

Dura-Bond

QUALITY SINCE 1947

TRANSMISSION BUSHINGS & TRANSMISSION BUSHING KITS

ISO 9001
CERTIFIED

Dura-Bond began manufacturing camshaft bearings in the spring of 1947 in a small former woodworking plant in Palo Alto, California's industrial section. Quite simply they began to fill a growing need in the aftermarket engine rebuilding sector. The staff quickly learned that when a mechanic replaced an old camshaft bearing, he hammered the new one into place – requiring force to square the end away. Oftentimes the hammering created nicks along the edge, resulting in a damaged bearing. Dura-Bond's idea was to make it a solid circle of metal, which inserted easily and fit perfectly. The "all-round" design of solid metal soon replaced the interlocking / puzzle piece design as an industry standard. The breakthrough meant no oil loss – no seepage from bearing onto shaft.

Today over 70 years later, Dura-Bond has grown into a sophisticated 85,000 square foot facility located in Carson City, NV. Its employees are among the most qualified engine / transmission rebuilding component technicians in the world. The most recent addition to our product mix has been the new "all-round / no-seam" transmission bushing. The same technology used in the manufacturing of our superior camshaft bearings is also used for our transmission bushing line which includes individual bushings and a full line of complete Premium and High-Performance kits, says President and Owner, Charles Barnett. Our customers depend on our quality and innovation, especially with the tolerance requirements of today's modern transmission. Dura-Bond's "all-round" one-piece steel backed or bronze bushings provide for a "no-walking" / splitting when installing and has assumed the enviable position of being the industry's standard against which all others are judged.

Francis R. Burke

Current production and distribution sources include a long list of distributors and transmission rebuilders, throughout America and abroad. According to Barnett, Dura-Bond Bearing Company strives to exceed the exceptional level of quality and service that the company has maintained during the last 70 years. "Our commitment to excellence and dedication continues to strengthen our customer relationships. These loyal customers are the reason we are still here, and the reason why we'll be around for another 70 years."

Dura-Bond prides itself with just-in-time delivery, quality - ISO 9001 certification, Oliver Wight Class "A" MRP II and engineering design and competitive pricing.

Charles Barnett

TIME TESTED...

QUALITY BUSHINGS SINCE 1947!

Dura-Bond

Since 1947

A TIME AND PLACE FOR EVERYTHING!

OEM and Yesterday's Aftermarket

CLINCH JOINT BUSHINGS

- Ideal for OE When Line Boring is Available
 - Wall tolerance of .0012
 - OD tolerance of .002

Aftermarket and Today's Needs for Improved Quality and Tolerances

FULL ROUND STEEL BACKED BUSHINGS

- Perfect for Aftermarket with No Line Boring Needed
- Centerless OD Ground
- Centerless ID Bored
 - Wall tolerance of .0005
 - OD tolerance of .001
- One Piece Steel Backed
 - No walking
 - No possible split when installing
 - Fluoropolymer coated – check for normal stock or special quote

"All USA Made – Dura-Bond Bearing Co. making bushings since 1947."

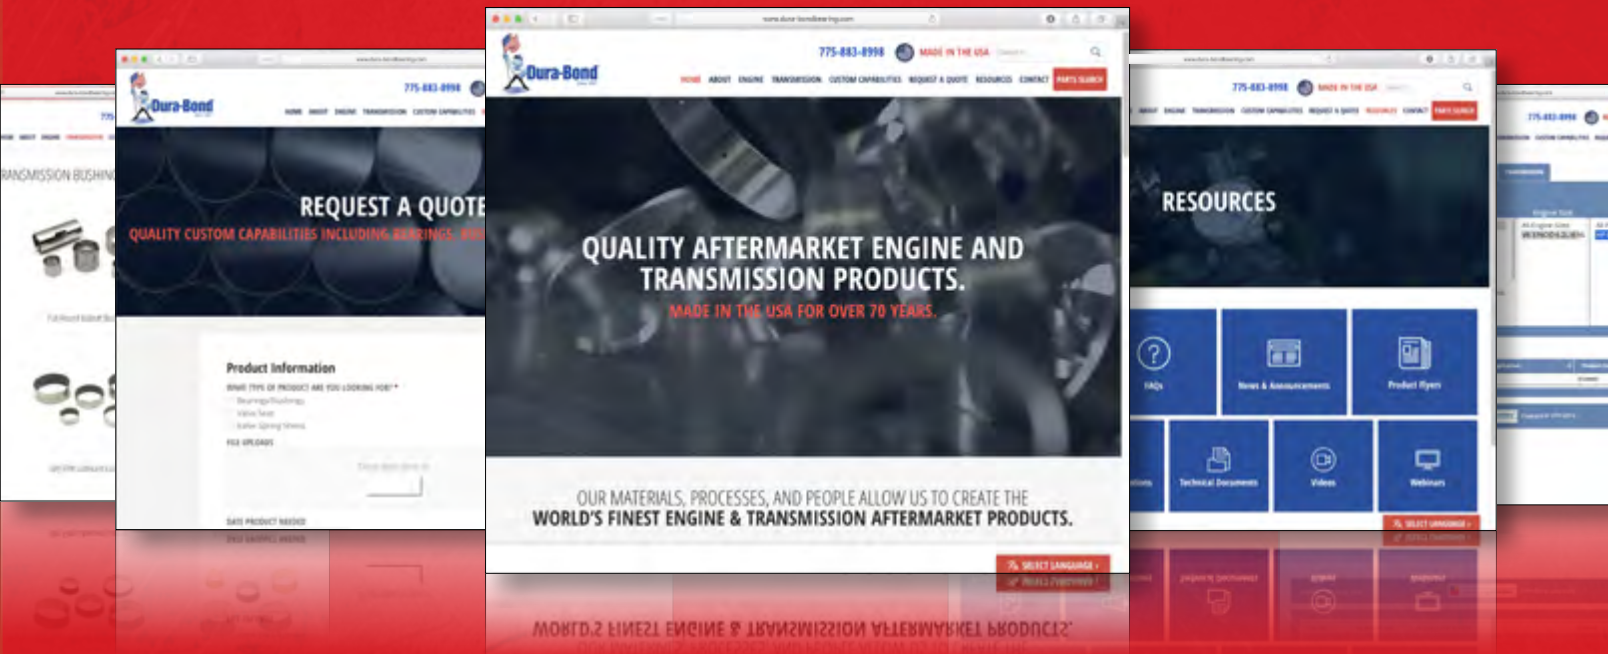

Innovations brought to you by **Dura-Bond**[®] – leading into the future.

Since 1947

Call one of our partners listed below for availability.

AFTER A YEAR IN THE MAKING, DURA-BOND IS PROUD TO ANNOUNCE THE RELEASE OF OUR NEW WEBSITE!

We have redesigned it with you in mind, streamlining menus, simplifying navigation, building a responsive layout for all platforms, viewed in any language and providing more resources and information on our products and services.

We encourage everyone to visit and explore the site, discovering the full spectrum of educational content, such as the latest Videos, Webinars, and Technical Support Documents. Download our most recent 2019 New Product Supplement, Part Guides, Catalogs, and Product Informational Flyers. Stay up-to-date with our currently trending News and Product Announcements.

We will continue to expand our resources and our website to deliver the most updated and relevant information for the Aftermarket. Don't forget to sign up to receive our quarterly newsletter.

On Our NEW Site You Will Also Discover:

- World's Finest Engine & Transmission Products
- The all New and Redesigned Part Search Lookup
- Request A Quote
- Frequently Asked Questions
- Distribution Centers, Sales Rep & Territory Listings
- Photo Gallery
- Credit Application
- Employment
- And So Much More . . .

Dura-Bond[®]
Since 1947

Dura-Bond®

Since 1947

PREMIUM FULL ROUND STEEL BACKED BUSHINGS

Dura-Bond bimetal bushings are constructed of seamless steel tube with a thin layer of SAE 13 babbitt material. Seamless construction makes installation easy, eliminating breakage and bearing surface interruptions.

SAE 13 babbitt provides ideal properties for nearly all transmission applications. Babbitt's superior embedability, conformability, and anti-seizure characteristics have proven to reduce transmission failures which harder bushing materials can cause.

The seamless, 100% machined surface design provides the tightest tolerances in the industry. The centerless ground OD, centerless bore ID results in wall variations of .0005 in., giving the customer increased system design flexibility.

DURA-BOND ALSO OFFERS

Bronze Bushings – Long lifespans, resist shock, impact, wear and corrosion

Fluoropolymer Coated – For maximum fatigue life and improved surface properties

Dry Film Lubricant Coating – Provides solid lubrication of parts subject to torque or contact stresses

Bushings with Indents – Better oil retention

Semi-Finished Bushings – Allow you to machine bore for proper fit and center-line accuracy

RACE PROVEN. TIME TESTED.

Performance Transmissions Deserve **HIGH PERFORMANCE** Transmission Bushings.

If you want to match performance levels and get the most out of your transmissions, use Dura-Bond "Red Box" High Performance Transmission Bushings!

NOW WITH AN ENHANCED DRY FILM LUBRICANT COATING USED IN THE AEROSPACE INDUSTRY!

HIGH PERFORMANCE TRANSMISSION BUSHINGS

Full Round Babbitt Bushings – Tightest tolerances in the industry

- No walking
- No possible split when installing

Precision Machined – Centerless Ground/Bored

- Wall tolerance of .0005
- OD tolerance of .001

Dry Film Lubricant Coating – Provides solid lubrication of parts subject to torque or contact stresses

- For maximum fatigue life
- Improve surface properties
- Excellent load carrying capacity
- Provides intermittent dry lubrication

It's our quality that stands the test of time.

Just ask any high-performance transmission rebuilder. They'll know.

Dura-Bond[®]
Since 1947

NEW (Enhanced) Transmission Pump Bushings

Innovations brought to you by
Dura-Bond - Leading into the Future

Now with an Enhanced Dry Film Lubricant Coating used in the Aerospace Industry!

These NEW (Enhanced) Transmission Pump Bushings are constructed of seamless steel tube with a thin layer of babbitt material. Seamless construction makes installation easy, eliminating breakage and bushing surface interruptions.

- Full Round Babbitt Bushings - Tightest tolerances in the industry
 - No walking
 - No possible split when installing
 - Wall tolerance of .0005
 - OD tolerance of .001
- Dry Film Lubricant Coating - Provides solid lubrication of parts subject to torque or contact stresses
 - For maximum fatigue life
 - Improved surface properties
 - Excellent load carrying capacity
 - Provides intermittent dry lubrication
- Bushings with Indents - Better oil retention

DISCLAIMER

This catalog contains parts information only. Before installing any part listed, consult the appropriate vehicle manufacturer's instructional manual for detailed installation instructions. Although the information in this catalog has been gathered from the best available sources and every possible effort has been made to ensure accuracy, we cannot accept responsibility for any errors or omissions. We would very much appreciate being advised of any inaccuracies which might come to your attention. Dura-Bond reserves the right to update and change product specifications at any time without notice.

WARRANTY

Dura-Bond Bearing Company products are warranted to be free from defects of materials or workmanship for one year from the date of purchase. Dura-Bond Bearing Company's responsibility is limited to the replacement value of the product if Dura-Bond determines the product to be defective under normal use and service. Claims for labor or related component cost will not be considered. No other warranty, either expressed or implied, is made.
