DERMAROLLER >>

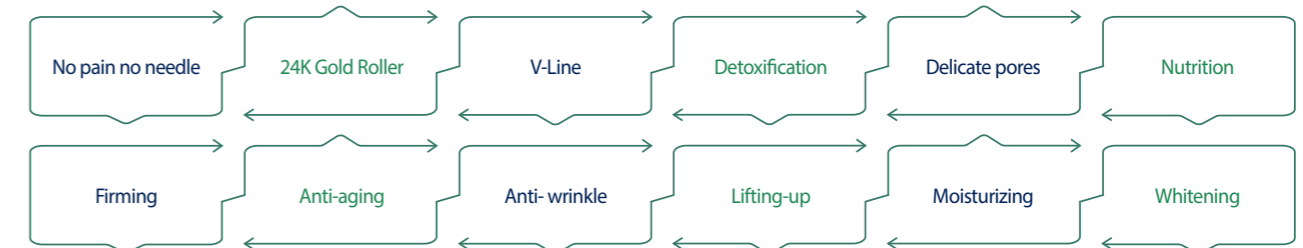

Patent No. 10-0886492
Certificate of Utility Model Registration No. 20-0422231
Trade Mark Registration No. 0638563

DERMAROLLER (DR-A)

With electroporation technology Dermaroller penetrates safely, easily into deep tissues nourishment such as Collagen, Hyaluronic acid, Oligo-Nucleotide, Peptide, and natural extract ingredients, no pain and no needles. Electroporation (EP), non-chemical mean enables to permeate various good cosmetic substances into the deep tissues (Dermis) without changing biological cell structure and function resulting in remarkable skin treatment.

Effect

DERMAROLLER™ EP Electroporation

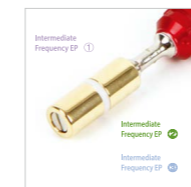

Portable device helps skin to maximize absorption of cosmetic components into deep tissues.

DERMAROLLER™ MP Mesoporation

No needle, No pain technology makes cosmetic components penetrate without pain and stress

DERMAROLLER™ EMS Electrical Muscle Stimulation

Makes vitalizing skin tissues with contracting muscles.

Dermaroller™ 3 in 1 Mode

Bipolar system application: Self-treatment or for others.

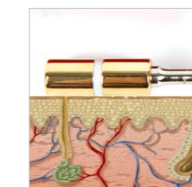

1 Button for all 3 mode

Only 1 button for all 3 mode of EP.
Compact and smart design, easy use and convenient storage.

Fine Lines & Skin Treatment

Unipolar system application: Fine lines and skin treatment.

NNN™(NO NEED NEEDLE)Technology

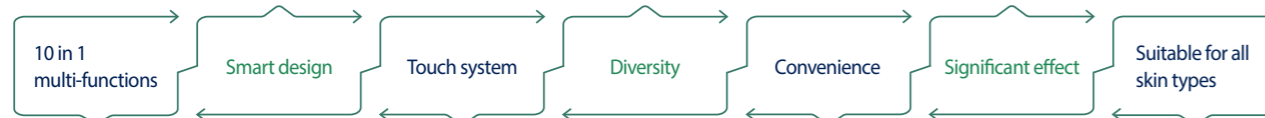

Enable to use for all skin types.
Opening channels temporarily to permeate cosmetic components into the skin tissues.

AM101 >> Touch Screen 10 in 1 Multi-functional Beauty Machine

AM-101 is one machine assembling ten functions in one with the latest touching screen technology, composed by three part: Ozone hot spray, LED photon light and multi-function devices like ultrasonic skin scrubber, acne vacuum suction, nutrition spray, high frequency wands, red light ultrasonic probe, magnetic resonance thermal Hammer, galvanic skin booster, blue light cold hammer. The spray steamer is adopted a wide-angle design and the spray arm and spray port can be adjusted as required. It also can detect malfunction automatically from long overuse. AM-101 has a controlling touching screen, each function has its own connecting jack and accessories which contributes cost effective and advantage of this machine. Furthermore, convenient accessories storage and wheels for easy moving makes your beauty salons and clinics more competitive and elegant.

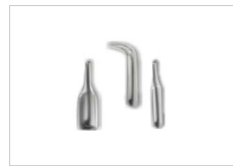

Advantage

LED Light – 4 colors

 Red	 Green	 Blue	 Comprehensive
Anti-aging Cell regeneration Skin elasticity	Skin Balance Purification Limp Removal	Acne Flushing	Daily care with red Blue and green synthesis

Accessories

			
Ozone spray steamer	LED photon light	Ultrasonic skin scrubber	
			
Acne vacuum suction	Nutrition spray	High frequency wands	
			
Blue light cold hammer	Galvanic skin booster	Magnetic resonance thermal hammer	Red light ultrasonic probe

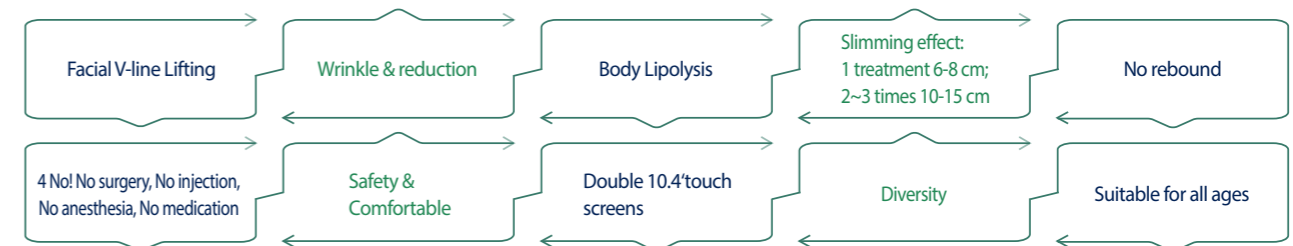

Ulderma Plus HIFU >> Facial Lifting & Body Lipolysis System

Ulderma Plus HIFU (Facial Lifting & Body Lipolysis System)

Ulderma Plus HIFU is a new type of advanced medical beauty equipment. It uses non-invasive high-intensity focused ultrasound (HIFU) technology to combine facial lifting and Lipolysis dual systems in one machine. By releasing HIFU, it penetrates into the deep SMAS (Superficial Muscular Aponeurotic System) and subcutaneous fat cells, transfers heat energy to create a double effect. It can perfectly achieve cosmetic lifting, wrinkle reduction and obesity improvement without any traditional invasive surgery or injection. Suitable for all skin tones and people of all ages.

Advantage

Accessories

• Body

※ Each cartridge rated for 600 shots (576 dots for 1 shot)

				
0.6cm(Optional)	0.8cm(Standard)	1.0cm(Optional)	1.3cm(Standard)	1.6cm(Optional)

Handpiece

• Face

※ Each cartridge rated for 10000 shots

		
1.5mm(Standard)	3.0mm(Standard)	4.5mm(Standard)

Handpiece

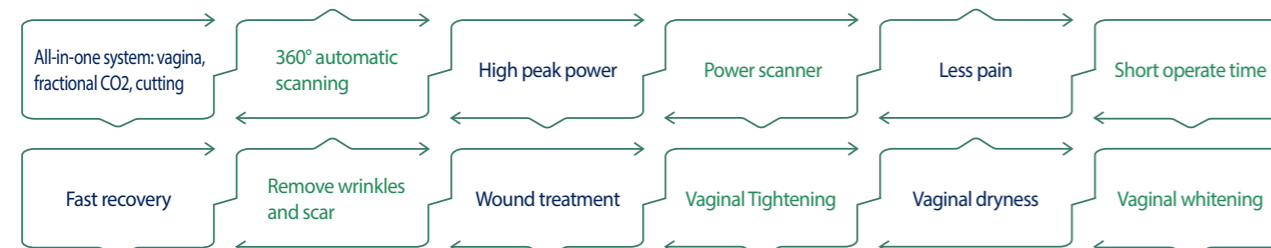

ULDERMA IV Fractional Laser >> Vagina, CO2, Cutting 3 in 1 System

Ulderma IV Fractional Laser produces a micro-unit of infrared beam, instead of selective destruction by color, to eliminate lesions between the normal cells minimizing damage to skin and leaving the normal cells safely, consequently leading to short down-time and quick cell regenerating like a laser scaling. It brings amazing effect to treat pores, acne scars, stretch marks, various wrinkles, sagging skin, surgical scars, and eliminate dark spots etc.

Ulderma IV has the latest RF tube, and its hand piece can be exchanged for various purposes allowing for both CO2 fractional laser and ultra-pulsed CO2 laser procedures. It is an advanced conceptual device to improve and alleviate Women's Vaginal and trouble by stimulating collagen within vaginal mucous membranes via its SUI (Stress Urinary Incontinence) and VR (Vaginal Rejuvenation) handles, which makes vaginal canal more elastic and improve symptoms of urinary incontinence and other lesions in the vagina (vaginitis, vaginal dryness, etc.).

Advantage

AMA FILLER BEFFI-DEW

Beffi Dew Filler Special- I

Application: Nose

Best of all the Beffi Dew Filler Product Line products, the highest viscosity, and the largest particles. In addition, Multi-Cross Linking enhances skin resilience and durability. The main treatment areas are best suited for the Nose Dosai application, but are also used for forehead, nose, nasolabial fold, jaws, soft tissue, and others.

Beffi Dew Filler Special- V

It is a Premium-class product among Beffi Dew Filler Product Line with a high viscosity and particle size. Multi-Cross Linking enhances skin resilience and durability. The main treatment areas are used to increase the volume of the Nasolabial mold, lips and soft tissue.

Application: Nasolabial fold, Wrinkles

Beffi Dew Beauty

Application: Eye wrinkles, Lip fine wrinkles

It is the product of a Popular Line among Beffi Dew Filler Product Line. It is product with high viscosity, has excellent cohesion, low particle size and good molding. Thus it can be used in any area and it is mostly used for Eye Wrinkles, Fine Wrinkles treatments. This product can be also applied to various areas such as forehead, middle of the forehead, temple, nose, balls, chin, wrinkle and deep wrinkle line improvement.

* Application: Eye wrinkles, Lip fine wrinkles

Beffi Dew Star

Application: Water shine

It is the product of a Popular Line among Beffi Dew Filler Product Line. Its hyaluronic acid particles are very fine, and it has higher durability than other products and has high hydrophilic capacity. Thus, it provides effectively hyaluronic acid to the skin, so it prevents aging of the skin, maintain elasticity and moisturizing power for a long time, and minimize discomfort after treatment.

Beffi Dew Happy

Application: Urology - Corium/Vagina

Beffi Dew Happy is used in a Urology, and the main treatment area is mainly used for male genital dermis and female vaginoplasty

Beffi Dew Secret

Application: Urology - Glans/Vagina

Beffi Dew Secret is used in a Urology, and the main treatment area is mainly used for male genital glans penis and female vaginal shrinkage.

Application: Hair growth

Beffi Dew Filler BeFull Hair

Patent: Hair Filler Composition for Hair Loss Prevention and Hair Growth, and Manufacturing Method thereof. The patent covers the composition and manufacturing method of the hair filler for hair loss prevention and hair growth.

The functional cosmetics products of Amaros Co., Ltd., which is partnered with JNL, have the greatest synergistic effect when used with JNL's equipments.
