Evergreen i-B/L, i-Dispatch
Ever Innovative, Ever Efficient, Ever Reliable

By introducing the paperless i-B/L and digitalized i-Dispatch document transmission, Evergreen ShipmentLink portal is now offering a pioneering functionality to turbocharge your efficiency.

Dedicated to Enriching Your Life
EVERGREEN LINE
www.evergreen-line.com

i-B/L is a new service for shippers/consignees to manage the issuance and transfer of electronic bills of lading. It delivers all the benefits and speed of an electronic transfer but with the same level of assurances that possession of traditional paper bills provides.

i-B/L has also 3 legal functions same with the traditional OB/L provides.

- * Evidence of Receipt of Cargo
- * Evidence of Contract of Carriage
- * Title of Registry

This was made available together with WEB Booking, Cargo Tracking and other electronic services via Evergreen Shipment Link.

- These new services, provided in partnership with Bolero International, will lower shippers' costs while making data transfer more accurate, efficient, reliable and secure. Accessed via the line's established ShipmentLink portal, the ability to achieve paperless data exchange among all parties concerned in a shipment will significantly simplify supply chain linkages.
- Bolero's eBL technology has been integrated into Evergreen's ShipmentLink customer portal, delivering the benefits for almost 20 years' experience of proven, secure and accepted electronic transfer of Bills of Lading (B/Ls) in the shipping community.

Shipping Document now and then

New Solution from Evergreen and Bolero

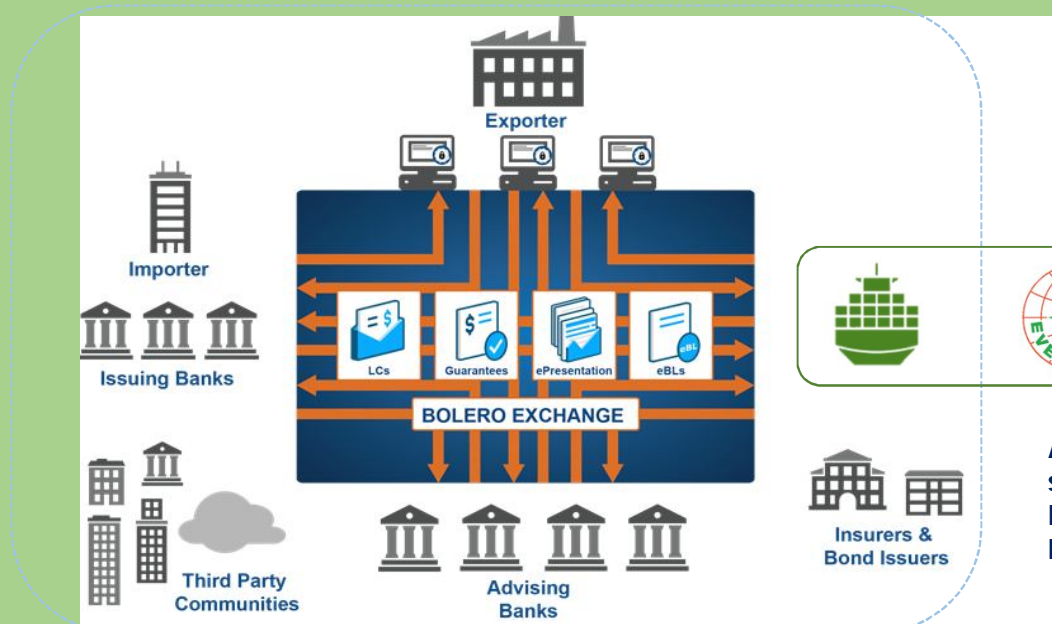

ShipmentLink

www.shipmentlink.com

Evergreen ShipmentLink i-B/L is not a PDF type of e-bill of lading.

It is the digitized Bill of Lading inside the Evergreen-ShipmentLink and Bolero system and use title registry function for ownership transfer, therefore, there are no paper bill of lading existed, unless to use "switch to paper" function.

For a legal point of view – release Bill of Lading directly from carrier's network system which served as the backup of documents.
 Enjoy all benefit of paperless/electronic document via Bolero system
 Easy Transfer – Take advantage on i-B/L Title Registry (T/R) function.
 Wide coverage of Bank network – included Bolero and R3, possible Ripple
 No Set up fee, Just sign the agreement with Evergreen ShipmentLink
 Enjoy Flexibility of Bill of lading

A NEW MODEL of electronic B/L solution Based on Bolero Rulebook and Evergreen ShipmentLink operating Procedures

Intelligent Dispatch (i-Dispatch Service)

ShipmentLink

www.shipmentlink.com

- Other than Bill of Lading, there are other trading documents to be provided by shipper to either bank or consignee like commercial invoice, certificate of origin, packing list or other required international trading documents
- Solution to convert an uploaded paper trading documents into intelligent digitized information, and these digitized information can be printed out with same potency by bank or Consignee just like original paper one
- This service will be available to the customer who sign up the i-B/L agreement

Evergreen Line remains committed in bringing technology to our customers wherever and whenever possible. Whether in the realm of digitalization, environmental sustainability or efficiencies in transport operations, the line will continue to be at the forefront of innovation and the extension of service capability.
