INTRODUCTION TO INFORMATION SYSTEMS

Sixteenth Edition

GEORGE M. MARAKAS
KU School of Business
University of Kansas

JAMES A. O'BRIEN
College of Business Administration
Northern Arizona University

McGraw-Hill Irwin

contents

module I
Foundation Concepts

chapter 1

Foundations of Information Systems in Business 2

FOUNDATION CONCEPTS: INFORMATION SYSTEMS IN BUSINESS 3

The Real World of Information Systems 3

REAL WORLD CHALLENGE: Modernizing Legacy Systems at Crescent Healthcare Inc. 4

What Is an Information System? 6

The Fundamental Roles of IS in Business 7

Trends in Information Systems 9

The Role of e-Business in Business 11

Types of Information Systems 12

Operations Support Systems 12

Management Support Systems 14

Other Classifications of Information Systems 15

Managerial Challenges of Information Technology 16

Success and Failure with IT 17

Developing IS Solutions 18

Challenges and Ethics of IT 19

Challenges of IT and IS Careers 20

The IS Function 23

FOUNDATION CONCEPTS: THE COMPONENTS OF INFORMATION SYSTEMS 25

System Concepts: The Foundation for Business Processes 25

What Is a System? 25

Feedback and Control 26

Other System Characteristics 26

Components of Information Systems 28

Information System Resources 29

People Resources 29

Hardware Resources 30

Software Resources 31

Data Resources 31

Network Resources 33

Information System Activities 33

Input of Data Resources 33

Processing of Data into Information 33

Output of Information Products 34

Storage of Data Resources 34

Control of System Performance 34

Recognizing Information Systems 34

REAL WORLD SOLUTION: Crescent Healthcare Inc.: From Green Screens to Online Access 35

REAL WORLD CASE 1: eCourier, Cablecom, and Bryan Cave: Delivering Value through Business Intelligence 42

REAL WORLD CASE 2: *The New York Times* and Boston Scientific: Two Different Ways of Innovating with Information Technology 45

chapter 2

Competing with Information Technology 48

FUNDAMENTALS OF STRATEGIC ADVANTAGE 49

Strategic IT 49

Competitive Strategy Concepts 49

Competitive Forces and Strategies 49

REAL WORLD CHALLENGE: CenterPoint Properties—Creating a New Company for a New Business 50

Strategic Uses of Information Technology 53

Other Strategic Initiatives 53

Building a Customer-Focused Business 57

The Value Chain and Strategic IS 59

Value Chain Examples 60

USING INFORMATION TECHNOLOGY FOR STRATEGIC ADVANTAGE 61
Strategic Uses of IT 61
Reengineering Business Processes 61
The Role of Information Technology 62
Becoming an Agile Company 64
Creating a Virtual Company 65
Virtual Company Strategies 65
Building a Knowledge-Creating Company 67
Knowledge Management Systems 67
REAL WORLD SOLUTION: CenterPoint Properties—Reinventing a Company with the Help of IT 69
REAL WORLD CASE 1: How to Win Friends and Influence Business People: Quantify IT Risks and Value 76
REAL WORLD CASE 2: For Companies Both Big and Small: Running a Business on Smartphones 79

module II
Information Technologies

chapter 3

Computer Hardware 82
COMPUTER SYSTEMS: END USER AND ENTERPRISE COMPUTING 83
Introduction 83
A Brief History of Computer Hardware 83
REAL WORLD CASE 1: Budway Enterprises Inc.—Looking for a Low-Cost, High-Return Alternative to Paper 84
Types of Computer Systems 87
Microcomputer Systems 88
Computer Terminals 90
Network Computers 91
Information Appliances 91
Midrange, Mainframe, and Supercomputer Systems 92
The Next Wave of Computing 95
Technical Note: The Computer System Concept 96
Computer Processing Speeds 97
Moore's Law: Where Do We Go from Here 98
COMPUTER PERIPHERALS: INPUT, OUTPUT, AND STORAGE TECHNOLOGIES 100
Peripherals 100
Input Technologies 100
Speech Recognition Systems 103
Optical Scanning 105
Other Input Technologies 107
Output Technologies 107
Video Output 108
Printed Output 108
Storage Trade-Offs 109
Computer Storage Fundamentals 110
Direct and Sequential Access 111
Semiconductor Memory 112
ReadyBoost 113
Solid-State Drive 113
Magnetic Disks 114
RAID Storage 114
Magnetic Tape 115
Optical Disks 116
Radio Frequency Identification 117
RFID Privacy Issues 118
Predictions for the Future 120
REAL WORLD SOLUTION: Budway Enterprises Inc.—Custom Technology with Standard Components 122
REAL WORLD CASE 1: AstraZeneca, United Health, and Others: IT Asset Management—Do You Know What You've Got? 128
REAL WORLD CASE 2: IT in Health Care: Voice Recognition Tools Make Rounds at Hospitals 131

chapter 4

Computer Software 134
APPLICATION SOFTWARE: END-USER APPLICATIONS 135
Introduction to Software 135
What Is Software? 135
Types of Software 135
Application Software for End Users 135
REAL WORLD CHALLENGE: Japan Post Network—from Government Entity to Private Company 136

Business Application Software 139
Software Suites and Integrated Packages 140
Web Browsers and More 141
Electronic Mail, Instant Messaging, and Blogs 142
Word Processing and Desktop Publishing 144
Spreadsheets 145
Presentation Graphics 146
Personal Information Managers 147
Groupware 147
Software Alternatives 148
Application Service Providers 149
Cloud Computing 150
Software Licensing 152

SYSTEM SOFTWARE: COMPUTER SYSTEM MANAGEMENT 153
System Software Overview 153
Overview 153
Operating Systems 153
Operating System Functions 154
Microsoft Windows 155
UNIX 157
Linux 157
Open-Source Software 157
OpenOffice.org 3 159
Mac OS X 159
Application Virtualization 159
Other System Management Programs 161
Programming Languages 162
Machine Languages 162
Assembler Languages 162
High-Level Languages 163
Fourth-Generation Languages 163
Object-Oriented Languages 165
Web and Internet Languages and Services 166
HTML 166
XML 167
Java and.NET 169
Web Services 170
Programming Software 172
Language Translator Programs 172
Programming Tools 173

REAL WORLD SOLUTION: Japan Post Network—Savings and Competitive Advantage with Software as a Service 174
REAL WORLD CASE 1: GE, H.B. Fuller Co., and Others: Successful Implementations of Software as a Service 181
REAL WORLD CASE 2: U.S. Department of Defense: Enlisting Open-Source Applications 183

chapter 5

Data Resource Management 185

TECHNICAL FOUNDATIONS OF DATABASE MANAGEMENT 186
Database Management System 186
Fundamental Data Concepts 186
Character 186
Field 186
REAL WORLD CHALLENGE: U.S. Xpress—Lots of Data, Not Enough Quality 187
Record 189
File 189
Database 190
Database Structures 191
Hierarchical Structure 191
Network Structure 191
Relational Structure 192
Relational Operations 193
Multidimensional Structure 194
Object-Oriented Structure 194
Evaluation of Database Structures 195
Database Development 197
Data Planning and Database Design 199

MANAGING DATA RESOURCES 203
Data Resource Management 203
Types of Databases 203
Operational Databases 203
Distributed Databases 204
External Databases 205
Hypermedia Databases 205
Data Warehouses and Data Mining 207
Data Mining 208
Traditional File Processing 210
Problems of File Processing 210

The Database Management Approach 213
Database Management System 213
Database Interrogation 215
Database Maintenance 217
Application Development 217
REAL WORLD SOLUTION: U.S. Xpress—Data Quality Drives Millions in Savings 218
REAL WORLD CASE 1: Beyond Street Smarts: Data-Driven Crime Fighting 225
REAL WORLD CASE 2: Duke University Health System, Beth Israel Deaconess Medical Center, and Others: Medical IT Is Getting Personal 227

chapter 6

Telecommunications and Networks 230
THE NETWORKED ENTERPRISE 231
Networking the Organization 231
The Concept of a Network 231
REAL WORLD CHALLENGE: Adena Health System and Cherokee Health Systems—The Challenge of Medicine in the Rural United States 232
Metcalfe's Law 234
Trends in Telecommunications 234
Industry Trends 234
Technology Trends 234
Business Application Trends 236
Internet2 236
The Business Value of Telecommunications Networks 237
The Internet Revolution 238
Internet Service Providers 239
Internet Applications 239
Business Use of the Internet 241
The Business Value of the Internet 241
The Role of Intranets 242
The Business Value of Intranets 243
The Role of Extranets 245
TELECOMMUNICATIONS NETWORK ALTERNATIVES 248
Telecommunications Alternatives 248
A Telecommunications Network Model 248
Types of Telecommunications Networks 249
Wide Area Networks 249
Metropolitan Area Network 250
Local Area Networks 250
Virtual Private Networks 251
Client/Server Networks 253
Network Computing 253
Peer-to-Peer Networks 254
Digital and Analog Signals 256
Telecommunications Media 256
Wired Technologies 257
Twisted-Pair Wire 257
Coaxial Cable 257
Fiber Optics 257
The Problem of "The Last Mile" 258
Wireless Technologies 258
Terrestrial Microwave 259
Communications Satelites 259
Cellular and PCS Systems 260
Wireless LANs 260
Bluetooth 261
The Wireless Web 261
Telecommunications Processors 262
Modems 263
Inter-Network Processors 263
Multiplexers 264
Telecommunications Software 264
Network Management 265
Network Topologies 266
Network Architectures and Protocols 267
Protocols 267
Network Architectures 267
The OSI Model 267
The Internet's TCP/IP 269
Voice over IP 270
Bandwidth Alternatives 272
Switching Alternatives 272
Network Interoperability 273
REAL WORLD SOLUTION: Adena Health System and Cherokee Health Systems—Reaching Far Away with the Help of Technology 274
REAL WORLD CASE 1: DLA Piper, PepsiCo, and Others: Telepresence Is Finally Coming of Age 281
REAL WORLD CASE 2: Brain Saving Technologies, Inc. and the T-Health Institute: Medicine through Videoconferencing 283

module III
e-Business Applications

chapter 7

e-Business Systems 286
e-BUSINESS SYSTEMS 287
Introduction 287
Cross-Functional Enterprise Applications 287
REAL WORLD CHALLENGE: Qualcomm—Silos, Silos, Everywhere 288
Enterprise Application Architecture 290
Enterprise Application Integration 291
Transaction Processing Systems 293
The Transaction Processing Cycle 295
Enterprise Collaboration Systems 296
Tools for Enterprise Collaboration 296
FUNCTIONAL BUSINESS SYSTEMS 299
Introduction 299
IT in Business 299
Marketing Systems 300
Interactive Marketing 301
Targeted Marketing 301
Sales Force Automation 302
Manufacturing Systems 304
Computer-Integrated Manufacturing 304
Human Resource Systems 306
HRM and the Internet 306
HRM and Corporate Intranets 307
Accounting Systems 308
Online Accounting Systems 310
Financial Management Systems 310
REAL WORD SOLUTION: Qualcomm—Breaking Down Silos and Integrating Applications 312
REAL WORLD CASE 1: Toyota Europe, Campbell Soup Company, Sony Pictures, and W.W. Grainger: Making the Case for Enterprise Architects 319
REAL WORLD CASE 2: Nationwide Insurance: Unified Financial Reporting and "One Version of the Truth" 321

chapter 8

Business across the Enterprise 324
GETTING ALL THE GEESE LINED UP: MANAGING AT THE ENTERPRISE LEVEL 325
Introduction 325
CUSTOMER RELATIONSHIP MANAGEMENT: THE BUSINESS FOCUS 326
Introduction 326
What is CRM 326
Contact and Account Management 326
Sales 326
REAL WORLD CHALLENGE: Jelly Belly Candy Company—Getting Your Arms Around Sales 327
Marketing and Fulfillment 329
Customer Service and Support 329
Retention and Loyalty Programs 330
The Three Phases of CRM 331
Benefits and Challenges of CRM 332
CRM Failures 333
Trends in CRM 334
ENTERPRISE RESOURCE PLANNING: THE BUSINESS BACKBONE 337
Introduction 337
What Is ERP? 337
Benefits and Challenges of ERP 339
The Costs of ERP 339
Causes of ERP Failures 341
Trends in ERP 342
SUPPLY CHAIN MANAGEMENT: THE BUSINESS NETWORK 345
Introduction 345
What is SCM 345
Electronic Data Interchange 347
The Role of SCM 349
Benefits and Challenges of SCM 351
Trends in SCM 354
REAL WORLD SOLUTION: Jelly Belly Candy Company—Competing with CRM 356
REAL WORLD CASE 1: Kennametal, Haworth, Dana Holding, and Others: ERPs Get a Second Lease on Life 362

REAL WORLD CASE 2: Cisco Systems, Black & Decker, and O'Reilly Auto Parts: Adapting Supply Chains to Tough Times 364

chapter 9

e-Commerce Systems 367

e-COMMERCE FUNDAMENTALS 368

Introduction to e-Commerce 368

The Scope of e-Commerce 368

e-Commerce Technologies 368

REAL WORLD CHALLENGE: Ticketmaster—New Clients, New Outlets, New Needs 369

Categories of e-Commerce 372

Essential e-Commerce Processes 373

Access Control and Security 374

Profiling and Personalizing 374

Search Management 374

Content and Catalog Management 374

Workflow Management 376

Event Notification 377

Collaboration and Trading 378

Electronic Payment Processes 378

Web Payment Processes 378

Electronic Funds Transfer 379

Secure Electronic Payments 379

e-COMMERCE APPLICATIONS AND ISSUES 381

e-Commerce Trends 381

Business-to-Consumer e-Commerce 382

e-Commerce Success Factors 382

Web Store Requirements 386

Getting Customers to Find You 387

Serving Your Customers 388

Managing a Web Store 389

Business-to-Business e-Commerce 390

e-Commerce Marketplaces 391

Clicks and Bricks in e-Commerce 393

e-Commerce Integration 394

Other Clicks-and-Bricks Strategies 396

e-Commerce Channel Choices 396

REAL WORLD SOLUTION: Ticketmaster—Changing the Way Tickets Are Sold 398

REAL WORLD CASE 1: Sony, 1-800-Flowers, Starbucks, and Others: Social Networks, Mobile Phones, and the Future of Shopping 405

REAL WORLD CASE 2: Linked In, Umbria, Mattel, and Others: Driving the "Buzz" on the Web 408

chapter 10

Supporting Decision Making 411

SUPPORTING DECISION MAKING 412

Introduction 412

Information, Decisions, and Management 412

Information Quality 412

REAL WORLD CHALLENGE: Deutsche Post DHL—The Challenges of Creating and Managing a Global Brand 413

Decision Structure 415

Decision Support Trends 417

Decision Support Systems 420

Example 420

DSS Components 420

Management Information Systems 422

Management Reporting Alternatives 423

Online Analytical Processing 423

OLAP Examples 425

Geographic Information and Data Visualization Systems 428

Using Decision Support Systems 430

What-If Analysis 431

Sensitivity Analysis 431

Goal-Seeking Analysis 432

Optimization Analysis 432

Data Mining for Decision Support 433

Executive Information Systems 436

Features of an EIS 436

Enterprise Portals and Decision Support 438

Enterprise Information Portals 438

Knowledge Management Systems 440

ADVANCED TECHNOLOGIES FOR DECISION SUPPORT 442

Business and AI 442

An Overview of Artificial Intelligence 442

The Domains of Artificial Intelligence 444

Expert Systems 447
Components of an Expert System 447
Expert System Applications 448
Benefits of Expert Systems 449
Limitations of Expert Systems 449
Developing Expert Systems 451
Knowledge Engineering 452
Neural Networks 452
Fuzzy Logic Systems 454
Fuzzy Logic in Business 455
Genetic Algorithms 455
Virtual Reality 456
VR Applications 458
Intelligent Agents 459
REAL WORLD SOLUTION: Deutsche Post DHL—Decision Support for Local Brand Investments 462
REAL WORLD CASE 1: Valero Energy, Elkay Manufacturing, J&J, and Overstock.com: The Move Toward Fact-Based Decision Making 469
REAL WORLD CASE 2: Kimberly-Clark Corp.: Shopping for Virtual Products in Virtual Stores 472

module IV
Development Processes

chapter 11

Business/IT Strategies for Development 476
IT PLANNING FUNDAMENTALS 477
Introduction 477
Organizational Planning 477
The Scenario Approach 477
REAL WORLD CHALLENGE: Sloan Valve Company—ERP, Business Processes, and the Need to Change 478
Planning for Competitive Advantage 483
SWOT Analysis 484
Business Models and Planning 485
Business/IT Architecture Planning 488
Information Technology Architecture 488
Balanced Scorecard 489
Identifying Business/IT Strategies 490
Business Application Planning 492
Business/IT Architecture Planning 493
IMPLEMENTATION CHALLENGES 496
Implementation 496
Implementing Information Technology 496
End-User Resistance and Involvement 497
Change Management 499
A Change Management Process 501
REAL WORLD SOLUTION: Sloan Valve Company—IT and the Redesign of the New Product Development Process 505
REAL WORLD CASE 1: IT Leaders: IT/Business Alignment Takes on a Whole New Meaning 511
REAL WORLD CASE 2: Centene, Flowserve, and Shaw Industries: Relationships, Collaboration, and Project Success 514

chapter 12

Developing Business/IT Solutions 517
DEVELOPING BUSINESS SYSTEMS 518
IS Development 518
The Systems Approach 518
Systems Thinking 518
REAL WORLD CHALLENGE: Starwood Hotels and Resorts—Success and Growth Bring on IT Challenges 519
Systems Analysis and Design 521
The Systems Development Life Cycle 521
Starting the Systems Development Process 521
Feasibility Studies 522
Operational Feasibility 523
Economic Feasibility 523
Technical Feasibility 524
Human Factors Feasibility 525
Legal/Political Feasibility 525
Systems Analysis 526
Organizational Analysis 526
Analysis of the Present System 526
Logical Analysis 527
Functional Requirements Analysis and Determination 528

Systems Design 528
Prototyping 529
The Prototyping Process 530
User Interface Design 531
System Specifications 533
End-User Development 533
Focus on IS Activities 534
Doing End-User Development 535
Technical Note: Overview of Object-Oriented Analysis and Design 537

IMPLEMENTING STRATEGIC BUSINESS SYSTEMS 539
The World of Systems Implementation 539
Implementing New Systems 539
Project Management 541
What Is a Project? 541
The Process of Project Management 541
Evaluating Hardware, Software, and Services 543
Hardware Evaluation Factors 544
Software Evaluation Factors 546
Evaluating IS Services 547
Other Implementation Activities 547
Testing 547
Data Conversion 548
Documentation 549
Training 549
System Conversion Strategies 550
Direct Conversion 551
Parallel Conversion 551
Pilot Conversion 551
Phased Conversion 552
Postimplementation Activities 552
Systems Maintenance 552
Postimplementation Review 553
REAL WORLD SOLUTION: Starwood Hotels and Resorts—Toward a Completely New Intrastructure 554
REAL WORLD CASE 1: Microsoft, SiCortex, and Others: How Virtualization Helps Software Developers 561
REAL WORLD CASE 2: JetBlue Airways, West Jet Airlines, and Others: The Difficult Path to Software Upgrades 563

module V
Management Challenges

chapter 13

Security and Ethical Challenges 566

SECURITY, ETHICAL, AND SOCIETAL CHALLENGES OF IT 567
Introduction 567
The Nexus of IT, Ethics, Security, and Safety 567
Ethical Responsibility of Business Professionals 567
REAL WORLD CHALLENGE: Harland Clarke—Reinventing the Company, Reinventing Security 568
Business Ethics 570
Ethical Use of Technology 571
Ethical Guidelines 571
Computer Crime 573
Hacking and Cracking 575
Cyber-Theft 576
Cyberterrorism 577
Cyber-Warfare 577
Unauthorized Use at Work 579
Software Piracy 580
Theft of Intellectual Property 581
Computer Viruses and Worms 582
Adware and Spyware 585
Privacy Issues 586
Privacy on the Internet 587
Computer Matching 589
Privacy Laws 589
Computer Libel and Censorship 590
The Current State of Cyber Law 590
Other Challenges 591
Employment Challenges 591
Computer Monitoring 592
Challenges in Working Conditions 593
Challenges of Individuality 593
Health Issues 593
Ergonomics 594
Societal Solutions 594

SECURITY MANAGEMENT OF INFORMATION TECHNOLOGY 596
Introduction 596
Tools of Security Management 596
Inter-Networked Security Defenses 598
Encryption 598
Firewalls 599
Denial of Service Attacks 600
E-mail Monitoring 602
Viral Defenses 603
Other Security Measures 605
Security Codes 605
Backup Files 606
Security Monitors 606
Biometric Security 607
Computer Failure Controls 607
Fault-Tolerant Systems 608
Disaster Recovery 609
System Controls and Audits 609
Information System Controls 609
Auditing IT Security 610
REAL WORLD SOLUTION: Harland Clarke—Toward a Comprehensive Risk Management Program 613
REAL WORLD CASE 1: Texas Health Resources and Intel: Ethics, IT, and Compliance 620
REAL WORLD CASE 2: Wyoming Medical Center, Los Angeles County, and Raymond James: End-Point Security Gets Complicated 623

chapter 14

Enterprise and Global Management of Information Technology 626
MANAGING IT FOR THE ENTERPRISE 627
Business and IT 627
Managing Information Technology 627
REAL WORLD CHALLENGE: State Street Corporation—The Need to Reshape IT Infrastructure 628
Business/IT Planning 630
Information Technology Architecture 631
Managing the IT Function 632
Organizing IT 632
Managing Application Development 633
Managing IS Operations 633
IT Staff Planning 634
The CIO and Other IT Executives 635
Technology Management 636
Managing User Services 636
Outsourcing and Offshoring IT and IS 637
Outsourcing 637
Offshoring 638
Trends in Outsourcing and Offshoring 639
Failures in IT Management 640
Management Involvement 641
IT Governance 642
MANAGING GLOBAL IT 645
The International Dimension 645
Global IT Management 645
Cultural, Political, and Geoeconomic Challenges 646
Global Business/IT Strategies 648
Global Business/IT Applications 649
Global IT Platforms 651
The Internet as a Global IT Platform 652
Global Data Access Issues 654
Internet Access Issues 655
Global Systems Development 656
Systems Development Strategies 657
REAL WORLD SOLUTION: State Street Corporation—Changing the "Where, When and How" of IT 659
REAL WORLD CASE 1: Reinventing IT at BP 665
REAL WORLD CASE 2: Cadbury, Forrester Research, A.T. Kearney, and Others: IT Leaders Face New Challenges in a Globalized World 667

Review Quiz Answers 670
Selected References 673
Glossary for Business Professionals 679
Name Index 705
Company Index 709
Subject Index 713
