BEFORE YOUR MEETING

There are two ways for you to use AnyMeeting. You can sign in and access AnyMeeting using your Google Chrome browser (features are limited), or download the desktop app for access to our full feature set.

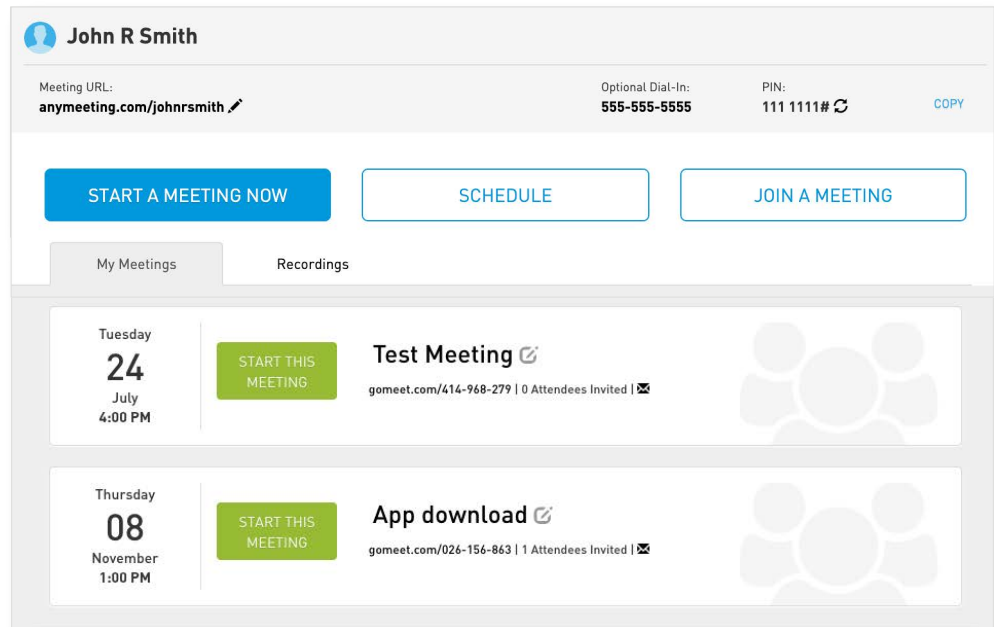

For quick access, log in using your [Google Chrome](#) browser

For the best meeting experience, download the [desktop app](#)

Meeting Dashboard

Once logged in, you will land on your Account Profile page. This is your personal AnyMeeting hub, where you can:

- Create your own custom meeting URL
- See all of your meeting details (URL, conference call number and PINs)
- Start or schedule a meeting
- See past meetings
- View Recordings
- View meeting transcripts

The screenshot shows the AnyMeeting dashboard for user John R Smith. At the top, the user's name is displayed next to a profile icon. Below this, the Meeting URL is shown as anymeeting.com/johnrsmith. To the right, the Optional Dial-In number is 555-555-5555 and the PIN is 111 1111#. A COPY button is located to the right of the PIN. Below the URL and dial-in information are three buttons: START A MEETING NOW (solid blue), SCHEDULE (outlined blue), and JOIN A MEETING (outlined blue). Underneath these buttons are two tabs: My Meetings (selected) and Recordings. The My Meetings section displays two upcoming meetings. The first is on Tuesday, July 24 at 4:00 PM, titled "Test Meeting" with a green START THIS MEETING button and a meeting URL of gomeet.com/414-968-279 | 0 Attendees Invited. The second meeting is on Thursday, November 08 at 1:00 PM, titled "App download" with a green START THIS MEETING button and a meeting URL of gomeet.com/026-156-863 | 1 Attendees Invited. Each meeting card includes a placeholder icon for attendees.

Custom Meeting URL

Your custom URL is like your own personal meeting channel—meetings will come and go, but your meeting URL will always stay the same.

Tip: Update your meeting URL to something that is easy to remember, and relevant to you and your business.

The screenshot shows a meeting control bar for a user named John Smith. It includes a profile picture icon, the name "John Smith", and three fields: "Meeting URL:" with the value "anymeeting.com/" and a pencil icon; "Optional Dial-In:" with the value "555-555-5555"; and "PIN:" with the value "55550001111#" and a refresh icon. A "COPY" button is located to the right of the PIN field.

- Click  next to your meeting URL
- A dialogue box will pop up, enter your new meeting URL here
- Click the Update Meeting URL button

You can change your personalized URL as many times as you want. You can also refresh your attendee PIN as many times as you want. Your dial-in number and presenter PIN are uniquely your own as well but cannot be customized.

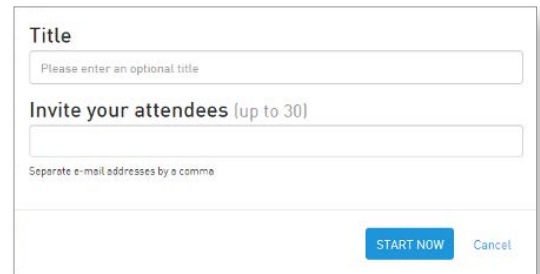

Reset Pin

 Click this button to generate a new set of PINs for your conference bridge. Once you do this, you cannot retrieve your old pins, so be careful. Any old invitations you sent out would be instantly invalidated.

Start a Meeting Now

Starting a meeting on AnyMeeting is very easy. It only takes two clicks from the Meeting Dashboard:

- Click “Start a Meeting Now”
- Enter a Title
- Invite attendees by entering their email addresses
 - Alternatively, you can simply send them your Meeting URL via email or external IM
- Click “Start Now”

The screenshot shows a web form for starting a meeting. It has a 'Title' field with a placeholder 'Please enter an optional title'. Below that is a field for 'Invite your attendees (up to 30)' with a placeholder 'Separate e-mail addresses by a comma'. At the bottom right, there are two buttons: 'START NOW' in blue and 'Cancel' in grey.

Scheduling Meetings

Use Your Existing Calendar

One of the simplest ways to schedule meetings is to use your existing calendar, such as Outlook or Gmail. This will give you access to your contact list, availability information and more. To do this:

1. Create a calendar invite like you normally would (in Outlook or Gmail)
2. Add your AnyMeeting shortcut URL into the location field
3. All attendees will easily be able to join your meeting from their calendar invitation.
Plus, you and your attendees will get a calendar notification when the meeting is about to start

DID YOU KNOW?

AnyMeeting also offers a Microsoft Outlook extension available to Intermedia Hosted Exchange customers. Contact Intermedia Support to find out more!

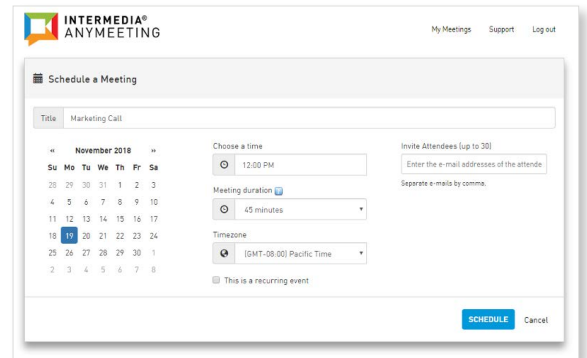

Scheduling using AnyMeeting’s Meeting Dashboard

The Meeting Dashboard gives you the ability to schedule a single meeting in advance, recurring meetings in advance, or instantly start ad-hoc meetings. In most cases, scheduling is not required, except for the following benefits:

- Create a unique meeting code that only works for that specific meeting
- You want to invite many attendees to your meeting, using our e-mail send functionality
- Keep in mind however, that using the Meeting Dashboard for scheduling you won’t be able to see RSVPs to your meeting

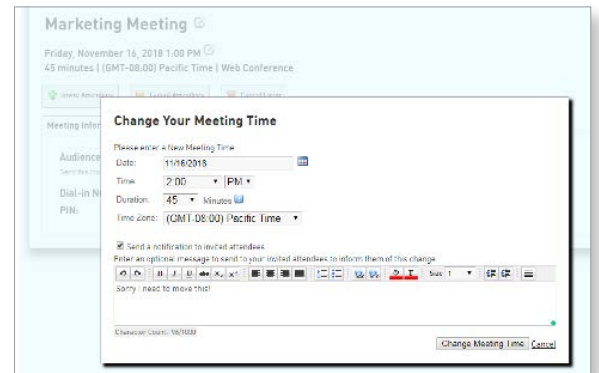

To Schedule a Single Meeting

- Click [SCHEDULE A MEETING](#)
- Create a Meeting Title
- Select the date, time, duration and time zone of your meeting
- Invite attendees
- Click [SCHEDULE](#)

To Edit a Scheduled Meeting

- Go to the My Meetings tab on your Account Profile
- Click the Meeting Title
- Click  next to the Meeting Title to update the tile
- Click  next to the date and time to update meeting details
- Update the meeting details (feel free to include a message to attendees here)
- Click Change Meeting Time on the bottom right

AnyMeeting Integrations

AnyMeeting integrates with popular third-party business applications to streamline workflows and improve your team's collaboration.

Add AnyMeeting details to new or existing calendar events. When you start meetings from your Office 365 calendar, meetings will include the meeting title, start time and end time, attendee list, meeting agenda, and more. Contact your account administrator to get access to this integration.

Start meetings in Slack messages with /meet command.
[Get the app](#)

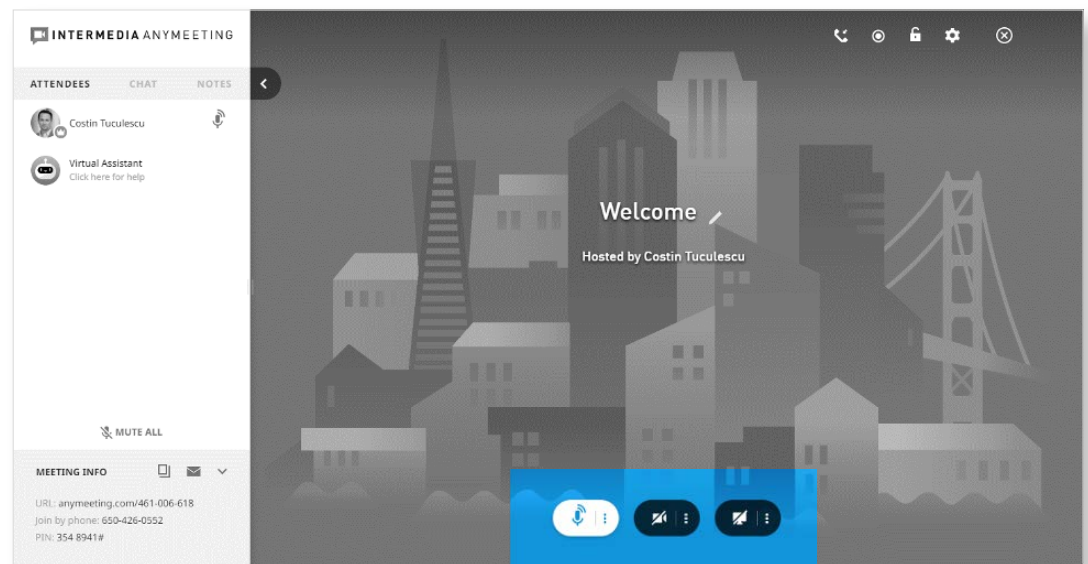

Start meetings in Teams by typing @AnyMeeting meet command.
[Get the app](#)

DURING YOUR MEETINGS

When you start your meeting, the meeting interface will load to help you effectively communicate and collaborate with others. You will be able to use your computer's audio or phone to talk. All meeting participants can share their cameras, screens, or videos for more interactive and collaborative meeting experiences.

Audio, Video and Sharing Controls

Located at the bottom center of the screen, where you can:

Mute or unmute your audio

- You can also select your audio devices from the "More menu (3 dots)" next to this button

Turn your webcam on/off

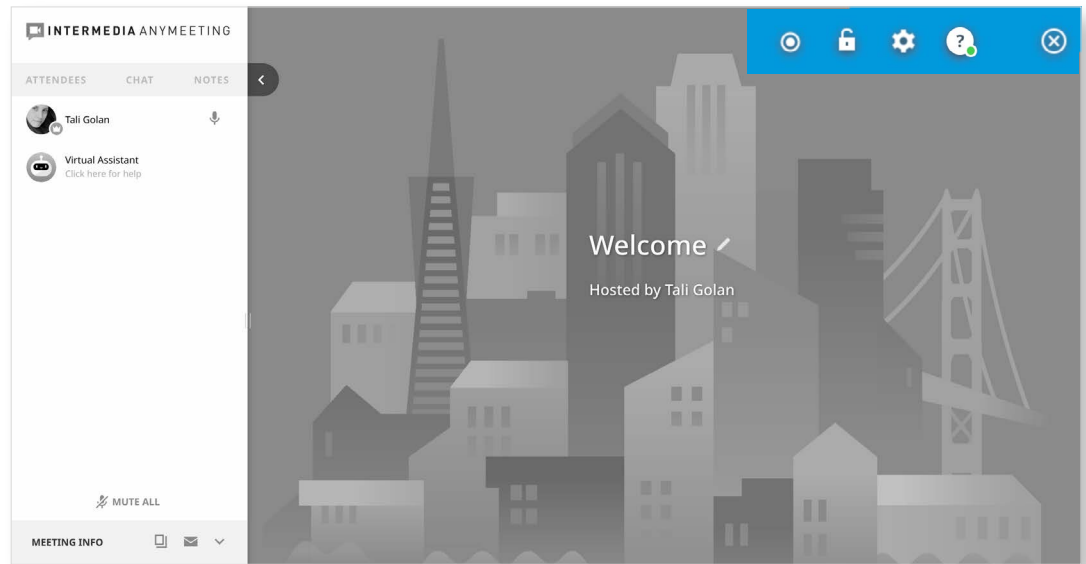

- You can also select your webcam devices from the "More menu (3 dots)" next to this button

Share your screen

- You can share your screen any time, even if someone else is sharing. You will be prompted if you want to interrupt them, and you'll be able to decide the appropriate action
- We've built our application this way to reduce barriers to sharing, and make it more like a real world meeting, in the same physical location

Secondary Controls

Located in the Upper Right of your screen, you can:

- 
Switch to Phone / Microphone
 - Switch to Phone will bring up dial-in information for the meeting
- 
Record meetings (Pro only)
 - You can start a recording, as well as Append or Overwrite a previous one
- 
Lock your meeting
 - Locking your meeting prevents any new attendees from joining this meeting
 - If someone leaves while your meeting is locked, they can return later if they wish, because they were part of the original group when the meeting was locked
- 
Check your network connection
 - This icon will only show up in the case of a poor network connection
- 
Meeting Settings
 - Audio & Video settings with Preview – fine tune your webcam and audio settings
 - Custom Branding – upload a custom logo and/or background for your meeting
 - Virtual Assistant (Pro only) – Determine if transcripts should be produced for all meetings, or just the ones you record
 - General
 - Participant Management
 - Force new attendees to Join Muted
 - Enable or disable entry and exit chimes for your meetings

- **Video Layout**

- Enable Active Talker – This will bring the current talker to the center of the screen, if their webcam is enabled
- **Bandwidth Settings** – choose Auto or High, Medium, Low bandwidth options to control your video quality. Choosing options other than Auto may result in a poor experience if you don't have the adequate bandwidth

? **Help Menu**

- Get access to our Knowledge Base and other support materials

End the Meeting

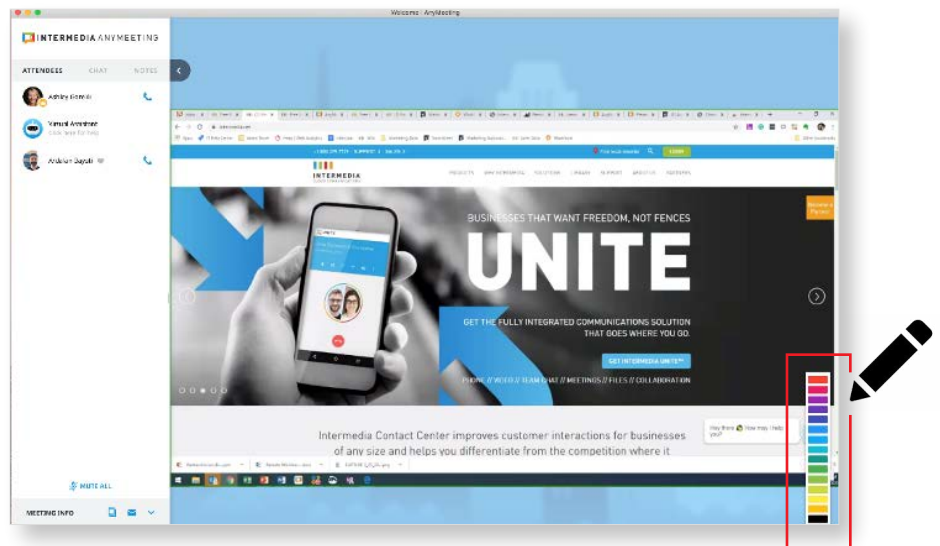

- As a host, you can leave the meeting and leave it running for others. Keep in mind, meetings without a host will automatically end after 20 minutes
- Also as a host, you can end the meeting, disconnecting everyone. This will allow the meeting to process meeting notes, recordings, transcriptions and others

Share your screen

- Click 
- Choose what you'd like to share. (Power Point, Video, Webpage etc.)
- A widget will appear at the top of your screen to stop screen sharing

Annotation Tools (Available on Desktop App only)

When you're sharing your screen from the AnyMeeting Desktop App, your attendees will be able to draw on your screen, as will you. Attendees are presented with a Pen button in the lower right corner of the screen:

Annotations will disappear after 3 seconds.

If you'd like to retain the drawings, simply record your meeting so you can review the annotations later. You can also give remote control, and work together with one of your attendees in a drawing application that offers robust drawing capabilities.

Remote Control (Available on Desktop App only)

Collaborate directly on items you're sharing by giving your participants direct control of your keyboard and mouse.

To give an attendee remote control:

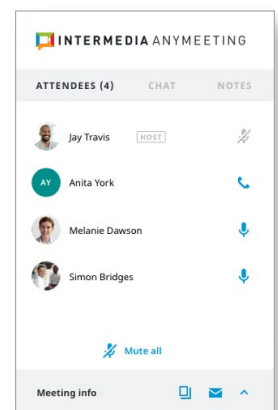

- From the attendee menu, click on an attendee and select "Give Remote Control"
- Or click on the "Give Remote Control" button in the middle of your screen sharing control screen and select an attendee from the pop-up list
- This will enable the other attendee to control your mouse and keyboard

Left Panel

The left part of the screen gives you access to the following features:

Attendee list:

- See who has joined your meeting and how their audio is connected to the meeting
- See if anyone is having networking issues (the main cause of poor-quality experiences)
- Mute individual attendees if they're making noise
- Hosts can mute all attendees at once. For privacy reasons, Attendees will need to unmute themselves
- Phone attendees can press *6 to unmute
- All attendees have the ability to mute/unmute themselves

DID YOU KNOW?

In the case of loud noise and echoes on your meeting, the easiest thing to do is:

Click "MUTE ALL"

The left panel can be hidden or brought back by clicking the < arrow

Meeting info:

- Quick access to your meeting URL and dial in information, in case you or any of your attendees need to invite others to your meeting

Chat:

- Exchange messages with all attendees, links and emojis during your meeting
- Typing indicator lets you know if other meeting attendees are typing

Notes:

- Host and attendees can capture meeting notes (like action items, next steps, and more) in real-time during the meeting
- At the end of the meeting, all notes are automatically sent to all attendees via email

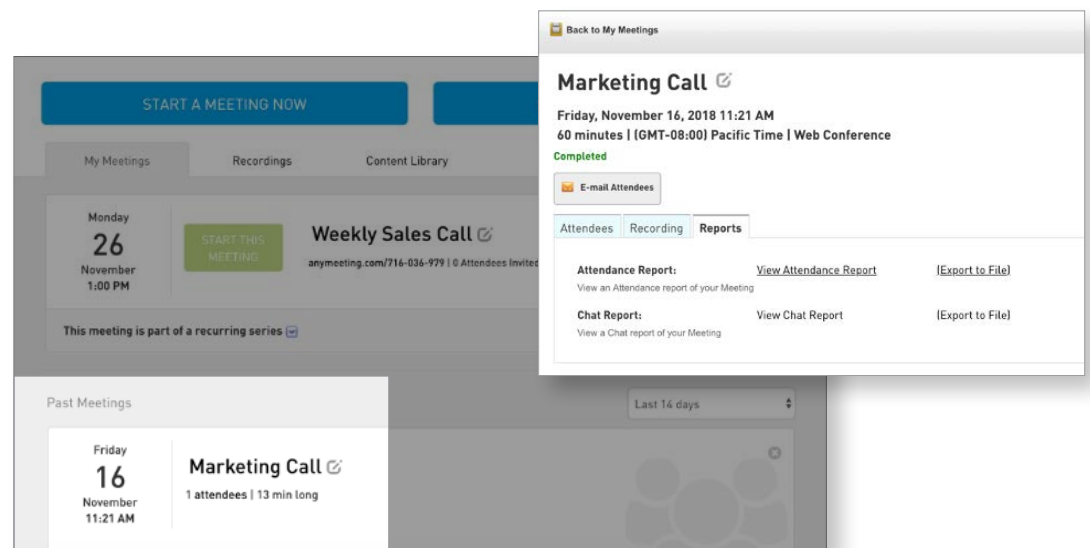

AFTER THE MEETING

Meeting Reports

Meeting reports enable you to see who attended past meetings as well as chat history for every meeting.

To view these reports:

- Under Past Meetings, click on the Meeting Title of a past meeting
- Under the Reports tab, click to view individual reports to export files

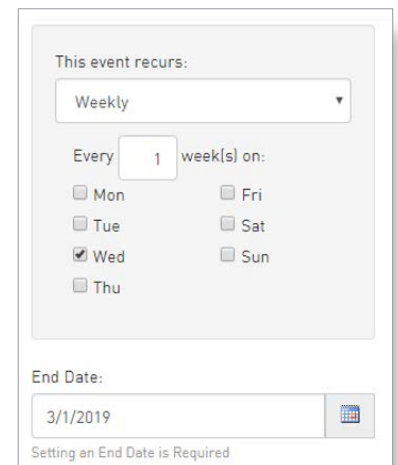

Advanced Scheduling using Meeting Dashboard

While most users won't need to use the Meeting Dashboard for these features, they are available.

Schedule a reoccurring Meeting

Follow the same steps as above, and:

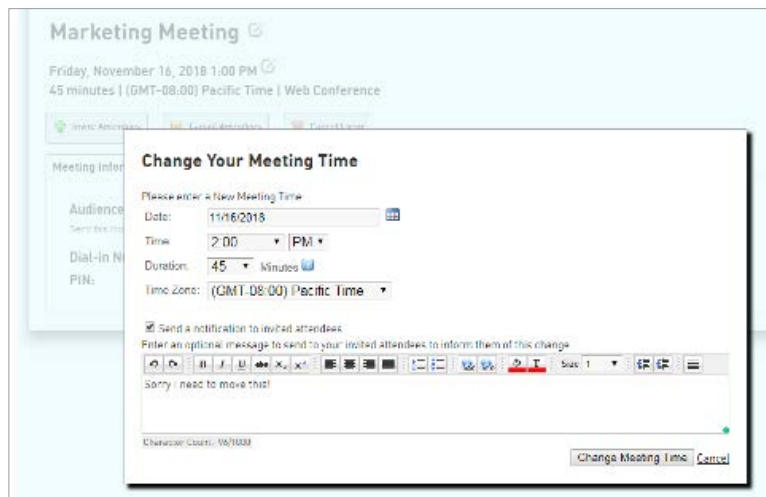

- Check This is a recurring event
- Include recurring details (daily, weekly, monthly)
- Set an end date (this is required)

The screenshot shows the 'This event recurs:' section of the meeting scheduling form. A dropdown menu is set to 'Weekly'. Below it, the text reads 'Every 1 week(s) on:'. There are checkboxes for each day of the week: Mon, Tue, Wed, Thu, Fri, Sat, and Sun. The 'Wed' checkbox is checked. Below this section, there is an 'End Date:' field with the date '3/1/2019' entered and a calendar icon to its right. At the bottom, a note states 'Setting an End Date is Required'.

To Edit a Scheduled Meeting

- Go to the My Meetings tab on your Account Profile
- Click the Meeting Title
- Click  next to the Meeting Title to update the title
- Click  next to the date and time to update meeting details
- Update the meeting details (feel free to include a message to attendees here)
- Click Change Meeting Time on the bottom right

To Start a Scheduled Meeting

All scheduled meetings will show on your account profile page under the My Meetings tab. You can launch a scheduled meeting up to one hour before the scheduled meeting times.

To start a meeting in the AnyMeeting desktop:

- Click 
- Choose an audio source for the meeting:
 - **Computer:** Use computer microphone/speakers to connect. If you have poor WiFi connection, we recommend that you use a phone to dial into the meeting to avoid any interruptions
 - **Phone:** AnyMeeting will provide you with a US toll conference bridge to dial into your meeting
- To make a change to your audio source during the meeting, click  in the top navigation to access the Audio & Video options

To start a meeting from your Outlook calendar:

- Open your calendar invite
- Click the "Join Meeting Now" link in the body of your email

ANYMEETING MOBILE

Download the AnyMeeting mobile app for a truly on-the-go experience.

AnyMeeting Mobile features include:

- High quality video conferencing
- High quality audio, through phone or Bluetooth
- Attendee list

Join a mobile meeting

- Enter the meeting code, full name, and email address
- Click 

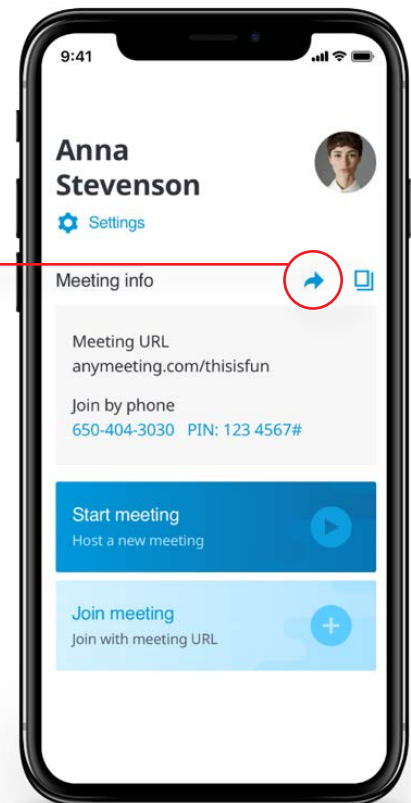

Click this arrow to invite and share meeting details from your mobile device

Launch a mobile meeting

Once logged into the AnyMeeting app, you will see:

- Meeting URL and dial-in information
- Start A Meeting button
- Join Meeting button

To launch a meeting, click “Start meeting”

In Your Mobile Meeting

Once launched, you will see videos of current participants sharing their camera, or screen sharing if available. You can swipe between video conferencing, screen sharing and attendee list as needed.

Controls

Once launched, you will see videos of current participants sharing their camera, or screen sharing if available. You can swipe between video conferencing, screen sharing and attendee list as needed.

- **Mute/Unmute Mic** – toggle your microphone to be heard in the meeting
- **Mute/Unmute Webcam** – turn your camera on/off in the meeting
- **Swipe** – use a swiping gesture switch screens
- **Audio output** – select what audio device you'd like to use.
- **Leave** – Leave or end this meeting.

Exit Meeting

Click Leave located on the top left of your Meeting Info. You will have two options to leave the meeting.
