, more in keeping with the style and taste of today's music lover than any other form.

Some good European waltz listening should also be included. A two-record 33 album we

Today's picture review: **TALL STORY**
A man is what the coed heroine of "Tall Story" is out to get; none of this nonsense about going to college for an education.

Her quarry, in fact, is the one who gets the education—about women.

She first assaults the vision-cycling helter-skelter across the campus, duly knocking down two eminent professors whom she then intimidates into aiding and abetting her in her nefarious scheme—the enshrouding of Custer College's basketball hero. A shy, studious type, he is a veritable push-over for her matrimonial camouflage.

paign. There is only one snag, however—a lack of money. Enter a shady character, who attempts to snare the basketball hero with a big pile of the necessary if he will throw an important game.

As the hero, Tony Perkins turns in a gangling and tuteley gauche performance. Jane Fonda is a pretty heroine; Marc Connelly and Ray Walston are lovable as the professors, and Murray Hamilton scores as a coach who knows perfectly well that basketball is a great deal more important than any stuffy academic subject.

Definitely a "young" picture.

MOTHER SAVES SON
Monroe, Mich. — Minutes after she stepped out of her laundry room, Mrs. J. D. Thompson heard loud noises and cries for help. Rushing back, she found her five-year-old son, Richard, spinning around in the automatic washer.

"His head was banging against one side and then the other," Mrs. Thompson said after rescuing him.

Richard had climbed on a cabinet beside the machine and then had fallen in.

IN FASHION

Drip dry clothes are the answer to the travel girl's prayer. The dress that can be washed out at night and is fresh the next morning is a wonderful addition to one's wardrobe. And many of these dresses have little jackets that go with them, and which can be worn late in the afternoon as the weather becomes cooler.

Another garment that cuts down on the number of pounds in the suit case is the reversible coat. This may be a combination day and evening coat, or it may be a combination top and rain coat. Color on one side and white on the other is a favorite combination.

The little black dress is always good to have along on a trip, but solid-colored lines can be worn for almost any occasion. These can be dressed up or down with jewelry and other accessories. A good linen can stay in style for years if it is on the conservative side.

AT EMBLEM DINNER

Salmagundi Hosts At 81st Party

WOODBIDGE — The 81st annual reception of the Salmagundi Literary and Musical Society of Woodbridge was held at the Colonia Country Club with Herbert B. Rankin, reception committee chairman, presiding and acting as toastmaster.

Rev. William H. Schmaus, Rector of Trinity Church Woodbridge, outgoing president, delivered the president's address on "Salmagundi and Its Cultural Contributions to the Community."

The newly elected president, Roland G. Crane, was introduced, and announced committee appointments for the ensuing year.

The oldest members of the organization, Mrs. William B. Krug, gave a few informal remarks concerning the past history of the society.

The evening's program featured Marlon and Bob Hoffman who presented a miniature version of "The Desert Song" by Sigmund Romberg. Marlon, a lyric soprano is a member of the Montclair Opera Club. Bob, a baritone, is also a member of the Montclair Opera Club and the Chatham Community Players. Songs included on the program were "Romance", "One Alone", and "The Desert Song".

Cub Pack Presents 'Shoaboo' Skit

WOODBIDGE — Cub Pack 133 held its monthly Pack meeting recently at the White Church. All four dens put on skits about the "Shoaboo" theme, with Den 4 winning first prize. A picnic was planned for June 18, place to be announced later.

Cubmaster Jack Oliver made the following awards: Mrs. William Hanson, two-year pin; Mary Jane Trainer,

Kevin Pitchell, gold arrow under wolf; Billy Harned, denner stripe; Dennis Horvath, assistant denner stripe; Leonard Williams, silver arrow under wolf.

INSPIRED CHOCOLATE DESSERT: Intriguing in more ways than one is this exquisite Chocolate Continental. There's a rich, unorthodox method of preparation—no cooking—and see what a delightful concoction it is.

Chocolate Continental

1/2 cup unsweetened chocolate
1/2 cup water
1/4 teaspoon salt
1/2 cup milk
1/4 cup (1/2 envelope) instant mashed potatoes
2 tablespoons rum or 1/2 teaspoon rum extract

Boil chocolate over hot water. Meanwhile, cream butter thoroughly. Add vanilla and instant coffee. Beat in all melted chocolate and beat again.

Add water and salt to a full boil. Remove from heat and slowly add instant mashed potatoes. Stir with a fork until thoroughly moistened. Beat until potatoes are light and fluffy. Add the mashed potatoes to the chocolate mixture; mix in rum. Pour into a 7x4x3-inch loaf pan, which has been lined with waxed paper. Cover and chill in refrigerator over night.

Remove from pan. Garnish with confectioners' sugar frosting. Cut into 1/2-inch slices. Makes 12 to 16 servings.

BENSON LAUDED

In what may have been a surprise to him, Secretary of Agriculture Ezra Taft Benson received praise instead of the usual brickbats from Senators reviewing his agency's spending. "You are to be commended, Mr. Secretary, for what you have done for agricultural research," Senator Richard B. Russell told him.

The Georgia Democrat is chairman of a Senate appropriations committee that heard testimony by Mr. Benson on his department's proposed budget of nearly \$4,000,000,000 for the fiscal year beginning July 1.

Chicken - Family or Party Fare Chicken Tarragon is a distinctive recipe featuring chicken cooked with a little California Sauterne wine, consomme and tarragon. It's an easy, inexpensive entree to prepare. For a festive beverage, chill the remainder of the bottle of wine to serve with the chicken. Chicken Tarragon Dredge two frying chickens, cut in serving pieces, in seasoned flour. Brown in heated shortening, drain off excess fat. Combine 3/4 cup California Sauterne wine, 1 (10 1/4 oz.) can condensed consomme and 2 tablespoons dried tarragon. Pour over chicken; cover and cook until tender about 20 to 30 minutes. Make gravy from drippings. Pack hot cooked rice in ring mold; turn out and serve with chicken and gravy. Garnish with spiced peaches and parsley. Makes 6 to 8 servings.

NOW LOOK WHAT CORVAIR'S GONE AND DONE! The same Corvair that tallied a thumping 27.03 miles per gallon* in the Mobilgas Economy Run... went right on to climb Pikes Peak earlier in the spring than any car has ever tried! We wanted to show you what the fabulous traction of Corvair's rear-engine design and the sure-footedness of four-wheel independent suspension really mean. So the Identical Economy Run car went right on to 14,110-foot Pikes Peak—and right up to the top of that savage mountain, on April 15, still deep in winter's snow and ice. No other car—even specially equipped—had ever been able to conquer that nightmare alpine road so early in the spring. But Corvair (with United States Auto Club officials aboard to certify that not one nut or bolt was changed) purred right to the summit without chains or even snow tires! That just underscores the fact that Corvair is totally unique. But you'll find that out the first five minutes you're at the wheel!

At the Typewriter:

Had a wonderful time at the convention of the State Federation of Business and Professional Women's Clubs at Asbury Park over the weekend. I was proud and happy to receive a citation from the United States Air Force—the second highest honor for a civilian from that branch of the service. I was told, Sgt. Carl Dunn, of the USAF Recruiting Service of this area, was surely the envy of all men. He was the only man present at a luncheon attended by 500 women! John H. Hill, son of Mr. and Mrs. Thomas S. Hill, 79 Fleetwood Road, Woodbridge, is a candidate for the degree of Bachelor of Science in Business Administration at Bucknell University. Commencement is set for Sunday, June 5. He is a member of the Student Government at college and on the staff of *Touche*, literary magazine. He is a member of Sigma Alpha Epsilon.

Spotlight on Dessert: Turn the spotlight on a dessert that can be made in a jiffy with the can of fruit you have on the shelf. Ginger Pear Crumble (or it may be peach, pineapple or fruit cocktail), served with or without its crown of ice cream, makes a fine finish for any meal. Your choice of fruit perked with a bit of lemon juice blends perfectly with the spiky gingersnap crumb mixture. Serve it warm or cold to fit the rest of your menu.

Ginger Pear Crumble
 1 1/2 cups gingersnap cookie crumbs
 1/2 cup butter, or margarine
 1 can (1 lb. 14 oz.) pears, or other fruit
 1 tablespoon lemon juice
 Mix crumbs and melted butter; spread half of mixture in a baking dish. Arrange pear halves on top of crumbs and sprinkle with lemon juice and 1/4 cup of the syrup. Combine sugar, salt and spices; sprinkle over pears. Top with rest of crumb mixture. Bake in a moderate oven (350 degrees) about 25 minutes. Serve warm or cold with or without ice cream. Six servings.

Cullen Speaks To Kiwanians

WOODBRIDGE — John J. Cullen, Superintendent of California Oil Company, presented the program at this week's meeting of the Woodbridge Kiwanis Club at the Log Cabin Inn. He advised a new first anti-knock compound is now being used in Chevron Supreme gasoline. It is the first anti-knock compound since ethyl was developed 35 years ago and is called Methyl.

Mr. Cullen stated in part: "It steps up octane performance so effectively that it stops power-wasting knock better than any other known anti-knock compound, and improves road performance of all cars." It was developed by the California Oil Company research affiliate, California Research Corporation.

The film, "Down the Colorado River" was shown which pointed out the famous expedition down the Grand Canyon. Mr. Cullen advised the Caloil film library is available to all service club groups, boys clubs and other organizations.

Robert Rusher announced Herman Dittmer and John Cullen will be delegates to the annual Kiwanis Convention, Miami Beach, in late June. The 50-star flag sale is now under way.

2 Slightly Injured In Route 1 Mishap

WOODBRIDGE — Two persons were injured Sunday in an accident on Route 1 and Avenel Street.

A car operated by Andrew Palotti, 34, Dahl Avenue, Keasbey had stopped for a light when it was struck in the rear by a vehicle owned by Shell Oil Company and driven by James C. Gagner, Morristown. Palotti and Mary Ann Burchak, 23, Oakland Avenue, Keasbey, a passenger, were treated at Perth Amboy General Hospital and released.

In Fashion Now

From overseas we have playclothes and clothes for other occasions featuring fitted pants. One unusual costume is of embroidered batiste with the loose overblouse. In fact, most of these costumes have loose blouses or the long blouse pulled in at the waistline, with a belt. The English feature sweaters with their pants ensembles, having sleeveless bodices. A combination which is very chic is that of a sleeveless leather cardigan worn with a silk skirt and blouse.

Leather belts are in favor this season — some wide, and others pleated.

A peculiar fad from the continent is a specie of beauty patch worn on the face — not so much to beautify the wearer as to attract the attention of the other sex. They are sometimes in the shape of a heart or a star.

HEALTH and BEAUTY

There are many creams and lotions on the market today, with wondrous claims of what their regular use will do for your appearance, that one could quite easily be left bankrupt—if one believed even half of the glowing reports.

Anyone taking seriously the fact that youth and beauty can come from a bottle, is in for a sad let-down. Many of the new cosmetics can improve the complexion. The creams can prolong the youthful appearance of the skin.

However, the truth is that most of the descriptive passages are exaggerated. A good example of this are the reports of what the hormone creams were going to accomplish. Some cosmetic houses had women believing that, when used as directed, (this was quite often in conjunction with one or two of their other products) age lines and wrinkles would be greatly reduced, or fade completely.

A short time ago, one of the outstanding testing laboratories in the country, with no axe to grind, came out in print with a different story. The report, a result of twelve years' study, stated that hormone creams did help retard the aging of the skin. After six to twelve weeks of use, the results could clearly be seen under a microscope, but not by the naked eye.

This may sound terribly discouraging to those women who had such high hopes for the costly hormone creams. However, the best way to look at the results, is to be thankful you live in an age when even a slight retarding of the signs of age are possible.

The best advice in the world is to learn to grow old gracefully. Take sensible care of yourself, but don't allow it to become an end in itself.

Your New Social Security

Q. Is it necessary that I completely retire in order to draw monthly social security benefits?

A. No, you may partially retire. You may restrict your earnings to \$1200 in a year, and you can get benefit checks for all 12 months of the year. If in a year before you reach age 72 you earn more than \$1200, the number of checks due you for that year will depend on the amount of your earnings and on how much work you did in each month. In general, one month's benefit is not payable for each \$80 (or fraction of \$80) of earnings over \$1200 in the year. But beginning in 1959, no matter how much you earn in a year, you can get the monthly payment for any month in which you neither earn wages of more than \$100 nor render substantial services in self-employment.

Q. I will reach age 72 on

LEARN WHILE YOU SERVE

U. S. ARMY

August 6, 1960. Will my earnings for 1960 affect the number of checks I will receive?

A. If your earnings for 1960 are over \$1200, you will be subject to loss of one month's check for each \$80 or fraction of \$80 by which your earnings exceed \$1200. However, you will not lose a check for any month in which you are age 72 or older, or in any month in which you neither earn over \$100 as an employee, or perform substantial services as a self-employed person.

Sweetness and Light

By CHARLES E. GREGORY

Our ranks grow thinner.

Another of my long, close and favorite associates in the dim days of industrious and resourceful journalism — Leo Casey — passed away Monday. He was a professional in the business, who could tell a story and write it with equal skill and finesse. I suppose some of the best pieces of his time, in point of finished rhetoric and presentation of detail, carried the by-line of Leo Casey.

As though this was not accomplishment enough, he was as charming an Irishman as I have ever known. Deeply sentimental and loyal to friendship, he could switch from biting sarcasm to warm wit on the same breath. There was no guile about him, no pretense, no application of a thin veneer to hide a true feeling. If Casey was fond of you, his feelings were conspicuous and his devotion limitless. If he wasn't, he had a quiet but unmistakable way of indicating it—but I never knew him to be untruthful.

He could do everything well when we were off on some story or other—except handle a pair of dice. I have never been a gambler myself, and could never understand what obsession seizes those who are. Leo just couldn't pass a game table. He wouldn't make a pass period. I've known him to lose his own pay, mine and whoever else's was available, at one session. Finally, in despair and knowing he would drift off by himself—and make plans to earn some extra money somehow in order to pay us back. We all always got every penny he owed.

He shouldn't be dishonest, even in small things. When he was on the old New York Graphic, which was less standing than either of the other two tabloids, a reporter who acknowledged he needed for any of them had difficulty in covering a story. The tabloids, even then, were notorious for their handling of the news to accommodate the formula for circulation—and few respectable newspapers were willing to have their names or faces in the news report. As a consequence, some of the tabloid reporters would identify themselves as seeking for the accepted contemporary newspapers.

This subterfuge was not for Leo Casey. I can remember very well his saying:

"You can go out and claim you're working for The Times, but not me. I carry my money from the Graphic, and as long as it pays me I will not deny it—and I'll get the story anyway."

The astonishing part of it was, that he did—and even though in his later years he left active reports to do public relations, it saddens me to know that a craftsman of his superiority and a gentleman of his dimensions, has now left the scene. It was only a few weeks ago that I whispered to my wife a good-bye to Frank Jamieson.

The New York Times, yesterday, in its own estimate of Leo Casey, said:

He had a long career as newspaper man and public relations man before he took on his last assignment, on the firing line at the New York City Transit Authority. There as director of public relations, Leo Casey earned the handsome tribute, so fittingly appropriate, written of him by the city. He was a great fighter for the principle of truthfulness, even when the truth hurt. He was a man who gave a straight answer. Usually, with the insight born of newspaper experience, he was ready before the question came. It didn't make any difference that the fact might be unfavorable to his employer. He produced them with objective detachment. This was the kind of person that served the authority and the public. He was a fine example of well-informed integrity in public relations.

The surely, was Leo Casey.

Gary Ostrower to Visit Germany As Guest of German Newspaper

Blunt Questions to Berlin Journalist Bring Invitations

WOODBRIDGE — Because some Alfred University students, among them a Woodbridge man, asked blunt and probing questions of a guest lecturer representing a German newspaper at the university, the paper will host this summer to 10 students who have been invited to come and study present conditions in Germany for themselves.

Gary Ostrower, son of Mr. and Mrs. Joseph Ostrower, 11 Dixon Drive, and a junior at Alfred, is among the 10 students who will leave Idlewild Airport June 9 at 4 P. M. "The Hamburger Abendblatt," Germany's largest newspaper, has arranged for housing and employment for the young people and will pay any living expenses incurred beyond their earnings. The students' only expense will be their round-trip plane tickets.

Dr. Mathilde Koehler, United Nations correspondent for the "Abendblatt," suggested the plan to her newspaper after filling speaking engagements at Alfred University in January. One of these was before Dr. David Leach's international relations class and during the question period. "They gave her sort of a hard time," Dr. Leach said. "The students questioned her about the revival of Nazi sentiments in Germany and the extent of anti-Semitic feelings. Apparently, she felt that the best way to answer their questions was to have them come and see conditions for themselves."

Forty students applied for the invitation, extended on a campus-wide basis. A faculty selection committee designated 10 on the basis of academic excellence, personality, character and contributions to campus life, according to Dr. Leach.

The group will fly from New York to Paris where they will be met by an "Abendblatt" representative and taken on a tour of the French capital. The student organization of the University of Hamburg has extended a welcome to the Alfred students and will house three of the visitors. It has also asked the Americans to participate in its summer weekend excursions and recreational program.

As of mid-May, the sponsoring newspaper had secured summer jobs for eight of the 10. The "Abendblatt" will employ three, the "Berliner Morgenpost," one; Shell Oil Company, one; a dry cleaning concern, two; a cigarette manufacturer and philanthropist, one. The group will return to the United States about September 15.

Mr. Ostrower, a graduate of Woodbridge High School in 1957, is a junior at Alfred. He has a twin brother, Victor, also a graduate of W.H.S., who is now a junior at Marietta College, Ohio. Gary is president of Alfred's science club and consultant of his fraternity, Tau Delta Phi. He is a special reporter for the university's weekly newspaper, and is majoring in history and political science.

TO VISIT GERMANY: Three of 10 Alfred University students who will spend the summer in Germany talk over some travel literature with Professor David Leach. From left to right are Gary Ostrower, Woodbridge; Karla Turkheimer, New York City; Lawrence Kurlander, Brooklyn and Dr. Leach.

6th VIP Day At Arsenal

WOODBRIDGE — Close to 100 state, county and municipal officials have accepted an invitation from Raritan Arsenal Commander Colonel James D. Peterson to attend the 6th Annual "VIP Day" today at the army installation in Edison Township.

The list of guests include State Senator John A. Lynch, State Assemblyman Joseph C. Doren, County Prosecutor Edward J. Dolan, Freeholder Joseph R. Costa, County Clerk M. Joseph Duffy, and numerous officials from the county level. Also Mayor and councilmen from 10 municipalities, including Woodbridge Township, magistrates, police chiefs, postmasters, and members of the press and radio.

The program will consist of an afternoon of golf, starting at 1 P. M., on the arsenal golf course, a social hour at 5 o'clock, and an outdoor barbecue supper at 6 o'clock.

"VIP Day" has been regarded as a popular community relations event at the arsenal over the past years. Basically, it is an outgrowth of the annual Armed Forces Week luncheon held at the arsenal and then expanded in the succeeding years. Both area officials and key arsenal personnel have expressed themselves as pleased with the opportunity to assemble under relaxed conditions and discuss matters of mutual interest.

To Right A Wrong

The Board of Education should have no difficulty whatever in convincing the State Department of Education of the necessity for increasing senior high school facilities in Woodbridge Township.

While there are exceptional pupils who are able to rank near the top in their College Board examinations, we are amazed at the growing number of those who are unsuccessful in their efforts to enter many of our leading colleges and universities because of their inability to demonstrate superiority in the crucial criteria which are the College Board tests.

Perhaps we are wrong — but somehow we cannot help but place some of the blame for this sad fact on our lack of full-day facilities in our high school. We think it would be highly irrational to argue that our children, in a half day, can prepare themselves for college as well as can those who attend classes a full day.

It is in the hope of correcting this tragedy that the Board is seeking ways of providing the total opportunity in high school preparation. The cost of meeting this goal will be great — but this is our responsibility.

The Problem: Ford Avenue

Some interest has been indicated in a request for review of the thinking which resulted in a denial of a zoning variance at Ford Avenue and Route 1 on a 45-acre tract which was proposed as a site for a Klein Department Store.

The original application was denied on many grounds, principal among which was the inadequacy of Ford Avenue to carry existing traffic without taxing it further by traffic which would travel to and from a large department store.

This, we believe, is a problem of many facets which must be faced by our town government. With the construction of many homes and schools in the area served by Ford Avenue, the artery should have been widened or an alternate thoroughfare should have been provided.

Ford Avenue is dangerous for both automobile traffic and for pedestrians. If Klein's builds in Edison Township instead of Woodbridge Township, on a site near the one for which a variance was refused, Ford Avenue will not be spared a worsening of its existing hazards.

Whether — for other reasons — we decide to send Klein's to Edison, we still will face the dangers presented by Ford Avenue according to its present dimensions. These dangers — before some tragic accident, we hope — must be eliminated, even though they should never have been allowed to develop in the first place.

isting hazards will not be overcome by the mere denial of the Klein project, and their aggravation will not be avoided by denial of the Klein project either. Certainly if it locates a stone's throw from the preferred site in Woodbridge Township, Ford Avenue will be subjected to the same increase in traffic so patrons can reach its location in Edison.

Klein's is really not the big issue at hand.

Correction of Ford Avenue's deficiencies, is.

The Highest Paid

Recent figures show that the highest paid executive in the United States in 1959 was probably Frederic G. Donner, chairman of the General Motors Corporation. His salary was \$201,350.00, and he received bonuses amounting to \$469,000.00.

Therefore, Mr. Donner's total earnings from General Motors, as its chairman, was \$670,350.00.

Of course, under the federal tax schedule, as it is now set up, Mr. Donner paid about \$500,000.00 of this to the federal government. Nevertheless, he had something under \$175,000.00 left, which was ample for him to squeeze by on for the year, we assume.

The interesting part about the latest list of top executive salary recipients is the fact that the automobile industry has moved up in the "standings" so that automobile executives now head the list to a striking degree.

For example, of the first ten names on the list, nine of them are executives of automobile companies. Seven of them are executives of the General Motors Corporation. The total salaries (plus bonuses) of these seven General Motors executives amount to over \$3,500,000.00. Most of that, of course, went to the federal government in the form of taxes.

An interesting facet of the high executive salary picture is the bite taken by federal taxes after one's income is already very high. As one calculator recently pointed out, if a \$200,000-a-year executive is to receive a pay raise of \$3,000.00 a year, his company must increase his pay \$25,000.00. In the highest income brackets, an executive can keep less than ten cents of each additional dollar he earns.

The most impressive part of the executive salary picture is that the United States Treasury certainly gets its share of money from the nation's top business leaders.

In summary, as for the communist cry that the United States is a country where the rich get by with murder, a glance at the top salaries, and the tax bite taken, shows that we continue to "soak the rich" for our government's business to a high degree.

The communists in Moscow, moreover, recently announced they were eliminating practically all income taxes by 1965. The wealthy American will almost certainly continue to pay through the nose.

The Business of Youth

Millions of Americans, boys and girls, young men and young women, are about to end a year of their education in the schools, colleges and universities of the nation.

Some of these students, no doubt, have been seriously impressed with the troubles that beset the world. By contrast, their pursuit of learning represents inaction in the midst of what may be a serious crisis. Some of them have reached the conclusion that there are other things more important in their lives than the pursuit of education.

The editor of this paper would like to go on record in opposition to such an idea. Our young people will do well to make their plans to continue the development of their personalities by seeking to acquire learning.

After all, character-building is largely the work of youth. By the time the average man or woman reaches maturity, principles have been accepted which later influence the activities of life. There is no substitute for the formative period of life and no time is lost which results in the development of character.

We trust that the students of this town, now wondering whether to continue their scholastic work, will not lose interest in their studies under the false impression that they are not important. Proper preparation for life itself is the most serious business that can confront youth.

OLD MAN OF THE MOUNTAIN

Under the Capitol Dome

By J. Joseph Gribbins

TRENTON — Down-to-earth phrases utilized by State Highway Commissioner Dwight R. G. Palmer always spice top-level conferences of State county and municipal officials and help clear the way for mutual agreements on important road projects.

Despite his 74 years, Palmer appears as young as any man on the 14-member cabinet of Governor Robert B. Meyner. His unruffled demeanor under all conditions, aided and abetted by a gracious smile and a conversation which invariably features an off-balance approach to problems of statewide importance, has endeared him to New Jersey officialdom.

However, the gong-ringing discipline which he enforces in the spacious State Highway Building here, would not generate any move on the part of employees to cause him to win a popularity contest. But in the long run, it is conceded that Palmer has achieved close control over the working hours of all State employees.

Invariably, Palmer drives to his office from his home in Short Hills daily, will ask his first Monday morning telephone caller "if he hung out the wash yet?" When asked about his busy hours, he will admit he "is just one of the boys who get out the broom and shovel to help clean things up."

Dualization, widening and resurfacing highways comprise "a half sole and heel job" in the official lingo of the State Highway Commissioner. The first step in constructing miles of highway is always "the first bite of the cherry." When he calls upon an expert to work for nothing, Palmer will tell him he will "get his name on the silver shoe horn."

Off the record comments by Palmer are always "on the cuff" and when he concludes a conversation with an official, he usually says "you can go back to bed now." When a worker "falls" short of his planned objective, Palmer says "he missed the brass ring." Persons who make remarks without proper thought are "shooting from the hip." He always advises his subordinates "to keep things on an even keel."

And the State Highway Commissioner has been known to compare a fast talker trying to sell the State something it does not need as being like the Susquehanna River — 200 miles long and 4 feet deep.

MEMORIAL DAY: — New Jersey residents next Monday — Memorial Day — will visit cemeteries and decorate graves as the result of an act of southern kindness which has never been allowed to die.

Memorial Day had its origin two years after the close of the Civil War when the women of Columbus, Miss., decorated the graves of both Confederate and Union soldiers on a day set aside for this specific purpose. A news dispatch of the incident thrilled the North with tenderness, and thus Memorial Day was born.

In May, 1868, Adjutant General N. P. Chipman suggested to National Commander John A. Logan of the Grand Army of the Republic that he should inaugurate a custom and set a date for the spreading of spring flowers on the graves of Union soldiers. Such an order was issued by Logan setting May 30, 1868 as the first Decoration Day.

Nearly all states of the Union now observe May 30 as Memorial Day — the most noble of all holidays.

GOVERNMENT COSTS: — The New Jersey State Government will cost \$431,863,569 to operate during the next fiscal year, beginning July 1.

The amount was fixed by the Joint Legislative Appropriations Committee, headed by Senator Walter H. Jones, (R.), Bergen, which also proposed payment of an additional \$3,936,986 to pay expenses incurred during the present fiscal period for which no money was officially appropriated last year.

Next year's cost of State Government is the highest on record. The amount is \$518,465 over the budget submitted by Governor Meyner last February. The additional cost was partly due to the committee's recommendation that \$397,000 be made available after July 1 to provide salary increases for professors and teachers at Rutgers and the six other State colleges at Glassboro, Trenton, Montclair, Paterson, Jersey City and Union. An additional \$210,000 is incorporated in the appropriations bill adopted by the Legislature to start medical insurance for State employees.

Cost of operating the New Jersey State Government is not reflected in any local property tax bill. State revenues are received only when citizens smoke cigarettes, attend the races, drink alcoholic beverages, drive cars and purchase gasoline, own a corporation, have billboards or die leaving enough bequests to pay inheritance taxes.

Your New Social Security

By ALLEN BASS, District Manager

Q. How can a self-employed individual benefit by keeping accurate business records for social security purposes?

A. Your monthly social security benefit is based on your average earnings under social security. The only way to be sure of your correct self-employment earnings is to keep accurate records of your business transactions for preparation of your tax return. In many cases these records must be submitted in addition to a copy of the tax return itself.

Q. I am a self-employed grocer. In addition to my birth certificate, what evidence of my earnings will be required when I file my claim?

A. Being complete copies of your 1959 income tax returns, Forms 1040 and 1040C, which we prefer to retain in our files, and a receipt or other evidence showing you paid the Social Security self-employment tax.

Q. I own a small hardware store. May I voluntarily pay the maximum social security tax in order to avoid complicated record keeping?

A. No. The amount of your social security tax must be based on your actual net profit. In order to compute your actual profit you are required to keep records of all business income and expenses. Accurate reporting of your net earnings will insure the speedy receipt of social security benefits when you retire.

Kennedy Continues to Inch Forward in Latest "Trial Heat" -- Widens Slim Lead Over Nixon

By KENNETH FINK, Director, Princeton Research Service. PRINCETON—Results of the latest New Jersey Poll "trial heat" of voter preference show Senator Kennedy of Massachusetts widening his slim lead over Vice President Nixon. These were the findings when trained, professional New Jersey Poll reporters working out of Princeton put the following question in face to face interviews to a cross-section of 1,000 of the state's adult citizens:

"Suppose the Presidential elections were being held today. If John Kennedy were the Democratic candidate and Richard Nixon were the Republican candidate, which one would you like to see win?"

The statewide results: Registered Voters Only Kennedy 51.1% Nixon 48.0% Undecided 9.9%

Excluding the undecided vote, the figures become: Kennedy 51.6% Nixon 48.4%

It must be kept in mind that all public opinion samplings of this size are subject to a margin of error approximately four per cent when the findings are at or near the 50 per cent mark the way they are today. Chance, however, in these cases usually favors the man in the lead.

It must also be understood that today's Poll findings reflect only current opinion and that much can happen between now and Election Day should the two men — Kennedy and Nixon — get the nominations from their respective political parties.

Four weeks ago, New Jersey Poll findings on the same question showed the following: Kennedy, 50%; Nixon, 49.3%; Undecided, 0.7%. Thus over the

past month, sentiment in the State has edged forward 1.1% for Nixon and 1.3% for Kennedy, and the undecided vote has inched forward 0.2%. When today's vote is stacked up alongside the New Jersey Poll findings reported in previous surveys with the undecided vote excluded, the trend looks like this:

New Jersey Poll Findings Since October, 1959: Nixon 47.7% Kennedy 51.1% Undecided 11.2%

From the foregoing table, it can be seen that over the seven months, sentiment for Nixon has slowly declined while that for Kennedy has slowly increased. Since October, 1959, Kennedy has registered a 3.4% gain; in contrast, Vice President Nixon has registered a 3.8% loss. Today's findings seem to indicate that tactics Mr. Nixon has been using since October are paying off as well as those used by Senator Kennedy.

The New Jersey Poll is only one of the many polls in the nation since before 1948 that have never been wrong in a Presidential election forecast. The New Jersey Poll correctly predicted the results of the 1952, 1954, 1956, 1958, and 1960 Presidential election results in the State as well as the 1952 Tallahassee New Jersey primary election.

This is one of a series of measurements of public sentiment in the State which are published in this newspaper.

Doctor Talk

By John H. Rembert, M. D.

With summer and warm weather approaching millions will expose themselves to the sun while swimming or boating and when it comes to sunbathing one must use common sense or pay the consequences.

KNITS 500 SWEATERS

Basin, Wyo. — In the last 40 years, Mrs. P. L. Zimmerman, of Basin, has knitted more than 500 sweaters.

prolonged exposure to the sun it can cause great suffering and no tan.

We should all avail ourselves of sunlight as often as possible because it helps to combat disease and maintain good health. Specifically, in the body sunlight helps in the manufacture of vitamin D; this vitamin is found on the skin of sailors, farmers and others.

too much vitamin D in the body strictly adhered to by persons, having a pale, thin skin—these persons should probably take sun treatments only under the advice of their family physician.

The correct method for sunbathing is to start off by exposing the skin of the body to the sun rays only a few minutes each day, gradually increasing the daily exposure time; this process gives the skin time to become seasoned or adjusted to the sun's strong rays. This exposure of the skin must be gradual process of tanning the body by over-exposure to the sun. A person actually can get in acquiring a sun tan must be possible by certain persons

These persons will lack necessary skin pigments and regardless of the time spent in the sun tanning will not be accomplished.

In general, it can be said that sunbathing is necessary for good health—but care must be taken in absorbing the health-producing ultraviolet rays of the sun. Never try to acquire a tan in one day at the seashore; the daily exposure will only lead to much grief, and, in some cases, to fatal burns.

Can you find 10 traffic hazards in this picture?

Look sharp! This quiz checks more than the acuteness of your vision. It also tests your judgment of what's right and wrong on the road. Look again—then rate yourself against the list. But keep in mind that perceiving a traffic hazard is not enough. A good driver is always prepared to take instant action to avoid trouble.

Like all good citizens, Shell is interested in safety. We urge you to be alert, drive carefully, know the rules—and obey them. Remember: about 75% of all accidents are caused by the driver—not the car.

(Each hazard is located by letter and by number. For example, F8 indicates the location of the station wagon at the lower right of the picture where lines from F and 8 would cross)

1 Boat on station wagon is improperly secured (F8, lower right)	7 Child losing ball from car (E4, left center)
2 Driver's rear vision blocked by packages (J8, lower right)	8 Driver reaching in back of car, his eye off road (G1, lower left)
3 Parked car not completely on highway (C10, center right)	9 Car too close to car ahead too closely (D1, left center)
4 Car attempting to pass on the right (D7, center)	10 Car with one door not completely closed (I-5, bottom center)
5 Car with trailer is cutting in on car at left (B8, upper center right)	
6 Car crossing divider (A6, top center)	

(These are major hazards, there are others! If you found more than ten, congratulations!)

That's why Shell says: Your Car Has Built-in Safety—YOU!

Prepared by the Shell Traffic Safety Center in consultation with Dr. Leon Brody, Research Director, Center for Safety Education, New York University, and in cooperation with the Automotive Safety Foundation.

NEW JERSEY BELL

Capitol Dome

(From Editorial Page)
 It is possible for a person to be demoted in one municipality and participate in the activities of another, claims Dr. Frederick M. Raubinger, State Commissioner of Education. As a result, the Commissioner declared null and void a resolution adopted by the City of Newark last August requiring persons holding supervisory or administrative positions in the Newark school system to maintain a bonafide and regular place of residence in that city.

Dr. Raubinger believes that persuasion rather than forced conformer to a rule would insure better participation in the cultural and civic life of the community. He said a school

person is well advised to participate in the life of the community in which he works, but he does not consider that a residence rule is necessary.

"He may attend church, belong to service clubs and other civic organizations, and contribute to the economy of the municipality where he is employed," said Dr. Raubinger. "By the same token, he might conform to a residence rule and do his shopping and participate in church and social activities in another community."

Dr. Raubinger said public schools should be conducted with only one objective — the best interests of the school pupils. This means they should be free to attract the best administrative, supervisory and

teaching personnel available, he said.

CROPS: — Bumper crops are predicted for New Jersey this summer, especially for potatoes and peaches.

Production of the late spring crop of potatoes is forecast by the New Jersey Crop Reporting Service at 26,180,000 hundredweight, 11 per cent above the 1959 and 7 per cent above average. Growers of early summer potatoes are expected to harvest 116,400 acres this year, one per cent above the 1959 average.

Another good year is indicated for New Jersey and eight other peach States. The prospective 1960 production is indicated by May 1 conditions as 15,525,000 bushels. Such a crop

would be 4 per cent above last year and substantially above average.

JERSEY JIGSAW: — Weekend road and traffic reports will again be broadcast via radio to New Jersey motorists from May 27 through Labor Day. The New Jersey strawberry crop this year will reach 11,550,000 pounds, which is 17 per cent above the 1959 crop and 29 per cent above average. Fourteen New Jersey organizations and agencies will hold a one-day conference on crime and delinquency in West Long Branch on June 8. Daily press reports on New Jersey fresh fruit and vegetables this summer will include prices received by growers at six cooperative auction markets in New

Jersey. The State Department of Agriculture announces that Marine police will patrol New Jersey waterways throughout the summer season, the State Department of Conservation and Economic Development announces. The New Jersey State Highway Department has placed over 400 new litter barrels at strategic locations along the 1,850 miles of State highways. The State Supreme Court has sustained a regulation of the Office of Milk Industry which prohibits wholesale deliveries of milk on Sunday during nine months of the year. Investment funds of the State of New Jersey held under War II GI Home Loan Program. The State Division of Employment Security placed

workers in 11,876 jobs last month. . .

MOWING PATTERN
your lawn mowing in these days?

Experts turf management says you can live it if you start at a different place each time you mow your route.

More important for the reason of your lawn is the fact that your grass enjoys a routine, too.

At the same place mowing the grass in the direction each time can produce a habit formation that just habit formation to Dr. Henry W. Harkness.

He says that if you carry this far you may actually see track marks in your lawn. High spots will become higher and low spots lower. Your lawn may have a wavy appearance.

LOOKS MORE EVEN
When you change the direction of mowing you tend to break the irregularities and your lawn looks neater and uniform.

Grasses are distributed evenly. And you probably know that it's best to clip on the lawn not too heavy because it will wait too long between mowings.

There's less compaction of the soil when the mower doesn't find the same time after time.

There are several ways to mow your lawn. Dr. Indyk says one of the most effective is to mow cross-wise to the direction of the previous mowing.

It's most practical in your lawn can at least change the mowing point so that you don't follow the same tracks of the mower.

BACK-AND-FORTH BEST
The best to follow a back-and-forth pattern instead of mowing around and around the lawn.

Don't overlap the previous mowing by a fourth or a fifth of the width of the lawn.

Whether pattern you use to keep the mower properly adjusted. Among other things, mowing the grass in a straight line, pinched, leaves a yellowish cast. He didn't say this, but it's some fun into your lawn life at least for a while. It's using the mow that a sloan such as makes Joe work too.

This works only if the mowing wife is named and her name is Joe.

ABOUT YOUR HOME

BY FRANCES DELL

Inside shutters are a popular note. They can be used in any room in the house. From the living room to the bathroom.

Of the most effective between different rooms is where a wall is visible. Picture them in a living room and a bedroom. They will be pushed against the wall almost all the time. In this position they have an attractive tropical American look, decorative. Comes the time for a party, they can be completely, until it is time to close.

Inside shutters are often used in the kitchen, or anywhere else in the house. They make attractive substitutes for curtains. They have the advantage of being permanent and only need a coat of paint to look as new.

They can be fashioned into portable folding shutters. One millwork company on the market inside shutters up and down and push them into the window. They are perfect used in your house or your business. You will probably find spots that can be made attractive and decorated with inside shutters.

TOP LABOR PARLEY

President Eisenhower has approved plans for a series of labor-management conferences on broad economic issues.

He met for thirty minutes recently with George Meany, president of the American Federation of Labor, and asked him to pick representatives to sit on a committee to arrange the parley. The President is having a meeting with Joseph P. Kamp, president of the National Association of Manufacturers, to pick business executives for the committee.

TURKISH UNREST

The United States government has no intention at present of involving itself in the Turkish anti-Government outbreaks in the way it did in the popular uprising in South Korea.

Except for pointing out that the Turkish student demonstrators have shown no animosity toward the United States, the State Department's official attitude is "No comment."

Red Sox Sink Tigers 3-2 in Fords League Play; Victory is 5th in Row

FORDS — Interboro Trucking Johnny Mansfield, in chalk, Red Sox continued to dominate the rough fifth inning when the Mayor Division of the Fords-Clara Little League by sinking the Tigers, Johnny settled down in the bottom of the seventh inning. The Don Pilarowicz took the loss, victory was the fifth straight for the front-running Sox.

The Tigers, who were to succumb to the league-leading Red Fords Lions Club, sent Ricky Fleming to the mound with a 1-0 record, while the Red Sox called on Don Adametz, 2-0. Both hurlers displayed fine form as they battled to a 1-1 deadlock for six innings.

In the seventh, with Pat Tyika relieving Don Adametz, Ricky Kutoosi belted a home run over the centerfield fence to put the Tigers out front 2-1. But the Red Sox lost little time in their half against Layton Dodge, who replaced Ricky Fleming. Two runners scampers across the plate on Larry Kovac's single, his third hit of the day, to snatch the win.

Pat Tyika was credited with the victory, his second against no defeats. Dodge suffered his second loss in two decisions. Earlier, the Fords Motors Cubs gained the nod over the Bollo's Trucking Giants, 5-4.

second inning found the Indians trailing 17-3. By the end of the fourth, they were still on the short end of a 20-7 count. However, their spirit never dwindled. Sparked by little Tony Russomano, fourteen runs scampers across the plate in the last two frames to one for the Athletics. The final blow was a bases loaded triple by Russomano which tied the score. Darkness halted the "runathon."

Ump School Aides Named

PERTH AMBOY — Sam Russo, president of the N. J. Federation of Baseball Umpires, announced today the naming of Julius Kalman and Phillip Arnella to the Training Committee of the Federation. Gilbert Augustine is chairman of the Training Committee, assisted by John Fisher.

Russo announced that additional members to the Training Committee are needed because of the expanding work of the committee, and the increased number of members. In spite of the fact that the Federation now has 188 members, the largest number in its 14-year-history, the organization is unable to supply all the umpires requested.

The two new members of the Training Committee are 10-year members.

Mr. Kalman, 44, was born in Edison Township and was graduated from New Brunswick High School. He played baseball for 20 years and is well known for having managed the Hungarian American Athletic Club from 1939 to 1953. He became a baseball umpire in 1948 after attending the Gil Augustine Base Ball Umpires School.

Mroz in Golf Tourney Tie

COLONIA — The Colonia Country Club was the scene of two exciting tournaments last weekend — the Sawbuck Pro-Sweepstakes, a five-hole throw-out event.

Avenel's George Mroz and Vic Iorio of Westfield tied for first place in the Sawbuck tournament with net totals of 64. Mroz completed the 18 holes with a 72-8 for his total, while Iorio carded a 74-10 for his round. Runner-up honors went to Andy Monte of Union, who had an 81-13-68 for the day.

Iorio was also a victor in the Pro-Sweepstakes competition where the five high holes are eliminated from the stroke total.

ISELIN — The Tigers, the defending American Division champions in the Iselin Little League, got off to a flying start by winning two straight games with victories over the Indians and Yankees.

In the inaugural encounter, the Tigers went all out to upend the Indians in a close contest by a slim 7-6 score.

Huth was given the assignment of pitching the Tigers' opener and the young hurler came through with a commendable performance to annex the big victory. Barkauskas was the Indians' vanquished hurler.

The Tigers' second clash of the season with the Yankees was another close contest with the former champions pulling the game out of the fire in the late stages by an 8-6 rally.

Korland pitched a steady game for the Tigers to become the winning pitcher. DeJohn was charged with the Yankees' setback.

The Red Sox kept pace with the Tigers at the top of the American Division after defeating the Athletics 14-4 for their second consecutive victory of the infant season.

Barnikow was the Red Sox' victorious hurler, while Shipley absorbed the Athletics' loss.

The Yankees brought their season's record up to the .500 level by sinking the Athletics 10-8 in a high-scoring game. Fraziano won it for the Yankees and Markinson absorbed the A's mound reversal.

In two other league games, the Red Sox defeated the White Sox 11-10, and the Indians trounced the same club, 10-2.
