QUESTION 1

See the scenario for additional informational.

Scenario:

(Note: The companies and people within the scenario are fictional)

Legend

CruiseAlong Cars

CruiseAlong Cars is a car manufacturing and sales company with corporate headquarters in the United States of America; It has grown by acquisition over the last 20 years and has operations in over 50 countries. Each country has its own IT

organization, with some central corporate IT services provided by the US parent company. In some countries CruiseAlong Cars has outsourced infrastructure and service desks. The largest IT supplier is Global City IT Services (GCITS). In

two countries GCITS provides CruiseAlong Cars with full outsourced services. They also provide selected services in other countries.

Some of the issues that CruiseAlong Cars needs to address include:

Inefficiencies caused by the current IT structure

Inconsistency of IT services when employees are travelling

CruiseAlong Cars is working with a European university (the University of Bachstein) to research and develop driverless car technology. The venture operates as an independent company called DriveYou.com, and CruiseAlong Cars owns a 51% share.

DriveYou.com

This is a small, innovative company, that is jointly owned by CruiseAlong Cars and the University of Bachstein (UoB). DriveYou.com develops custom applications using a highly collaborative, rapid and iterative development approach. Their

employees are mostly research and development experts, working from multiple locations, with a significant number working from home. Initial driverless car testing is being conducted in the US at the Nevegon State Department of

Transportation.

Infrastructure and cloud services are purchased from Global City IT Services and other providers, and these relationships are managed by a DriveYou.com supplier manager.

Some of the issues that DriveYou.com needs to address include:

Better structure and accountability around their work practices Compliance with safety and other regulatory requirements.

University of Bachstein (UoB)

The UoB is a university that is based Germany, with a satellite campus in Kuala Lumpur, Malaysia; In the past, some IT services were funded and run centrally, and some were funded and run independently by each faculty. Centrally owned

services include a `walk-in` service desk, plus a separate service desk in the main library, run by library staff. Library services and IT are both part of the university's administrative services division. Recently, under a new CIO, there has been

a drive to centralize and consolidate IT as a corporate function, although this has not been fully achieved.

The central IT department runs a variety of legacy systems, which serve students, administrators, researchers and academics. It also runs some high performance computing systems and high bandwidth networks across the main campus

area;

Some of the issues that the UoB needs to address include:

Complete the centralization and consolidation of IT

Manage growth and increasing IT demand

Demonstrate value through competitive, responsive and transparent services Global City Services (GCITS)

GCITS is a global service provider which has grown through acquisition and which offers a wide range of services, including IT support, infrastructure and consulting. GCITS has mature and efficient IT service management processes, and

holds an ISO/IEC 20000 certification.

GCITS provides the entire infrastructure and some cloud services for DriveYou.com, as well as a range of services in different countries to CruiseAlong Cars. Some of the issues that GCITS needs to address include:

Succeed in establishing a strategic partnership with CruiseAlong Cars Nevada State Department of Transportation (NSDoT)

NSDoT is a government agency in the US state of Nevada, where DriveYou.com is running their trials. It is responsible for managing transportation systems and safety. DriveYou.com must work with the agency to ensure that their trials

comply with safety regulations, and the program includes bidirectional sharing of large amounts of data; The NSDoT's internal IT team writes and manages most of their agency-specific applications, however most other applications and

infrastructure are provided by the Nevada State central IT department. CruiseAlong Cars is planning to improve the provision and support of IT services for senior executives who travel. They will deploy new mobile technology to enhance

the user experience. They will also improve the incident management and request fulfilment processes and standardize these across service desks. They are taking an iterative approach and have released the first iteration of improvements.

A project manager has been appointed for this improvement initiative.

As part of the project an additional objective is to improve the reporting about the senior executive service.

Which is the BEST combination of report content and target stakeholder?

	Stakeholder who receives the report	Report content	
a)	Service desk staff	Customer satisfaction scores	Achievement of service availability targets
b)	Service desk staff	Achievement of service response targets	Root cause of outages
c)	Senior executives	Customer satisfaction scores	Root cause of outages
d)	Senior executives	Achievement of service desk response targets	Achievement of service availability targets

A. Stakeholder who receives the report: Service desk staff Report content: Customer satisfaction scores, Achievement of service availability targets

B. Stakeholder who receives the report: Service desk staff Report content: Achievement of service response targets, Root cause of outages

C. Stakeholder who receives the report: Senior executives Report content: Customer satisfaction scores, Root cause of outages

D. Stakeholder who receives the report: Senior executives Report content: Achievement of service desk response targets, Achievement of service availability targets

Correct Answer: D

QUESTION 2

Why is a meeting notes template used?

A. To record meeting objectives while the meeting is in progress.

B. To help the meeting chairperson to capture key details.

C. To ensure that the meeting runs to planned timings.

D. To ensure the correct participants attend the meeting

Correct Answer: A

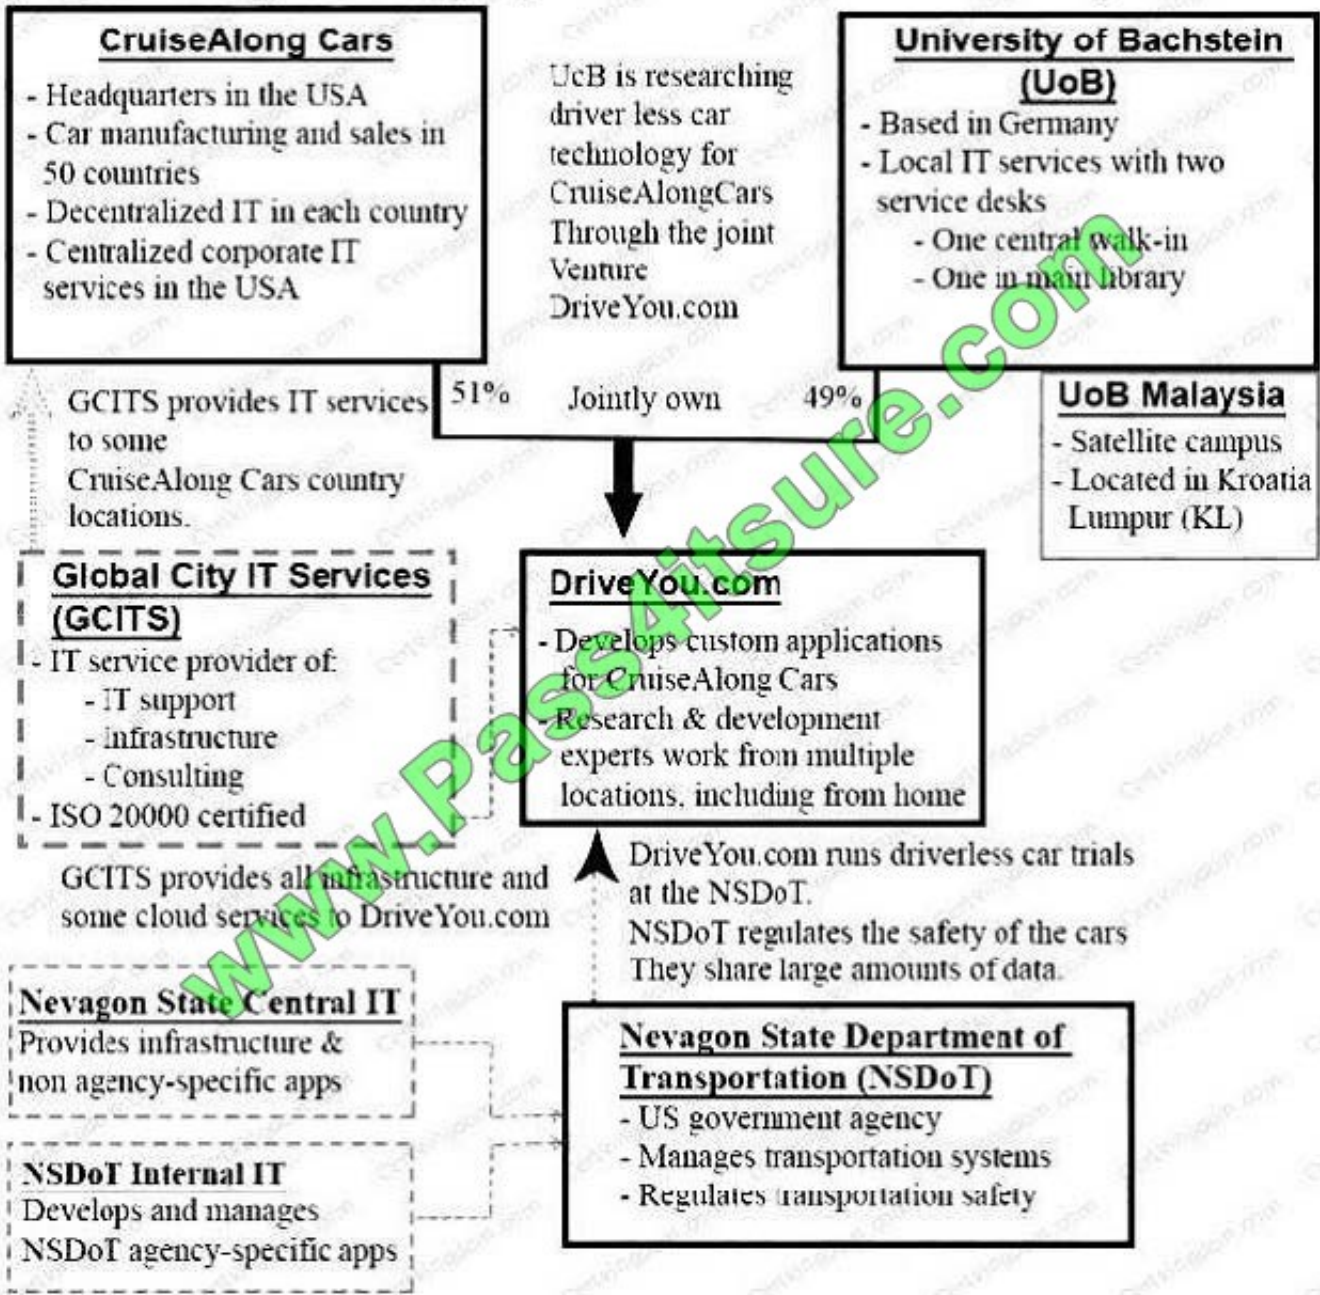

QUESTION 3

The venture operates as an independent company called DriveYou.com, and CruiseAlong Cars owns a 51% share. DriveYou.com This is a small, innovative company, that is jointly owned by CruiseAlong Cars and the University of Bachstein (UoB). DriveYou.com develops custom applications using a highly collaborative, rapid and iterative development approach. Their employees are mostly research and development experts, working from multiple locations, with a significant number working from home. Initial driverless car testing is being conducted in the US at the Nevegong State Department of Transportation. Infrastructure and cloud services are purchased from Global City IT Services and other providers, and these relationships are managed by a DriveYou.com supplier manager. Some of the issues that DriveYou.com needs to address include: Better structure and accountability around their work practices Compliance with safety and other regulatory requirements. University of Bachstein (UoB) The UoB is a university that is based Germany, with a satellite campus in Kuala Lumpur, Malaysia; In the past, some IT services were funded and run centrally, and some were funded and run independently by each faculty. Centrally owned services include a `walk-in` service desk, plus a separate service desk in the main library, run by library staff. Library services and IT are both part of the university`s administrative services division. Recently, under a new CIO, there has been a drive to centralize and consolidate IT as a corporate function, although this has not been fully achieved. The central IT department runs a variety of legacy systems, which serve students, administrators, researchers and academics. It also runs some high performance computing systems and high bandwidth networks across the main campus area; Some of the issues that the UoB needs to address include: Complete the centralization and consolidation of IT Manage growth and increasing IT demand Demonstrate value through competitive, responsive and transparent services Global City Services (GCITS) GCITS is a global service provider which has grown through acquisition and which offers a wide range of services, including IT support, infrastructure and consulting. GCITS has mature and efficient IT service management processes, and holds an ISO/IEC 20000 certification. GCITS provides the entire infrastructure and some cloud services for DriveYou.com, as well as a range of services in different countries to CruiseAlong Cars. Some of the issues that GCITS needs to address include: Succeed in establishing a strategic partnership with CruiseAlong Cars Nevegong State Department of Transportation (NSDoT) NSDot is a government agency in the US state of Nevegong, where DriveYou.com is running their trials. It is responsible for managing transportation systems and safety. DriveYou.com must work with the agency to ensure that their trials comply with safety regulations, and the program includes bi0directional sharing of large amounts of data; The NSDoT`s internal IT team writes and manages most of their agency-specific applications, however most other applications and infrastructure are provided by the Nevegong State central IT department. CruiseAlong Cars central IT organization wants to implement a new ITSM toolset to replace their outdated system. The new ITSM toolset will be used by all CruiseAlong Cars` IT departments and their service desks. The business case for the improvement has not been made yet. This could include financial contribution from various countries. The overall goal of the initiative is to achieve efficiencies and cost reductions through the centralization of processes and data for reporting across country-based IT departments. The business case for a new ITSM toolset has been approved. The project manager will soon start the detailed planning.

What is the BEST way to communicate with key stakeholders, and at which step of the CSI approach?

A. During `where are we now?` send an email to all IT country organizations describing the benefits of the project and inviting them to contribute.

B. During `where are we now?` send an email to a selection of IT country organizations, requesting their involvement in the project.

C. During `where do we want to be?` send an email to all IT country organizations describing the benefits of the project and inviting them to contribute.

D. During `where do we want to be?` send an email selection of IT country organizations, requesting their involvement in the project.

Correct Answer: B

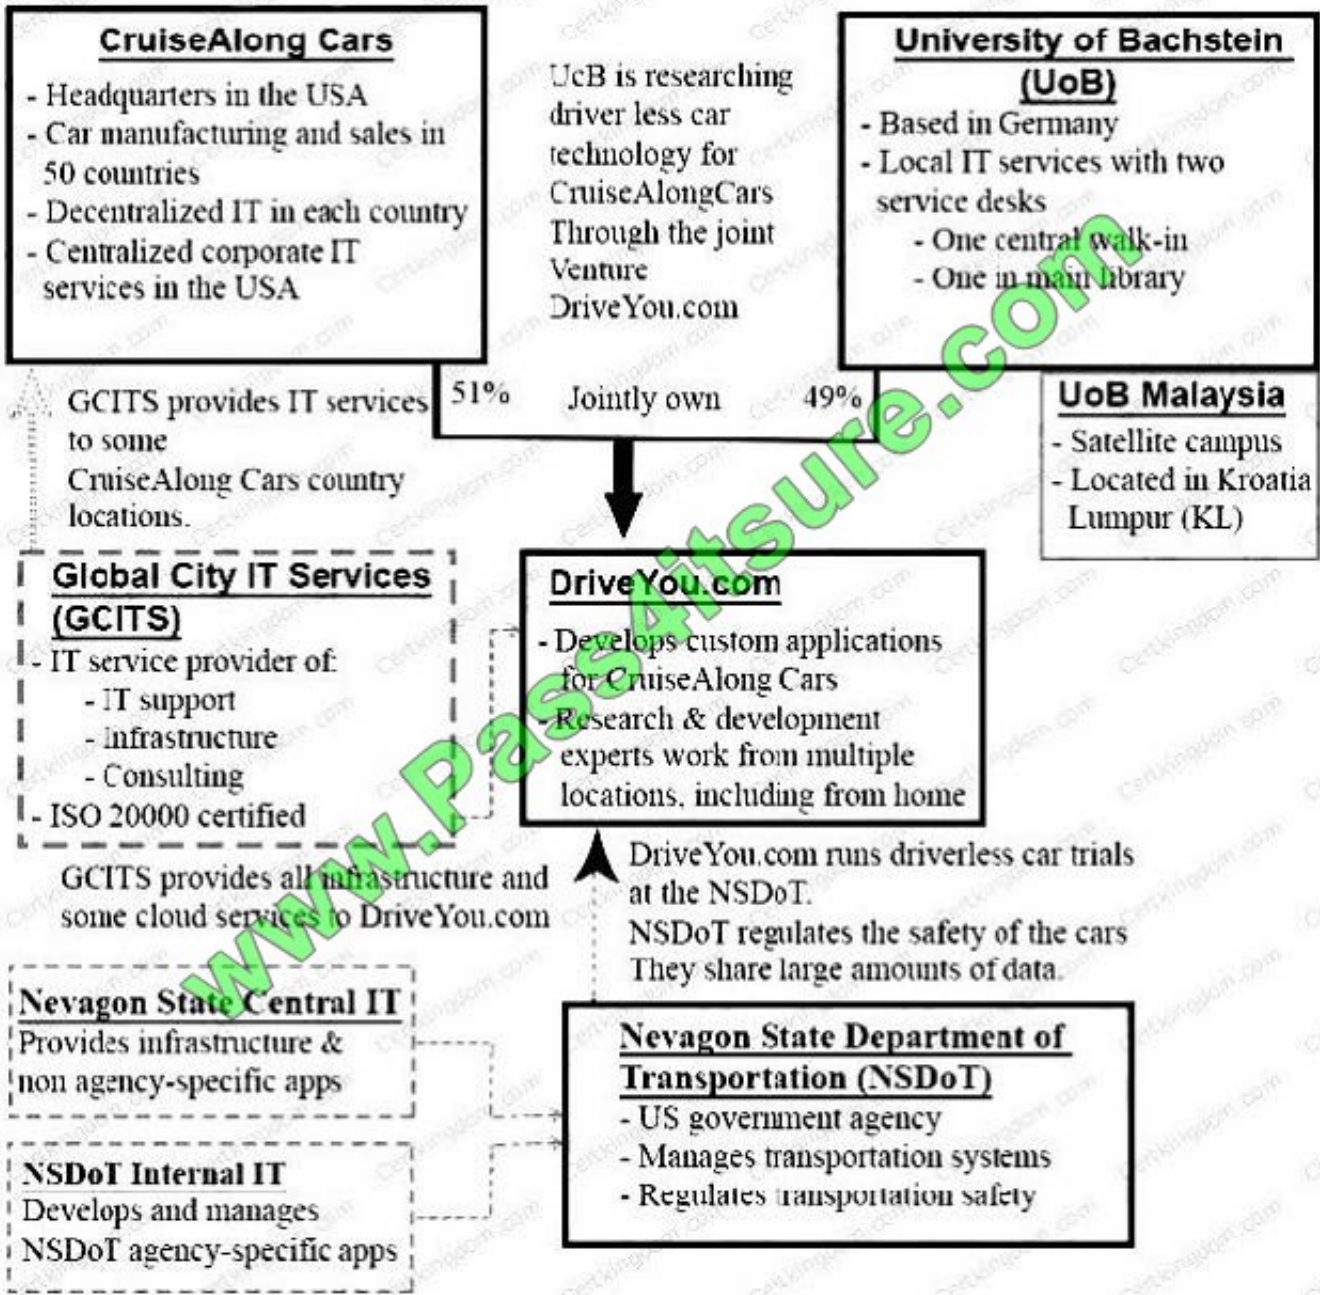

QUESTION 5

See the scenario for additional informational.

Scenario:

(Note: The companies and people within the scenario are fictional)

Legend

Organization

IT service provider

Has ownership of

Provides IT services to

Provides services to

CruiseAlong Cars CruiseAlong Cars is a car manufacturing and sales company with corporate headquarters in the United States of America; It has grown by acquisition over the last 20 years and has operations in over 50

countries. Each country has its own IT organization, with some central corporate IT services provided by the US parent company. In some countries CruiseAlong Cars has outsourced infrastructure and service desks. The largest IT supplier is Global City IT Services (GCITS). In two countries GCITS provides CruiseAlong Cars with full outsourced services. They also provide selected services in other countries. Some of the issues that CruiseAlong Cars needs to address include: Inefficiencies caused by the current IT structure Inconsistency of IT services when employees are travelling CruiseAlong Cars is working with a European university (the University of Bachstein) to research and develop driverless car technology. The venture operates as an independent company called DriveYou.com, and CruiseAlong Cars owns a 51% share. DriveYou.com This is a small, innovative company, that is jointly owned by CruiseAlong Cars and the University of Bachstein (UoB). DriveYou.com develops custom applications using a highly collaborative, rapid and iterative development approach. Their employees are mostly research and development experts, working from multiple locations, with a significant number working from home. Initial driverless car testing is being conducted in the US at the Nevagon State Department of Transportation. Infrastructure and cloud services are purchased from Global City IT Services and other providers, and these relationships are managed by a DriveYou.com supplier manager. Some of the issues that DriveYou.com needs to address include: Better structure and accountability around their work practices Compliance with safety and other regulatory requirements. University of Bachstein (UoB) The UoB is a university that is based Germany, with a satellite campus in Kuala Lumpur, Malaysia; In the past, some IT services were funded and run centrally, and some were funded and run independently by each faculty. Centrally owned services include a 'walk-in' service desk, plus a separate service desk in the main library, run by library staff. Library services and IT are both part of the university's administrative services division. Recently, under a new CIO, there has been a drive to centralize and consolidate IT as a corporate function, although this has not been fully achieved. The central IT department runs a variety of legacy systems, which serve students, administrators, researchers and academics. It also runs some high performance computing systems and high bandwidth networks across the main campus area; Some of the issues that the UoB needs to address include: Complete the centralization and consolidation of IT Manage growth and increasing IT demand Demonstrate value through competitive, responsive and transparent services Global City Services (GCITS) GCITS is a global service provider which has grown through acquisition and which offers a wide range of services, including IT support, infrastructure and consulting. GCITS has mature and efficient IT service management processes, and holds an ISO/IEC 20000 certification. GCITS provides the entire infrastructure and some cloud services for DriveYou.com, as well as a range of services in different countries to CruiseAlong Cars. Some of the issues that GCITS needs to address include: Succeed in establishing a strategic partnership with CruiseAlong Cars Nevagon State Department of Transportation (NSDoT) NSDoT is a government agency in the US state of Nevagon, where DriveYou.com is running their trials. It is responsible for managing transportation systems and safety. DriveYou.com must work with the agency to ensure that their trials comply with safety regulations, and the program includes bi0directional sharing of large amounts of data; The NSDoT's internal IT team writes and manages most of their agency-specific applications, however most other applications and infrastructure are provided by the Nevagon State central IT department. The IT department at the UoB does not have a service catalogue or a service portfolio, and there is limited understanding of the structure and value of services in the organization. Many of the individual departments and faculties are resistant to the CIO's vision for global services. They have decided to appoint business relationship managers (BRMs) who will be expected to address many of the challenges, in order to support collaboration and help to define global services. Some business analysts are going to be transferred to these new positions. One of the BRMs has had an improvement idea for implementing a de-centralized support model that can be actioned quickly. The BRM proposed implementing the improvement in the next three months. The improvement was rejected by the CIO who has suggested that the idea should never have been proposed.

Which tool should the BRM have used to predict the CIO's response at this early stage?

- A. The CSI register, to properly define the timescale for implementation.
- B. The CSI register, to define who the improvement would be actioned by.
- C. The orientation worksheet, to understand the organizational vision.
- D. The orientation worksheet, to measure the success of the improvement.

Correct Answer: B
