BattleTech

Game Books, Miniatures, Magazines, Pins, Dice and Novels

Please Note:

Most of the OOP items are very limited in quantity...so first come, first serve.

Only items marked with a price or "ask" in the price column are in stock.

If you see "ask" in the price column, then that game is in stock but it hasn't been inventoried. If you're interested, all you have to do is 'ask' and the game will be checked for condition and completeness and a price will be given. There's no obligation to buy.

Prices do not include shipping and insurance. There is no handling charge.

The Ral Partha BattleTech miniatures in blister packs have the Atlas firing on the card unless it's marked "blue blister". The "blue blister" means that the card has a black header and a blue color lower section with side and front line drawings of an Atlas in white.

Ask for a free quote:

If you see something you like, let me know and I'll provide a free quote with shipping. All you have to do for this free quote is send your USA zip code (or country and mail code). There is no obligation to buy anything when you ask for this free quote. The shipping cost you pay is the exact amount or less...I don't have a handling charge.

Condition Notes:

All conditions may have an out-of-date price label (or label residue) attached to the plastic

shrinkwrap or to the item.
Any opened game with one or more dice may not have the original die/dice that came with the game but it will have the correct amount of same-sided die/dice.
Any opened game with one or more counter trays may not have the original trays that came with the game but it will have the same number of trays.
Except for possible advertising inserts that are not used with the item, all conditions are complete with the game components unless otherwise noted. Since shrinkwrapped items can't be inspected for completeness, these items are sold in 'as is' condition.
Only items marked with a price or "ask" in the price column are in stock.
<u>Ask</u> - let me know if you're interested in this item. There hasn't been time to check the condition and completeness of most of the non-shrinkwrapped items. If you're interested, this item will be inspected for completeness and condition and a sales price will be given. Remember, there is no obligation to buy.
<u>Shrinkwrap</u> - mint condition in the publisher's original plastic shrinkwrapped or sealed by the publisher using something other than plastic shrinkwrap such as a Blister Card (BC); minor rub spots or scuffs on the BC or box; the plastic shrinkwrap or plastic cover may be torn or separated but this tear/separation doesn't allow the miniature to be removed from the blister or box; sold in 'as is' condition
<u>Mint</u> - doesn't appear to be used; no major problems; there may be some shelve wear, like scuffing or nicks, on the item but this doesn't affect use or readability; any countersheets are either unpunched or may have a few counters that have fallen off but all counters are present; any cards are not separated (if originally attached)
<u>Near Mint</u> - close to mint with some sign(s) of very light wear including very small creases in spine; may have been read or gamed with but has little, if any, wear; may have small handwritten marks; some or all counters are removed from the sheet; some or all of the cards are separated

Excellent - obvious use and handling with light wear; may have handwriting and/or highlighting that doesn't affect readability; may have some minor repairs (e.g., small piece of scotch tape); small creases in spine				
Very Good - used; handwriting and/or highlighting but doesn't affect readability or use; repairs (usually scotch tape); minor tears; small stains; dogearred pages; small bend(s) in cover; medium creases in spine				
Good - well-used as a gamer's copy; handwriting, highlighting and/or stains but doesn't affect readability or use; may have small tears and other flaws which may be repaired; dogearred pages; medium to heavy creasing				
Fair - very well used but complete and readable; heavy wear with major flaws such as large tears which may be repaired; stains; markings on pages; dogearred pages; heavy creasing				
Poor - heavily used but readable; very heavy wear with major flaws such as tears which may be repaired; stains; markings on pages; dogearred pages; very heavy creasing				
Abbreviations:				
BC	Blister Card [figure(s) with see-through plastic cover, usually mounted on a card]			
OOP	Out of Print [some miniatures may have been re-manufactured at a much later date or in a different medium (e.g., plastic, pewter)]
