2016: 2900 Series

Sunflower Journeys continues to be a popular show at KTWU, and opportunities to travel across the state and bring out-of-the-way places to our television audience continue in this 29th year of the show. In addition to our on-air presence, a series was developed for the web on Facebook, where the 'Throwback Thursday" concept was combined with the Sunflower Journeys archives of shows. Each week we pull out a segment from the past, dust it off and uploaded it to our social media audience on Facebook. One of the most popular segments to be shared in 2016 focused on the natural Waconda Springs in Jewell County, where the area was submerged to create a flood

control reservoir. Even though it was posted one time, it was shared for months afterward.*
