

Intelligently designed hydrotherapy baths
for beauty, health and wellness.

JASON
HYDROTHERAPY®

At Jason, we're more than just engineers and designers. We're purveyors of beauty, health, wellness and relaxation. We design quality hydrotherapy baths that promote nights of deep sleep, pain relief, comfort and luxury. MicroSilk® is the latest example of our passion to deliver a therapy unparalleled by any other in the world—in a bath more comfortable than any other. We are proud to bring you the health and beauty benefits of this revolutionary hydrotherapy, packaged in a refined manner to bring beauty to your home as well.

The lifestyle of high design and health combine in our new free-standing seamless baths. The sleek designs, comfortable lumbar support and first-class hydrotherapy we proudly bring you, make up the perfect centerpiece for your bathroom.

We invite you to explore hydrotherapy bathing and enhance your home and your health with products made in the USA and derived from generations of a family commitment to innovation and quality.

Yours in good health,

Remo Jacuzzi
Founder

Remo Jacuzzi

A Never-ending Flow of Innovation

Jason was founded in 1982 on the promise of enhanced health and well-being for our customers. Years of consultations with physical therapists have helped us understand how the body can better benefit from hydrotherapy.

Our latest innovation, MicroSilk®, is the ultimate combination of all of our learning, bringing the health and skin-rejuvenating benefits of microbubble technology to your bath.

As always, we continue to combine these innovations with the best of today's trends and new materials to enhance the look and feel of each collection.

A History of Hydrotherapy Achievements

2013	Introduction of MicroSilk® Generation II and MicroSilk® Shower Wand
2011	First to introduce microbubble technology: MicroSilk®
2006	First bath Sound Immersion speaker system in the USA First solid surface bath produced in the USA
2004	First V-Drain™ jet system in the USA First Automatic Ozone sanitation system for baths
2001	First combination Air-Whirlpool produced in the USA
1999	First airbath produced in the USA (AirMasseur®) Sani-Design® Technology for AirMasseur®
1996	Sani-Design® Technology for whirlpools
1995	First jetted neck pillow in the industry First to offer LED chromatherapy lighting system in the USA
1992	Quiet Design™ engineering Patented Level-Form™ base
1988	Patented Double Cascade Spout®
1984	Ergospatial™ Design
1983	Perfect Pressure/Perfect Flow™ jets

The Beauty of MicroSilk®

It's all about the bubbles. Oxygen-rich microbubbles, to be precise. Our patented process creates literally billions of these little wonders that make up the huge breakthrough of MicroSilk® hydrotherapy. These microbubbles form a cloud of oxygen in your bath and give you a delightful, effervescent sensation. The luxurious blanket of microbubbles brings with it amazing benefits.

Moisturizing and cleansing at the same time

MicroSilk® microbubbles penetrate gently into your pores for a deeper cleansing—without the need for soaps or chemicals—while moisturizing and plumping your skin to reduce fine lines and wrinkles. The negatively charged, oxygen-rich bubbles increase the skin's metabolism, promote healthy skin cell growth, neutralize free radicals and help to reduce scar formation. A MicroSilk® bath is like giving your entire body a facial, making your skin feel luxuriously silky.

The positives of negatively charged ions

Microbubbles enhance feelings of well-being by infusing the water and the air around the bath with anions—negatively charged ions. Anions are known to improve serotonin levels in the brain, promoting

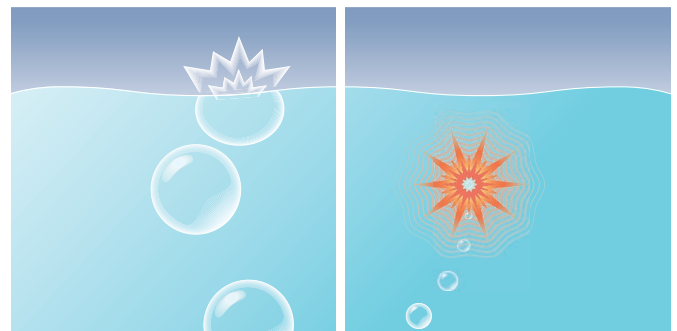

An oxygen-rich bath is good for your health

The oxygen-rich microbubbles supersaturate the water of a MicroSilk® bath, increasing oxygen levels up to 70 percent higher than common tap water. This increased oxygen level energizes cells, stimulates the immune system, kills bacteria and promotes healing.

Easy on your skin, easy on the environment

When the microbubbles collapse in the water, their heat energy is released, increasing your skin temperature evenly while helping maintain a consistently warm bathing experience, without the need to add more hot water. This rise in body temperature increases cardiovascular activity, while the release of heat energy in the water gives you an improved “sauna effect,” opening pores and allowing in more moisture.

By maintaining the warm temperature of the bathwater, the dissolving microbubbles help save water and

Larger air bubbles burst at the surface of the water, while MicroSilk® microbubbles collapse deep in the water, releasing heat energy and life-giving oxygen.

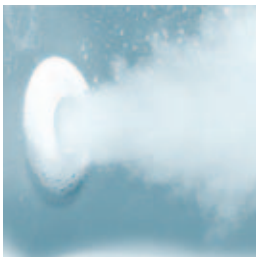

The Science of Hydrotherapy

The benefits of hydrotherapy are an integral part of healthier living. Jason's engineers and designers have developed a variety of stylish baths to deliver every facet of the therapeutic bathing experience.

Ⓢ Soaking Hydrotherapy

Jason Soaking baths provide extraordinary passive hydrotherapy benefits. Our Ergospatial™ Design allows full submergence into warm, calming water. Reclining in this optimally relaxed position readies you to receive all of the advantages of this most ancient form of hydrotherapy.

Ⓜ MicroSilk® Hydrotherapy

As these tiny bubbles enter the bath, a dense, luxurious cloud of oxygen blankets your body, giving you a gentle, effervescent sensation while giving the water and your skin a silky texture. Released in a mist at the water's surface are therapeutic levels of anions, known to improve serotonin levels. Jason's patented MicroSilk® system supersaturates the water with billions of tiny, oxygen-rich microbubbles through a strategically placed delivery port, increasing oxygen levels up to 70 percent higher than common tap water.

ⓐ AirMasseur® Hydrotherapy

Millions of warm air bubbles enter the bath through strategically spaced air jets in the lower sidewall of the bath. Together, the gentleness of the air bubbles and the comfort of heat provide a more generalized massage. A control located at your fingertips allows you to customize the turbulence with continuous, wave or pulse massage modes.

Ⓦ Whirlpool Hydrotherapy

Our jets produce a focused stream of pressurized air and water that transfers energy deep into muscle tissue. Jason Whirlpool baths are equipped with Perfect Pressure/Perfect Flow™ fully adjustable and directional jets, one flow-adjustable Ultrassage™ rotating back jet, and foot jets. A jetted neck pillow featuring two pulsating neck jets is optional on most Whirlpool baths, and select models are available with ergonomically recessed Back-Stack™ jets.

Combined Pleasure

Jason hydrotherapies are also available in three wonderful combinations, giving you a choice of hydrotherapy in one bath. Hydrotherapies can be used independently or at the same time, depending on the health benefits desired.

Ⓜⓐ MicroSilk®-AirMasseur® Hydrotherapy

A combination bath that delivers the benefits of both the new skin-rejuvenating technology—MicroSilk®—and AirMasseur® hydrotherapy, which stimulates the body's light-touch receptors.

Soaking Hydrotherapy stimulates the contact and temperature receptors located on the surface of your skin, which promotes relaxation, stress relief, natural cardiovascular exercise and increased circulation.

S
Soaking Hydrotherapy
Stimulates contact and temperature receptors

MicroSilk® Hydrotherapy creates oxygen-rich microbubbles that reach gently into pores, increasing the skin's metabolism while promoting skin cell growth and the reduction of fine lines, wrinkles and scars. It does all this while naturally cleansing and moisturizing, relieving irritation and improving skin health.

m
MicroSilk® Hydrotherapy
Stimulates healthy skin cell growth by improving the skin's metabolism

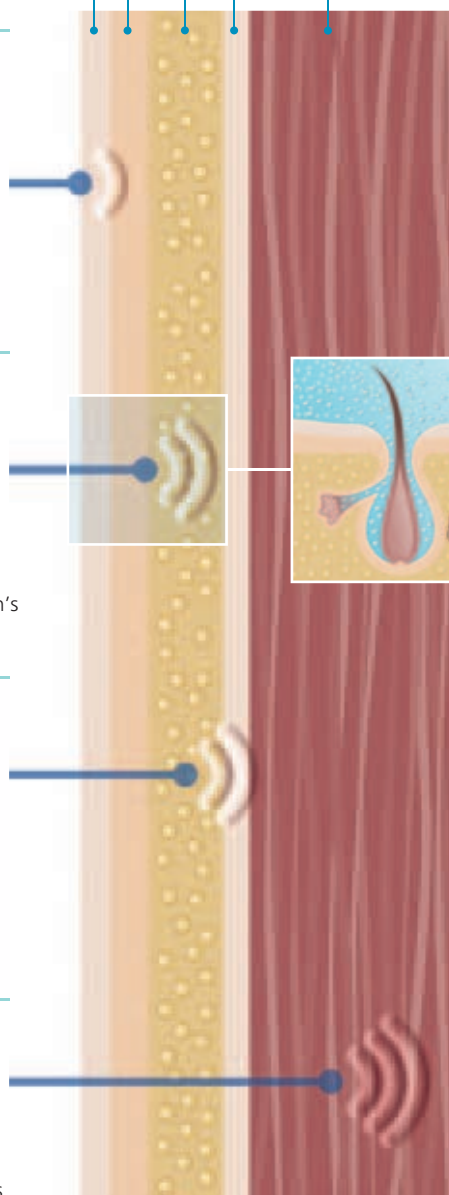

AirMasseur® Hydrotherapy engages the light-touch receptors just below the surface of the skin and promotes further calming, relaxation and circulation.

a
AirMasseur® Hydrotherapy
Stimulates light-touch receptors

Whirlpool Hydrotherapy brings about true physiological change in your body by engaging the pressure receptors located deeper in the muscle's tissue. This relieves tight and stressed muscles while promoting tissue rejuvenation and joint flexibility.

w
Whirlpool Hydrotherapy
Stimulates pressure receptors

Epidermis
Dermis
Subcutaneous Tissue
Fascia
Muscle

Skin & Muscle Tissue

mw **MicroSilk®-Whirlpool Hydrotherapy**
Combines the skin-cleansing and healthy benefits of MicroSilk® and its oxygen-rich microbubbles with the more traditional whirlpool technology that provides deep, relaxing massage to your muscles.

aw **Air-Whirlpool Hydrotherapy**
Allows for stimulation of both light-touch and pressure receptors through the combination of our AirMasseur® technology and Whirlpool Hydrotherapy. It's the bathing equivalent of both Swedish and deep-tissue massage.

Your Body Is the Most Amazing Machine Ever Created; We Simply Help With the Scheduled Maintenance

Your body is a highly functioning machine, enduring mental and physical stress, fighting disease, and moving from place to place. Restoring your body to prime operation is a priority—a necessity. Jason hydrotherapy baths naturally restore your body and mind to wellness and balance in a simple 20-minute bath cycle. No additives, no prescriptions, no appointments, just air, water and you, in perfect relaxation.

The benefits of hydrotherapy include:

Rejuvenate

- Improves muscle recovery
- Repairs and renews skin
- Relieves stress and restores balance

Relax

- Soothes the mind and body
- Promotes and improves sleep
- Reduces tension and stress

Relieve

- Relieves joint and muscle soreness
- Reduces swelling and inflammation
- Relieves skin irritation

Cleanse

- Opens pores more readily
- Improves exfoliation of the skin
- Detoxifies tissue and skin of impurities

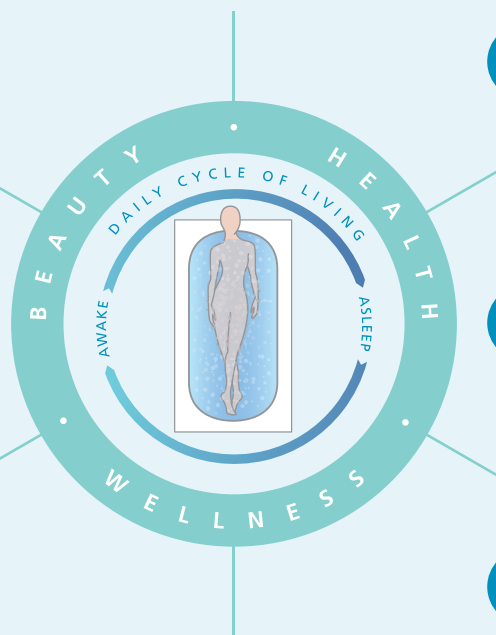

Energize

- Initiates natural cardiovascular activity
- Increases circulation
- Boosts the immune system and metabolism

Moisturize

- Increases hydration
- Exfoliates and softens skin
- Relieves dry skin

The benefits of MicroSilk® hydrotherapy include:

Oxygen Rich for Your Health

- Increases oxygen levels in the bath – up to 70%
- Naturally reduces anaerobic pathogens and bacteria on contact
- Promotes healing and increases skin metabolism
- Stimulates the immune system
- Enhances skin cell growth and collagen production
- Reduces formation of scar tissue

Negative Ion Therapy

- Releases therapeutic levels of anions
- Improves serotonin levels for sense of well-being
- Neutralizes free radicals
- Relaxes mind and body

Cleanse and Moisturize

- Deeper cleansing of the pores
- Exfoliates and softens skin
- Plumps and hydrates skin
- Reduces fine lines and wrinkles
- Improves skin tone and reduces redness
- Relieves symptoms of eczema and psoriasis
- Reduces irritation and helps prevent infection

Consistent Warmth

- Collapsing microbubbles release energy as heat
- Enhanced “sauna effect” aids in detoxification
- Pores open readily to release toxins and receive and retain moisture

Optimize Your Hydrotherapy

Jason's hydrotherapy experts are masters at combining the art of luxurious relaxation, advanced technical engineering and in-depth knowledge of the science of hydrotherapy. Each Jason hydrotherapy product offers a unique range of benefits to meet your health, beauty, and wellness needs. The chart below identifies specific qualities to help you tailor your optimal bathing experience.

Effectiveness of Hydrotherapy Type:
 Low     High

	 Relieves stress, promotes and improves relaxation and sleep	 Increases heart rate and blood flow	 Relieves muscle tension, joint pain; reduces swelling and inflammation	 Repairs and renews skin and restores balance	 Detoxifies, cleanses and moisturizes	 Relieves skin irritation

A Sensory Experience

Sound

Our Sound Immersion System transforms your bath shell into a speaker, placing you literally in the music. From your iPod to your DVD player, our floating digital universal remote control allows you to utilize your home media system from the comfort of your bath.

Floating universal remote control included with all Home Spa and Signature Edition baths.

Sight

Color can impact your mood, energy level and well-being. Chromatherapy is the practice of combining color and light to relax or invigorate your state of mind. With Jason's digitally controlled LED chromatherapy lighting system, you can enjoy a single hue or soothing cycle of color and light.

 AQUA Stillness and serenity	 BLUE Tranquility and balance	 GREEN Peace and harmony
 PURPLE Relaxation and comfort	 RED Energy and circulation	 ORANGE Warmth and joy

Why a Jason Bathing Experience Surpasses All Others

Each Jason bath is the product of a proud heritage, continual innovation and an understanding of your Daily Cycle of Living. The Jason hydrotherapy experience enhances the natural healing processes of this daily cycle. The experience

Comfort

A Jason bath is a luxurious revolution, in part because we fit baths to bodies. Designed for comfort and maximum hydrotherapy benefit, Jason baths combine perfect body positioning, optimum well depth and strategic jet placement. Attention to these details is what makes a Jason bath the perfect choice.

Designed for Comfort

Every Jason bath incorporates our Ergospatial™ Design criteria to cradle your body in a position of greatest comfort. We place a “lumbar support” at the ideal height to release pressure on your lower back and slant the backrest at angles that provide maximum comfort while minimizing pressure on any particular joint.

Perfect Positioning

The proper positioning of the body is critical to receiving the maximum benefits of hydrotherapy. Jason's Ergospatial™ Design places your body in its optimal resting or “loose-pack” position, helping you achieve full relaxation and hydrotherapy benefit.

Perfect Size, Perfect Depth, Perfect Placement

Jason baths come in a variety of lengths and widths to fit you and your space perfectly. Our spacious bathing wells are the right depth for your body to enjoy full submergence in the water. The correct depth also maintains the ease with which you can enter and exit the bath. Air and water jets are optimally placed in anatomically strategic locations within the vessel for maximum comfort and hydromassage effectiveness.

Quiet

Jason manufactures the quietest baths on the market. Our Quiet Design™ technology reduces and dissipates sound to ensure your peaceful bathing experience. Silent air controls, quieter jets and our thoughtfully engineered plumbing systems reduce noise. In addition, Jason pumps and air blowers are mounted separately from the bath, minimizing vibration and sound.

Jason's patented Level-Form™ base

Our patented Level-Form™ base absorbs sound and vibration, provides rigid support across the entire floor of the bath, insulates against heat loss and simplifies installation.

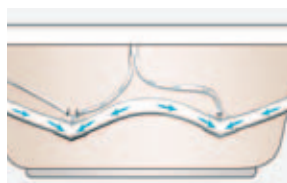

Clean

Our groundbreaking Sani-Design Technology incorporates a full spectrum of purity-enhancing components.

Automatic Ozone Sanitation System

Jason's maintenance-free ozone antimicrobial system works automatically with MicroSilk®, AirMasseur® and Whirlpool hydrotherapies to destroy bacteria, viruses and fungi.

V-Drain™ Plumbing System

Jason's V-Drain™ Plumbing System

This innovative whirlpool jet system ensures maximum water drainage from the plumbing system after use. It prevents water from both pooling and collecting in plumbing systems.

Positive Drain AirMasseur® Channel

Jason's Positive Drain AirMasseur® Channel

Engineered to maintain a downward drain angle, this system ensures maximum water drainage from the air channel after each use.

Automatic AirMasseur® Channel Drying System

This system automatically starts after an AirMasseur®, MicroSilk®-AirMasseur® or Air-Whirlpool bath has drained, purging water and drying the air channels, eliminating moisture.

forma® Collection Bold, Modern and Minimalist

The forma® Collection embraces minimalism. Celebrating the beauty of visual purity with clean lines and bold shapes, forma® merges the contemporary with the comfortable, the modern with the masterful. forma® commands its space while reveling in an elegantly simple existence. It plays with light and shadow, and needs no ornamentation.

In this serene environment, you can relax and find tranquility. You may find, like many others, that color or sound enhances the experience. Jason provides options such as chromatherapy, Sound Immersion and Automatic Ozone systems. Available in Standard, Premier and Signature packages.

Select the hydrotherapy that best suit your needs: Soaking, MicroSilk®, AirMasseur® or Whirlpool. Also available in combination hydrotherapies including: MicroSilk®-AirMasseur®, MicroSilk®-Whirlpool and Air-Whirlpool.

The forma® Collection's minimalist sophistication, peerless engineering and multitude of options create the consummate minimalist luxury bath—an impeccable blend of form and function.

Integrity® Collection Value Priced, Jason Quality

With the Jason Integrity® Collection, builders and remodelers get Jason quality at an exceptional value. Now Integrity® makes the amazing health and wellness benefits of MicroSilk® technology available to a broader base of customers. Soaking, AirMasseur® and Whirlpool baths are also available in select colors, shapes and sizes. All come with our Level-Form™ base, which is pre-leveled, easy to install and requires no grouting.

When it comes to engineering and craftsmanship, the Integrity® Collection is Jason through and through. Integrity® AirMasseur® baths include a high-quality air blower for quiet maintenance-free operation. Integrity® Whirlpool baths feature direction and flow-adjustable hydrotherapy jets. The single-speed whirlpool pump delivers quiet operation and long life. Integrity® MicroSilk® baths offer our exclusive skin-rejuvenating technology more affordably than ever before. All three models have an integrated air switch for easy fingertip operation.

Also available seat left or without seat

Shower Products

All Jason acrylic shower bases feature our patented Level-Form™ base that provides rigid support across the entire floor of the base, insulates against heat loss and simplifies installation. Jason's Alexia™ AL3648 shower base combines a shower base and a small bath with seat. It has a built-in tile lip on three sides and an integral lateral skirt, making it ideal for an alcove installation. Our Zero Threshold TZ3260 shower bases offer accessible luxury and functionality and are a perfect fit for those "aging in place." The included stainless steel linear drain accommodates a standard 2" shower drain connection.

A deeper look at Jason Hydrotherapy baths

The view below is the LC635 Air-Whirlpool – right of drain

LED chromatherapy light provides the soothing benefits of soft color washes

Perfect Pressure/Perfect Flow™ directional jets are fully adjustable for your personal comfort

Warm-air jets are positioned to surround the bather

Flow-adjustable Ultrassage™ rotating back jet designed to apply therapy to your lumbar region

Jetted neck pillow provides cushioned support while two pulsating jets massage your neck

Grip handle for added safety as you enter and exit the bath

Sani-Design® cleaning cap

Easy-clean acrylic surface

Sani-Design® V-jet System that minimizes water retention

Quick-disconnect blower for remote installation and easy service

Quiet MicroSilk® system creates billions of tiny oxygen-rich microbubbles

The view below is the LC635 Air-Whirlpool – left of drain

Integrally designed armrests are ergonomically located for your comfort

Silent air-control knob allows you to adjust the firmness of your hydromassage

High-capacity safety suction fitting. ETL and IAPMO listed

Advanced technology for control of all hydrotherapy features at your fingertips

Contoured seating allows you to relax comfortably

Ergonomic lumbar support is positioned at the perfect height for soothing support

Back-Stack™ jets are recessed for maximum comfort and deliver focused therapy to your back

In-line heater to maintain water temperature

Universal floating remote control allows the bather to control all bath functions as well as home media systems

Sound Immersion transducers that send sound waves through the bath's shell, turning your entire bath into a speaker with media terminal block for easy hook-up

Automatic Ozone Generator to naturally sanitize bathwater

Highest quality pump with induction motor for quieter operation. Run-dry seal provides longer life

Jason's patented Level-Form™ base provides support plus vibration and sound reduction. Insulating properties reduce heat loss

Optional Equipment

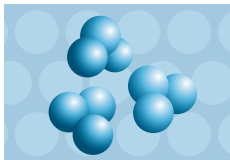

JETTED NECK PILLOW

Available on Designer and forma® Whirlpool and Whirlpool Combination baths. This snap-on foam pillow fully supports the bather's head and neck while two pulsating jets provide a gentle neck hydromassage. Constructed of waterproof and mildew-resistant materials. Offered in black or white. (Included on Home Spa Signature Edition baths.)

WHIRLPOOL BATH HEATER

Automatically maintains water temperature while your whirlpool is in operation. Available on Whirlpool or Whirlpool Combination baths. (Included on forma® and Designer Signature Edition baths.)

AUTOMATIC OZONE SYSTEM

Automatically protects your system bath while equipment is operating. Ozone guards your bath from bacteria, viruses, etc. Ozone is safe, will not irritate and leaves no residue. Jason's ozone generator has a 9,000-hour operating life. (Included on forma® and Designer Premier and Signature Edition baths as well as Home Spa baths.)

SOUND IMMERSION SPEAKER SYSTEM

Sound-transducing speakers provide sound from your choice of input devices such as TV, stereo, iPod® with amp, etc., through the shell of the bath. A pair of transducers is pre-attached to the bath and is provided with wiring, wiring connections and instructions. (Included as standard on Home Spa baths.)

LED CHROMATHERAPY LIGHT KIT

Provides an assortment of preprogrammed light shows that include color washes, cross fades and fixed colors. Estimated service life of 100,000 elapsed-time hours under normal operating conditions. (Included on forma®, Designer and Home Spa Premier and Signature Edition baths.)

COMBINATION PUMP HEATER

Heat energy generated by this whisper-quiet pump is released into the water, maintaining the water temperature while the pump is working and eliminating the need for a supplemental heater. No additional power supply is required, making it great for remodel projects. (Included on forma® and Designer Premier and Signature Edition baths as well as Home Spa baths.)
