Inspiring leaders...Improving lives

Outstanding Professor Award

As part of the spring 2013 commencement, Baylor **President Starr** recognized **Dr. Joyce E. Nuner**, assistant professor in the Department of Family & Consumer Sciences, as one of the 2012-2013 Outstanding Professors for teaching. Dr. Nuner was nominated by Child & Family Studies colleagues and she received a \$2,500 cash award, a citation, and recognition at the spring 2013 commencement. Along with the written nomination, the Outstanding Faculty Selection Committee evaluates each nominee's curriculum vitae, letters of recommendation from dean or chair, reference letters from colleagues, excerpts from course evaluations, and reference letters from current and past students to determine the awards. Dr. Nuner was noted for the teaching category, however the committee also reviewed the professor's research, university service, student contacts, and community and church service.

Congratulations, Dr. Nuner, for winning this prestigious award!

Baylor Fellow Dr. Divita

Provost Elizabeth Davis recently designated **Dr. Lorynn Divita** as 2013-2014 Baylor Fellow. This program recognizes professors across the disciplinary spectrum who exemplify excellence in teaching. Baylor Fellows are committed to pedagogical innovation, inspirational teaching, and the cultivation of these among Baylor faculty. In addition to monthly meetings with the Fellows, Dr. Divita will make a presentation to the graduate students titled "Drafting a Syllabus: More Than Just Policies and Procedures", and she will make a second presentation to faculty on "Finding the Timeless in the Trendy". Congratulations to Dr. Divita on this special recognition!

Graduate program update

Graduate students from the United States and Guatemala were actively engaged in the first full year of graduate study in nutrition sciences. The year was filled with learning experiences and opportunities to serve while gaining experience and expertise in the many areas of nutrition sciences. **Adam Sams** served as the nutrition sciences representative to Baylor's Graduate Student Association. Highlights for the first year included active participation in a collaborative program focused on 'Fit & Healthy Family Camp'. **Lauren Hardy, Adam Sams, and Jimena Tejada** all participated by teaching children and parents about healthy food to fuel healthy bodies. In addition, food preparation demonstrations were developed and presented addressing common health problems identified by the medical personnel at the Family Health Center in Waco. It was a busy year of learning and doing. The program and faculty are looking forward to an exciting year welcoming new graduate students and new opportunities to participate in research and informed engagement experiences!

FCS 2013 Homecoming reception

Once again the Baylor FCS department will host a Homecoming reception on Friday, October 18, 2013 from 4:30 – 6:00 pm. The event will be in conference and reception room on the first floor of the FCS building. This is a great time to visit with Baylor alumni, current students, and past and present faculty members. **Dr. Burnett's** Nutrition Sciences class will prepare refreshments and the FCS program ambassadors will meet, greet, and serve visitors. The reception is an excellent opportunity to visit and network with friends, so please mark your calendar and join us for this annual event!

Apparel Design program nationally ranked

The Apparel Design and Product Development program has had a banner year! Baylor was again named among the nation's top 25 fashion design schools in the United States by authors at fashion-schools.org. Recognized as one of the top 15% of the schools reviewed the article noted "The Apparel Design program at Baylor offers summer study tours and field experience in places like the Dallas Market and many design firms, [and] the Parker Design and Technology Center offers hands-on high-tech experience to aid in design study." The Apparel Design program

was also named the number two fashion school in the Southwest. The fashion-schools.org

documented that BU students have interned for designers such as Anna Sui, MTC, Betsey Johnson, XOXO, and Rampage, and internationally for Ann-Louise Roswald (London), Christopher & La Lou (Paris), Amanda Wakely (London), and Matthew Williamson (London). This is the second time in recent history that our Apparel Design and Product Development program has been nationally ranked! In 2011 the prominent apparel blog Fashionista ranked Baylor's program in the top 20 in the nation and only one of seven liberal arts universities to make their list.

Congratulations students and faculty for once again being noted as one of the top programs in the nation!

Student awards

Listed below are students recognized for their outstanding accomplishments during 2012-2013.

Interior Design Students took multiple awards at the ASID Student Symposium Conference last fall.

Heather McElroy placed first in the One Unique Space category. **McKenzie Gamez** placed second in the One Unique Space category. **Ali McCants**

was the Baylor member on the team placing first in the Design Charette Team Competition. Senior, **Allison Lutz** was awarded a \$1,000 scholarship at the conference. At the IIDA Student Conference in the spring, **Allison Lutz** was the Baylor member on the team placing second in the Design Charette Team Competition. Travel scholarships were also awarded at this event to **Allison Lutz, Stacie Grimes, and Katherine Voyce.**

Apparel Design & Product Development - Kaylyn Smith was honored with the department's Rising Young Professional award at the annual Family and Consumer Sciences Spring Recognition. A senior in Apparel Design and Product Development Kaylyn has received several awards and honors in the last four years. Some of the most recent include first place senior division and best Mohair Design in the Texas Make It With Wool contest, third in Mohair at the National Make It With Wool, and was one of five students nationally selected to participate in the Project OR contest.

The Baylor Apparel Fashion Show was held on May 5, 2013. Three of the nine seniors were recognized during this event. **Helena Stefanowicz** received the most outstanding senior collection. **Katie Hart's** senior collection received the most marketable collection award. **Kaylyn Smith** was the recipient of the Dr. Judith Lusk award. This award is given to the senior with the highest quality and most consistently produced garments for the entire senior collection. At the 45th Annual Fashion Group International Dallas Career Day, several Baylor Apparel Design and Product Development students received recognition for their individual entries. **Caleb Thompson** received second place award and a scholarship for his entry in the Little Red Dress Competition. **Helena Stefanowicz** won second place and a scholarship in the Wool Competition. She also won second place and a scholarship for the Best In Show category. **Krystal Joiner** won third place award and scholarship in the Cotton Trend Board competition.

ASID student chapter

To facilitate involvement of students in both the student professional organizations of ASID and IIDA, an umbrella organization was founded, Baylor Interior Design Association, BIDA. This will allow students to participate at the local level as well as professional levels of ASID and IIDA. Members participated in both the Social Design Summit (design competition sponsored by IDEC) and Cret8 sponsored by IIDA (a themed fashion show fundraiser where garments are created from interior materials, i.e. tiles, leathers, textiles, etc.) The Baylor design team designed and modeled a garment for the Good Ram (horoscope theme). See pictures on Facebook—Baylor Interior Design Program. Executive officers for 2013-2014 are **Stacie Grimes** - president, **Ariel Pecoraro** - president elect, **Katherine Voyce** - secretary, and **Emily Hinckley** - treasurer.

BAPS update

Baylor Apparel Professionals provided students with great industry exposure and networking opportunities by bringing speakers from J. Hilburn Men's Clothiers, D2 Showroom, Created New Designs, Pier One Imports, and DFW Indulge magazine to campus. Our November meeting was a trunk show that featured the works of two design alums, **Ashlee Brooks** and **Emily Hallman**, and was a big success. A highlight for students was meeting Baylor alums **Aimee Miller** and **Megan Carreker**, founders of Hip Chixs denim company, who screened a clip of their appearance on the ABC television show "Shark Tank", then shared stories about what occurred behind the scenes.

BSNA update

Baylor Student Nutrition Association, (BSNA) member officers for 2012-2013 were **Laurie Van Dyk** - president, **Michelle Conomos** - vice president, **Catherine Leudke** - treasurer, **Rachel Dudley** - historian, **Abbi Resse** - service chair, and **Janelle Andonie** - public relations chair. The club looks forward to a busy year in promoting nutrition across campus and in the community.

KONu leaders

Kappa Omicron Nu, a national honor society for Family and Consumer Sciences just completed its 41st year on the Baylor Campus and Miss Sadie Jo Black was the first sponsor. Kappa Omicron Nu is a consolidated honor society formed when Kappa Omicron Phi and Omicron Nu merged. It is connected with the Association of College Honor Societies. Our officers for 2012-2013 were **Jenni Thomasson** - president, **Katie Rooke** - vice president, **Rebecca Kennedy** - secretary, **Rachel Dudley** - treasurer, **Ginny Wang** - historian. We sincerely appreciate their service and leadership. Our new officers for 2013-2014 are **Rachael Bell** - president, **Jen Bennett** - vice president, **Briana Trevino** - treasurer, **Molly Pearson** - historian, and **Rebecca Kennedy** - secretary.

'13-'14 Ambassadors

Each year the FCS faculty select exceptional students from each of the six program areas to serve as ambassadors. They perform as public relations officers for the programs they represent. As student leaders in the department, the ambassadors are called on to meet and speak with prospective students and their parents. The ambassadors named for the 2013-2014 academic year are **Rachel Walters & Josh Cox** - Child & Family Studies, **Catherine Cotton & Callie Oliver** - Apparel Design & Product Development, **Haley Moore & Ashley Gross** - Apparel Merchandising, **Stacie Grimes & Holly Carpenter** - Interior Design, **Sydney Smiley & Elise Dollahite** - Nutrition Sciences, and **Jordan Hanlin & Berry Burgess** - General FCS. We look forward to a super year with our new ambassadors!

Kudos to '12-'13 FCS ambassadors

What a great job the 2012-2013 ambassadors did at the Fall, Winter, and Spring Premieres. They represented the department and each program with skill and expertise! Visitors were pleased to have the opportunity to visit with 'actual students' in the sessions and asked thoughtful questions. The ambassadors were terrific at giving honest and sincere answers. A special thanks to **Abby Burchfield, Hannah Abbe, & Savannah Edison** for Child & Family Studies; **Hannah Maynard & Catherine Cotton** for Apparel Design & Product Development; **Jordan Hanlin & Katie Rooke** for General Family & Consumer Sciences; **Allison Lutz & Heather McElroy** for Interior Design; **Leigh Sunderland & Laurie Van Dyk** for Nutrition Sciences; and **Haley Moore & Katy McCoy** for Apparel Merchandising.

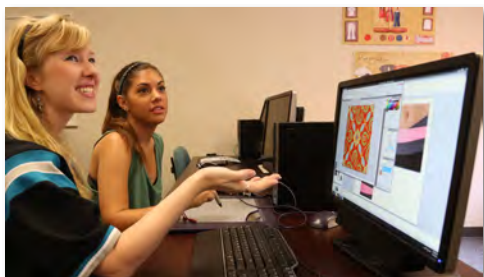

Program updates: Nutrition update

Currently there are 115 Nutrition Sciences majors. Please see page 4 article on **Mr. Wilfong**, a new Nutrition Sciences lecturer. There was also a search this year to add an additional full time tenured faculty position in Nutrition Sciences. The search will continue for a PhD., R.D. There has been an upgrade to the food testing equipment used in Food Science and Experimental Foods, made available through private donations to the Food Science area. A measuring device made by Texture Technologies is now available in our new food science lab and with this equipment students will be able to measure volume, tenderness, resistance and other physical characteristics of food products. This brings our assessment ability to the level seen in food science labs at Iowa State and other land grant institutions. Our didactic program, which prepares students to enter nutrition and dietetic internships is in the process of a self-study and will host a site visit in March of 2014.

Apparel Merchandising update

The Apparel Merchandising program area continues to improve to meet the changes in the fashion industry as a whole. Students have the choice between Entrepreneurship and Business Administration as a minor with the hours for each already included in the number of hours for the BSFCS degree in Apparel Merchandising.

Students in Apparel Merchandising are beginning their online portfolios during the freshman year, which allows them to make changes and updates to the site throughout their Sophomore, Junior, and Senior years at Baylor

and be better prepared for their internship and career. Graduates are securing jobs in various segments of the industry such as buying, product development, allocation, visual merchandising, planogram design (store planning), showroom sales, retail management, and global sourcing.

Interior Design update

The Interior Design faculty and students are well settled into Goebel and loving it. After a major move and accreditation site visit the previous year, this academic year was quiet and peaceful. **Greta Buehrle** attended IDEC National Conference in Indianapolis, IN in February. She and **Dr. Mary Simpson** presented a collaborative teaching activity entitled, *Architecture Meets Fashion: Inspiration and Interchange*. **Mrs. Buehrle** was also the faculty advisor for the first Baylor Interior Design Association (BIDA) Social Design Summit—Designing for Disaster Relief: Temporary Housing. On a sad note, we bid farewell to **Mrs. Buehrle** as she has taken another design position closer to her

Dallas home and family. Her presence and contributions to the interior design program will be missed. Please visit our Facebook page and *Like us*.

CFS update

Child & Family Studies (CFS) program has again seen growth with over 110 majors and 75 minors. We have had a successful year with students earning competitive placement in child life internships and employment in prestigious hospital programs with Arkansas Children's, Cook Children's, Cincinnati Children's, and Vanderbilt. In addition, we have had students accepted into the Military Extension Internship program and several competitive ministry based internships. With a continued emphasis on experience based learning, CFS faculty have cultivated ongoing relationships with a variety of community organizations and agencies such as Talitha Koum, Klaras Children's Center for Early Childhood Intervention, Arrow Child & Family Ministries, and Generations Adoptions.

Cotton grant

As a part of its Cotton Educational Grant program for universities, Cotton Incorporated funded a proposal submitted by **Drs. Yoo and Divita** entitled "Forever Fashionable" for over \$12,000. For the semester-long learning experience about cotton's performance and aesthetic benefits, Apparel Design and Merchandising students created educational materials about cotton as a fashionable fiber. Projects included designing garments, written assignments, and display boards. Creative entries were judged by a panel of faculty and the winning entries were exhibited and awarded after the Baylor Student Apparel Show.

TEA grant

The second year of the Texas Education Agency, TEA grant has been quite busy. **Drs. Weems and Walters** received the grant and the

purpose of the funding was to write curriculum for Food Science under Career and Technology, Hospitality, and

Tourism and to transform the Food Science course into a high school lab science credit. At the end of August, the iBook was submitted and reports from future users reflected a high level of excitement on its availability. Presentation of the grant's focus and purpose was well received at the National Career Cluster Institute.

Dairy Max grant

Completion of the first year of data collection resulted in a preliminary report focused on students receiving Breakfast in the Classroom compared to students who did not have this opportunity. Outcomes of the initial research process showed a significant difference in the intake of vitamin D and calcium with those students receiving breakfast in the classroom having higher intakes. This particular finding stressed the importance of this meal as a source of two of the nutrients of concern in elementary school children. **Dr. Tanya Brice** was the primary investigator for this study and she was assisted by **Lauren Hardy, Adam Sams, Catherine Luedtke, and Dr. Suzy Weems**.

Research activity

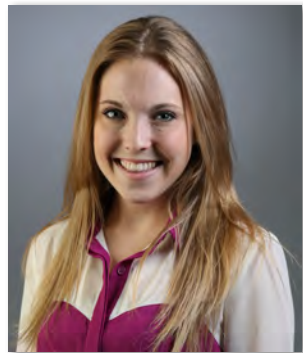

In addition to being dedicated to their teaching responsibilities, our faculty have been busy conducting, publishing, and presenting research in their respective fields. The department is proud of the many contributions our professors have made and the increase in students participating in research activities. For a complete list of the publications and presentations, please see our website at www.baylor.edu/fcs, and select *About Us* and *Accomplishments*.

2013 New York & Montreal Summer Study Tour offers close-up look at industry

Twenty-four students and three faculty attended the 2013 summer study tour from May 25-June 4. Montreal highlights included a guided tour of luxury retailer Holt Renfrew and a visit to ALDO shoes, Canada's number-one retail export, where students were fortunate enough to meet the chain's founder, **Mr. Aldo Bensadoun** himself. In New York, students participated in a Skype meeting from China with alum **Brennan Lowery**, Director of International Store Operations for Kate Spade at the company's corporate offices, met alum **Kasey Kahler Gordon**, Sales Representative for Shoshanna, heard trend forecasts at Cotton Incorporated and Tobe Report, and visited Makins Hats and Joya Perfume in Brooklyn. Said student **Rachel Weaver**: "The NYC and Montreal trip was a once in a lifetime opportunity to experience a behind-the-scenes look at the fashion industry. It not only gave me a better insight into potential careers, but it also exposed me to people working in the industry that will be valuable connections to maintain."

Rising Young Professionals

Faculty in each of the six program areas select outstanding students each year as the Rising Young Professionals. At the end of the academic year one student is identified as the one

'Outstanding Student' for all FCS programs. Individuals identified by their program faculty are showcased by having their picture displayed in the building and with special recognition at the end of school

celebration. During the 2012-2013 academic year, the following students were named as Rising Young Professionals:

Abby Burchfield - Child and Family Studies, **Ann Simmons** and **Megan Tschida** - Apparel Merchandising, **Kaylyn Smith & Helena Stefanowicz** - Apparel Design and Product Development, **Allison Lutz** - Interior Design, **Katie Rooke** - General FCS, and **Laurie VanDyk** and **Catherine Leudtke** - Nutrition Sciences. The '12-'13 Overall FCS Rising Young Professional was **Kaylyn Smith** (photo above on left).

Mission Guatemala trip

For the second consecutive year, nine Nutrition Sciences (NS) students and **Dr. Walter** traveled to Panajachel, Solola, Guatemala for an eight-day mission trip. The NS students planned three cooking classes for junior high students. This type of activity had never been provided to these students and they were enthusiastic and eager to cook with the Baylor

students. NS students also helped measure height, weight, blood pressure, and pulse of elementary school children that had received nutrition services from Mission Guatemala, a Methodist mission program, to establish a benchmark of their growth status. Their growth in comparison to international standards will be assessed in the future to determine effectiveness of these feeding programs. Our students also helped prepare a lunch, went to market with a local social worker, and helped install a stove in a family's home. The stove is specially designed to use less wood than the traditional stove in most homes. Lastly students taught nutrition activities and performed puppet plays about nutrition to grades one through six at a remote mountain school. The teachers and principal were most thankful for the Baylor students' efforts to help these children learn about nutrition. Go to Mission Guatemala Facebook page and read our trip related articles.

Internships '12-'13

Baylor FCS students completed internships or practicums during the past year. For a complete list of where the students were employed, please visit our website at www.baylor.edu/fcs and select *About Us*, *Current Students*, and *Internships*.

Congrats to faculty!

Dr. Joyce Nuner received tenure and was promoted this past spring to Associate Professor. Her work for the Child and Family Studies program, Family and Consumer Sciences Department, and Baylor University are truly deserving of this honor. **Ms. Jaynie Fader** was promoted to Senior Lecturer this past year. Ms. Fader is an active member of the Apparel Design and Merchandising faculty and a dedicated advisor for students. We are excited for both these faculty members as they continue to provide the department with extraordinary skills and talents!

New faculty - Mr. Wilfong

Mr. Stan Wilfong is a new faculty member in the Nutrition Sciences program. He comes to Baylor with 20 years of experience as a registered dietitian, mostly in the long-term-care industry. As a regional and divisional dietitian, Mr. Wilfong worked in both food service administration and the clinical nutrition realm. He was responsible for overseeing nutrition service departments, training food service managers, and registered dietitians in nearly 200 facilities in 13 states throughout his career. Stan completed his undergraduate and graduate degrees at Texas Tech University. He has recently relocated from Colorado Springs with his wife, Jennifer, and their two children Lauren, 17 and Travis, 15. Welcome to Baylor, Mr. Wilfong!

Faculty leadership

The department continues to garner strong awards and exhibit leadership such as:

Local:

Janelle Walter, Baylor Faculty Senate member, Heart of Texas Meals on Wheels board member, Central Texas Science & Engineering Fair board member, Health Ed company board member, & Dietitians for Christ board member & treasurer.
Joyce Nuner & Barbara Crosby, Waco Touchpoints Coalition
Mary Simpson, Phi Delta Kappa - Membership & program coordinator
Greta Buehrle, Baylor Faculty Development Grant
Jaynie Fader, FCS Agri-Life Advisory Board & Midway ISD Academies of Study Board

State:

Texas Council on Family Relations:
Tyler Smith - President
Janet Crow - Board member at-large & Co-chair, Research committee
Nicole McAninch - Board member at-large
Janelle Walter, TAFCS - Vice president membership & counselor
Suzy Weems, Texas Academy of Nutrition & Dietetics - Media Representative
Suzy Weems, Texas State Board of Examiners of Dietitians
Barbara Crosby & Joyce Nuner, Governors Subcommittee on Child Care Licensing

National:

Janet Crow, National Council on Family Relations - Certified Family Life Educator Academic Program Review committee
Jay Yoo, ITAA Curriculum Development & Review Committee - Chair
Jay Yoo, Clothing and Textiles Research Journal - Editorial Board Member
Jay Yoo, Fashion, Style & Popular Culture - Editorial Board Member
Joyce Nuner, National Coalition for Campus Children's Center Board of Directors
Suzy Weems, Academy of Nutrition and Dietetics - Ethics Committee
Jaynie Fader & Mary Simpson, Fashion Group International Academic Advisory Board

Alumni spotlight - Child & Family Studies

Lauren Tedford, Child & Family Studies (CFS) alumni, has worked for Texas A&M AgriLife Extension Service as a Family and Consumer Sciences Agent for a year and a half. She received her BSFC in December of 2008 and began working with extension in December of 2011. There really is

no typical day in her job; the joy of extension is in the variety! FCS agents extend research based educational programming regarding any and all FCS topics,

from nutrition to family development. One of the primary job responsibilities of a county agent is working with youth through the 4H program. Lauren's favorite program is child care provider trainings because she gets to use her knowledge from CFS classes at Baylor to teach others in the field about child development.

As a county agent, there is the freedom to combine the interests of each agent with the needs of the community to make a difference in people's lives.

Cirque de la Mode show Sell-out Success

Big changes took place at this year's Baylor Student Apparel Show. Now coordinated by the FCS 4396 Fashion Trend Analysis and Forecasting class, the show was held in the fifth-floor Cashion banquet room and featured video interviews of the nine senior design students, commentary provided by Baylor University Media Director **Lori Fogleman**, DJ **Jake Brown** spinning tunes, and a live performance from Uproar Records artist **Layne Lynch** and band in addition to great fashion. Showcasing over 90 garments on 19 models, students worked to develop the show's theme, write the commentary, style the models' hair and makeup and assist with ticketing and promotions. Everyone's hard work paid off, as all 400 tickets were sold out prior to the show. After the show and the design awards, all attendees enjoyed a dessert reception sponsored by Cotton Incorporated. Next year's show will take place on May 4, 2014, so join us to see what great things we have in store!

Alumni publishes gluten free book

Baylor Nutrition Sciences alumni **Gretchen Feldtman Brown, R.D.** recently wrote and

published a book titled, *Fast & Simple, Gluten Free; 30 Minutes or Less to Fresh and Classic Favorites*. This book can be purchased on Amazon.com and has a five star rating. Prior to writing the book, Gretchen worked in the test kitchens and photography studios of Oxmoor. She is now the founder of www.kumquatblog.com and a freelance recipe developer, food stylist, writer, and photographer.

Electronic version of newsletter

If you prefer an electronic copy the the annual FCS newsletter, please send your request to FCS@baylor.edu with the **Subject: Email me a copy and Save a Tree.**

If you have moved to a new address or changed your e-mail address, please let us know. Send your updated information electronically to Karen_Hurst@baylor.edu. If you prefer the mail, then use the address of Department of Family & Consumer Sciences, One Bear Place #97346, Waco, TX 76798-7346.

Eager to be a part of the exciting future for FCS?

As the department continues to grow in numbers and productivity, we encourage you to be a vital part of the process. Gifts to our excellence fund enable us to purchase needed equipment and technology, support student scholarships, and more. We need your help to expand our efforts and continue to prepare our students to be successful professionals, family members, and community leaders of tomorrow. Opportunities include Murray Gretta Watson Scholarship, Melba Justice Scholarship, Morrow Scholarship, NTBS Scholarship, and Dr. Wilma Pitts Griffin Scholarship fund at the www.baylor.edu/fcs page on the left side of the screen. Or, you can select *About Us and Investing in the Lives of FCS Majors* at the www.baylor.edu/fcs page to invest in the FCS Leadership fund, FCS Excellence fund, Piper Center for Family Studies Excellence fund, or the Judith Lusk Apparel Studies Excellence fund.

Donations can also be mailed to **University Development, One Bear Place #97050, Waco, Texas 76798-7050**. When mailing donations make sure they are earmarked for your chosen area.

Thank you for supporting the FCS programs!
