

INTERNATIONAL REGISTRATION PLAN, INC.

IRP Clearinghouse 5.0

Data Standardization Guidebook

RELEASE 1.1

June 2019

Introduction

The Data Standardization project improves the quality and consistency of Clearinghouse data so that jurisdictions have the necessary parameters to verify the accuracy of fees and to support the auditability of the Clearinghouse financial data.

This guidebook should be used as a tool for understanding and evaluating IRP Clearinghouse registration transactions and associated data in accordance with the Data Standardization project requirements. The Clearinghouse Data Standardization program went live in January 2018. As of July 2018, approximately ninety percent of jurisdictions are participating. Until a jurisdiction participates, their data will conform to specifications in place prior to the Data Standardization project.

Revision Log

| Revision# | Date | Change description |
|-----------|-----------|--|
| 1.0 | July 2018 | Initial Release |
| 1.1 | June 2019 | Added Fee Type 116 AZ Public Safety Fee and 119 VA Interstate 81 Corridor Improvement Fee (ICIF). |

1. STANDARD SUPPLEMENT TYPES

The following supplement types define the type of transaction and can be found on the Carrier and Fleet Information screen. The **Carrier and Fleet Information** screen lists all supplemental transactions for a particular account/fleet for a registration year. From this screen, the user can drill down into the details of the transactions to the vehicle level.

| Code | Description | Alone or Combined |
|------|--|---|
| | | |
| OR | Original Supplement for a new Carrier | |
| RE | Renewal for a new registration year | Must be used alone |
| AU | Audit transaction | Must be used alone |
| EC | Error Correction – Correct clerical errors made by jurisdiction staff or carrier | Must be used alone |
| AV | Add Vehicle | Can be combined with up to four other supplement types |
| DV | Delete Vehicle | Can be combined with up to four other supplement types |
| WC | Weight Change | Can be combined with up to four other supplement types. |
| VC | Vehicle Change – example, model year, vehicle price, fuel, etc. | Can be combined with up to four other supplement types. |
| TV | Transfer Vehicle/Transfer registration | Can be combined with up to four other supplement types. |
| MV | Move Vehicle between fleets | Can be combined with up to four other supplement types |

| Н | Hybrid | | | | | | | |
| L | Liquified Natural Gas | | | | | | | |
| Р | Propane | | | | | | | |
| 0 | Other | | | | | | | |

5. CANADIAN EXCHANGE RATE

The Canadian Exchange rate that is used for each month's registration activities is published by IRP, Inc. in the fourth week of the prior month. This is the approved Canadian Exchange Rate that must be used for all registrations during the period. You can find the rate for each month on <u>www.irponline.org</u>.

Additionally, there is a new field for "Invoice Date". The Canadian Exchange Rate should be matched to the invoice date. In other words, the month of the invoice dictates the Canadian Exchange rate that should be used to calculate the registration when applicable. The Canadian Exchange Rate is found on the **Carrier and Fleet Information** screen.

Note: It is important to note that not all Canadian jurisdictions use an exchange rate as they calculate the fees in US dollars and collect that amount (either in Canadian dollars using their own exchange rate, or in US dollars). For jurisdictions who handle the exchange rate in this way, you will see 1.000 in the Canadian Exchange Rate field.

9. GROSS VEHICLE WEIGHT/COMBINED GROSS VEHICLE WEIGHT

All weights will be shown in kilograms for Canadian jurisdictions and pounds for US jurisdictions on the **Vehicle Fee Details** screen and reports. The weight indicator is also found on the **Vehicle Fee Details** Screen. See screenshot, above.

10.NAVIGATION

There are several ways to get to a particular transaction in the database.

- From the **Pre-Netting Summary** screen, a base jurisdiction user can select a foreign jurisdiction and then a selected an account, fleet, and supplement.
- From the **Post-Netting Summary** screen, a base jurisdiction user can select a foreign jurisdiction and then an account, fleet, and supplement.
- Search for a recap by using the **RECAP** menu and selecting **RECAP INFORMATION**. Enter the registration year, account number, fleet number and supplement number.
- Search for a recap by using the *RECAP* menu and selecting *CARRIER AND FLEET* and enter the registration year, account number, and fleet number. Once on the *Carrier and Fleet Information* screen, select a supplement.
- Search for a VIN by using the *CARRIER* menu and selecting *SEARCH ON VIN*. Review search results and select a particular transaction based on registration date.
- Search for a carrier by name using the *CARRIER* menu and selecting *SEARCH ON CARRIER NAME*. Enter a carrier name as close as possible to the Carrier's legal name. Many results may be returned and you will need to review and narrow down a particular carrier registered in a particular jurisdiction. Review search results and select based on registration year and/or registration jurisdiction.
