WELCOME

TO NEW ENGLAND OUTDOOR CENTER

What's different about a New England Outdoor Center vacation in Maine? For one, there's our philosophy about enjoying the outdoors...

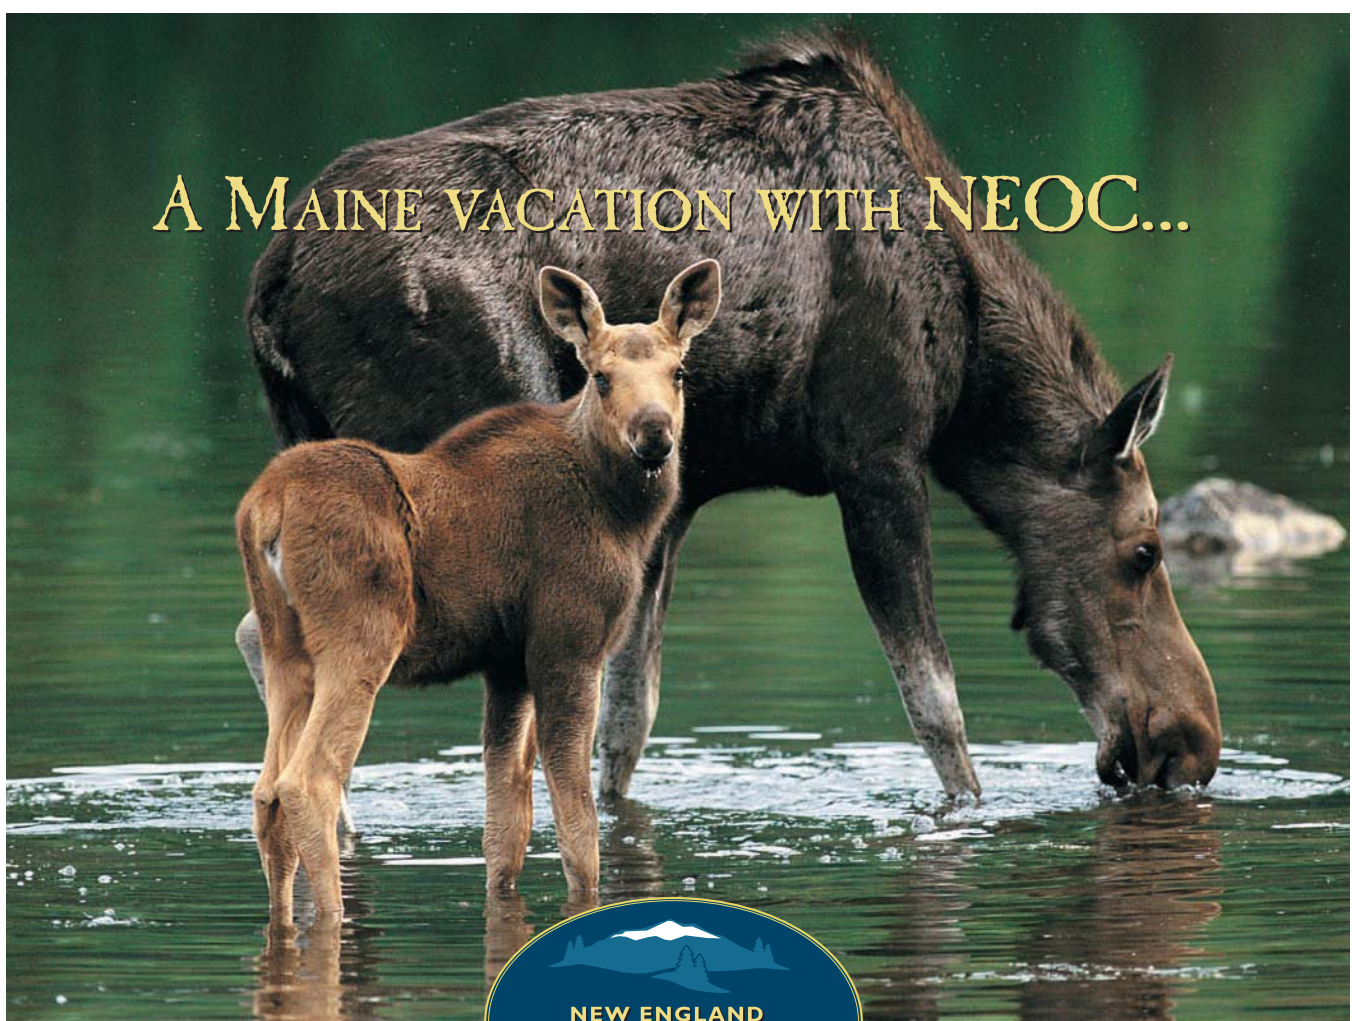

We believe there's more to whitewater rafting than rafts and rushing water... More to snowmobiling than snowmobile trails and sleds... And more to taking a moose tour than seeing the magnificent creature that meets the eye.

We believe the quality of outdoor experiences comes not just from nature itself, but also from the people you come into contact with while you enjoy it. So, while our guides and staff are certainly knowledgeable, they're also friendly, fun people to spend the day with. Our hope is for you to come away from whatever outdoor adventures you choose, feeling enriched on all levels.

KTAADN RESORTS

IN HARMONY WITH NATURE

RESORT WITH A VIEW

In the fall of 2006 we submitted an application with the State of Maine's Land Use Regulation Commission to begin the permitting of KTAADN RESORTS, In Harmony with Nature. This project, on 1450 acres of land on the shore of Millinocket Lake and two gentle ridges, also includes an expansion and redevelopment of Twin Pine Camps. Designed to break new ground in resort development in Maine and beyond, Ktaadn Resorts seeks to balance the creation of an amenity-rich resort and community with environmental stewardship and sustainability. The completion of the permitting, expected in the summer of 2007, will pave the way for a high value development project designed to maximize the value of the unique and rich resources in the region, at the same time that it provides the key to unlocking a more prosperous and sustainable future for the area and its people.

For our guests, the phased development of Ktaadn Resorts will allow us to steadily and logically diversify and expand our amenity base at the same time that it allows us to dramatically increase the scope and number of outdoor activities and outdoor themed programming we offer. If you would like to be kept informed of our progress on this unique resort and real estate project, please email Matthew Polstein at Matt@neoc.com

COMING SOON... 1,450 ACRES OF RESORT FUN

We have long known that the Katahdin Region is rich in high value natural resources that include vast, well managed working forests, abundant clear lakes, rugged mountains, gently flowing rivers and heart pounding whitewater; not to mention the wildlife and educational/recreational opportunities that these resources collectively support. It is also a region in the midst of serious economic turmoil as it transitions from almost exclusive dependence on a timber and paper making economy to a more diversified economic base.

*Majestic Beauty... Forever Wild
Spectacular views will abound for all to see at KTAADN RESORTS.*
