You dream. You plan. And plan some more. Until you realize you don't need to cut corners on quality to afford lasting beauty and a lifetime supply of organization space. How? Just be creative with your corner cabinets. Onward.

## THE IDEA: TURN THE CORNER

*When you want what you want—such as the perfect butler's pantry—Carpet Court is there for you. We have a vast selection of styles and designers on staff to help you.*

HERSHING

What does one wear to a celebration of simplicity? Cabinetry with a deep, rich accent finish contrasted against cool neutrals are in. Loud colors and excessive accessorizing: definitely out.

## THE IDEA: NEUTRAL PARTY

## THE IDEA: AT FIRST SIGHT

When you have to remind yourself to breathe, that's when you know—you've found The One. A space you can organize your life around, with just the right personality and functionality. Oh, heart be still.

OGILBY

LAUTNER

maple sand dollar

The dust settles. The sun appears. And you find yourself at peace in a space of your own making — surrounded by everything you need (and nothing more) to conquer your to-do list another day.

## THE IDEA: BASICS TRAINING

## THE IDEA: CHERRY ON TOP

We had you at fashionable and functional. That cabinetry can indulge your upscale tastes without alarming your inner accountant only adds to their appeal. That's right. Dessert is served.

JORDAN

And then it hits you: Everything I need is right here. All of the ingredients to a healthier, happier life—easily within reach, always right where I need them. No driving or digging required.

THE IDEA: MADE FRESH DAILY

## THE IDEA: SUNNY OUTLOOK

Happiness is less about which side of the bed you wake up on than the kitchen atmosphere you walk into. So choose your cabinets wisely and give yourself plenty of room—to think, to cook, to catch up, to stop and smell the Arabica beans.

LAUREL 5-PIECE

VERANO

Traditional labels don't stick to today's kitchen. One moment it's preparing pasta. The next it's uncorking the cabernet and pouring out its heart to its closest friends. Salut, indeed.

## THE IDEA: ROOM FOR LIVING

## THE IDEA: ROASTY TOASTY

Cool, steely neutrals have enjoyed their morning in the sun. Instead, break out your best slippers, pour a cuppa joe, and cozy up with your thoughts in contemporary digs brimming with rich, brownish grays.

WESTLAKE

HEARTLAND

Let's live to the best of our abilities rather than beyond our means. Let's trade drab and dated for warm and comfortable. Let's turn our houses into havens. And live more richly with less.

**THE IDEA:** UNIVERSAL MADE  
INSPIRATIONAL

ARBOR

rustic hickory

A design pioneer, you are. Armed with prairie-inspired cabinetry and hardware, plus some rock-solid design principles, you set out to turn an inhospitable tract of interior into the mother of all meal prep territories. Hats off to you.

## THE IDEA: HOLD THE FORT

## THE IDEA: INTERNAL FORTITUDE

True beauty is never just one thing but a combination of courage, confidence and conviction in the face of overwhelming odds—and undersized floor plans. Ready to change your world? We wouldn't put it past you.

DOVER

SEDONA

Effective design doesn't scream, but uses contrasting features to underscore its vision. Bold darks and silky smooth creams. Victorian embellishments and Shaker style. Stainless steel, white trim and natural flooring. Yep, we're hooked.

## THE IDEA: CENTER OF ATTENTION

RAINIER

First look. First date. First kiss. First apartment. First promotion.  
First home. First soufflé success story. First Super Bowl party.  
First week sitting the in-laws' cat. The last time you ever do that.

## THE IDEA: FIRST FOR EVERYTHING

## THE IDEA: LEMONADE STAND

You miss the old neighborhood and the friendly passers-by who built your confidence, one ice-cold drink at time. But it's okay. You've found a new place to stir up conversation and store away warm memories. Now where's that sign?

MADISON

EASTPORT

Function is the new fashion. Budgets are skinnier. And when something looks this good, and works this well, there's no need to put on airs or major additions.

THE IDEA: JUST ACT NATURAL

## THE IDEA: SOUND SURROUND

Our blockbuster door style from Day One, Ogilby drew rave reviews and repeated requests for a matching 5-Piece Drawer Front. Far be it from us to disappoint our fans. Enjoy the sequel.

OGILBY

## THE IDEA: SHAKEN NOT STIRRED

Living rooms have received little respect as of late. Yet here is proof that kitchens need not be the sole entertainment capital of the home. Designers, the gauntlet has been thrown.

HERSHING

HERITAGE

cherry cinnamon

Life is filled with transitions, none more important than the finite space between the garage and the kitchen. Coats hung. Shoes removed. Worries left behind. An organized oasis in a chaotic world.

## THE IDEA: DROP EVERYTHING ZONE

## THE IDEA: CLEAN SLATE

Interesting how worries wash away the moment you enter a newly remodeled bath. Here everything is in its place—you included. Even darker hues feel warmer when bathed in natural light and surrounded by pearly whites.

RAINIER

cherry buckboard

BAYPORT

Rise and shine, imagination. It's time to soak up the Shaker-inspired door and drawer fronts (or complete lack thereof). Plus, decorative feet have furniture-grade written all over them.

## THE IDEA: REAL EYE OPENER

## THE IDEA: NATURAL FLIRT

Yes, a bathroom can turn on the personality and charm when it's decked out with all the right details -- warm finishes, artful curves and angles, a bit of shine, and plenty of natural light. Hello gorgeous, and good morning to you! It's going to be a great day.

## THE EMBELLISHMENTS: TEXTURED GLASS

This particular family of decorative glass inserts adds a whole new layer of dimension. The semi-transparent patterns serve a dual purpose; to provide a welcome visual break in a run of all-wood cabinetry, while providing a tantalizing glimpse into your previously hidden creative potential.

## WOOD & FINISH OPTIONS:

At the end of the cabinet making line, it all comes down to this: quality in, quality out. Of course, the same argument could be made on behalf of quantity. Why do we offer so many wood types and finishing options, you ask? Because while all our customers expect the same attention to detail, no two dreams are ever the same.

### YOUR WOOD CHOICES:

#### MAPLE

- Subtle grain pattern
- Smooth, uniform appearance
- Color may range from creamy-white to pale, reddish-brown within a panel
- May include tiny “bird’s eye” dots and mineral streaks

#### CHERRY

- Color may vary from tan-blonde to deep brown within a panel
- Cherry darkens naturally as it ages, blending hues from golden yellow to deep red

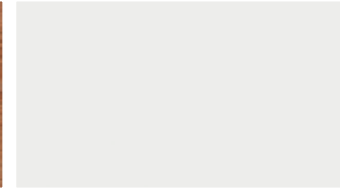

#### OAK

- Very strong, open-grain pattern
- Color may vary from salmon-red to dark cinnamon within a panel
- May include random worm holes, mineral deposits, knots and wild grain patterns

#### HICKORY/ RUSTIC HICKORY

- Strong, dramatic grain pattern
- Color may range from blonde to tobacco-brown within a panel
- Natural beauty enhanced by random worm holes and knots
- Rustic Hickory shares similar characteristics of Hickory, but may appear more dramatic in color variations, pin holes, knots, burls and color streaks.

#### THERMOFOIL

- Sleek surface
- Durable performance
- Carefree maintenance
- Color may change slightly over time, depending on environmental conditions

### YOUR THREE FINISHING OPTIONS:

**FINISHES** All doors and drawer fronts for stained wood styles are hand-sanded prior to the first stain application. Stain is applied to the door and drawer fronts in an automated application using our Padlock™ roto-process finish system. They are brushed where applicable and oven or UV-cured as a drying procedure. A sealer coat is applied and develops a bond in the stain, and then sanded again. A final topcoat is applied for long-lasting protection.

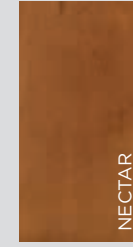

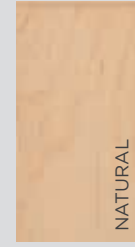

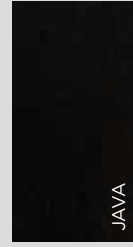

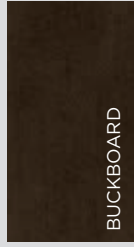

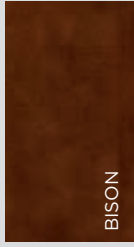

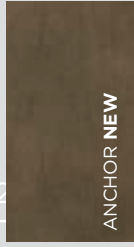

**FINISH AND OPAQUE GLAZES** A professional layer of glaze can add another layer of beauty to your cabinets. Hand-detailed glaze application adds depth and dimension to the cabinet’s appearance by highlighting the profile of the chosen door style. Hand-detailed glaze will leave a consistent, “penned” appearance around the door profile. Results yield a subtle to dramatic look based on the complexity of the door’s design.

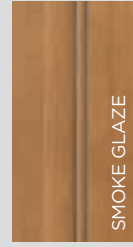

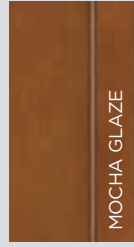

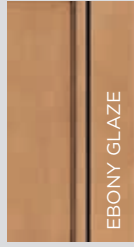

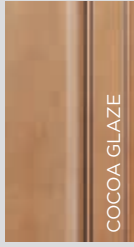

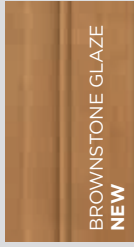

**OPAQUES** Opaques are different from standard wood finishes. On all wood products, expansion and contraction are typical due to change in climate conditions. Due to this normal movement, opaques may develop slight separation lines, finish breaks and seam lines. These will be most notable at stile, rail and panel joints. Joint separation may become more noticeable over time and through seasonal changes.

## CUSTOM IDEA: WELL, WE CAN DO THAT

We offer the performance features and design flexibility of custom cabinetry without the custom costs and shipping delays. Make no mistake. These are customized cabinets and not merely "modified." In the example below, the homeowner desired a deep, open cabinet to hold her large serving dishes. We provide the perfect solutions.

### THE NEED:

A built-in's large display capacity with the unique appeal of stand-alone furniture.

### THE SOLUTION:

Using Custom allowed the depth of the cabinet to be a full eighteen inches deep—ensuring a beautiful display area for oversized dishware and cookbooks.
