Who We Are

- MSU = large research university
- Cataloging - 23 FTE (mix of support staff & librarians)
- Catalog c. 40,000 titles (68% copy)
- Variety of formats & languages
- Mainly use SkyRiver for cataloging
- But share catalog with 2 other libraries who use OCLC

છ

છSurprise! There are RDA records already in y(our) catalog!

છAt first, our loader stripped out the new 3XX fields in bib & authority records

છSome catalogers were editing out 3XX fields

છRealize we need policy/procedure for copy cataloging – How to evaluate RDA records?

છRealize we need to examine catalog display issues

RDA Records in our Catalog

440 RDA records now in our catalog

- 425 print books; 9 electronic resources (6 e-books, 3 e-serials); 2 print maps; 2 music CDs; 1 video; 1 music score

92 hybrid records (labeled RDA, but lack 3XX fields OR have 3XX fields, but lack RDA label)

System Configuration

ભ

ભ Free service commitment from III incorporates all changes from MARC Updates #9-12 into our ILS

   ৩ Updates load tables to not exclude new fields

   ৩ Updates MARC validity tables and special field tables to validate the new fields

   ৩ Includes MARC changes not related to RDA, too!

Workflow Decisions

Workflow Decisions

- Should we accept records as-is or edit RDA records (or hybrid A2/RDA records) in copy cataloging or vendor-supplied workflows?
- Should RDA records be a special workflow?
- How much training is needed before January 2013?
- When do we take the plunge into doing original RDA cataloging?
- Who will be the point person for RDA questions?

Recognizing RDA

Recognizing RDA
RDA is:

❦Based on Functional Requirements for Bibliographic Records (FRBR), a conceptual model developed by IFLA

❦Focused on guidelines on how to record data that reflects attributes and relationships defined by FRBR & FRAD

❦User focused on helping users to find, identify, select, and obtain

❦MARC21 is just one schema that could be used to record RDA records

❦RDA documentation is comprised of 10 sections not divided by formats

Leader/18 – Descriptive Cataloging Form

- 'a' indicated AACR2 was used
- 'i' indicates ISBD punctuation included
- '#' can also be used if library chooses not to use ISBD
- 'c' indicates ISBD used except at the ends of subfields

Statement of Responsibility & the Death of the Rule of Three

❧ RDA does not have an equivalent to AACR2's rule of three
❧ However, RDA has an optional omission (RDA 2.4.1.5)
❧ Noun phrase in conjunction with SOR is transcribed (RDA 2.4.1.8)
❧ International scope of RDA = no longer record 260|a as nearest geographically to cataloging library. Cataloger's judgment - can record first listed or all present (RDA 2.7.2.4)

Bracketing

 Bracketing is primarily used when taken from outside the source (RDA 2.2.4).

 Each element is individually bracketed

t	245	1 0	City of Detroit Recreation Department property map.
