AMC7715 - REAR LOAD BILL TO BILL DISPENSER

AMERICAN CHANGER

- American Changer's newest rear load bill changer is designed to break larger bills into smaller bills, using "street grade" bills! It features a high security design, Pyramid validator and a bill dispenser that holds (1) 700-note cartridge. This machine dispenses "street grade" bills and does not require ATM quality bills.

PRODUCT FEATURES:

- Single bill dispenser
- Dispenser capacity: (1) 700-note cartridge
- High security design
- Stainless steel face plate
- Pyramid validator Accepts: \$1, \$5, \$10, \$20
- Stacker Capacity: 500 Bills
- LCD digital display
- "Out of service" light
- Decal provided for multiple payouts

DIMENSIONS:

- 19¼" W x 26" H x 18.10" D
- Weight: 140 lbs.
- Stainless steel face plate: 23¼" W x 30" H

OPTIONS:

- CPI Talos T702-U10M Validator
- Bill Accepts: \$50, \$100
- 700 note stacker
- High security T-handle
- Medeco lock & key

CHANGERS & COUNTERS

CURRENCY VALIDATORS

CPI TALOS VALIDATORS

VALIDATORS

- Secures banknotes in speeds under 2.5 seconds
- Light Bar recognition system delivers best in class fraud detection
- Firmware updates via USB, increases update speed ten-fold
- Addresses new advances in banknote security
- Encrypted, secure, seamless updates
- 32-bit microprocessor with processing power to support enhanced features
- Enhanced security modes provide additional theft protection, early detection, and alarm triggering
- External error code access
- Replaces 2000 Series Bill Validators

CHANGES FROM 2000 SERIES:

- Light Bar recognition replaces Pellet Sensors
- No more dip switches
- Denomination acceptance programming w/ banknote or coupon
- Increased banknote transport speed
- New bezel designs - VFM & Compact applications
- Single high security mode
- USB supported updates

SIMILARITIES WITH 2000 SERIES:

- All bezel design types are compatible, including cashless
- Retro bill magazine compatibility
- Reliable banknote transport and stacking mechanism performance
- Supports all OEM communication protocols and interface types
- Drop-in replacement for 2000 Series units
- Programming push button found behind the bill magazine

HAMILTON CHANGERS

BILL TO BILL DISPENSER SERIES, REAR-LOAD

HAMILTON CHANGERS

- Break larger bills down to smaller bills and/or coins. This bill dispenser is offered with a dual cassette to give more versatility, and the optional coin hopper will allow dispensing of either coins or tokens along with bills. Choose Hamilton's XE bill validator or several of the third party options. With a CPI Talos® validator, you can accept up to \$100 bills. Possible configurations for the exchanger include: bill dispensing only, bill & coin dispensing, Tokennote® dispensing only, Tokennote® & coin dispensing, and bill/Tokennote®/coin dispensing. Connect your bill to bill dispenser to the Data Access Network (D.A.N.) to remotely access audit reports, track input/output of the hopper and bill dispenser, as well as clear soft errors and shut the machine down.

- **HANDHELD KIT REQUIRED FOR PROGRAMMING**
- **HOPPER: \$1200 QUARTER HOPPER CAPACITY**
- **LOCKS: 2 HEAVY DUTY MEDECO® PLUG LOCKS**
- **POWER: 120 VAC 60 HZ**

Step-by-Step Guide

Fits in Existing Cabinet

World-Class Support

Component Upgrade

What's included?

1 - MEI/CPI Validator with 1,000 Note Stacker*

MEI/CPI Validator accepts \$1, \$5, \$10, & \$20 denominations. Stacker capacity is 1,000 bills. Can be programmed for other currencies. MEI/CPI Validator models currently compatible are: AE2632, 2602 with down stacker, T702, and T602

2 - Hoppers with Extensions**

Each hopper holds 4,800 quarters/tokens (4,400 \$1 coins). BC-1400A holds 9,600 quarters/tokens (or 8,800 \$1 coins) total.

1 - Universal Board

American Changer's Universal Board allows one validator/two hoppers with one power supply.

1 - Power Supply + Power Cord

Switchable input: 115/230 Volt, 50/60Hz. Various plug configurations. Power consumption: Board 10W max | Hopper 22W max | Validator 50W max.

Kit includes brackets, mounting plates, hopper extensions, chutes, and harnesses. | For existing BC-2800's, the components will be the same as above x2.

*Validator stacker capacity based on USA banknote - 6.21" L x 2.62" W (0.0043" thick) or 5.5956 cm L x 6.6294 cm W. Weight: 1 gram. ** hopper capacities based on 2014 USA Quarter size (0.955" or 1.75mm, weight 0.182 Troy ounces or 5.670 grams) or USA \$1 coin. (1.043" or 26.5 mm, weight 0.260 Troy ounces or 8.100 grams). Hopper capacities increase or decrease depending on coin size used.

CURRENCY/COINCOUNTERS & SORTERS

HITACHI IHUNTER 110 - 2 POCKET CURRENCY DISCRIMINATOR

COIN, CURRENCY, AND DOCUMENT SYSTEMS

• Intelligent and reliable banknote counter, which uses image processing technology to recognize banknotes and to discriminate denominations. The 110 features Full Color Imaging with Dual CIS scanning, which scans both sides of the bills to reduce unwanted rejects. The 2-pocket design, with a stacker and a reject pocket, allows the 110 to count and off-sort without stopping. Having a reject pocket allows operators to perform daily cash-processing jobs without any interruption.

FEATURES:

VARIETY OF COUNTING MODES:

- Mix: Counts mixed money, providing grand total and itemized count.
- Single (sorting): Counts 1 denomination and sorts all other denominations into reject pocket.
- Face: Faces all bills (heads up or heads down)
- Orientation: Orientates all bills in proper direction: (heads facing right or heads facing left)
- Count: Counts all bills, providing quantity total.
- Dual CIS Scanner (scans both sides of bills to reduce unwanted rejects.)
- Full counterfeit detection
- 4.3-inch color touch ccreen
- Easy upgrade (USB flash drive)
- Easy jam removal (2 openings from front and rear side)

SPECIFICATIONS:

- Pockets: 2
- Value Count: Max. 1300 notes/min
- Mixed Count: 700-900 notes/min
- Weight: 30.64 lbs.
- Hopper Capacity: 500-700 notes
- Stacker Capacity: 200-250 notes
- LAN/USB Interface
- Reject Capacity: 60-100 notes
- 100~240 VAC, 50/60 Hz
- Counterfeit Detection: CIS/I/MG/UV

\$2,285.00

CC8000

COMPACT COIN COUNTER

AMERICAN CHANGER

FEATURES:

- Compact and portable coin counter
- Counts U.S coins and tokens
- Full batching capabilities
- Ambient Temp. For Use: 32°F - 130°F
- Counts 1800 pieces per minute
- Hopper Capacity: 1500 coins
- Programmable bag stops
- Continuous or preset counting modes
- Coin Thickness: 0.8 - 3.8mm
- Coin Diameter: 14 - 34mm
- Direct, easy access/safety interior
- Features a (7) digit LED display
- 8¾"W x 12¾"D x 6¾"H
- Weighs 19.60 lbs.

MODEL 360 COIN COUNTER

SCAN COIN

SCAN COIN

- The latest coin counters from SCAN COIN, SC 350/360, fill an important gap between heavy-duty counters and small back office machines. These high-speed coin counters combine superior versatility with many advanced features, which are fitted as standard. Large, automatic hopper with filling.

SPECS:

- Diameter Range: 15-34 mm/0.56-1.34" or 18-37.5 mm/0.71-1.48"
- Thickness Range: 0.8-3.4 mm/0.03-0.15"
- Voltage: 110/230 V, 60/50 Hz 110/230 V, 60/50 Hz
- Power: 120 W
- Speed: up to 3,000 coins/min.
- Weight: 43.0 lbs
- 12.0"W x 18.9"D x 15.0"H

\$1,654.13

CC360

SC-3003 HIGH CAPACITY COIN COUNTER

SCAN COIN

SCAN COIN

- High capacity coin counter and its quality and variety of smart functions are appreciated by thousands of users worldwide. In short, the SC-3003 is considered to be one of the most robust and high-quality coin counters on the market today.

SPECS & INFO:

- Up to 3500 coins/minute
- Voltage: 110/220/240 V, 50/60Hz
- Seven preprogrammed quantity stops and one continuous
- 2"W x 23"D x 10"H
- Weight: 37.5 lbs
- The denominations are easily selected by turning one handle and all actions and settings are clearly monitored at the operator panel
- Features an auto-stop when the last coin has passed, and a non-volatile memory allows storage of the counted coins. The automatic off-sorting of smaller coins allows the separation of mixed denominations

CAR WASH TOKENS

HIGH SECURITY CAR WASH TOKENS

HOFFMAN MINT

- Unique alloys - New to the industry | Eliminate unwanted tokens from competitors | Token sizes similar to a quarter & dollar coin | Reduce theft & vandalism | Pricing flexibility & promotional opportunities | Walkaway profit | Reduce operating costs
- A variety of sizes and alloys are offered because each variation has a unique electronic signature enabling coin mechanisms to distinguish them from other tokens. We do not recommend the use of 260 alloy since it is common in amusement applications. We recommend you survey your competitors in the area who are using tokens, either by talking to the owners or by collecting samples from their locations. By comparing your competitors' tokens to our samples, you can then make a choice unique to your location. If you're fortunate enough to be the only token user in your market, then make your choice based on the look, feel, and budget that appeals to you. Having your token customized with your name or logo adds advertising impact.

MINIMUM ORDER IS 1,000 TOKENS

1. PICK THE SIZE:

- .900" (slightly smaller than a Quarter)
- .984" (slightly larger than Quarter)
- 1.012" (slightly smaller than a Dollar Coin)
- 1.073" (slightly larger than Dollar Coin)
- 1.125" (larger than Dollar Coin but smaller than Half Dollar)

2. PICK THE ALLOY:

- Alloy 230 (available in all sizes)
- Alloy HM1 or HM2 (available in .984")
- Alloy HM4 or HM5 (available in 1.073")

3. PICK THE DESIGN:

- Choose generic front and back dies
- Or customize with your logo for an additional cost

4. SEE TOKEN ORDER FROM IN FRONT SECTION >
