PREDICTING DEATH THROUGH STARLORD SYSTEM

MRS. MADHURIMA MANDA,
USA

Basically I received a call from a cousin stating that her mother-in-law is seriously ill, and due to COVID times with restrictions around traveling. However with great difficulty her husband managed to reach Hyderabad, India a few days ago, upon receiving news about her impending failing health. She wanted to know if there were any chances for her mother-in-law to survive and recover. Immediately, I opened the time chart to give her my analysis.

HINTS:

If the Sub Lord of the Ascendant be the significator of

- A. 6 , 8 and 12 house a Short Life upto 33 years
- B. 1,5,9 or 10 a Long Life beyond 66 years
- C. Both A and B then Middle life upto 66 years is indicated.

Consider the houses 8 and 12 for accidents. Mars, Saturn, Rahu and Ketu cause accidents.

Besides, if the Sub Lord be the significator of Maraka (2,7) and Badhaka (11th for Movable , 9th for stable and 7th for dual signs) then also it is bad for longevity.

The houses 1st , 3rd and 8th are for longevity. The 12th to any particular house denotes non existence of the matter signified by that particular house. So 12th house is also harmful for longevity. Saturn is the chief governor of longevity. Here we will have to analyse all the cusps i.e. 1st, 2nd, 3rd, 7th and 8th to judge the query and also the Mahadasha, Bhukti, Antara and Sookshma. Also for proper judgement the transit of Sun and Moon should be judged. Lagna is rotated to the 9th cusp.

MOON AND ASCENDANT SUBLORD

Before solving any query one must look at the position of Moon and the Ascendant Sublord. Let us analyse the chart whether the query is indicated by either Moon or the Ascendant sublord. Moon is placed in the 6th house which is a RogaSthana and it is in the star of SUN which is placed in 12th house negating Longevity for the native, so the Moon clearly shows the state of mind of the querist. Now look at the cuspal sublord of the Ascendant which is RAHU who is placed in 7th house of MARAKA. So we proceed to analyse the cusps to validate our query.

	ROTATION OF CHART TO 9TH HOUSE AS SPOUSE LAGNA		
SAT 2°			
JUP 27°	KETU 27° ASC 6°	SUN 15° MERC 2°	VEN 11°

**Main Rules to check: 1,3,8, MarkaBadaka
STARLORD ANALYSIS:**

1. Rotated the chart to 9th house as the query was about her mother-in-law. Instead of rotating the houses, I preferred checking the 9th house.
2. 9th house shall be taken as lagna to any person who is not related to us.
3. In this chart, Lagna lord Mars is retrograde placed in 5th house and in the star of 8th lord Mercury.

4. 8th lord Mercury is in 12th house and also retrograde.
5. Moreover both Mars and Mercury are not only Retrograde but are also under the aspect of Saturn through 3rd and 10th aspect.
6. Hence I have advised that the native's life is under threat.
7. RAHU is sitting in Maraka house and it signifies Mars, Mercury and Sun.
8. The native was diabetic but other than that the native didn't have any other issue at the time prior to the fall 2 weeks back. After the fall the native has been suffering from HYPOXIA.

The **inability to get** enough **oxygen** into the lung raises the risk for developing hypoxia. Hypoxia is a condition where **not** enough **oxygen** makes it to the cells and tissues in the **body**. This can happen even though blood flow is normal. Hypoxia can lead to many serious, sometimes life-threatening complications.

9. 3RDhouse and Mercury signify Lungs.
10. In this chart, although Saturn is the 3rd lord Saturn is aspecting Mercury (Lungs) and Mars (Blood), creating obstruction in the cells that

carries blood to lungs, which lead to the cause of death ultimately.

SUBLORD ANALYSIS

1st cusp Falls in –MAR-SAT-RAHU

- Sublord Rahu is in the Maraka 7th house, in the star of lagna Lord Mars. Rahu signifies Mars, Mercury and Sun. Although Mars is in 5th house. Mars is retrograde and under the aspect of Saturn from another Maraka house. Hence Lagna star lord Rahu is not at all favorable for the longevity for the native.

3th cusp Falls in – SAT-SUN-MON

- Sub lord Moon is in the 6th house, in the star of Sun. Sun is in 12th house linking houses 06 and 12 causing severity of health issues. Moon is further receiving aspect from Dasa Lord Sun and 8th lord Mercury, strongly linking houses 06, 08 and 12, which is not good for longevity.

8th cusp Falls in – SAT-MAR-MON

- Sublord MON is in the 6th house, in the star of SUN. SUN is in 12th house linking 6,12 severity of health issues. MON is further receiving aspect from Dasa Lord SUN and 8th lord MERC, strongly linking 6,8,12, which is not good for longevity.

RULING PLANETS- Ruling Planets from Rotated Lagna 9th house

Lagna Lord	-	Jupiter
Lagna Star	-	Saturn
Moon Lagna	-	Mars
Moon Star	-	Sun
Day Lord	-	Sun

JUP-SAT-MAR-SUN

- As discussed above most of the Ruling Planets signify negative houses. Jupiter is lord of 2nd house and 5th house. 2nd house is maraka house. JUP star lord is Sun, placed in 12th house.
- Saturn is the lord of 3rd and 4th house and is placed in 3rd house. However, its star lord Sun is also placed in 12th house.
- Mars lagna lord and 6th lord, is retrograde and is placed in 5th house but its star lord Mercury is in 12th house. And MAR is also under the aspect of Saturn.
- Sun is the lord of 10th house and its placed in 12th house, in the star of Rahu, who is placed in 7th house of Maraka.
- So all the RPs indicate negatively.

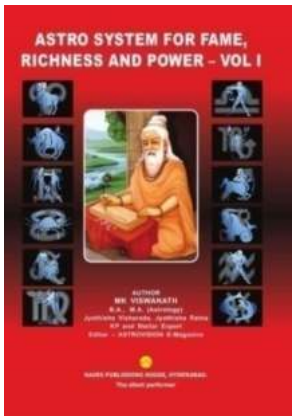

DASHA , BHUKTI ANTARA ANALYSIS:
SUN-MAR-MON-VEN-SAT

- As Moon is in the Sun star and Mars sub , the running Mahadasha is of Sun and the Bhukti is of Mars. As all the planets in the Dasa-Bhukti-Antara-Sookshma are all signifying 06, 12 houses, the situation seemed grim and critical.
- Sun who is transiting Rahu Star will also transit the Rahu star until 4th November and until then the time is very very critical according to my knowledge, and felt she will not survive .
- Although I couldn't tell definitely what time she will breath her last, but as predicted she breathed her last on early morning hours around 02 a.m IST, and it was around 4:30 p.m as per Easter time in USA. The day was Sunday night and Moon also was transiting Sun star as per Indian Standard time.

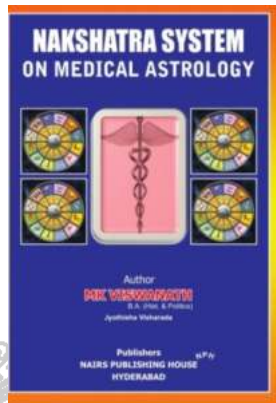

May God bless her soul.

PROBLEMS IN MARITAL LIFE: KP SYSTEM ANALYSIS

VGR PAVAN

Problems in marital life are quite often encountered these days. Astrologers need careful assessment of the horoscope before predicting the quality of marital life. Some problems are expressed but few can never be disclosed by the clients even though they are having a toll.

As per KP Astrology the sub lord of 7th house shows the possibility of marriage whereas sub lord of 11th house indicates the quality of marital life.

Generally, 5th house stands for love and affection and 4th house denies the same. 11th house denotes (5th house to 7th house) is for long lasting friendship or companionship (feeling of being with a friend) and 10th house denies that feeling. 8th house is for sexual matters whereas the same shows humiliation, torture, insult, manhandling, and anguish also. Therefore 4, 8 and 10 houses may cause problems in marital life.

Nature of the problem will be decided by the planets signifying those houses by their nature and ownership. For instance, Mars being an evil planet and signifying 8th house and connected with 7th house may cause

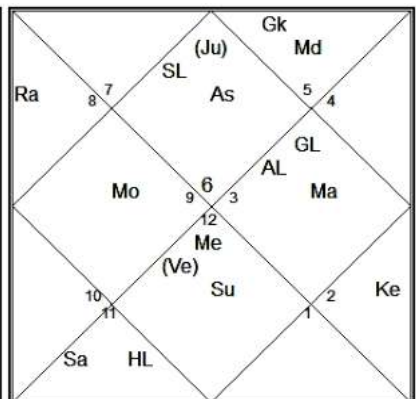

quarrels, manhandling and torture. Saturn on the other hand may result in silence, no intimacy, suspicion and even confinement.

The mindset and attitude of the spouse will be disclosed by the nature and connections of the 7th sub lord. If we read the above points in co-relation with 7th sub lord we can get an estimate of the marital life and quality of the relationship.

The following is the horoscope of a lady suffering humiliation with spouse right from the day of marriage till date. Let us analyze the horoscope through KP system.

Marriage was celebrated during Venus-Mercury-Venus period that ruled between Oct 2016 and April 2017.

Mars is ruling the sub on 11th house, it is deposited in the star of Jupiter and sub of Sun. Jupiter is in Asc being lord of 4th house (there are planets in 7th house) whereas Sun is in 7th house without any planets in its stars being lord of the 12th house. Further Sun is in Mercury star posited exactly on 7th house.

So Mars is connected with 1-4 houses at stellar level and 7-12 houses at sub level. Mercury exactly on 7th house caused inferiority complex and her spouse is concerned about the "difference in body complexion" between both of them. Mercury is for education and he is also concerned about her over qualification in academics than him.

Combination of 1-4 houses resulted in no affection and Mars in the Gemini sign in 10th house resulted no feeling of companionship on the contrary results like frequent arguments, criticism and even manhandling at some times due to the ownership of 8th house by him were experienced.

The humiliation reached to highest altitude from the beginning of Sun Mahadasa in March 2020. Note Sun is connected with 7th house at stellar level and 3-5-6-12 houses at sub level through Mars and Saturn.

I predicted the conclusion to this problem will take place during Mars sub period as she is in a dilemma to proceed for divorce. (Jupiter in Asc aspecting 7th house by being signficator for 11th house is trying to maintain the relationship despite these troubles.)

Mars sub period will prevail between Jan-May 2021. Mars is in Jupiter star (law) and Sun sub (Govt). Jupiter is in Moon star in 3rd house and hence notice may be given in Jupiter sub sub period.

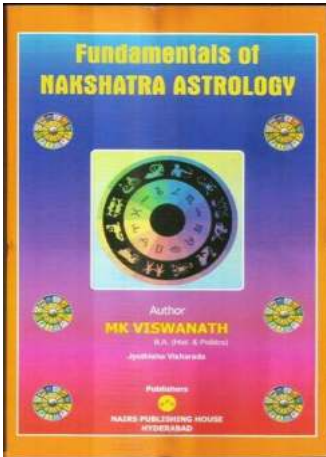

I hinted for prolonged legal confrontation as Rahu was aspected by Saturn from 6th house. Opposite person may “act smart” to cause confusion as Mercury is in Mars sub in a dual sign. Jupiter sub period may result in divorce even though it is a strong planet for 3-11 houses because it shows success in argument. Another reason is the sub lord of 3rd house is Rahu a strong planet for 6-12 houses.

My observation is that divorce will stand and it may be issued during Sun-Jupiter-Saturn period between May and July 2022.

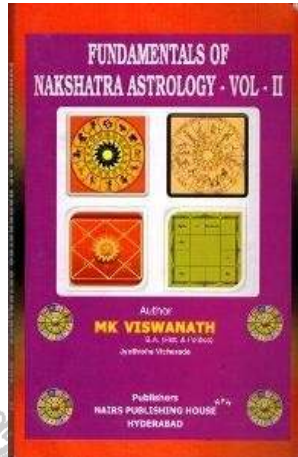

Let us see what happens!

DETERMINATION OF LONGEVITY BY AMSAYU - 2

Y.N. SUMANTH, USA

=====

The position and strength of Lagna is to be considered to use this method of determination of longevity. For the strength of Lagna bhava, the Lagna lord occupation, aspects to or from other planets, aspects from benefic planets on to Lagna, gives sufficient strength and makes Lagna strong.

For the calculation of Amsa Ayurdaya:

1. Convert the longitude of all planets including Lagna into minutes and divide them with 200'.
2. Remove multiples of 12 from the results obtained for each planet and lagna (as there are 12 rashis, remove multiples of 12).
3. This will give the Ayurdaya provided by planets and Lagna in years.
4. This result is subjected to Bharana and Harana samskaras.

Bharana Samskara

Bharana is the process of addition of longevity due to placement of planets in a certain bhava or in a certain fashion.

1. If a planet is exalted or retrograde, multiply the age granted by that planet by 3.
2. If a planet is in Vargottama or own Rashi or own Navamsa rashi or own Drekkana rashi, multiply the age obtained by 2.
3. If a planet is subjected to both of the above rules, only apply the multiplication factor of 3 once.

The ayurdaya granted by Lagna is ofcourse exempted by the above procedure.

Harana Samskara

1. **Chakrapata Harana** is the means of reduction of the fraction of longevity granted by a certain planet due to its placement in the lower half of the horizon. The houses from 7 to 12 are considered to be in the lower half of the horizon.

House	12	11	10	9	8	7
Malefic	Full	1/2	1/3	1/4	1/5	1/6
Benefic	1/2	1/4	1/6	1/8	1/10	1/12

2. **Astangata Harana** means reduction of fraction of the longevity granted by a planet due to its close conjunction with the Sun, thereby causing its combustion. Thus all combust planets in a horoscope fall under this category.

Mo	Ma	Me	Me®	Ju	Ve	Ve(R)	Sa
12°	17°	14°	12°	11°	10°	8°	15°

This reduction is not applicable to Venus and Saturn. Reduction will be **1/2** of planets Ayu calculated in above step (which is the net result obtained after Chakrapata harana).

3. **Shatru-Kshetra Harana**, as by the name it indicates, means reduction of fraction of the longevity due to the placement of a certain planet in its enemy house. Except **Retrograde** planets and **Mars**, all others are included in this reduction. The reduction factor will be **1/3** of the planet's Ayu calculated in above step i.e. after applying Astangata Harana the remaining Ayurdaya of planet should be used here.

All these Harana techniques need to be applied in the same order as defined above. Ofcourse, the Lagna

ayurdaya is exempt by all these haranas same as it is exempted by the bharana process too.

At the end, the net Ayurdaya obtained after all Bharana and Harana is the total age of native granted by the planets.

Let's calculate the age granted by the planets along with the bharana factors in one go.

Planet/ Lagna	Long itude	Longitu de in minutes /200	Age granted (remove multiples of 12)	Bharana Factor	Net Ayu
Sun	16 Vi 57'	50	2	-	2
Moon	27 Cn 28'	35.244	11.244	x2	22.488
Mars	26 Li 26'	61.933	1.933	-	1.933
Mercury	11 Li 48'	57.543	9.543	-	9.543
Jupiter	28 Ar 14'	8.4695	8.4695	x3	25.4
Venus	24 Li 27'	61.3375	1.3375	x2	2.675

Saturn	20 Sc 25'	69.127	9.127	x2	18.254
Lagna	12 Li 09'	57.648	9.648	-	9.648

Next, let's calculate the haranas and the total age of the native.

Planet/ Lagna	Net Ayu (obtained above)	Chakra pata Harana	Astangata Harana	Satruks hetra Harana	Net Ayu
Sun	2	1/6	-	-	1.666
Moon	22.488	1/3	-	-	14.992
Mars	1.933	-	-	-	1.933
Mercury	9.543	-	-	-	9.543
Jupiter	25.4	1/12	-	-	23.283
Venus	2.675	-	-	-	2.675
Saturn	18.254	-	-	-	18.254
Lagna	3.585	-	-	-	7.153
Sum total of age obtained	79.499				

The age obtained with the Amsayu above is 79.499

Note: On research, some books recommend multiplying the above number by 360, which is the

total degrees in a zodiac, and divide by 365.25, which is the exact number of days in a Solar Year to obtain the actual age of native in Solar years.

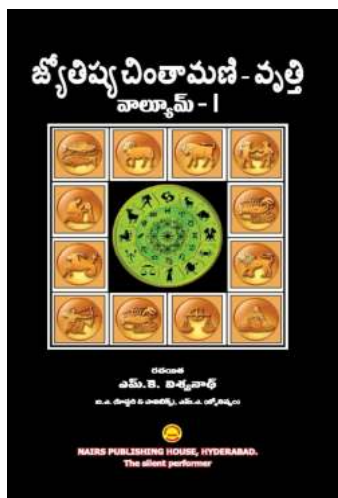

Using that suggestion, it can be seen $47.699 \times 360 / 365.25$ which gives 78.4 years or 78 years 4 months and it pretty closely coincides with the exact age of the native during death.

During this age, the native was running Jupiter-Ketu-Mercury dasha from 1948 January till 1948 March.

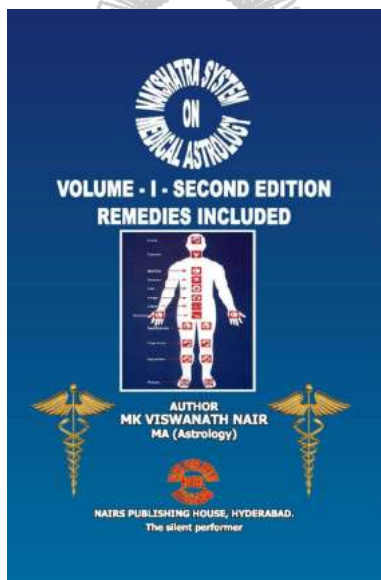

In the native's chart, 8th lord Venus is in lagna and own house and in nakshatra of Jupiter which is in 7th. No other planets in Venus nakshatra making Venus pretty strong and granting the native Poorna ayurdaya. Jupiter, Ketu and Mercury are all connected to the maraka houses of 2, 7, 12 and badhaka house 11. Moon and Saturn are the strong signifiers of lagna by being in the Mercury stars and untenanted Ketu represent both of them. Venus is the untenanted strong signifier of 8th house and during the time of death, the anthra lord Ketu was transiting in Libra sign of Venus and in Jupiter nakshatra.

Thus, we can employ the Amsayu longevity calculation and nakshatra system to cross verify the accurate longevity information in a chart.

December 2020 share market lagna chart 1 Dec 2020 09:15:00

December month is rule by planet Jupiter & Sun. Apart from these planets Mercury, Rahu, Moon, Mars also support the current month. Jupiter-Sun combo will make financial markets maintain the bull rise, but in the current month it's the public sector banks & public sector enterprises that will lead the rally, Rahu will maintain high range volatility, select sectors which moved in November will continue the bull run, Mars will lend bullish support to midcap, after December 17 Mars support role may not be significant. As predicted November was a super bullish month, banking sector did see huge rise, BN rose by over 6000 plus points, the biggest ever rise in 2020 & Nifty rose by 1600 plus points, biggest rise in 2020. Whatever targets set for November were all achieved.

December will see both frontline (main index, Nifty & Bank nifty) and broader market (midcap, smallcap & penny stocks) maintain stable rise. It is estimated and also predicted the following levels can be achieved in December, Nifty has resistance at 13225-13430-13675, which is also my December target, above 13675 we may see 13925-14000. Bank Nifty has targets 32613-36100. Above 36000 will be bonus.

Mercury is strong till this month end, which will support both financial sectors including banking and also midcap sector. Rahu will bring high volatility. From December 8 onwards four planets will pass through Rahu, Sun-Mercury-Venus-Moon. Midcap & financial sector will see high volatility.

Sectors apart from banking & finance, these sectors will also show bullish performance

- Auto with auto ancillary like tyres, auto paints, auto decor etc.
- Energy
- Food & beverages
- Crude may rise in global markets due to excessive winter leading to short supplies
- Pharma continues the super bullish run
- Footwears
- Housing & Housing finance, home décor & home décor products like tiles, furniture, fabrics related to home & car décor.
- Shipping and water related sectors like ports, docks
- Exports
- Metals

Between December 8 and 23 we see a healthy bullish rise in all above sectors, Rahu effect will bring high volatility but high bull rise will be maintained. From December 15 onwards we may see PSB settling in a range or may even show profit booking correction. Private banking will flourish more from December 15 onwards, private banks will maintain rise earlier also but from December 15 to December 24 we may see aggressive rise. Private banks may see new all-times high being made.

Metal sector will be a surprise package for December, new all-time new highs are strongly possible, positional cash stocks hold will give tremendous gains. Automobile sector, with due support from banking finance may see huge records being made for auto sector lending.

Saturn-Jupiter conjunction will bring unexpected rise in midcap, smallcap & penny stocks. Midcap, smallcap & penny stocks will be the darling for cash holding participants, sectorial shift will happen every 4-5 days, profit booking is a must as broader market sectorial rise is a short-term rise for few days.

One caution should be observed, any development on political front in US will make our markets move accordingly, this will be the main volatility indicator for our and global markets. Trump may spring a rabbit from black hat or Biden may bring some suffocation to the rich American class. Trumps triumphs will lead to unprecedented rise and Biden's suffocation may lead to huge fall in lead US market index.

Saturn has now settled into its role for supporting midcap, smallcap & penny stocks, from November 20, Saturn will lend bullish Neech bang support to debilitated Jupiter. This can also change the banking element for minor retail level bank lending policy.

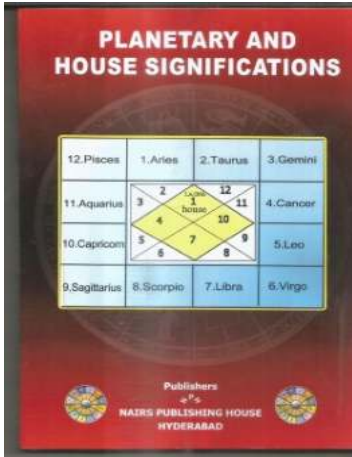

Any stimulus coming from our government will see a major support for small retail trade business houses. Till December end midcap will perform well, January 2021 & February 2021 are the months when Saturn remains combusted, at that time major correction can come in midcaps, smallcap & penny stocks. Saturn will

bring some financial disaster due to its movement when it changes its nakshatra from Sun to Moon, more about disaster will be given in January 2021 newsletter.
