#### THE FINE PRINT

Sale prices in our monthly sales flyers are effective on orders placed within the dates indicated on the magazine cover. These sale prices are not based on the date when your order is delivered. We do our best to distribute sales magazines to each route prior to the beginning of the sales month, but it is our customers' responsibility to place an order during the month in which they plan to receive the sale prices.

To avoid receiving incorrect sale prices, please indicate on your fax, website order or mailed order the exact sale price intended and the month of that sale, especially when your order deadline comes near the first of the month when the sales change. **Please Note:** When placing an order just before the sale prices expire, please ensure that your order arrives in

sufficient time to be processed before Azure closes on the last business day of the calendar month of the sale. Azure honors sale prices during the dates in which the sale is active.

- Prices subject to change without notice. Although we do our best to keep prices at the published price, we reserve the right to change prices at any time.
- We will not be held responsibile for typographical errors and will not be obligated to honor misprinted prices.
- $\bullet$  We make every effort to keep all sale items in stock, but sale prices only apply as quantities last. No rainchecks will be issued for out-of-stock items.

# MADE WITH LOVING CARE

# The Story of Our New, Homemade Egg Noodles

By Megan Hopkins

oup, casserole, stroganoff. Egg noodles show up in the most comforting of Comfort foods. These dishes are made to be enjoyed and prepared with love. That's why it was so important for us to get our new homemade egg noodles right.

# Organic Wheat

durum wheat berries. We chose a supplier that we trust in North Dakota: Park Place Farms. They have been growing organic wheat for decades, and we can get it fresh.

# Unifine Mill

The flour is the most important ingredient in pasta, so we wanted to process the wheat berries into flour ourselves using our own Unifine mill in our certified-organic facility. We can use our Ultra-Unifine process to mill soft, fine wheat flour with a high nutrient content. This will make nutritious We started with high-quality organic noodles that are also smooth and tender. Plus, the flour will be protected from nonorganic contamination. (You can purchase this Organic Ultra-Unifine Semolina flour for your own kitchen! It's item FL430)

#### **TASTE THE DIFFERENCE!**

See purchase options on page 9.

#### WHAT'S FOR DINNER?

# Greek Meatballs in Creamy Yogurt Sauce

1 lb. ground lamb MT131 1 tsp black pepper HS604 2 eggs DP145 1 large onion, chopped QP018 1/2 C broth GY789 1 bread slice, crumbled FG236 1 TBS parsley flakes HS603 1 English cucumber, finely

1½ tsp salt BP110 chopped

1 tsp paprika HS818 1 C sour cream DP006 1 tsp mustard powder HS600 1 pkg Egg Noodles

- Mix lamb, eggs, bread and spices until well combined. Form into 1½-inch balls.
- Place in a hot, lightly-greased, large skillet. Cook over medium heat a few minutes until lightly browned, then flip.
- Add chopped onion, pushing it down in the cracks between the meatballs. Cover and cook 20 minutes over low heat. When meatballs are cooked through remove from the skillet.
- Cook noodles according to package directions.
- Keeping onions and pan juices in the skillet, add broth and bring to a boil. Turn off heat and add sour cream and cucumbers. Stir to
- Add salt and pepper to taste. Serve sauce over meatballs on a bed of

# Happy Hens

A crucial component to the egg noodles are eggs, and a crucial component to eggs are chickens! We chose to get our eggs from chickens on an organic farm where they are free to roam and are fed a natural diet. The farm is located in Washington, a quick trip from the noodle kitchen so the high-quality organic eggs will be fresh when they're used in our pasta.

# Putting the Home in Homemade

Finding a kitchen to create our egg noodles was easy. Azure customers had already alerted us to the exceptional pasta coming out of a shop in Northern Idaho called Tasty Traditions. It's part of a beloved family-owned operation known as The Gathering Place that also includes a store and bakery.

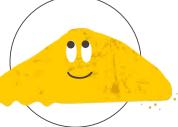

# Simple is Better

Water, wheat, eggs and a little coordination were really all there was to it. No factories, no unnatural practices, no shortcuts. When we've got good relationships with people who care, we can produce better food. We hope your family will enjoy this wholesome new pasta option as much as we do!

# **DURUM WHEAT**

Our wheat grows up in North Dakota on an organic family farm.

# **ULTRA UNIFINE FLOUR**

The wheat is trucked to Oregon where it's carefully milled into flour and then sifted for maximum nutrient retention.

### DOUGH

Then it's back over to Northern Idaho where the flour is combined with organic eggs from Washington and shaped into noodles.

### **PASTA**

The finished noodles are sent back to Oregon where they're packaged and prepared for their final destination: your kitchen.

From the fields of North Dakota, our wheat travels to Oregon for processing into flour. From there, it's on to Idaho where it joins eggs from Washington to become noodles. The final product returns to Oregon.

### Rhubarb Custard Cake

Andrea Klingenberg

I love how fast this recipe is to throw together and get into the oven. It's simple and mess-free to make yet it is a real homey, comfort food kind of dessert. The moist cake with bits of rhubarb tang and creamy custard flavor is delicious warm or cold.

# Fresh Cherry Rhubarb Pie

Andrea Klingenberg

This cherry rhubarb pie is full of refreshing zing and flavor that sings of summer! We really enjoy the sweetness of cherries mixed with the tartness of rhubarb. Serve a slice of pie with a scoop of vanilla ice cream and you will have everyone begging for more!

#### INSTRUCTIONS

- and water.
- mixed. For a flaky pastry, don't overmix. You want the dough just firm enough to be workable.
- 3. Divide dough in half and roll between parchment paper. Place one half in the bottom of a 9-inch or 10-inch pie pan.
- 1. Mix pastry flour and salt together. Add coconut oil 4. Place all the filling ingredients in the pastry-lined
- 2. Stir wet and dry ingredients together just until 5. Cover with the top pastry. Cut some vent holes in the top and flute edges.
  - 6. Place in a 350 degree oven for approximately 1 hour or until filling is bubbling at the edges. Let the pie cool to set up before serving.

#### Cream Cheese and Tomato Omelette

Andrea Klingenberg

With so many styles and methods of omelette making out there, you could easily be overwhelmed thinking about which one to try. I'm sharing with you the simple skillet omelette method which uses steam to fluff it up. My grandmother was a restaurant owner and she was famous for her omelettes which she made using this method! It is super easy and the results are delicious.

#### INGREDIENTS

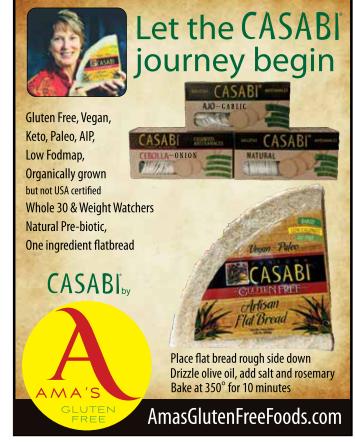

| 2 large | or <b>3</b> small eggs | DP086 | 1/4 C  | CHOPPED TOMATO | GP147 |
|---------|------------------------|-------|--------|----------------|-------|
| 1 TBSP  | CREAM                  | DP076 | 2 TBSP | GRATED CHEESE  | CH270 |
| ⅓ TSP   | SALT                   | BP112 |        | BUTTER         | DP051 |
| 2 oz    | CREAM CHEESE           | CH274 |        | WATER          |       |

#### **INSTRUCTIONS**

- Beat eggs, cream and salt. Spread a layer of nonstick grease over a large 12 inch skillet. If your skillet is smaller, you may divide this into two omelettes.
- Melt a bit of butter in your pan, then pour the egg mixture in, keeping the heat medium-low.
- 3. When you see the egg starting to set, quickly spread small chunks of cream cheese down the center third. Sprinkle with tomatoes and grated cheese. With a large spatula carefully flip one side of eggs over the toppings to the center, then flip the other side over.
- 4. Pour about 1 TBSP of water onto the hot skillet beside the omelette to make steam. Quickly set a big lid over it to trap the steam. Let it steam for about a minute for cheeses to melt and eggs to fluff and soften.
- 5. Serve hot with any side desired, such as fried potatoes, toast, or fruit.

NOTE: We love this simple cream cheese and tomato omelette with fresh garden tomatoes. We also love to add in different vegetables to add variety such as zucchini, spinach, onions, mushrooms, basil, chives, peppers, beans, or salsa.

# My Favorite Product

Ginny Gregory, Azure Standard Wholesale Sales Manager, Western Region

We have so many quality organic products, but one does stand out for my family and I: **Azure Market Organics Pancake & Waffle Mix**. Multi Grain, Buckwheat and Buttermilk all include our Unifine flour and non-aluminum baking powder in the mix. The Unifine flour creates an extra light and fluffy pancake while retaining 80% of the grain's nutrients. There are so many great things you can top them with like our organic carob, blueberries, or maybe try our organic grade A dark robust maple syrup on them for even more organic goodness.

Azure Market Organics Maple Syrup, Grade A Dark Robust, 32 fl oz, SW018 \$18.32

Azure Market Organics Pancake Mix, 27oz Buttermilk, BM025 \$4.95 Multigrain, BM027 \$4.95 Buckwheat, BM029 \$3.94

# Apple Cider

I grew up in a house in which half the time my little dirty nose would R.W. KNUDSEN come through the door to be greeted with

some kind of bubbling concoction on the back of the stove. Some days it was vegetable soup or hot milk, but without a doubt my favorite thing to see gently steaming,

spring or fall, was the three gallon pot of Apple

Cider; it always meant a cozy evening

for us. Now Knudsen Juice is literally producing that cozy feeling in glass bottles. You don't need a mug to enjoy this delicious Cider and Spice Blend.

# AIP Broth

Hats off to the chef! This Chicken Broth is tasty broth from The Flavor Chef has been simmered for 18

hours with highquality veggies, herbs and, yes, you guessed it, chicken bones. All of these nutritious and delicious foods are boiled down into a broth that's worth it's weight in marrow. This Autoimmune Protocol

specifically designed for those on the AIP diet, eliminating

> the herbs that might

irritant or inflammatory, in order to reduce symptoms of autoimmune responses. Check out this broth and more from the Flavor Chef on the Azure website.

# SEASONAL LIVE PLANT STARTS FOR YOUR GARDEN

### Dear Loyal Customers,

April showers bring May flowers, right? Well they sure have on Azure farm. Every inch of the farm is bursting with new life. Our greenhouses are full of plants expectantly waiting to be put in the rich soil of your garden beds. I love the excitement that this time of year brings.

Our greenhouse team is tenderly and attentively caring for each of these beautiful plants. We believe in the lofty impact of your home garden, and we thank you for making our family part of it.

One of our favorite new items that you may not have seen in our previous sales flyers is organic Comfrey starts! Kimberly Stelzer and her children dug up the roots from their family patch and have been so delighted to see the starts take off. Comfrey is always a favorite of ours for adding to green smoothies and it has so many benefits.

As you walk through your garden this summer, make sure you snap a few pictures for us! We'd love to see what our Azure Family is growing in their gardens.

Bethany Joy Stelzer, Ellie's mom

Ellie's Eden live plant starts are organic and non-GMO. They are available for purchase beginning March 18, 2019. Plants travel by truck in a dark box so we encourage gardeners to open the boxes and let them acclimate gradually before planting. Due to Department of Agriculture regulations, we are unable to ship tomatoes, peppers or eggplant to California.

Ellie's Eden plants are guaranteed to arrive in good, live condition. If you notice damage to your plants due to freezing on the truck or stems of plants broken in transit, please notify Azure Standard customer service within 24 hours of delivery for credit. Ellie's Eden does not credit plants that die after being placed in the ground. For more information, email starts@azurefarm.com.

#### MycoGenesis (Mycorrhizae & Microorganisims) OMRI Listed

1/2 Gram for a 4" pot and 1 Gram for larger sized pot. Enough for 100- 200 plants. What is Mycorrhizal Fungi? These fungi receive sugars from the plant, and in return, aid the plant in the uptake of water and nutrients in the soil. The Mycorrhizal fungi form branch-like structures called hyphae, which extend the surface area of root hairs to provide greater access to resources available in the soil. Hyphae are smaller than root hairs, and therefore able to penetrate further into the soil to seek out minerals and moisture. When the resources in the immediate area are depleted, the hyphae simply extend further into the soil to find new supplies. With the increased usable surface area provided to the plant by the Mycorrhizal fungi, the plant has greater access to the nutrients present in the soil; and by adding the blend of plant growth promoting microbes, those nutrients are broken down through enzymatic action, facilitating easier uptake by the mycorrhizal fungi. The soil bacteria also benefit from the enzymes secreted by the mycorrhizal fungi. A symbiotic relationship is formed wherein plant, mycorrhizal fungi and bacteria all benefit and flourish.

| Туре                   | Definition  |  |
|------------------------|---|--|
| (OP)- Open Pollinated  | A non-hybrid variety; one that can reproduce itself in kind.  |  |
| (HR)- Heirloom         | An old variety that owes its present availability to the seed saving efforts of amateurs.   |  |
| Annual                 | A plant that germinates, produces seeds, and dies in one year. It may self-sow, thereby giving the impression of being perennial.   |  |
| Biannual               | A plant that germinates, produces seeds, and dies in two years; usually but not always producing flowers only the second year.  |  |
| Perennial              | A plant that persists more that two years in the zones specified, but does not bloom the first year and thus cannot be grown as an annual.  |  |
| Tender Perennial       | (Some perennials may be called a "tender perennial" in which case it may persist more than two years in the zones specified and blooms the first year, allowing it to be grown as an annual elsewhere.) |  |
| Determinate Tomatoes   | A bush type tomato that grow to a certain size and then put their energy into ripening fruit. Fruits ripen over a more concentrated period of time, allowing for 1 or 2 more harvests.                  |  |
| Indeterminate Tomatoes | A vining type tomato that continues to grow until frost. They usually have better flavored fruit but require more effort to trellis and prune. They will bear fruit continually until frost.            |  |
| Hybrid                 | The offspring of a cross between two or more varieties, usually of the same species. (An F1 hybrid is a first generation offspring)   |  |

# Digest with Comfort\*

Devigest ADS (Advanced Digestive Support) promotes comfortable and complete digestion of all foods. An excellent formula for anyone who has trouble with gluten, dairy and/or high fiber, gas-promoting foods.\*

# Assimilate More Protein\*

Aminolase TPA (Total Protein Assimilation) allows users to easily digest 99% of their dietary protein compared to the average 20%. Unused protein can cause gas, bloating, and the formation of toxic ammonia gas.\*

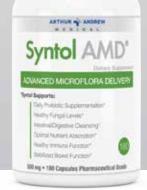

# Purify the Blood\*

Neprinol AFD (Advanced Fibrin Defense) purifies the blood of decayed cells, fibrin, fatty proteins and other toxic materials. Neprinol is recommended for everyday aches and pains and complete cardiovascular health.\*

#### Urinary Tract Support\*

Did you know that most UTIs are caused by specific bacteria that we consume in our foods every day? Floraphage supports normal urinary tract health by neutralizing these same bacteria, turning them into food for all beneficial microflora (probiotics).\*

#### Cleanse Excess Yeast\*

Syntol AMD (Advanced Microflora Delivery) is an extremely gentle yeast cleanse and daily probiotic.\* Syntol is able to cleanse the body without the detoxification symptoms very commonly associated with probiotic and yeast cleansing products.\*
