

Keystone 10 Facility Progress Tracking Sheet

The Keystone 10 Initiative began in March 2015 as a quality improvement breastfeeding initiative that engages Pennsylvania birthing facilities in efforts to improve the protection, promotion and support of breastfeeding. It is expected that each participating facility will embark on a three to five year journey to implement the evidence-based Ten Steps to Successful Breastfeeding. This tracking sheet utilizes a check mark to identify the steps each facility has implemented. Facilities that have completed all ten steps are identified as Keystone 10 Designated. Facilities that have closed completely or that have closed their maternity units are noted in gray.

Current as of October 2022.
