AUTHORIZED TRAINING PARTNERS FOR

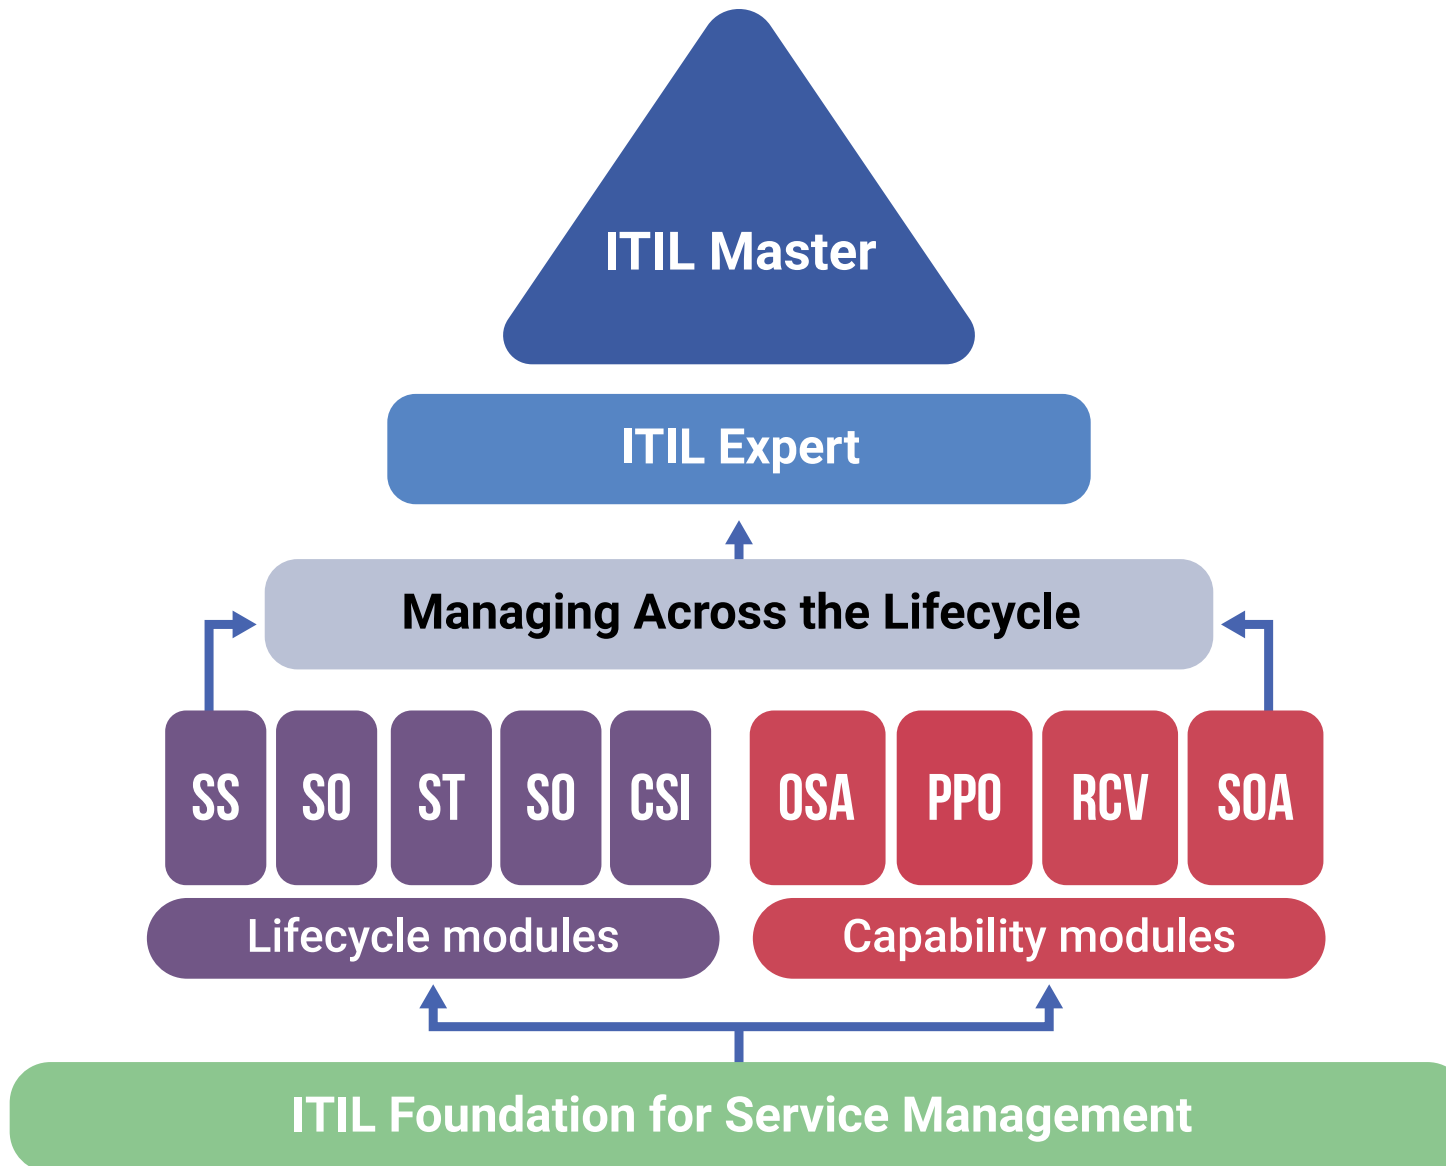

The world of ITIL

Enterprises often struggle to align their IT services with the business needs. Information Technology Infrastructure Library (ITIL) defines a set of practices, processes, procedures, tasks, and checklists that organizations operating in diverse industry verticals can apply to integrate IT services with business strategies and delivery values.

ITIL institutes a baseline for organizations that helps not only in exhibiting compliance but also in the overall planning, implementation, and measuring improvements in the system.

The ITIL Roadmap

Why choose ITIL v4 Foundation?

Enterprises all across the globe strive hard to improve quality, cost-effectiveness and responsiveness for their business. ITIL v4 Foundation course is the latest version of the ITIL Foundation series and will arm participants with the set of best practices imperative for conducting business activities in an effective and efficient way.

After the completion of this foundation course, participants will have learnt the advanced ITIL concepts in an agile manner. This will give participants a more detailed and comprehensive light on the best practices that can transform the enterprise operations and workflow with respect to the IT services.

ITIL Trends

ITIL 4 takes the whole IT industry forward into digital transformation, DevOps, product management, cloud, artificial intelligence, automation and more in a welcoming and familiar landscape. For a new generation of digital professionals, ITIL 4 is a holistic framework on which to build a broad and inclusive skillset fit for the contemporary world.

QUALITY IMPROVEMENT PROFESSIONALS

Certification

The ITIL® 4 Foundation exam is a 40 question multiple-choice exam. Native English speakers are allowed 1 hour to take the exam. If English is your second language you are allowed an additional 15 minutes for a total of 1 hour and 15 minutes. A passing score on the exam is 26 or more correct out of 40 questions, or 65% or above. The ITIL® 4 Foundation certification is an entry-level certification that demonstrates a baseline level of knowledge about service management terms, definitions, practices and concepts. The exam can be delivered paper-based or online. The ITIL® 4 Foundation certification is a prerequisite for more advanced ITIL® classes that delve into more details about service management and delivering value and improving quality and cost-effectiveness in an organization.
