# INTERIOR DOORS

2017 COLLECTION

Open to extraordinary.™

# Open to extraordinary™

Masonite is committed to delivering unsurpassed performance in interior doors. We want to provide not just a door, but a total experience, giving you a complete line of products, services and support tools designed around your success.

We are your leading source for the latest trend insights and design ideas, delivering distinctive door styles that complement any home and personal taste. From the crisp, clean lines of our Heritage series to the high-end elegance of our raised panel collection, we offer the breadth of interior doors to meet any material, performance and design need, so you always have the right answer for your customers.

Every product we offer is the result of years of research, design, engineering, and development that begins at the Masonite Innovation Center in suburban Chicago,

# MASONITE®

Open to extraordinary.™

the largest facility of its kind in the industry. It is this dedication to a fully integrated design process that sets us apart from the competition and ensures every product we deliver lives up to our exacting standards for quality, consistency and craftsmanship.

## **YOUR TRUSTED PARTNER**

Masonite is not just a trusted leader in interior doors; we are a powerful partner who helps you elevate the role a door plays in your projects—creating more inspiring customer experiences and stronger business results.

► Add a defining element to any space with familiar designs that offer timeless appeal.

# SAFE 'N SOUND.

SOLID CORE DOORS

## No Need To Sacrifice Style For Quality

Homeowners today are looking to create a peaceful retreat that is a reflection of their personal style. Making the move to solid core doors is a simple, cost-effective way to help them achieve their vision.

### MAKING SOLID CORE STANDARD

We're on a mission to put solid core doors in every home – a difference that is clear the moment you open the door. The more substantial feel of solid core creates a dramatic improvement in overall perceived quality at a minimal price increase over their hollow core counterparts.

SAFE 'N SOUND.

### THE ADVANTAGE GOES BEYOND THE FEEL

Our doors are better able to withstand the dents and dings associated with normal wear and tear. They also block sound more effectively, making them a must-have for master bedrooms, laundry rooms, media rooms, bathrooms, home offices - any space where privacy is key. Our entire interior door offering is available in a solid core option.

<b>Primed</b>																									
<b>VENEER</b>																									
<b>Oak, Birch, Hardwood</b>																									

\*Thinner outer stile will not affect functionality. Double doors and bifolds are not recommended. Due to manufacturing processes, a 1/8" tolerance is acceptable on horizontal lines.

\*\*Not for use with double doors or 4 door bifold door applications.

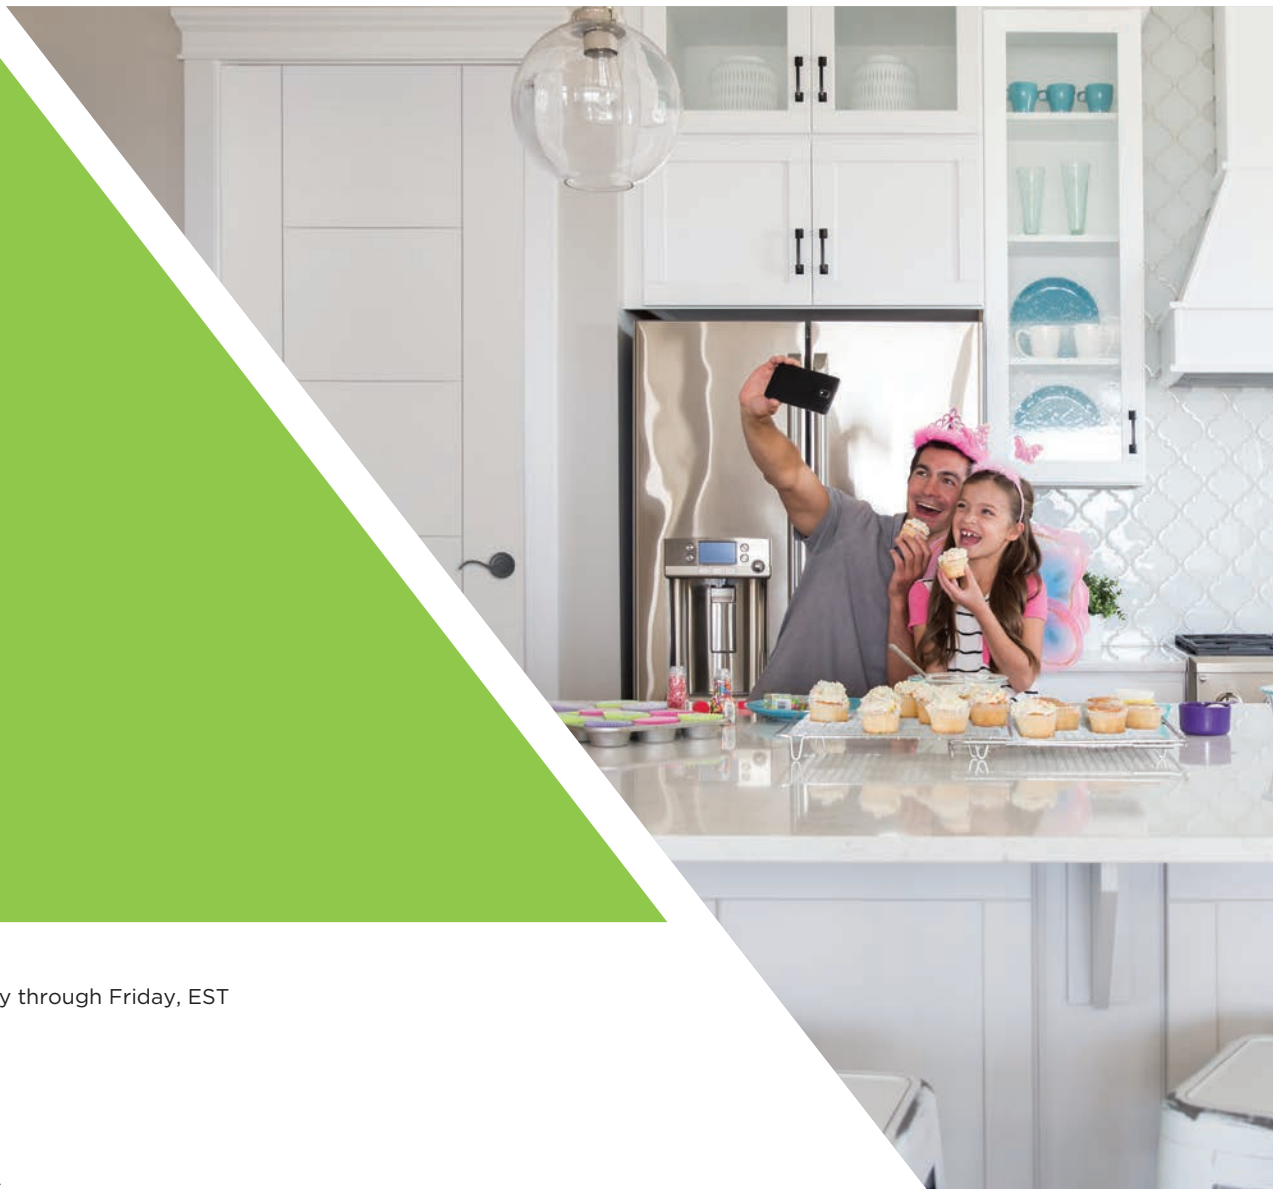

**Note:** 48", 60" & 72" bifolds are achieved by doubled 24", 30" & 36" bifolds.

**Molded Panel Series Notes:** Please note that some sizes are only available as a result of being trimmed from a larger facing. The trimming process may result in a stile width that is too narrow to accommodate a standard bore. To machine a standard bore with a 2-3/8" backset on the lock hole and a 2-1/8" diameter bore, the outer stile measurements must be no less than 3-7/16" wide. Many facings have a lockrail that will accommodate a standard bore even when the stile width is too narrow. Please refer to Masonite Molded Door Facing Dimensional Specifications to verify the outer stile measurements or contact your Masonite Interior Door servicing plant. Textured refers to embossed wood-grain. Pre-finished white is available textured only. Not all molded panel designs and sizes are available in all regions as stock products. Please check for special order availability. \*Molded Panel actually measures 17-13/16".
