STS 3000 PAINT SEALANT \$41.95/Gal. \$19.95/Qt.

STS 3000 is one of the finest, long-lasting paint sealants available. A unique blend of polymers, resin and Zonyl that forms a durable protective coating within 24-48 hours after application. Easily applied by hand or orbital, leaving an unbeatable shine on all types of paint. STS 3000 lasts 9-12 months. Use in place of wax.

CHERRY WET WAX \$35.95/Gal. \$17.95/Qt.

Provides a protective barrier against harsh environmental elements. Restores color and gloss to lightly oxidized finishes, as well as pre-cleaned surfaces. Easy on easy off formula helps eliminate dust, streaks, and haze. Contains carnauba wax and detergent resistant polymers for a wet-look shine. Lasts 3-6 months.

FOAM PAD GLAZE II \$30.95/Gal. \$16.95/Qt.

Use as a glazing step to remove minor buffing swirls, micro-surface imperfections and light oxidation. Works well as the final buffing step in the body shop compounding process. Leaves a durable, high gloss, swirl free, mirror like finish and is body shop safe. Cleaner and protection, follow up with Cherry Wet Wax or STS 3000.

VIBRA CUT II CLEAR COAT COMPOUND \$39.95/Gal. \$18.95/Qt.

A high performance heavy-duty compound formulated to remove significant imperfections from painted surfaces while imparting a high gloss finish. Use to remove 800-1,200 grit sand marks from new or cured paints. Works extremely well on boats and gel coat finishes. Follow-up with SPYDER WEB or Foam Pad Glaze II.

VIBRA CUT LITE \$32.95/Gal. \$16.95/Qt.

A new generation compounding formula employing specially formulated "diminishing" abrasive materials. This scientific breakthrough enables the user to remove medium to heavy scratches while achieving a high gloss finish in one easy step. Easily removes 1,000 to 1,500 grit sand marks and is body shop safe. More aggressive than Foam Pad Glaze II, less than Vibra Cut II.

ONE STEP PREP II \$31.95/Gal. \$16.95/Qt.

Formulated with the latest scientifically engineered polymers and waxes. Cleans and protects in one application. Recommended for use on lightly oxidized finishes or as a second step on aged paint that has been pre-cleaned. May be applied by high speed buffer, orbital polisher, or by hand. Lasts 30-60 days, for car dealer/wholesale details, saves the waxing step!

SPYDER WEB GLAZE \$39.95/Gal. \$17.95/Qt.

A versatile cutting glaze that removes buffer swirls, light imperfections and oxidation. Highly recommended as a second step after wet sanding & compounding. Formulated with special lubricants, SPYDER WEB GLAZE provides ample buffing time while preventing re-hazing caused by over buffing an area. This helps the professional achieve a brilliant swirl free, mirror-like finish. Use after compounding. Body shop safe.

VOC COMPLIANT!

CARPET DYE SYSTEMS

CARPET DYE SYSTEM II \$239.95 / \$11.95 DYES INDIVIDUALLY

A true carpet dye. Same dyes carpet mills use to provide a permanent, non-fade color. Gives carpet a soft and plush like new feel and look. All dyes have been blended to meet the 17 most common automotive carpet colors used by auto manufacturers worldwide. No problem with overspray, the dye will not stick to vinyl, leather or plastic. Features 17 8oz bottles of carpet dye concentrate. Each bottle makes 32 ounces of carpet dye. Pour the contents into the provided spray bottle with water. Spray the mixed dye directly on the carpet or mat and then scrub the dye in with the provided brush. Great for carpeting or carpeted mats that have lost their true color and need rejuvenated or are too badly faded. Always clean the carpet first to remove soil and stains. Neutralize bleach stains with the provided Bleach Stain Neutralizer. Included is a 4oz bottle of stain remover. You get: 17 bottles of 8oz carpet dye concentrates, 32oz spray bottle, scrub brush, stain remover, bleach neutralizer, and red stain remover. Use the carpet color a shade darker of the same tone for best results. **Not intended to change the color of your carpet to a different color.** Re-New your existing color with just a slightly darker tone. Dye carpets and mats of averaged sized cars with about a mixed 1/2 quart.

LEXOL® PRODUCTS

LEXOL LEATHER CONDITIONER

\$29.95/3 Liter • \$15.95/1 Liter • \$11.95 1/2 Liter

Lexol Leather Conditioner is a liquid conditioner and preservative intended for use in the care and conservation of leather. Its purpose is to maintain the strength, beauty, utility and flexibility of leather - old and new - and to restore resiliency to old or neglected leather that has become hardened and stiff. Lexol does not contain any chemical solvents. As an aqueous emulsion, it achieves several objectives: fiber penetration and nourishment, absorption and retention in the leather & control of migration or seepage.

LEXOL pH LEATHER CLEANER

\$29.95/3 Liter • \$15.95/1 Liter • \$11.95 1/2 Liter

Lexol-pH Leather Cleaner is a blend of selected, non-alkaline cleaning agents designed to clean leather safely and thoroughly without the harshness or potentially damaging effects of saddle soaps, which are alkaline. Lexol-pH Leather Cleaner formula is based on the principle of breaking up and removing the oils, which trap dirt in the leather while its foaming action lifts out the embedded dirt, leaving the leather with a clean, alkaline-free environment.

VINYLEX PROTECTANT \$13.95 1/2 Liter

Vinylex Protectant is a patented formula for the care and preservation of vinyl, rubber and plastic surfaces. It is a state of the art protectant that combines cleaning, protection and beautifying properties in an easy to use one-step product. It actually penetrates below the surface layer to restore the underlying plasticizers. Of the five patents that govern silicone protectants, Vinylex carries two of them.

Convolutated-faced buffing pads resist "hopping" that may occur when flat-surface pads dry out. Allows air to circulate, cooling the surface. Double-sided pads reduce splattering of chemicals & fluids. Top quality reticulated polyester foam. Bevel design allows you to reach tight areas with high-speed buffer. Work with less binding & crouching. No backing plate to damage car. Adapter enables you to snap pads on and off instantly and center them perfectly every time. Flip pads over when the opposite side wears down. Saves \$\$\$ over single sided pads.

BLACK Heavy Cut: Most aggressive. Cuts through deep surface marks & swirls (micro scratches). Works fast reducing risk of burning. Remove heavy oxidation and wet sand scratches.

YELLOW Medium/Heavy Cut: This is the second most aggressive of the Wave pads. It will cut through medium to deep surface marks and swirls (micro scratches).

GREEN Medium Cut Polish: Everyday cutting pad for average cars with light oxidation & moderate swirls (micro scratches). Yields amazing results on vehicles that are a few years old.

BLUE Soft Polish: Versatile pad for regular use. Use on cars that come back for regular cosmetic touch-ups. Will leave surface areas scratch-free & smooth while removing light imperfections.

WHITE Ultrafine Polish: Ultra smooth surface, finer than any pad on the market. Creates a bold, crystalline gloss. For new, exotic or expertly restored cars. Use this pad at a slower speeds.

1 Each Wave Pads With Adapter: You receive all 5 double sided Edge Wave 2000 pads. One Black, Yellow, Green, Blue, & White. \$104.95

The Edge 2000 adapter enables you to snap pads on and off instantly and center them perfectly every time. The adapter comes with a lifetime guarantee. INCLUDED with this set!

4 inch foam pads made with Cyclo's unique foam compositions plus has patented Quick Change Adapter System of the new Edge 2000 Foam Pads! Double sided - just flip it over and use the other side! These pads use the same self centering design as the Edge adapter. Use 3/4 inch wrench to tighten the adapters into the Cyclo Polisher, then snap two of the Cyclo 4 inch pads in place and you're ready to polish! Vibration is virtually eliminated! These pads are so well balanced using the Edge Adapter any vibration is basically gone. The Double Precision Pads sit closer to the polisher housing than the regular Cyclo pads and have no wobbly components between the pads and the polisher. The adapter holds the pads perfectly level, regardless of the motion of the buffer. You will love the way the Cyclo just glides across the paint! With this new system there is minimal risk of striking the paint. The Quick Change System eliminates the rubber boots (pad holders) and the two orbiting heads. There is nothing surrounding the pads so there is nothing to impact the paint. If you are buffing a tight area there is no worry about any rubber boot accidentally marking a body panel.

Yellow: Compounding/Polishing pads for maximum cutting on paint finishes w/heavy oxidation or scratches.

Orange: Heavy Glazing/Polishing pads for medium polishing. For light to medium oxidation and scratches.

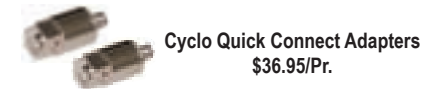

Green: Glazing/Polishing pads for light polishing. For paint that is in relatively good shape.

White: Finishing pads for final polishing or application of paint sealant or wax. Least aggressive pads.

White/Green Combo: Finishing pads for final polishing/glazing and application of paint sealant or wax.

The Edge 2000 6" "DA" Double-Sided Pads for the Porter Cable "Dual Action" Orbital Polisher. Flip the pad to the opposite side if you don't have time to clean it or when the opposite side wears out. Revolutionary foam buffing pads save you money, virtually reduces vibration & eliminates potential damage while polishing in tight areas. Eliminate Velcro backing plate by using our Edge Porter Cable Adapter. Change pads in a few seconds with snap-on, snap-off Edge adapter. Adapter centers the pads perfectly every time. Yellow & Green pads made of Edge 2000 Durafoam formulated for today's clearcoats. More aggressive at low speeds than standard foam & cut more efficiently.

Yellow: Medium cutting using a lite or heavy duty clear coat compound like our Vibra Cut II & Vibra Cut Lite.

Green: Most versatile pad. Remove light oxidation and scratches. Our Foam Pad Glaze, One Step Preps, and Spyder Web Glaze works great with this pad.

Blue: Use this pad for everyday polishing & the application of wax or sealants. Use to apply an additional coat of polishing glaze like Quik & Easy.

White: Extra soft finishing pad for everyday polishing & the application of wax or sealants or apply an additional coat of polishing glaze like our Quik & Easy.

The Edge CCX Foam Pads Cross Cut Pattern lets the pad run Cooler and smoother and breaks the surface tension. But unlike traditional waffle pad designs, CCX pads keep 80% of the pad on the working surface for faster working times. These 6" pads are perfect for the Porter Cable 7424 and the new Flex DA Polisher!

All pads will need one Edge Porter Cable Adapter.

Blue foam is soft and for final polishing and sealing. Use with any of our glazes, waxes & sealants.

Green foam is for light to medium buffing and polishing, use with our Foam Pad Glaze II, Quik & Easy, One Step Preps and our Spyder Web Swirl Remover.

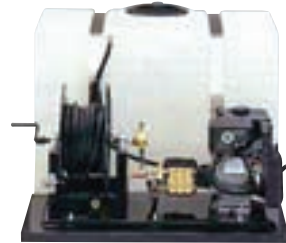

Yellow foam is for medium to heavy buffing, use with our Vibra Cut Lite or Vibra Cut II clear coat compounds.

Business Package V – \$10,795.00
Auto Reconditioning Business Opportunities

Auto reconditioning profit centers are included with Business Package V along with everything that is included with Business Package IV including our Authorized Licensee Program which comes standard with a custom-built web site. The added auto reconditioning profit centers include: Premium Color Twin Paint Chip Repair Kit, Automotive Interior Repair Kit for Vinyl & Leather, Commercial Headlight Restoration Kit, Carpet Dye System, and Plastic Restoration Business Opportunity. In addition to the Two Day Training Seminar that is included you will receive an additional day of training for the above profit centers. Auto reconditioning services can be provided to private auto owners and car dealers along with your complete auto detailing services. We will teach you how to "evaluate" a vehicle by doing a "walk around" and provide the customer an estimate on what the vehicle really needs. Many vehicles that you will be detailing will require reconditioning due to paint chips, foggy headlights, badly stained and faded carpets, rips in the vinyl, and faded exterior black trim. BPV will enable you to impact your bottom-line significantly by providing these profitable add-on reconditioning services. The price of **\$10,795** already includes a generous Authorized Licensee discount. Ask a Detail King representative about our financing programs or apply online. **Visit www.Detailking.com for a complete list of products offered with this package.**

MAKE PAINT CHIPS AND SCRATCHES DISAPPEAR!

Color Twin Premium Kit
\$2895⁰⁰

Color Twin Deluxe Kit
\$1695⁰⁰

Color Twin Paint Chip Repair Sample Kit
\$69⁹⁵

3 SIMPLE STEPS

1. Apply Color Twin paint.
2. Remove excess with Color Twin remover.
3. Shine the paint!

THE COLOR TWIN KIT

The Color Twin Kit includes everything you need to get started using the Color Twin System.

Our process is very different from the rest. There is no paint mixing, you do not need an air brush or squeegee to apply the paint. The paint is applied like shoe polish, the operator uses a shop towel with the paint to quickly "shoe polish" the road rash. A swab can be used for deeper chips and scratches.

The secret is in the removal of the excess paint while leaving the paint in the chips! Our Color Twin removal/shine product quickly removes the excess paint, leaves a brilliant shine and the paint stays in the chips!

The Color Twin Process

This is an excellent service to provide to your used car dealer accounts. Most individuals once trained on how to use this system can Color Twin 10 used cars per day at an average cost of \$50. That's \$500 per day of gross sales! Our DVD and operations manual will not only assist you with how to use this system but it will train you on how to get the dealer accounts and step-up your retail customers so you can provide this service. The big difference with our Color Twin system is the time factor! The average time is about 35 minutes to do a complete touch up on most cars. Most other systems take an hour or more. Our system is faster and the paint stays in the chip!

Color Twin Deluxe Kit

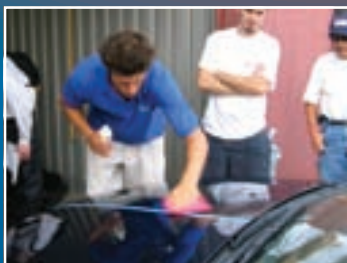

This kit includes 25 of the most popular colors. Also included besides the 24 2 oz bottles of paint is; 1 - 12 oz bottle of Black Paint, 1 - 12 oz bottle of Reducer, 1 gallon of Color Twin Prep & Remover, 2 Paint Brushes, 1 Black Marker, 1 Bag of Q-Tips, 36 Mixing Cups, 100 Paint Mixing Sticks, 2 empty 12 oz Bottles for the Color Twin Remover, 1 Box of Gloves, 15 White Terry Towels, and 15 Red Shop Towels. Our Color Twin DVD Training Video and Operations Guide is included.

Color Twin Sample Kit

Our Color Twin Sample Kit includes 2 - 2 oz bottles of our specially formulated paint. We have included black and our most popular red. Black can be used to hide most chips on dark colors such as dark blue, green, burgandy, brown and other dark shades. The red included can be used with many shades of red.

Also included is one 12 oz bottle of Color Twin Prep & Remover, 2 Shop Towels, 1 Microfiber Polishing Towel, 10 Cotton Swabs and 4 Latex Gloves.

This is a great way to try out this system and see for yourself how well it works. Complete instructions are also included. There is enough paint to repair 15 - 20 hoods.

The secret to your success is in the proprietary Color Twin Formula. The Premium Kit comes with enough supplies to produce well over \$10,000 in gross monthly income or \$102,000 net annually after expenses. The Premium Kit is designed to complete approximately 200 cars per month and your total return on investment can occur in the first month of doing business. Adding paint touch-up and restoration to existing services increases vendor value and revenue and builds customer loyalty. **CALL US TODAY AND WE WILL SHOW YOU HOW TO INCREASE SALES.**

Adobe Illustrator Software Is Needed To Make Changes

Only
\$89.95

Promote Your Detailing Business and Services!

This CD will enable you to produce your own customized flyers either in full (4) color ink or black & white on color paper. We have developed 11 different flyers and 1 door hanger. All the work is done, all you have to do is drop in your logo and contact information. You can use the service names, prices, and descriptions we have provided or have them easily changed by your printer. Flyers: Air Plane Cleaning, Auto Polishing, Boat Cleaning, Winter Specials, Mobile Services, Winterize Your Car, Holiday, 6 Coupon, Relax-We Come To You, Out Of Time To Do It Yourself, Realtors Special, Santa, plus a great Door Hanger! These flyers have been professionally produced and stored on a CD. Save literally thousands of dollars in production and art work cost. We have done all the work for you! These flyers help book appointments and we use them in the field every day. Your printing company should have Illustrator software to insert your changes and print.

Show Your Professionalism!

Only
\$69.95

We have developed a Service Menu which includes many exterior and interior services, descriptions and price ranges. The service menu also includes detailing packages, engine shampooing, paint overspray removal and VIP Plans. Everything is on a CD. We will include a hard copy (white paper) of the 2 sided fold up brochure, the CD and instructions for your printer. This CD will enable you to change & insert your own names, prices, company name, logo, color, telephone number, web site and email addresses. You can also insert pictures or leave the ones that we have on the brochure. The printing company needs Illustrator software to make your changes, most printers have that software. If you want to take a closer look at the descriptions go to www.detailking.com/cali. This is the actual service menu we use with our mobile detailing service in Southern California with Jason's changes. This brochure will save you hundreds of dollars with type setting and development time.

Professional Auto Detailer's Forms & Check Lists!

Only
\$79.95

Exclusive Detail King® CD consists of 5 popular auto detailers forms that are a must to use to manage your business effectively.

Auto Detailer's Checklist: Used to "inspect" the detail after it is completed with a 50 point check list for both interior and exterior components.

Detailers Evaluation Checklist: Features 26 different components that may need addressed by the detailer to the customer so the detailer can provide an accurate estimate. It shows the customer how the detailer established the price for the job. This form also enables the detailer to sell extra profitable services.

Existing Damage Report: Enables the detailer to describe and show any existing damage on the vehicle prior to the detail. Shows an image of a car, pick-up truck, mini van and an SUV. *Don't get blamed for existing damage!*

Detailer's Invoice: Has everything you will need including customer information, how they found you, method of payment, etc. Can be printed as a two part form and even have your printer number them.

Customer Response Card: Give this card to your customer after the detail and have them mail it back to you. It asks how they liked the detail, the person they dealt with, the time it took, and a comments section. Can be printed with your company name and address on front. You put a postage stamp on and all the customer needs to do is complete the survey and mail it.

Save several hundred dollars of set-up charges by purchasing this CD and separate yourself from the competition by having professional looking forms and revenue creating guides.

Auto Detailing Training provided by Detail King Auto Detailing Institute LLC is a Private Licensed School approved by the State Of Pennsylvania. Our auto detailing school provides the industry's most comprehensive, auto reconditioning and car detailing hands-on training programs available anywhere. Whether you are a seasoned veteran detailer or just starting out, detail training at Detail King ADTI will help you learn the skills needed to operate a successful and proficient detailing operation. It will also assist with training individuals that have career goals for being employed as a technician in this lucrative auto reconditioning industry.

Detail King Auto Detailing Training Institute is totally committed to providing our students with a detailing school experience that will far exceed the students highest expectations. The student will learn the "business side" of this opportunity as well as the proper techniques for all stages of auto detailing. We will provide you with the tricks, tips and secrets that the pros have acquired enabling you to work more effectively and more efficiently! Our training is for both mobile auto detailing and fixed detail shop operators. Detail King Auto Detailing Training Institute is committed to providing the education and training needed that is critical to building a successful auto detailing business or career for today and beyond.

We are very proud of our newly remodeled auto detailing training and warehouse facility in Pittsburgh, PA. Having over 70 years of combined experience in the auto detailing industry through owning and managing auto detailing shops, mobile detailing operations, express detail and lube centers, restyling shops, mobile electronics and hand car washes we have the experience to teach you what you need to be successful. Our courses will encompass all the aspects of auto detailing and how to use what you have learned here in real life customer/vehicle situations.

**Auto Detailing
Training Seminar
Technician
Program
- 2 Day Class -**

Our Technician Program is a two day auto detailing training seminar that is limited to 25-30 students. The First Day of the detail training seminar students will be introduced about how to start, operate and grow his or her new auto detailing or mobile auto detailing business. Knowing the "business side" of operating and managing an auto detailing business is just as important as the actual hands-on detailing training. The second day of the detail training seminar is dedicated to hands-on exterior detail training and interior detail training methods and procedures.

Hands on auto detail training: The student will actually detail a designated vehicle completely with the help of his assigned trainers and teammates. Unlike most auto detailing training seminars that we know of you will actually be "detailing" versus just watching demonstrations and viewing detailing tutorials. Our auto detailing training seminars are held monthly - Saturday through Sunday at our campus in Pittsburgh, Pennsylvania. The second day is a "hands-on" training day in which the student can try out all of the equipment, supplies, products and detailing accessories. The instructors will show the proper techniques and methods for using the buffers, polishers, extractors, vacuums, brushes, towels, tools and detailing accessories.

Auto Detail Training Seminar Craftsman Program - 3 Day Class

Our Craftsman Program is a three day auto detail training seminar that is limited to only six students. The First Day the student will be introduced about how to start, operate and grow his or her new auto detailing or mobile auto detailing business. It is the very same course that we have for the Technician Program. Knowing the "business side" of operating and managing an auto detailing business is just as important as the actual hands-on methods and procedures. This is the perfect auto detail training class for small groups. Ask about our group enrollment discount.

The Craftsman's Program is designed for students that want more individualized instruction. We spend an entire day on exterior detail training (Day 2) and an entire day on interior detail training (Day 3). The student to trainer ratio is 2:1. The student will also be introduced to additional profitable exterior and interior reconditioning services that are not part of the Technician Program curriculum. Additional Training: Vinyl and Leather Repair, Dying Of Carpeting & Mats, Odor Removal, Paint Chip Repair, Plastic Trim Restoration, and Headlight Restoration. This auto detail training seminar is held monthly usually Friday through Sunday at our campus in Pittsburgh, Pennsylvania.

For seminar dates for both the Technician and Craftsman classes please contact our school registrar Denise Vacco, or any of the Detail King training school representatives; 1888-314-0847.
