GRADUATION

John Dewey High School, 90 Avenue X
Principal, Sol Levine

A PEDAGOGIC CREED

I Believe that

- the only true education comes through the stimulation of the child's powers by the demands of the social situations in which he finds himself.
- the child's own instincts and powers furnish the material and give the starting-point for all education.
- to prepare the child for the future life means to give him command of himself; it means so to train him that he will have the full and ready use of all his capacities.
- education is a process of living and not a preparation for future living.
- the best and deepest moral training is precisely that which one gets through having to enter into proper relations with others in a unity of work and thought.
- thinking is the method of intelligent learning, of learning that employs and rewards mind.
- only by being true to the full growth of all the individuals who make it up, can society by any chance be true to itself.

SENIOR SONG

"If You Believe" by Charlie Smalls

If you believe
Within your heart you'll know
That no one can change
The path that you must go.

Believe what you feel
And know you're right because
The time will come around
When you'll say it's yours.

Believe there's a reason to be
Believe you can make time stand still;
And know from the moment you try.
If you believe, I know you will.

Believe in yourself right from the start
Believe in the magic that's inside your heart
Believe all these things
Not because I told you to

But believe in yourself
If you believe in yourself
Just believe in yourself
As I believe in you.

Believe there's a reason to be
Believe you can make time stand still;
And you know from the moment you try.
If you believe, I know you will.

Believe in yourself right from the start;
And you will have brains
And you'll have a heart
And you will have courage to last your
Whole life through.

If you believe in yourself.
If you believe in yourself.
If you believe in yourself.
Maybe you can believe in me too.
