

### More Design and Style Options

Choose from an unrivaled selection of styles, shapes and colors to suit your individual preferences. From various bowl shapes and Comfort Height™ models to features like concealed trapways - the design possibilities for your bath or powder room are as extensive as your imagination.

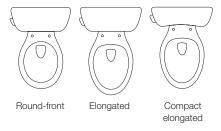

#### **KOHLER Comfort Height Toilets**

With a seat height comparable to that of a standard chair, KOHLER® Comfort Height toilets make sitting down and standing up easier for people of all ages and statures. Additionally, most Comfort Height toilets comply with the height requirements of the Americans with Disabilities Act. Available with a variety of performance-driven flushing technologies, Comfort Height toilets take comfort, performance and design to new heights.

### What style of toilet do you prefer?

One-piece toilets integrate tank and bowl into a seamless, space-saving design that is easy to clean. Some low-profile models can be installed under a vanity extension when space is at a premium. Because of their special design detail, most one-piece KOHLER toilets ship with a complementary Quiet-Close™ toilet seat with Quick-Release™ functionality. Two-piece toilets feature the traditional design of a separate tank and bowl. Two- and three-bolt installation systems provide a sturdy, level connection between the tank and

#### What are the benefits of the different bowl shapes?

Round-front bowls require less space.

bowl, making installation easy.

Elongated bowls provide added comfort for adults.

Compact elongated one-piece toilet designs enable an elongated bowl to fit in a round-front space.

K-3654 Comfort Height K-3492

#### What is a concealed trapway?

Toilets with a concealed trapway feature a smooth surface at the back end of the toilet where the trapway would normally be visible. This facilitates easy cleaning and enhances the design of the toilet.

# **Gravity Technology**

### **Gravity Toilets**

KOHLER® toilets with gravity-fed flushing technologies maximize the natural force of water to deliver extraordinary power and completely clean performance. Choose from an extensive variety of one- and two-piece models in an array of stylish designs and colors.

### Power Flush

Class Five, technology enlists a massive  $3^{1/4}$ -inch flush valve, combined with a fully glazed  $2^{1/8}$ -inch trapway, to deliver extraordinary bulk flushing power

## Easy Installation

Exclusive DryLock™ system for two-piece models reduces installation time by 40% and helps keep floor dry

## Water-Saving Options

The Class Five HET 1.28 gpf qualifies as a High-Efficiency Toilet that saves up to 3,200 gallons of water per fixture per year\*

- 1 EcoSmart<sub>™</sub> tower provides smooth trip lever actuation, ensuring consistent, reliable performance with each flush
- 2 The 3<sup>1</sup>/<sub>4</sub>-inch flush valve maximizes the gravity-fed water momentum that provides extraordinary performance

<sup>\*</sup>Based on usage of 10,000 gallons per year using a 1.6 gpf toilet

# **Gravity Technology**

### **Gravity Toilets**

KOHLER® toilets with Ingenium® technology provide complete 3.5-gallon performance in a 1.6-gallon package. In addition to its optimized plug resistance, this technology also offers signature swirling water action that rinses the bowl clean with each flush. And for added privacy in any master bath or powder room, these toilets are engineered to flush quietly. Furthermore, KOHLER toilets with Ingenium technology are available in a wide array of designs and colors to accommodate the personal preferences of homeowners.

### Clean Bowl

Sustained swirling water, a signature feature, rinses the bowl clean with each flush

# Quiet Performance

Precision-engineered to reduce unnecessary noise for added privacy in any bathroom

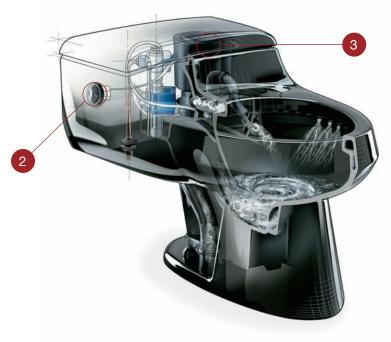

### Suites and Ensembles

Toilets featuring Ingenium technology integrate with KOHLER suites and ensembles for coordinated design appeal

1 Sustained swirling water helps keep the bowl clean and reduces noise

# Assisted Technology

### **Assisted Toilets**

KOHLER<sub>®</sub> toilets with assisted flushing technologies are engineered to provide unrivaled power, significant water savings and unique design options. Pressure Lite<sub>®</sub> toilets utilize compressed air within the reservoir, and Power Lite<sub>®</sub> toilets feature a .2-hp pump, to optimize performance.

### Powerful Flush

Pressure Assist functionality delivers robust, commercial-grade flushing power

### **Quiet Performance**

Advanced noise-mapping and frequency analysis ensure quiet performance

## Water-Saving Options

1.4- and 1.1-gallon models save 2,000 to 5,000 gallons of water per fixture per year\*

1 The internal vessel pressurizes the water, providing robust flushing power

# San Raphael<sub>™</sub> Power Lite Toilet

## Water-Saving Options

1.4- and 1.0-gallon flush options save approximately 2,000 to 5,000 gallons of water per fixture per year\*

### **Quiet Performance**

Double seal on pump system reduces motor noise for added privacy

- Exclusive Twin Touch™ actuator provides a 1.0-gallon flush for light (liquid) waste or a 1.4-gallon flush for solid waste
- 3 .2-hp pump delivers a consistent, powerful and quiet flush

<sup>\*</sup>Based on usage of 10,000 flushes per year using a 1.6 gpf toilet

# Dual Flush Technology

### **Dual Flush Toilets**

KOHLER<sub>®</sub> toilets with Dual Flush technology combine exceptional water conservation, outstanding flushing performance and transitional design characteristics. A user-friendly, two-button actuator allows you to choose either a 1.6- or .8-gallon flush option.

# Significant Water Savings

.8-gallon water consumption can save an average family of four up to an amazing 25,000 gallons of water each year\*

# Easy-to-Clean Designs

KOHLER toilets with Dual Flush technology feature design characteristics, such as a skirted bowl, that create a streamlined aesthetic and an easy-to-clean surface.

## Hygienic Bowl

The integral sanitary guard prevents liquids from collecting under the tank

Dual Flush technology is precision-engineered to maximize 1.6- and .8-gallon flush options that offer exceptional performance and water conservation

\*Based on usage of 25,000 gallons per year using a 3.5 gpf toilet
