# BUYER'S GUIDE TO THE 2019 JAGUAR E-PACE

If you're searching for an SUV with all the refinement, space, and features you could ever want, then you may want to consider the E-PACE. Due to its comfort-oriented features, sleek styling, and energetic performance, it's a great vehicle to get to work, run errands, or take a weekend getaway in.

However, before you can decide if this automobile is right for you, you'll need to learn all about it. Luckily, all of the need-to-know information about this impressive vehicle can be found in this *Buyer's Guide to the 2019 Jaguar E-PACE* eBook. Inside, we'll break down everything that this luxury subcompact SUV has to offer, from its design and amenities to technology and performance.

Discover just how the E-PACE could help elevate your rides around town. Then, contact your nearby Jaguar dealership to see it in person.

## ELEGANCE FROM THE OUTSIDE IN

The 2019 Jaguar E-PACE places an emphasis on modern luxury with both its exterior and interior design.

On the outside, you have all-round exterior LED headlights. Not only are they striking, but they use less energy and are designed to last for the lifetime of the automobile.

Additionally, a range of wheel options are available to enhance the sporty nature of the vehicle. There are various contemporary and dynamic designs, such as a five split-spoke style with Satin Grey diamond-turned finish, that go up to 21 inches.

Between the wheels and body color options like Caesium Blue and Firenze Red, the E-PACE will surely turn heads while on the road. However, the standout design doesn't end there.

Inside, you'll find premium materials and textures in different colors. For instance, you could get Grained Leather or Windsor leather seating in Ebony, Light Oyster, or Mars Red. Plus, you can opt for the exclusive Jaguar and cub design that's hidden in the corner of the front windshield. It's just a subtle way that the E-PACE shows off its unique character.

## CREATURE COMFORTS INSIDE THE E-PACE

Not only does the Jaguar E-PACE look good, but it's filled with an impressive array of luxurious amenities, too. Some of the available features are:

- Heated and ventilated front seats
- Heated rear seats
- Heated steering wheel

Plus, with standard dual-zone automatic climate control, you and your co-pilot can each be as warm or as cool as you'd like. With these amenities in place, you're sure to be nice and comfortable, no matter the time of year.

Power-adjustable front seats are available, too, in 10-, 14-, or 18-way settings. No matter what, you'll be sure to get into that ideal sitting position easily for all-day comfort.

# JAGUAR E-PACE TECHNOLOGIES

Furthermore, there are many high-tech features inside the 2019 E-PACE that'll help keep you connected and entertained.

The SUV comes standard with Touch™ Pro, which gives you up to four customizable home screens. Also, an interactive side panel offers further customization. With this feature, you could use the main screen area for navigation while utilizing phone options on the side panel.

Whatever way you organize your media options, you'll get fast response times. You can use voice command, too, for even more convenience.

InControl® Apps are available and let you connect your Apple or Android smartphone to the vehicle. To use, simply connect the phone via a USB cable. You can then listen to podcasts, access your calendar, and perform other functions without messing with your phone while driving.

Then, there's the available Connect Pro Package, which all passengers will appreciate. By choosing this package, you'll be rewarded with a 4G Wi-Fi Hotspot, so everybody can stay connected to the internet while on the road.

# DRIVER-ASSISTING TECHNOLOGIES

It's important to note that some of the tech found in the Jaguar E-PACE will do more than just entertain you. In fact, some features can help keep you safe on the road.

The vehicle offers a suite of driver-assisting technologies that act as a solid backup. If a potential collision is detected, these intuitive systems can step in and take over to help prevent you from getting into an accident.

Some of the features that come standard are:

- **Emergency Braking**
- **Lane Keep Assist**
- **Cruise Control and Speed Limiter**

You'll also get a standard Driver Condition Monitor. This helpful feature will detect if you're starting to feel drowsy and will send a visual alert your way. If a coffee cup icon lights up on the dashboard, then you'll want to pull over as soon as it's safe to do so. (Unfortunately, an actual cup of coffee isn't included.)

# DRIVER-ASSISTING TECHNOLOGY PACKAGES

There are several packages that you could add onto the driver-assisting technologies already included with the E-PACE.

First, there's the Drive Package, which includes Blind Spot Assist. If a car is approaching your blind spot when you go to change lanes, the system will gently steer your vehicle to guide you out of harm's way.

Then, there's the Park Package. It comes with a 360° Parking Aid that'll provide visual and audible alerts when you get too close to a car or other obstacle. It also comes with Park Assist, which will help make parking easier. You simply select the appropriate gear and control the speed, and the system will steer the E-PACE in or out of a spot for you.

## PASSENGER & CARGO ROOM

The 2019 Jaguar E-PACE comfortably seats five passengers among two rows. Therefore, you can rest assured that even taller passengers will have plenty of room to stretch out.

There's enough cargo room, too, to hold all your shopping bags, luggage, and other personal belongings. If you have people sitting in the back, then you'll have a spacious 24.2 cubic feet to work with. Fold one side of the 60/40 split rear seat down, and you can place larger items while still leaving room for a backseat passenger. Fold down both sides and 52.7 cubic feet of cargo space will be available to you.

Furthermore, an available Powered Gesture Tailgate makes it easy to access the cargo area. To use, simply place your foot under the rear bumper to open the liftgate. This feature is great to utilize when your hands are full for quick and easy loading into the E-PACE.

## A COMFORTABLE YET DYNAMIC PERFORMANCE

Once all the people and items are placed inside, you'll want to head off to your destination. Luckily for drivers and passengers, this Jaguar SUV offers a dependable performance that can help get you from Point A to Point B safely.

The vehicle offers a balanced ride and agile handling, which is great for even the most winding roads. Plus, its engine options offer the kind of power you need to get around the city or travel on the highway...

- **2.0L 4-cylinder:** 246 horsepower and 269 lb-ft of torque
- **2.0L turbocharged 4-cylinder:** 296 horsepower and 295 lb-ft of torque

Aluminum chassis components are what improve suspension performance by increasing rigidity. Then, a fully independent suspension system with a multi-link rear suspension design will increase ride comfort, allowing you to spend all day cruising on the road, if you'd like.

The E-PACE comes standard in All-Wheel Drive. With this system in place, torque is evenly distributed between the wheels to give maximum traction on even the slickest surfaces. Then, All-Surface Progress Control acts as a low-speed cruise control to help keep a safe distance from the car in front of you when the weather is bad.

# TEST DRIVE A 2019 JAGUAR E-PACE

Now that you know all about the 2019 Jaguar E-PACE, it's time to experience it for yourself. Contact your local Jaguar dealership and ask to take this luxury subcompact SUV on a test drive. Pretty soon, you'll be driving around town in this stylish and feature-rich automobile.
