COURSE

## REGISTRATION POLICY AND PROCEDURES

### Registration of Participants

Registration of participants will be on a first-come-first-served basis.

All registrations must be made through SIRIM STS Sdn Bhd (SIRIM STS) website; [www.sirimsts.my](http://www.sirimsts.my) at least seven (7) working days before the commencement date of the training programme.

### Confirmation

SIRIM STS will inform all confirmed participants about the details of the training programme. A system generated confirmation letter will be emailed to the participants at least 5 working days before the training is scheduled to start.

### Payment

Full payment shall be made before or on the training date to avoid any restriction to the course. All payments shall be made in Malaysian Ringgit.

For local participant(s), payment can be made by cash crossed cheques, bank drafts or postal orders. For overseas participant(s), payment can be made by bank drafts or telegraphic transfers.

All EFT/IBG/RENTAS/TT/cheque deposit/ bank drafts/ postal orders shall be made payable to SIRIM STS Sdn Bhd.

### Cancellation

- For any cancellation the PIC/participant(s)/organization shall inform SIRIM STS Sdn Bhd in writing no less than five (5) working days of the scheduled training date, otherwise the PIC/participant(s)/organization shall pay SIRIM STS Sdn Bhd the full amount as stated in the confirmation letter and proforma invoice.
- Registered participant who is unable to attend the training may nominate a substitute at no change. Details of substitute shall be provided via our on-line registration system at least one (1) day before training.
- If the cancellation is initiated by SIRIM STS, full refund of all payments shall be made or registered participants shall be offered to transfer to the same course on the new planned dates.

### Group Discount

Programmes listed under SIRIM STS Planner are subject to the following group discount:

- 3 - 4 participants from the same organization, registered for the same training programme (date and course) – 5% discount per participant.
- 5 or more participants from the same organization, registered for the same training programme (date and course) – 10% discount per participant.

Group discount is not valid during any promotional period.

### **Transfer of Registration**

Transfer of registration of the same training programme to another available date is allowed (subject to availability) if SIRIM STS is informed in writing at least seven (7) working days before the commencement date of the training programme.

### **Public Training Programme Package**

The training course fees are inclusive of the following: certificates, course notes, stationary, lunch and refreshments. The certificate is awarded only if the participant attends and participates in at least 80% of the training programme modules.

### **In-house Training Programmes**

All Training programmes appears in SIRIM STS's Planner can also be conducted at company's premises as in-house training programmes.

### **Grant under the Pembangunan Sumber Manusia Berhad (PSMB)**

Companies registered with the PSMB may claim 100% of the course fees from the PSMB's Schemes under the SBL (Skim Bantuan Latihan) and SBL Khas (for selected courses only). SIRIM STS is appointed as one of the registered training providers under PSMB (MyCoID: 448249A).

### **Disclaimer**

While every reasonable effort is made to deliver the training programmes as scheduled in SIRIM STS Planner, SIRIM STS reserves the right to cancel, postpone or make changes to any training programmes including the speaker(s), dates, venue, programme contents or other matters without prior notice.

Upon completion of online registration, you are deemed to have fully read, understood and accepted the terms and conditions stated herein.

### **Copyright**

The training materials contain information that is protected by copyright and belong to SIRIM STS and/or the copyright holder(s). SIRIM STS and the copyright holder(s) reserve all rights in respect of the translation, reprinting and copying of the training materials or any part thereof. No part of the training materials may be reproduced, processed, copied or distributed in any form whatsoever using electronic systems or other means without the prior written consent of SIRIM

# SIRIM INDUSTRY STANDARDS

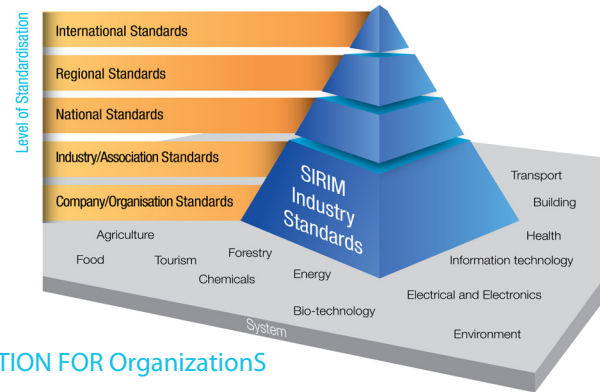

See The World's True Potential with SIRIM Industry Standards

STANDARDS help us in many ways. They help in making products safe for use, reliable and consistently perform the way they were intended to.

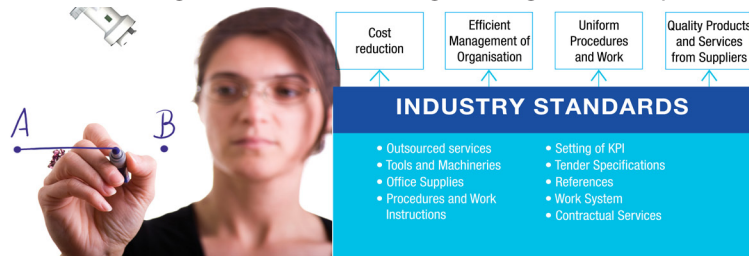

## STANDARDISATION SPACE

Standardisation can be broadly categorised into five levels. The higher up in the hierarchy, the higher the level of consensus required. Standards at national, regional and internal level encourage harmonisation, interoperability and facilitate trade.

## A TOTAL SOLUTION FOR Organizations

Industry or organization standards play a vital role in the running of organizations. They provide a total solution to organizations in addressing their organizational problems.

# S

IRIM STS Sdn Bhd is offering various personnel certification programmes to promote public confidence in the competencies and capabilities of the personnel who perform task related to quality management, particularly quality auditing, inspection, quality control, quality improvement initiative and quality assurance.

### ISO 9001:2015 QUALITY MANAGEMENT SYSTEMS

ISO 9001:2015 Quality Management Systems (QMS) is internationally recognized as the world's leading quality management standard and has been implemented by over one million organizations in over 170 countries globally. ISO 9001 implemented, to its full potential, becomes an invaluable asset to your organization.

The purpose of the standard is to assist companies in meeting statutory and regulatory requirements relating to their product while achieving excellence in their customer service and delivery. The standard can be used throughout an organization to improve the performance or within a particular site, plant or department.

### ISO 9001:2015 SISTEM PENGURUSAN KUALITI

Sistem Pengurusan Kualiti (QMS) ISO 9001: 2015 diiktiraf di peringkat antarabangsa sebagai piawai pengurusan kualiti terkemuka di dunia dan telah dilaksanakan oleh lebih dari satu juta organisasi di lebih 170 buah negara di seluruh dunia. ISO 9001 dilaksanakan, dengan potensi penuh, menjadi aset yang tidak ternilai untuk organisasi anda.

Standard ini menggalakkan penerimgunaan pendekatan proses apabila membangunkan, melaksanakan dan menambahbaik keberkesanan sistem pengurusan kualiti bagi meningkatkan kepuasan pelanggan dengan cara memenuhi keperluan pelanggan serta dapat memenuhi keperluan undang-undang. Memahami dan mengurus proses saling berkait sebagai suatu sistem adalah menyumbang kepada keberkesanan dan kecekapan organisasi dalam mencapai hasil yang dimaksudkan. Pendekatan ini membolehkan organisasi mengawal saling hubungan dan saling kebergantungan antara proses sistem itu supaya prestasi keseluruhan organisasi boleh dipertingkatkan.

### INTEGRATED MANAGEMENT SYSTEMS (IMS) ISO 9001, ISO 14001 & ISO 45001

An integrated management systems (IMS) combines all related components of a business into one system for easier management and operations. Quality, Environmental, and Safety management systems are often combined and managed as an IMS. These systems are not separate systems that are later joined together, rather they are integrated with linkages so that similar processes are seamlessly managed and executed without duplication.

### ISO 14001:2015 ENVIRONMENTAL MANAGEMENT SYSTEMS

ISO 14001:2015 environmental management systems is a structured system designed to help organizations manage their environmental impacts and improve environmental performance caused by their products, services and activities. An environmental management system provides structure to environmental management and covers areas such as training, record management, inspections, objectives and policies.

ISO/IEC 27001:2013 INTERNAL AUDITING	ISO3	2	1,200

### ISO/IEC 27001:2013 INFORMATION SECURITY MANAGEMENT SYSTEMS

This course had been designed for organizations that plan to manage the risks of the organizations' information assets effectively and systematically. The course should also suitable for organizations which plan to develop documentation that required by ISO/IEC 27001 Standard in order to ensure compliance to the standard requirements. This standards ensures that the security arrangements are fine-tuned to keep pace with changes to the security threats, vulnerabilities and business impacts.

### MS 1900:2014 SISTEM PENGURUSAN KUALITI BERASASKAN SHARIAH

Shariah adalah satu peraturan dari Tuhan yang seorang muslim itu wajib untuk taat kepadanya dalam kehidupan harian. Ringkasnya, Syariah bermaksud 'jalan' atau dengan kata yang lain, ia merupakan satu model dan gaya hidup terbaik yang dikurniakan Tuhan untuk seorang muslim itu ikuti bagi mendapat keberkatan dan keredaan. Dalam konteks Sistem Pengurusan, seorang muslim tidak harus mengeneipkan pandangan dan penilaian Tuhan dalam setiap tindak tanduk kerana akhirnya, kita akan dihitung dan dipertanggungjawabkan di akhirat kelak atas apa yang kita lakukan.

AS9100:2016 REV D INTERNAL AUDITING	AS04	2	1,500

### AS9100:2016 REV D AEROSPACE QUALITY MANAGEMENT SYSTEMS

AS9100 Rev D which is equivalent to ISO 9001:2015, was published in September 2016. The transition deadline is by September 2019. However starting in June 2017, all organizations that are interested to certify to AS9100 must be audited to AS9100 Rev D. This standard, which was developed by the International Aerospace Quality Group (IAQG), covers the entire supply chain. This includes companies that design and manufacture equipment and supply accessories or replacement parts, as well as those that offer supply and maintenance or overhaul and repair services.

## ISO 19011:2018 GUIDELINES FOR AUDITING MANAGEMENT SYSTEMS

TITLE	CODE	DURATION	FEE (RM)
ISO 19011:2018 QMS AUDTING GUIDELINES	QAG01	1	600

### ISO 19011:2018 GUIDELINES FOR AUDITING MANAGEMENT SYSTEMS

The content of this course is based on the new ISO 19011:2018. ISO 19011 is generic and can be used for auditing any types of management systems. This standard provides guidance on auditing management systems, as well as guidance on the evaluation of competence of individuals involved in the audit process. It is applicable to all organizations that need to plan and conduct internal or external audits of management systems or manage an audit programme

### GREEN 5S SIRIM 5:2016 (ENGLISH)

This training provides the foundation for best practises based on SIRIM Standard, Guidelines for implementing Green 5S system. The purpose of the programme is to give an overview on creating excellent workplace through improvement in quality, health, safety, environment, productivity and image, hence reducing cost and increasing efficiency and competitiveness of an organization.

### QUALITY TOOLS AND TECHNIQUES (KAIZEN, SIX SIGMA, TQ<sub>FTM</sub>)

To ensure that quality management planning is a fruitful process, there are certain best practices which if followed diligently, will be a smooth sailing for any organization. Thus, SIRIM has identified and offered a list of tools and techniques for quality improvement which are widely used by firms. The use of tools and techniques is a vital component of any successful improvement process. These tools and techniques can only be beneficial for any manufacturing industry after the proper training of their employees so that they understand these tools effectively. Therefore, the use of tools and techniques for quality improvement is necessary for quality improvement.

### CUSTOMER SERVICE MANAGEMENT SIRIM 6:2016

'Customer Service Management' Recognition Scheme is a program focused on 'best practice' of activities and elements related to customer service. This certification recognizes the seriousness of the relevant organizations to identify, manage and meet customer needs (Customer Requirement - Customer Service - Customer Satisfaction), appreciate the customer (Customer Value), measuring and monitoring service level (Customer Data & Analysis) and implement improvement initiatives (Customer Relationship / Retention Program). This recognition Scheme is open to manufacturing or service sector, government and also private sector.

## TOTAL PRODUCTIVE MAINTENANCE (TPM)

TITLE	CODE	DURATION	FEE (RM)
TPM AWARENESS	TPM01	1	750
TPM UNDERSTANDING & IMPLEMENTING	TPM02	2	1,500

### TOTAL PRODUCTIVE MAINTENANCE (TPM)

This course is designed to provide awareness on the Total Productive Maintenance concept, methodology and its applications. Over the past 50 years, routine preventive maintenance has served us well, but new and progressive maintenance techniques need to be established in order to maintain the equipment in optimal condition. TPM is an effective maintenance strategies to eliminate equipment breakdowns, reduce scheduled downtime and maximize utilization, throughput and quality. It provides the method to measure and eliminate much of non-productive time, if implemented properly.

## LEAN MANAGEMENT

TITLE	CODE	DURATION	FEE (RM)
LEAN MANAGEMENT AWARENESS	LM01	1	750
LEAN MANAGEMENT UNDERSTANDING & IMPLEMENTING	LM02	2	1,500

### LEAN MANAGEMENT

This course is designed to provide understanding of the lean management objective, methodology, concept, principles and tools of lean management as well as the benefits gain in implementing the programme in the organization. Lean management is considered as a philosophy that demands shorter lead times to deliver high quality, low cost products and services through improved flow, by eliminating waste and reduce variation in the value stream. It will provide a better value for the customer in pursuing for perfection considering quality, quantity, stability, flow, customer demand and people. It is beneficial to any organization planning to embark the programme in realizing to become a lean organization.

# **TECHNOLOGY AND CERTIFICATION PROGRAMMES**

# INDUSTRY 4.0

The move towards Industry 4.0 helps increase flexibility, productivity, efficiency, quality and other benefits.

## WELDING TECHNOLOGY PROGRAMMES

TITLE	CODE	DURATION	FEE (RM)
BASIC ARC WELDING TECHNOLOGY: SMAW/GTAW/GMAW	WE01	3	1,550
QA/QC IN WELDING AND FABRICATION	WE03	3	2,300
FUNDAMENTAL OF WELDING TECHNOLOGY FOR ENGINEERS	WE04	3	2,300

### WELDING TECHNOLOGY PROGRAMMES

Welding training teaches students how to join metal together in a permanent bond using a variety of heating techniques. Formal welding technology programs are available at the certificate and associate's degree levels.

These programs offer classroom and hands-on experience in all types of welding, including flux core arc, gas metal arc, and pipe and gas tungsten arc welding. Certificate programs require less than a year of work, while associate's degree programs take about two years to complete and also include a few general education courses. Graduates of these programs can often apply for professional certification in various types of welding.

### CERTIFIED WELDING TECHNOLOGY PROGRAMMES

American Welding Society

SIRIM - AWS Certification is recognized by the welding industry as an important step in professional development. With multiple certification options, SIRIM - AWS will prepare you to work with a variety of code, standards, and specifications giving you the skills needed to enhance your career. The SIRIM-AWS Certified Welder program is open to anyone with a talent for welding. Since the test is strictly performance-based, there are no prerequisite courses or certifications required prior to testing. If you are able to do the weld necessary to pass the test, then you are eligible to become an SIRIM-AWS Certified Welder.

## SAND CASTING PROCESS

TITLE	CODE	DURATION	FEE (RM)
SAND CASTING PROCESS - FUNDAMENTAL	SC01	5	4,000

### SAND CASTING PROCESS

Sand casting is a metal casting process characterized by using sand as mold materials. Sand casting are produced in specialized in foundries factories. Over 70% of all metal casting are produced via sand casting process. This course introduces the mechanical overview, machinery overview cycle, process of casting and details of control and instrumentation required in casting process. Upon completion, participant will be able to understand the fundamental of sand casting process and hands on casting practices.

## TOOLING TECHNOLOGY PROGRAMMES

TITLE	CODE	DURATION	FEE (RM)
PLASTIC INJECTION MOLD DESIGN PRINCIPLES-FUNDAMENTAL	TT01-1	5	3,000
2-PLATE MOLD DESIGN PRACTICAL	TT01-2	5	3,500
PLASTIC INJECTION MOLD DESIGN PRINCIPLES-INTERMEDIATE	TT02-1	5	3,000
3-PLATE MOLD DESIGN PRACTICAL	TT02-2	5	3,500

### TOOLING TECHNOLOGY PROGRAMMES

Tooling Technology Programme covers 4 key areas which are Plastic Injection Mold Design Principles Fundamental and Intermediate, 2 and 3 Plate Mold Design Practical. The Fundamental module focuses on the basic principles of injection molding design technology, including optimizing machine control setting. The Intermediate module focuses on the designing complex plastic injection mold structure and construction. This program offers classroom and hands on experience in two types of injection mold design, including 2 and 3 type Plate Mold Design. In practical lesson, learn how the 4 primary plastic processing variables of pressure, temperature, flow rate and cooling rate determine all part properties.

EMBEDDED PROGRAMING AND INTERNET OF THING (IOT) USING RASPBERRY PI	DM02	3	2,500
ANDROID APPLICATION DEVELOPMENT	DM03	3	2,500

### INDUSTRY 4.0 DIGITAL MANUFACTURING (JOINT PROGRAM WITH UNITEN)

In today's digital economy, data can be found everywhere. But how much of these data are actually useful and valuable? Predictive analytics help organizations derives values from data by utilizing different tools and techniques. Furnished with these insights, organizations will be able to compete better and provide offerings that exceed customers' expectations.

IoT is a environment where electronic equipment is connected worldwide through an internet connection. Now you can control all your electronic equipment even if you are away from that equipment.

Mobile application development it is designed to introduce participants to the skills and knowledge needed to design, develop and deliver effective mobile application.

With the expert from SIRIM and UNITEN, this course will be more effective and useful to you and your organization.

INDUSTRY 4.0 DIGITAL MANUFACTURING (JOINT PROGRAM WITH GMI) \*BROCHURES ARE AVAILABLE UPON REQUEST

Explore IoT as a Leadership Opportunity and a Strategic advantage. The Internet of Things (IoT) is about to transform the next decade. Literally everything will be connected to everything. Some estimate that 50 billion devices will be IoT-connected by 2020.

The primary drive for automation IoT is to significantly reduce operating expenditures when automation devices, sensors and actuators become Internet-enabled devices. It's the next huge leap in productivity because there are major advantages to be derived from the acquisition and organization of previously unthinkable amounts of data.

With the expert from SIRIM and German Malaysia Institute (GMI), these courses will be more useful to you and your organization.

SCADA (SUPERVISORY CONTROL AND DATA ACQUISITION): THEORY AND APPLICATION	SIR06	2	1,800

### INDUSTRY 4.0 DIGITAL MANUFACTURING (JOINT PROGRAM WITH SIRIM IR)

An essential facet of Industry 4.0 is autonomous production methods powered by a concept referred to as the “Internet of Things” (IoT) - the idea that by harnessing a connected mesh of objects, devices and computers machines can communicate with each other. Autonomous robots are a seminal example across countless industries, including manufacturing.

Industry 4.0 concepts can give machines that little bit of intuition they lack, enabling machines to do mindless repetitive jobs but still have the programmed oversight to cope with the unexpected. Humans are now beginning to have the freedom to work the way humans work best, strategically and creatively.

Industry 4.0 can be so much more than manufacturing. It represents a cultural shift in the way we do business, design, manufacture, and interact with each other as humans.
