Labour Re-employment Platform (User Guide for Companies)

Introduction

Qatar Chamber in cooperation with the Ministry of Administrative development, Labour and Social Affairs launched an electronic platform with a view to re-employing skilled labourers in the local market. The platform aims to ensure the continuity of projects and businesses, thus avoiding any shortage of employment that may cause the failure of these projects. The Joint Commission between the Chamber and the Ministry supervises the platform and

facilities its work in a way that helps companies obtain appropriate employment and preserve and re-employ skilled labourers in the local market.

The platform works through an easy interface that enables companies looking to hire new employment to identify candidates and review their resumes. Also, the linking with the Ministry offers easy procedures that streamline the transfer of employment.

Companies that have redundant or laid-off employment to register their data on the platform.

User Guide for Redundant Employment

Companies that have redundant employment can register their information on the platform according to the following steps:

The Company prepares a list of its redundant employment and send it to the Ministry of Administrative **Development, Labour and Social Affairs**

Companies can also register data of their redundant employment directly on the platform but one by one.

Then, the Ministry verifies the list and transfers it to the Oatar Chamber

Accordingly, the Chamber enters data of these employment on the platform to be available for companies that are looking for new employment
