

Keystone B-Vent Fireplaces Premium (BVP42) and Deluxe (BVD34 & BVD36)

Keystone 42 B-Vent Fireplace in a White Profile Mantel trimmed with Black Slat Louvers, Aged Brick Liner and Custom Tile Surround

White Mountain Hearth – The Pinnacle of Efficiency

Warm Up to White Mountain Hearth

Keystone Premium 42 Models & Deluxe 34 and 36 Models

Standard Features

Keystone B-Vent Fireplaces combine modern technology with traditional venting to create the appearance and performance of a conventional fireplace but with the convenience of gas.

Our B-Vent systems let you prolong the flicker of the flames without overheating your room. The BVD-34 input is 21,000 Btu; the BVD-36 is 25,000 Btu; and the Premium BVP-42 is 30,000 Btu.

The hand-painted ceramic fiber Log Set features large logs, arranged to fill the fireplace and complement the flames.

Our deep Premium 42-inch B-Vent fireplace features our Slope Glaze Burner – the industry standard for great looking flames. Ceramic glazed pellets in the burner tumble and swirl the gas to produce a natural flickering fire.

The Deluxe 34- and 36-inch B-Vent fireplaces include hand-painted logs artfully arranged on our more compact Contour Burner.

Keystone fireplaces come with matte black slat louvers (except flush front models), and operable curtain screens.

Our B-Vent fireplace features hem-bent seams that provide a better seal while eliminating dozens of screws and fasteners. The result is a lighter, more rigid box that's easier to install.

Keystone Series Features

Standard

- **Millivolt and Direct Ignition Models**
- **Louvered and Flush Models**
- **Natural Gas (LP conversion available)**
- **Zero Clearance Certified**
- **Remote Control Options**
- **A Variety of Decorative Accessories**

Options & Accessories

Easily installed decorative accessories let you tailor your Keystone fireplace to your décor.

For louvered models, choose louvers in three patterns – slat, arched, and mission – finished in matte black or hammered pewter.

Matching door sets and frames complete the transformation from an attractive fireplace to a stunning focal point.

Operable bi-fold glass doors, trimmed in matte black, add an elegant touch.

Two styles of optional ceramic brick liners – Aged Brick and Smoked Herringbone – create the illusion of a masonry fireplace.

FBB4 automatic Blower with variable speed control may be used on Louvered Models.

Decorative Accessories

Outer Frames & Bottom Trim

Our metal three-piece outer frames let you transition from your fireplace to any adjoining surface – wooden mantel, tile, stone, or any noncombustible material. Choose from steel frames – with traditional crisp lines – or our new extruded aluminum frames – with a profile that combines gentle concaves with flat surfaces. Each is available in matte black or hammered pewter.

Our bottom trim completes the fourth side of the color frame.

Extruded Aluminum Frames
