

Key Industries

Protecting people, crops and native species.

**ENVIRONMENTAL
PEST MANAGEMENT**

Product Catalogue

Key Industries is a proud supporter of the following conservation groups:

NEW ZEALAND
FAIRY TERN
CHARITABLE TRUST
TARA•ITI

Formed by concerned community people and ornithologists in 2008 with the aim of ensuring the survival of the Fairy Tern to preserve part of NZ's biodiversity. With a population of approximately 40 birds, *Sternula nereis davisae*, the New Zealand fairy tern, (NZFT) is New Zealand's rarest endemic breeding bird.

The Endangered Species Foundation of New Zealand (ESFNZ) is a registered charitable organisation supporting high-priority conservation projects that protect New Zealand's most vulnerable indigenous species and habitats from extinction.

Formed in 1923, Forest & Bird has about 70,000 supporters in 50 branches that work on a variety of conservation activities, from re-forestation to lobbying, bird monitoring to weed-busting.

About Us

Key Industries is New Zealand's leading pest control supply company.

Established in 1987, Key Industries is a family owned, New Zealand company that specialises in agricultural, horticultural and pest control products. Our aim is to help New Zealanders control the pests that endanger our native species such as possums, rabbits, rats and other pest animals.

We are committed to developing less harmful, more humane products, and pride ourselves on bringing the latest, top quality products to New Zealand. Products that are deadly serious in their efficacy on pests, yet environmentally safe, ecologically sound and less harmful to pets, children and native species.

Our team of technical experts at Key Industries have a passion to restore our native wildlife back to something of its former glory. We aim to achieve this through the control of introduced pests and value sharing both practical application techniques along with product technical data to see customers gain better results in the field.

I hope you will share the passion of our company's vision as we provide you with your pest control product requirements.

Visit us at our Auckland showroom, call us on 0800 539 463 or visit our website at www.keyindustries.co.nz.

Regards

Frank Visser
Managing Director

PINDONE, THE SAFER BAIT OPTION

Pindone is an anticoagulant bait lethal to rabbits, possums and rats.

While deadly to rabbits and rodents, Pindone Bait is less hazardous to non-target species as a great deal of Pindone would need to be consumed for them to suffer poisonous effects.

Pindone Bait reduces the clotting power of blood causing internal haemorrhaging. Although it will take several days and several consumptions to reach a lethal dose, once reached, death is swift and painless.

This is because Pindone Bait is considered a first generation anticoagulant. Rather than having a lethal dose in a single ingestion, Pindone requires multiple ingestions over consecutive days to accumulate a lethal dose.

RODENTICIDAS & VTAs

Pindone Possum & Rat Pellets

A cereal based, first generation anticoagulant pellet designed for the control of possums and rats. Less hazardous to non-target species. Suitable for use in bait stations.

VTA-PDPR02 2kg
VTA-PDPR10 10kg
VTA-PDPR25 25kg
VTA-PDPR50 500kg

Contains Pindone

Pindone Possum & Rat *Prefeed* Pellets

A non toxic pellet used to familiarise animals with the Pindone pellets prior to the introduction of toxic Pindone pellets.

VTA-PDPF25 25kg

Does not contain Pindone

Pindone Rabbit Agtech Pellets

A cereal based, first generation anticoagulant pellet designed for the control of rabbits. Less hazardous to non-target species. Suitable for use in bait stations, ground or aerial application.

VTA-PDR02 2kg
VTA-PDR10 10kg
VTA-PDR25 25kg
VTA-PDR500 500kg

Contains Pindone
CSL Required
Exemption for Bait Station use

Pindone Rabbit RS5 Pellets

A sweeter, maize based, first generation anticoagulant pellet designed for the control of rabbits. Less hazardous to non-target species. Suitable for ground or aerial application.

VTA-PDRS5 25kg
VTA-PDRS50 500kg

Contains Pindone
CSL Required

Pindone Rabbit RS5 *Prefeed* Pellets

A non toxic pellet used to familiarise animals with the Pindone pellets prior to the introduction of toxic Pindone pellets.

VTA-PF55 25kg
VTA-PSF50 500kg

Does not contain Pindone

Pindone Liquid Concentrate

A first generation anticoagulant liquid concentrate designed for the control of rabbits. Less hazardous to non-target species. Suitable to apply to carrots or oats, for ground or aerial application.

VTA-PDL05 5L

Contains Pindone
CSL Required

Contrac Blox

A single feed, second generation anticoagulant rodenticide. 28g rectangular block baits.

VTA-CON18 1.8kg

VTA-CON08 8kg

Contains
Bromadiolone

Contrac Rodent Super Blox

A single feed, second generation anticoagulant rodenticide. Large 225g rectangular block baits.

VTA-CONSB2 2x225g

VTA-CONSB9 40x225g

Contains
Bromadiolone

Ditrac Rodent Block

A multi-feed, first generation anticoagulant rodenticide. 28g rectangular block baits. Active ingredient of choice for Department of Conservation.

VTA-DIT18 1.8kg

VTA-DIT 8.2kg

Contains Diphacinone

Ditrac Rodent Super Block

A multi-feed, first generation anticoagulant rodenticide. Large 450g rectangular block baits.

VTA-DITSB4 1x450g

VTA-DITSB9 20x450g

Contains Diphacinone

Final Rodent Blox

All-weather rodent bait blocks, 25g each. A powerful, effective, single feeding bait with the strongest anticoagulant available on the market today.

VTA-FIN8 8kg

Contains Brodifacoum

First Strike

A special 10g sachet that allows aroma to escape to attract rodents and encourage feeding. Highly palatable for mice and rats even when competing food is available.

VTA-FIRST 5.5kg

Contains Difethialone

Magtoxin Pellets

A ready to use, HIGHLY TOXIC, fumigant pellet packed in aluminium flasks for treating rabbit burrows.

VTA-MAG01 100g

VTA-MAG1 1kg

Contains Magnesium Phosphide developing Phosphine gas

Maki Block Original

A single feed, second generation anticoagulant rodenticide. 20g multi edged rectangular blocks, mould and moisture resistant.

VTA-MAKU75 7.5kg

Contains Bromadiolone

Maki Block Wrapped

A single feed, second generation anticoagulant rodenticide. 20g rectangular blocks, wrapped in thin plastic for extra protection from snails and weather, mould and moisture resistant.

VTA-MAKW55 5.5kg

Contains Bromadiolone

PestOff Possum Bait

A raspberry flavoured, green coloured, second generation anticoagulant pellet for control of possums.

VTA-PBBR10 10kg

Contains Brodifacoum

PestOff Waxed Possum Bait

A wax and lure coated possum pellet specifically designed for use where bait station servicing is less regular or where atmospheric moisture is a problem. The wax coating keeps the pellet fresher for longer.

VTA-PBBW10 10kg

Contains Brodifacoum

PestOff Rodent Blocks

Blue coloured, second generation anticoagulant rodenticide. 28g rectangular block with hole for securing in bait station. Chocolate flavoured, highly palatable.

VTA-PBRB10 10kg

Contains Brodifacoum

Provoke Mouse Attractant Gel

A food based gel specifically formulated to entice mice to traps. Water soluble, non toxic and hypo-allergenic, it can be used in a variety of locations eg schools, food production plants.

VTA-PROVM 56g

Provoke Rat Attractant Gel

A specifically formulated attractant to meet the unique behavioural characteristics of rats, particularly their sense of smell. Provoke provides a blend of scents and smells that Norway and Roof rats find irresistible.

VTA-PROVR 224g

TRAPS

Cat & Possum Cage Trap - 1 Door

A one door, stainless steel, non collapsible cat or possum cage trap made in Australia. The trap can be baited with an apple for possums or meat or chicken for cats.

TR-CPTRS1 1 Door

Dimensions:
305x305x610mm
(WxHxD)

Cat & Possum Cage Trap - 2 Door

A two door, stainless steel, plate operated, non collapsible cat or possum cage trap made in Australia. Specialised for catching feral cats, as used by councils and landcare groups. Can be baited with apple for possums or meat or chicken for cats.

TR-CPTRS2 2 Door

Dimensions:
305x305x710mm
(WxHxD)

Trapinator Kill Trap

A specifically designed trap for possums and feral cats, developed in conjunction with the Department of Conservation. Light, durable, portable, effective, safe, sanitary and easy to use.

TR-PTKT

DOC 200 Box Trap

A specially designed H3 treated wooden box housing developed for the DOC Kill Traps. Designed to exclude non-target species, protect the trap and provide public safety.

TR-DC2SB

DOC 200 SS Kill Trap

Designed for medium sized predators such as stoats, larger rats and hedgehogs. To be used with the DOC 200 Box Trap. Also available in a zinc coated model (less expensive, but also less durable).

TR-DC200SKT

DOC 250 Box Trap

A specially designed H3 treated wooden box housing developed for the DOC Kill Traps. Designed to exclude non-target species, protect the trap and provide public safety.

TR-DC25BO

DOC 250 SS Kill Trap

Targets and humanely kills ferrets, stoats, rats and hedgehogs. Most recommend for ferrets. To be used with the DOC 250 Box Trap. Also available in a zinc coated model (less expensive, but less durable).

TR-DC25SKT

Clamp Pressure:
12kg approx

Set Pressure:
22kg approx

Setting Tool DOC 200/250

A setting tool for the DOC 200 and DOC 250 Kill Traps.

TR-DCTOOL

Fenn Trap Double Tunnel

A cover that can accommodate two traps. These covers are great for preventing native wildlife such as Weka and Kiwi or small children gaining access to the bait and/or trap. Use with an MK4 Fenn Trap.

TR-FENTCD

KBL Tunnel Trap

Designed to attract and kill ferrets and stoats. Fresh meat or smoked fish or salmon ferret lure work well, as do chicken heads. The small access hole in the front of the trap will stop cats and dogs from entering.

TR-KBLTUN

Timms Possum Trap

A trap designed to capture and kill possums. Use with apple as a bait. Can be modified to trap feral cats by enlarging the entry hole and using chicken or meat as a bait.

TR-TIMM

Sentinel Possum Kill Trap

A lightweight kill trap designed, trialled, manufactured and tested by New Zealanders. Can be tree or ground set, comes with a corflute cover.

TR-SENPOS

NoPests Live Rat Cage

A metal cage trap for live capture of rats. The door is triggered when rats pull on the bait.

TR-LRCAGE

Dimensions:
160x130x270cm
(WxHxD)

Snap Mouse Trap

A quick and humane kill trap for mice. Sensitive yet powerful with a bait reservoir. Easy to bait, set and release dead mice.

TR-SNAPM

Snap E Rat Trap

A powerful, humane rat trap with a bait reservoir. Easy to bait, set and release dead rats. Stain resistant, odour free and easy to clean.

TR-SNAPR

Trapper T-Rex Mini Trap Mouse

A smaller, mouse-size version of the powerful T-Rex Rat Trap. Position traps along walls or wherever mice travel. For discreet placement, two traps will fit in most Protecta or Tomcat bait stations.

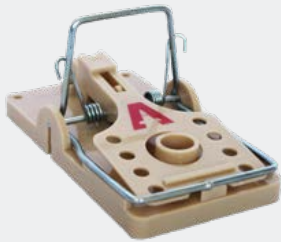

TR-TREXM

Trapper T-Rex Rat Trap

A rat trap with superior chemical-free trapping power. Position traps along walls or wherever rats travel. For discreet placement, two traps will fit in most Protecta or Tomcat bait stations.

TR-TREXR

Victor Power Kill Trap

A quick and humane kill trap for rats. Designed with a large trough for easy baiting and an oversized pedal that is easily activated ensuring maximum trapping.

TR-VICPKT

Victor Professional Rat Trap

A traditional, wooden base rat trap that is double sprung for catching and holding rats. Stoat modification device available.

TR-VICPR1
ZSP-VSTRAPFIT
Stoat Modification
Device Only

Victor Easy Set Mouse Trap

A twin pack wooden mouse trap. This trap has an expanded plastic yellow pedal on which bait can be placed.

TR-VEZMO2

Victor Quick Kill Mouse Trap

A quick and humane trap, easy one step set with a simple click. Easy release with 90° set and release bar.

TR-VICQM2

NoPests Wasp Dome Trap

A re-usable wasp trapping system for use with NoPests Wasp Lure. Highly effective with the capacity to catch hundreds of wasps. Use 250mls of NoPests Wasp Lure per trap fill. (Wasp Lure not include)

TRI-WASP

NoPests Wasp Lure

A specially formulated, non-toxic liquid bait which is particularly attractive to wasps, but repellent to bees. To be used with the NoPest Wasp Dome Trap and Disposable Wasp Bag.

LUR-WASP1 1L

LUR-WASP5 5L

Disposable Wasp Bag

A disposable, single use wasp trap, to be used with 500ml of NoPests Wasp lure. When full, close the cap and dispose of in normal waste. (Wasp Lure not included)

TRI-WFB

BAIT STATIONS

Kilmore Bait Feeder

A large possum and rodent bait station. Compact, waterproof and holds up to 2kg of pellets. Can be stacked and carried, bait levels can be checked from a distance. Includes bracket and choke, allowing bait to flow.

BS-KILBFEE

KK Bait Station

A collapsible and lightweight bait station. One lightweight piece (36g), folds into a bait station. Easily nailed to trees or posts. Suitable for paste baits and wasp baits.

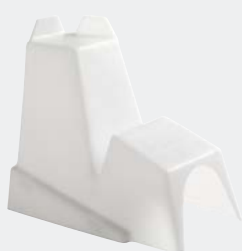

BS-KKBST

Philproof Possum Bait Station

A heavy duty, plastic bait station with removable base for refilling. Fully weatherproof with an 800g bait capacity. A nail and spacer are provided for mounting. Suitable for use with Pindone Possum and Rat.

BS-PPMIS Mini
BS-PPMLS Large

Philproof Rabbit Bait Station

A heavy duty, plastic bait station with removable base for refilling. 1600g bait capacity. Nail and spacer supplied for mounting. An enlarged entrance to allow easy access by Rabbits. Suitable for use with Pindone Rabbit pellets.

BS-PPRBSL Large

Flower Pot Bait Station

A heavy duty, plastic bait station to target possums. Can be nailed to trees or posts, thread on No. 8 wire or spiked into the ground for ground baiting. Suitable for use with lure and cyanide pastes.

BS-HDFP

This product is made to order. Minimum quantity: 7000

KI Rodent Rat Bait Station

A low profile rodent station that stops pets and children touching rodent baits and can be anchored in a fixed position.

BS-KIBS

NoPests Multifeeder Bait Station

A cylindrical polythene tube sealed at each end with opening and closing feeding and filling ports along one side. The bait dispenser holds 2kg of Pindone Rabbit Pellets and can be closed off to protect bait from weather.

BS-NOPMBS

Pied Piper Bait Station

An interlocking design keeps bait contained within the bait station. Holds up to 700g of Pindone Possum & Rat pellets. Tunnel design provides rats a safe feeding area, free from predators, encouraging bait consumption.

BS-PIPER

Protecta Sidekick Bait Station

Constructed from impact resistant, injection moulded plastic, Protecta Sidekick holds up well in extreme temperatures. Can accommodate a T-Rex or Snap-E Rat Trap.

BS-PRSKST

Protecta EVO Ambush Bait Station

A tamper-resistant, single locking mechanism that opens with a key. Holds up to 4x28g bait Blox or a Trapper T-Rex Rat Trap.

BS-PREVOA

Protecta EVO Landscape Bait Station

A rat bait station designed to blend with the outdoor environment by looking like a rock. Locks automatically when closed. Four vertical securing rods hold eight bait Blox. It also holds a Trapper T-Rex Rat Trap.

BS-PREVOLG Granite

BS-PREVOLS Sand

Protecta RTU Mouse Bait Station

A tamper-resistant, re-usable plastic mouse bait station designed to fit in to corners and along walls where rodents travel.

BS-PRRTU

Protecta Sidewinder Mouse Bait Station

Tamper-resistant, protecting children and non-targeted animals from the bait or trap. These stations can hold up to 4 bait Blox or a Trapper Mini T Rex Mouse Trap.

BS-PRMSW

Protecta Heavy Weight Rat Bait Station

A rat bait station ideal for the outdoors but can also be used indoors. Can hold up to 2x450g blocks or a T-Rex Rat Trap.

BS-PRHW

Protecta Low Profile Rat Bait Station

A triangular shaped bait station designed to fit in to corners and along walls where rodents travel. Its "Low Profile" makes it ideal to use indoors under pallets and in other tight baiting locations.

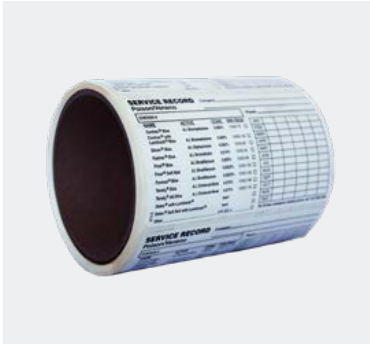

BS-PRLPRAT

Protecta Service Cards

A card used to maintain service records or recording baiting information for both mouse and rat bait stations.

BS-PRSCD 100/pk

Protecta Service Labels

A pressure sensitive label used to maintain service records or recording baiting information for both mouse and rat bait stations.

BS-PRSL
1 x roll of 100 labels

SX Mouse Bait Station Black

A bait station that holds a single rodent block, has double entry holes and is lockable with single key entry. Can be supplied with your company logo, please enquire.

BS-SXMOU 25/pk

BIRD CONTROL

Avipoint P20 Bird Spikes

An ideal product for protecting most building ledges from roosting birds. The spike tips are 140mm apart, so will protect an area up to 205mm wide from one strip.

ZSB-AVP2050

Avipoint P32 Bird Spikes

An ideal product for protecting most building ledges from roosting birds. The spike tips are 140mm apart, so will protect an area up to 265mm wide with one strip.

ZSB-AVP3250

Avisil Clear

A clear, high quality, neutral curing silicone adhesive for use with all types of bird spikes.

ZSB-AVISIL

Avishock Range

Leading electric bird proofing brand, Avishock offers a wide range of high quality bird control products popular amongst architects, specifiers and bird control specialists, because of their discrete appearance.

Full catalogue available on request

Bird Wire 316 S/S

A stainless steel, 1x7 wire construction to protect against pigeons. 0.45mm diameter coated to 0.7mm with UV stabilised nylon.

ZSB-BIR001	100m
ZSB-BIR002	300m
ZSB-BIR003	500m

Bird Free Range

A patented bird deterrent also known as 'Fire Gel' or 'Optical Gel'. Effective, yet unobtrusive. Gel can be purchased in preloaded dishes or a cartridge with plastic dishes available for application. Dishes can then be hung with Bird Free Hanger.

BIR-BFCART
Gel
BIR-BFDDISH
Preloaded Dishes
BIR-BFDISH
Plastic Dishes 15/pk
BIR-BFDISHA
Hanger

Birdscare Flash Tape

A metallic tape, red on one side and silver on the reverse. Fixed into small strips that are very light allowing the tape to flutter in the slightest wind. Reflections given off by the tape make it a very effective bird scarer.

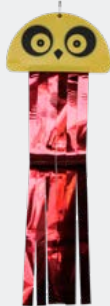

BIR-BST150
24x150mm

Birdscare Balloon

An extremely effective inflatable balloon with staring eyes, bright colours, reflective eyes and tails that creates a predatory presence repelling pest birds.

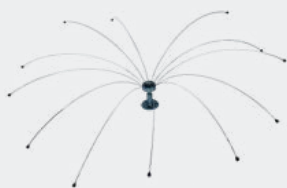

BIR-SCBALL

Birdscare Octopus with Streamers

A bird scarer with staring eyes and reflective tentacles that create a predatory presence repelling pest birds.

BIR-SCOCT

Daddi Long Legs

A bird scaring system with a freely rotating head and wires that bounce in the wind or when birds make contact with them. Ideal for fixing to street lighting or areas where birds roost.

ZSB-D001

1.25m diameter

Eaton's 4 the birds Repellent Liquid

A transparent, non-toxic, formula bird repellent for use on ledges, sills, beams, rafters and hundreds of other indoor and outdoor locations where "nuisance birds" alight or roost. Makes a surface sticky and uncomfortable to birds.

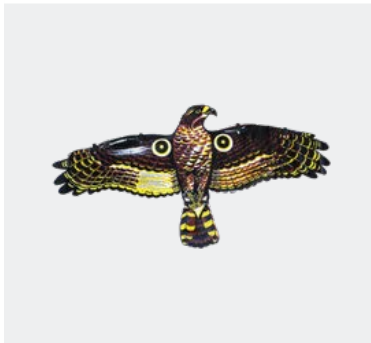

BIR-EAT3.78 3.78L

Eaton's 4 the birds Repellent Gel

A transparent gel, ideal to repel birds from structural areas such as sills, ledges, roofs and parapets; roof mounted equipment such as air intakes and air conditioners; as well as fire walls, rafters, joists, light fixtures and signs.

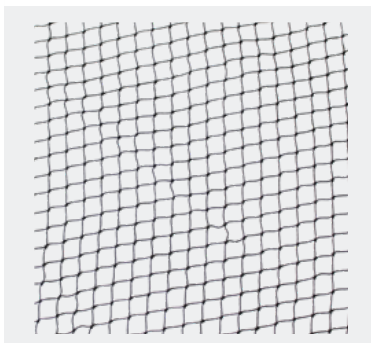

BIR-EAT0300 300g

Hawk Bird Scarer

A full size replica hawk moulded from tough weather-proof plastic with imitation wing tips that flap when the bird is suspended.

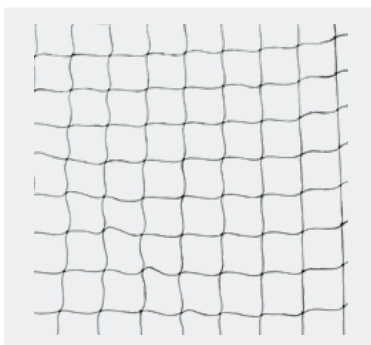

BIR-HAWK

NET 19mm Black

To be used in places with high levels of sparrow infestation. Effective, durable and humane. Does not absorb water, therefore does not stretch and is chemically inert. Knotted polyethylene. A full range of net fixing accessories available.

ZSB-NE190505 5x5m
ZSB-NE191010 10x10m
ZSB-NE192020 20x20m
More sizes available

NET 50mm Black

For use in places with high levels of pigeon and other large bird infestations. Effective, durable and humane. Does not stretch and is chemically inert. Knotted polyethylene. A full range of net fixing accessories available.

ZSB-NE501010 10x10m
ZSB-NE501015 10x15m
ZSB-NE501115 15x15m
ZSB-NE502020 20x20m

PestOff Bird Control Paste

For controlling sparrows, mynas, blackbirds and magpies. Apply the paste liberally to slices of bread and lay baits in areas frequented by birds. Works best in ambient temperatures below 15°C.

BIR-PBP05 500g

Contains
Alphachloralose

PestOff Treated Wheat

A narcotic product for the control of pest birds. Alphachloralose is not a poison but a narcotic and therefore acts by anaesthetising the brain rather than killing. All the essential bodily functions are unaffected; the bird is merely stupefied.

BIR-PW015 1.5kg

BIR-PW04 4kg

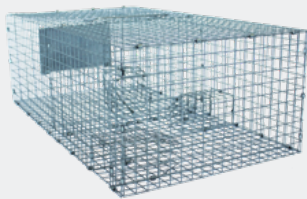

Contains
Alphachloralose

Pigeon Magnet Trap

A collapsible, commercial size trap for reducing feral pigeon populations. This trap has successfully and humanely assisted facilities internationally to trap pigeons in an easy, safe, discrete and targeted way.

BIR-PIGMTR

Sparrow Cage Trap

A rigid multi-catch sparrow trap with two one-way entrance tunnels leading to a trapping section. Another one-way tunnel leads to a holding section. Suitable for trapping sparrows in buildings such as warehouses.

BIR-SPARR

HARDWARE

B&G Bulb Dust-R

A hand duster for applying Dust2Dust for the control of small wasp nests. The B&G Bulb Dust-R has superior dust delivery, plus the ability to deliver fine granular baits.

PHW-BDR

Dust Scoop

A Dust2Dust scoop for effective filling of the B&G Bulb Dust-R.

ZSPFBO-DUSC

Makita 18V Blower Kit

For the application of Dust2Dust for controlling Wasp Nests.

- 1 x 18V Charger
- 1 x 18V Drill
- 1 x 18V Blower
- 2 x 18V Lithium Ion Batteries
- 1 x Straight Nozzle
- 1 x Dust Pot (DU/15/2)

PHW-MKKIT

Birchmeier DR5/D Compression Tank

Transparent pressure tank with a filling capacity of 5L liquid or 5kg powder (crushed stone). A 3 bar operating pressure with safety valve injector needle with an outer diameter of 4 mm.

PHW-BIDR5CD
Duster

PHW-BIDR5CS
Sprayer

Birchmeier XL8 Telescopic Lance

The XL 8 telescopic fibre glass extension lance with a working height of 8m comes in seven sections. For use with the Birchmeier DR 5 Compression Tank.

PHW-BIXL8TL
Duster

PHW-BIXL8TLS
Sprayer

Dyna-Fog Trailblazer

The Trailblazer produces a high output, non-residual thermal fog with virtually no carbon monoxide, making it ideal for applications such as: dispensing fungicides, insecticides, disinfectants, odour counteractants and germicides.

PHW-DYTRA

Dyna-Fog Superhawk XP

Compact, ultra-light-weight and powerful, with a stainless steel engine. The machine of choice by Health Ministry professionals, Mosquito Control Departments, Pest Control operators and many others.

PHW-DYSUP

Dräger 5500 PC Full Face Mask

A full face mask, ideal for use in environments where increased respiratory protection is required as well as clear vision.

DRA-R55270

Dräger X-plore 3300 Half Face Mask

A high quality, low maintenance, inexpensive and comfortable respiratory mask. Equipped with two lateral bayonet connections for use of the comprehensive Dräger X-plore® bayonet filter series. Filters non included

DRA-R55332

Dräger Bayonet Combi Filter/Cartridge

This particular filter is an ABEK Class 1 Hg P3 R D filter which protects against a wide range of gases and particles. To fit 5500 full face and 3300 half face masks.

DRA-6738817 2 pk

Dräger Safety Wash

A disinfectant cleaning agent for breathing apparatus maintenance. A non-toxic, non-irritant formula that makes it ideal for use in cleaning CABA. Leaves no residue, won't harm rubber or polycarbonate.

DRA-3380165 1 Litre
DRA-3380167 5 Litre

Bodyguard Overalls

Superior strength, liquid and particle barrier.

PPE-OVB2	M
PPE-OVB3	L
PPE-OVB4	XL
PPE-OVB5	2XL

Black Dragon Powder Free Nitrile Gloves

Non-sterile, ambidextrous black gloves made from 100% nitrile rubber that is 5 times stronger than latex.

Packs of 100	
PPE-BDP1	S
PPE-BDP2	M
PPE-BDP3	L

TRACKING & MONITORING

Black Trakka Rat/Mouse Tracking Tunnel

A tracking tunnel that can be used with Snap Traps or Black Trakka Tracking Cards for monitoring.

MON-BTTTUN Rat
MON-BTTTUNM Mouse

Black Trakka Pre-Inked Monitoring Cards

When an animal is attracted into the Black Trakka tunnel it moves across the inked area. With ink on its feet the animal leaves tracks on the absorbent section of the card. These tracks allow individual animals to be identified.

MON-BTPMC

Flagging Tape 50m

Bright, thick, vinyl flagging tape. A strong tape that will stand up to the elements. Ideal for marking trail, trap or bait station locations.

MON-FB050 Blue
MON-FO050 Orange
MON-FP050 Pink
MON-FR050 Red
Other colours available on request
