

Miele
IMMER BESSER

Introducing The New G 6000 Futura Series Dishwashers

Dare to wash differently.

Immer Besser
(forever better)

Our Pledge —

When our two great-grandfathers were in the process of founding the Miele company, they had to make sure they stood apart from the competition in order to be successful. There are effectively only two ways of doing this: either by being cheaper than the rest or by being better than the rest. It is not really possible to be both at the same time.

They decided to be “better” than the rest.

Numerous best in class awards and certificates attest to the fact that Miele has continued to renew its commitment to being “Immer Besser” throughout the past 116 years. However, the millions of satisfied customers around the world are perhaps the most important endorsement.

At the heart of this success lies a continuity of values and goals which are typically only found in companies which have been family-run for generations, rather than in businesses which are guided by the often short-term interests of the stock market.

It is in this sense that Miele has embodied first-class product quality and German engineering since 1899. Miele also stands in equal measure for respect, fairness and mutual esteem towards sales partners, customers, suppliers, employees and neighbors. Buying a Miele is an environmentally friendly decision. We ensure this by using methods of production that save resources as well by producing products which set new standards in terms of their consumption of electricity, water and detergent — and save you money at the same time.*

As directors and co-proprietors of the fourth generation of our business we promise you that this will not change.

Over 85 Years of Constant Evolution

A Miele dishwasher is a commitment to brand performance, durability and longevity — a standard of the highest quality.

From innovative cutlery trays to specialized wash programs, your dishware will be immaculately cleaned and spotlessly dried. Through purposeful innovation and deliberate design, Miele dishwashers offer intuitive solutions for real-world cleaning challenges. And simply stated, there is no dishwasher quieter in America.

Miele's Generation 6000 dishwashers are characterized by superior cleaning performance, excellent flexibility and cutting-edge technology... achieving flawless results every time.

The new generation of Miele Futura Series dishwashers offers a perfect solution for every kitchen environment and meets the highest demands in terms of design and functionality. Together with the new Generation 6000 cooking appliances, they create a harmonious appearance.

The Handleless Kitchen

Hands down, Miele dishwashers are known worldwide for quietness, excellent cleaning results and innovations that excite. We carry that philosophy over with the new Generation 6000 Futura Series, and yet we went even further to outperform the industry.

We created the perfect (and only!) solution for the handleless kitchen with our Knock2open dishwashers. Seamless integration behind handleless cabinetry, it's the ultimate luxury in modern kitchen design.

It's the details that define and differentiate a Miele dishwasher.

Knock2open* (K2o)

Unique — the dishwasher can be perfectly integrated into handleless kitchens. By tapping the front of the door twice, it will open automatically. A convenience you will enjoy every day.

Time Control*

Four LEDs inform consumers of the program time still remaining. One hour before the end of the program, the LEDs start switching off individually from left to right at intervals of 20 minutes. Ideal for all installation situations, even for raised machines or kitchens with a flush base.

Touch on Metal*

Combining a high-quality flush design with an intuitive navigation interface, the embossed controls of the stainless steel fascia panel are easy to use and the settings are displayed by an LED indicator. The smooth surface of the elegant control panel is particularly easy to clean.

*Available on select models

Generation 6000 Dishwasher Product Assortment

Colors and integration options

Pre-Finished Models

Pre-finished models are complete with control and door panel. Generally, these models are available in white, black or Clean Touch Steel™.

Integrated (“i”) Models

Integrated dishwashers have a visible control panel and are designed to fit with a custom door panel that reflects the cabinetry decor of your kitchen.

Fully Integrated (“Vi”) Models

These units can either disappear into your cabinetry by adding a custom front panel or stand out as a robust appliance with a full Clean Touch Steel™ panel. The elegant stainless steel control panel is integrated on top of the door and is only visible when the door is ajar.

Fully Integrated (“SF”) Pre-Finished Models

For convenience, Miele offers fully integrated, pre-finished models that are already equipped with a Clean Touch Steel™ door panel, a 4-inch toe-kick and straight door handle.

Fully Integrated Control Panel

Highlights

3D Cutlery Tray*

Miele's 3D cutlery tray — an innovation from the inventor of the category — provides a new level of convenience that adapts instantly to accommodate larger utensils, as well as taller stemware.

BrilliantLight*

Four powerful LEDs immerse the entire dishwasher interior with light for easy loading and unloading.

*Available on select models

Perfect GlassCare*

Miele's intelligent Perfect GlassCare system constantly monitors the rinse water's mineral content, while other sensors check temperature, cycle intensity and even air flow — ensuring optimal performance and consistent results with each use.

Miele is the only dishwasher recommended by legendary stemware company Riedel. Handled properly, Riedel glasses can last up to 1,500 washing cycles or an average of 20 years.

Seamless Integration

Featuring all the design elements to match your Range, the Range dishwasher panel fits all fully integrated full-size dishwashers from the Miele line-up.

Seamless Integration
