Microsoft Visual C++ 2010 x86 Redistributable Setup
Setup has detected that this computer does not meet the requirements to install this software. The following blocking issues must be resolved before you can install Microsoft Visual C++ 2010 x86 Redistributable Setup software package.
Please resolve the following:
A newer version of Microsoft Visual C++ 2010 Redistributable has been detected on the machine.
Please, see the <u>Microsoft Visual Studio</u> website for more information.

This message is to notify that a later version of the C++ Runtime is already installed, thus there

is no need to install again. Please ignore and close the message.

Microsoft official download page

*If you are not logged in as the administrator of the computer, please use

the "Non-Admin" version installer to start installation, such as:

ABA_3_0_0_Installer_Non-Admin.exe.

*If you have installed OneDrive on your computer, and your "Document" folder is inside a

OneDrive folder, it may cause installation or sample library loading to fail, please move your

"Document" folder back to its original location.

The detailed operations can be found: Changing OneDrive Directory.
