Lean Portfolio Management

Focus Workshop - The Multitasking Game!

We'll need a few volunteers to help illustrate what multitasking feels like!

We need **1 Team Member** and **1 Customer** to get started.

The Multitasking Name Game

Each Customer Gets Their Turn

<No Customer waits>

①	SARAH	36 sec
②	KERRY	26 sec
③	JACK	17 sec
④	ALEX	30 sec

No Customer Waits

One Customer at a Time

<Each Customer has a turn>

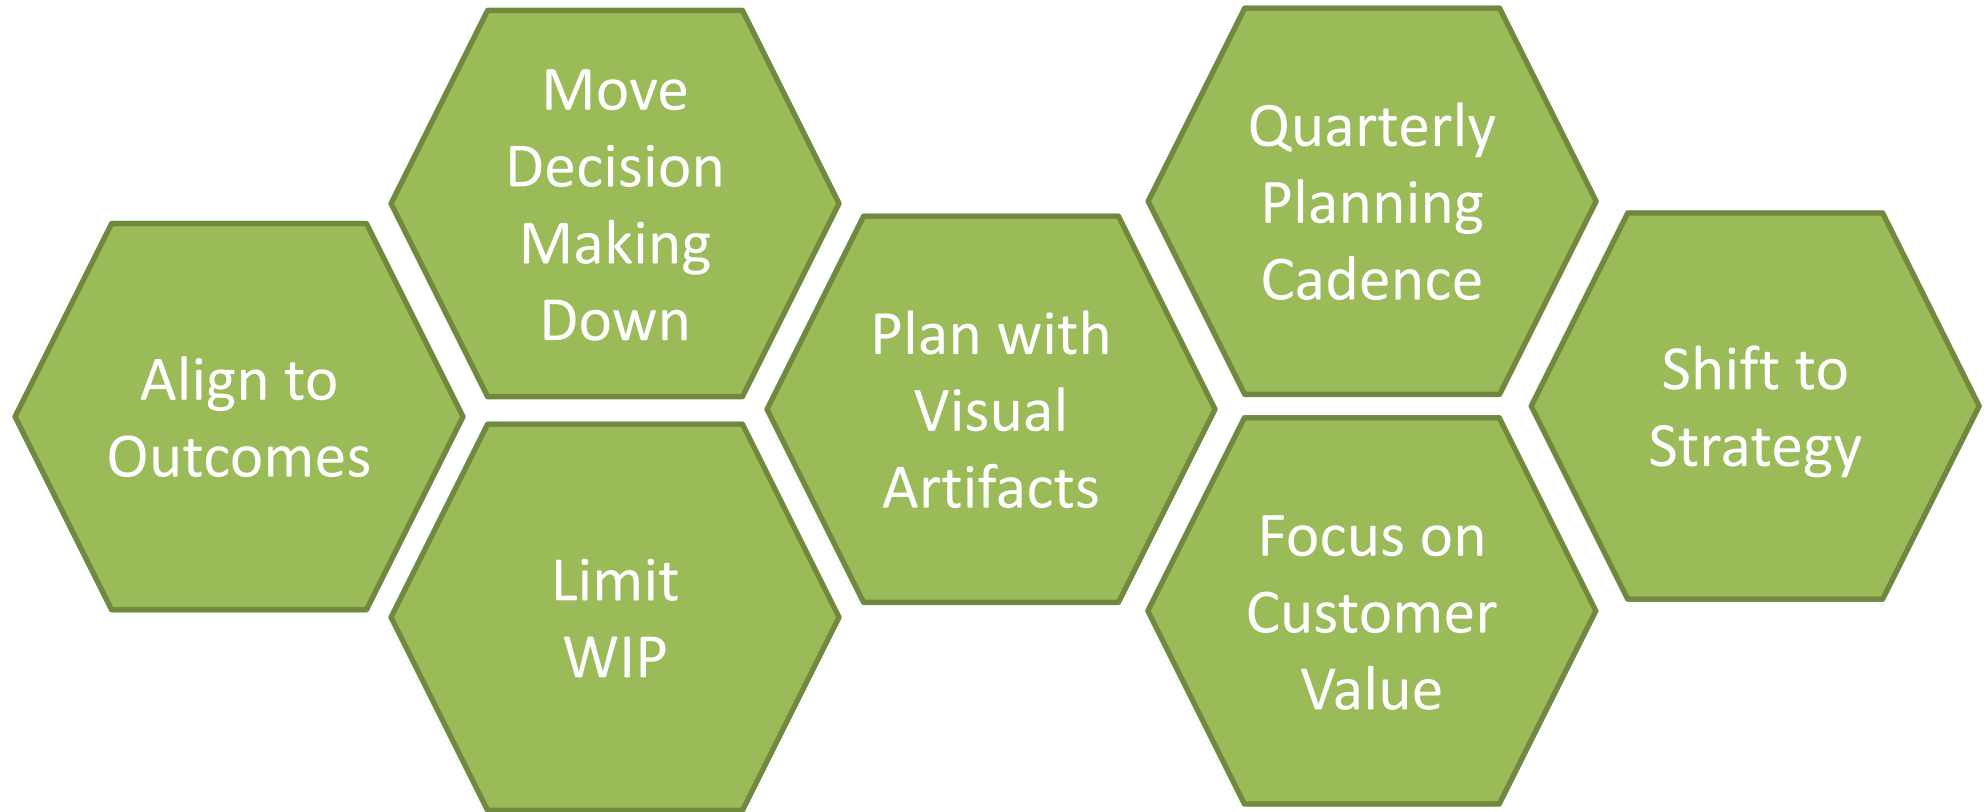

①	SARAH	27 sec
②	KERRY	29 sec
③	JACK	25 sec
④	ALEX	26 sec

<One Customer at a time>

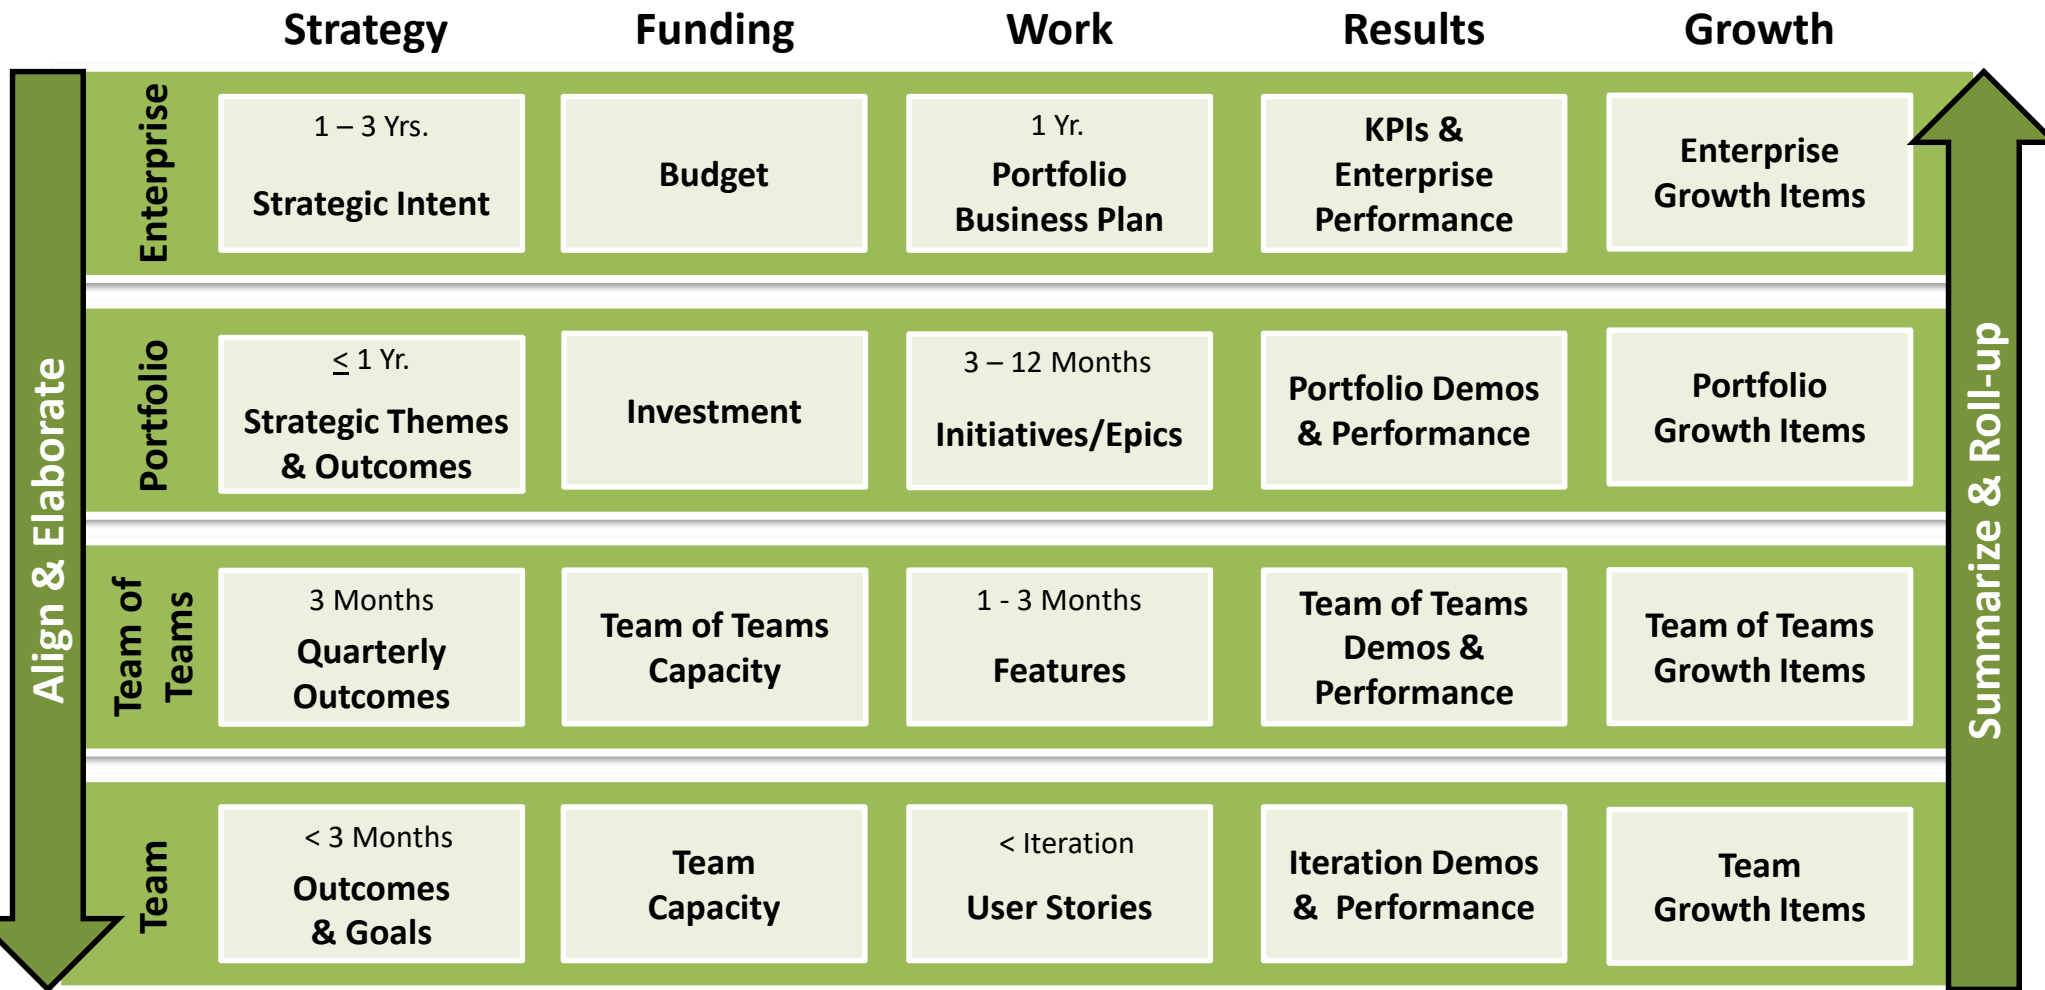

①	SARAH	6 sec
②	KERRY	12 sec
③	JACK	17 sec
④	ALEX	22 sec

ordered By Value

Lean Portfolio Mgt. Principles

Align Through the Levels

Objectives and Key Results (OKRs)

OKRs consist of:

Objective & Key Results

OKRs is a goal setting and management model that brings in the discipline to achieve results in execution aligned with organization and CEO's priorities.

Limit to 3-5 per quarter

Created by Intel's Andy Grove, made popular by John Doerr at Google

Objectives

A statement of a broad goal, usually qualitative in nature.

Example:

Mature our Sales Processes & Scale Sales Team

Key Results

A statement that measures achievement of a given objective.

Example:

1. Hire 3 sales managers by end of June
2. All sales reps trained and using new sales process in CRM with 8+ confidence score

Strategic Intent

- 3 to 5 high-level statements of what the enterprise wants to accomplish
- True North for the Organization//

Objective

- **Key Result**
- **Key Result**
- **Key Result**

Example

Refresh and innovate our consumer insurance products to increase market share at higher returns.

- Increase market share from 9% to 15% in 3 years (“15% by 3”)
- All products are at or above 8% ROE in 3 years (“Success over 8”)

Strategic Themes

- Business goals that connect a portfolio to the Strategic Intent
- These are the 3 to 5 most important differentiators

Example

More competitive, streamlined and innovative non-medical group benefits products

Objective

- **Key Result**
- **Key Result**
- **Key Result**

Example

We believe that providing a refreshed suite of insurance offerings to employers will improve access and ease benefit administration.

We are successful when:

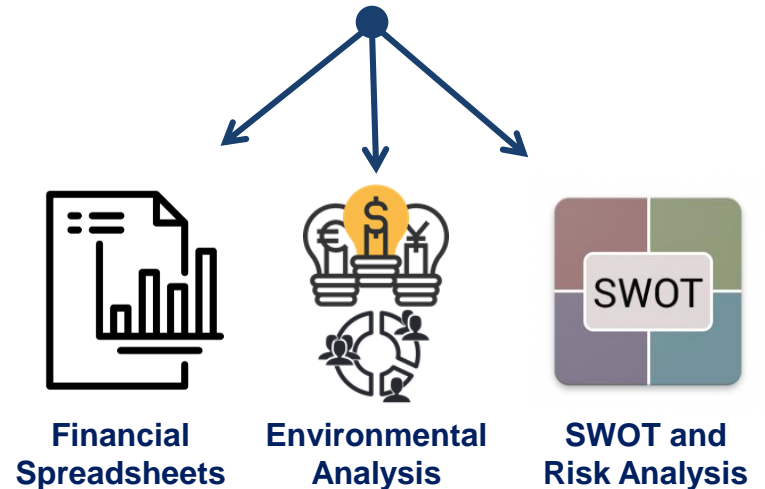

- Increase sales from \$21M to \$25M
- Improve customer NPS score from 48 to 55

Lean Business Plan

1. Lean Canvas

Problem	Solution	Unique value proposition	Unfair advantage	Customer segments
<p>Sharing photos/videos is time-consuming</p> <p>Parents have no free time</p> <p>There's lots of external demand on this content</p> <p><i>Existing alternatives:</i> Flickr Pro, SmugMug, Apple MobileMe, Facebook</p>	<p>Hardware/software design</p> <p>iPhoto/folder integration</p> <p>Better notification tools</p> <p>Key metrics</p> <p>Sign-up</p> <p>Created 1st gallery</p> <p>Shared an album and/or video</p> <p>Invited family and friends</p> <p>Payed after trial</p>	<p>The fastest way to share you photos and videos</p> <p><i>High-level concept:</i> photo and video sharing without the uploading</p>	<p>Community</p> <p>Channels</p> <p>Friends</p> <p>Daycare</p> <p>Birthday parties</p> <p>AdWords</p> <p>Facebook</p> <p>Word of mouth</p>	<p>Parents (creators)</p> <p>Family and friends (viewers)</p> <p><i>Early adopters:</i> parents with young kids</p>
<p>Cost structure</p> <p>Hosting costs — Heroku cloud</p> <p>People costs — 40 hours * \$65/hr = \$10K/month</p>		<p>Revenue streams</p> <p>30 day free trial, then \$49/year</p>		

2. Financial Analysis
3. External Environment
4. Risk Analysis

Quarterly Outcomes

The impact or result sought by the business strategy or direction
(what you're trying to achieve) - *Gartner 2017*

- ✓ **Specific**
- ✓ **Measurable**
- ✓ **Meaningful**

*An Increment of Business Value is realized when
Quarterly Outcomes are achieved!*

Sample Quarterly Outcome

Objective Title:

Launch a new non-medical SMB product

Hypothesis Statement/Description:

We believe that by launching new SMB non-medical benefits insurance product to market we will increase our market share for small business members.

Overall Progress:

10%

Estimated ROI:

\$6,000,000

Estimated Cost:

\$1,800,000

120
Value Pts

Key Results / Metrics:

Calculated based on # of weeks per team, X avg. cost per team 30k/week

Title	Progress	Metric	Now	Goal	By	Groups	# of Weeks
Increase SMB membership 	0%	Active Member	30k	60k	Jul 2018	Sales	8 weeks
Maintain Conversion Rate	0%	Activation	72%	72%	Feb 2018	Program JAMZ (4 teams)	48 Weeks
Quote applications for new product	30%	Quote	0	100	Feb 2018	MKTG	4 weeks

Customer/org Impact metric

Outcome → Epic/Initiative → Feature

Outcome: Launch a new non-medical SMB product

Epic: Launch a Vision Insurance Product

Feature Bulk Application for SMB Vision Product

Workshop – Strategic Intent, Themes and Outcomes

On a Flip Chart Sheet:

- Write 1 Strategic Intent
- Write 1 Strategic Theme

On a Blank Outcome Card:

- Write 1 Quarterly Outcome

Bonus: Identify 1 epic and 1 feature (titles only)

Visibility Rooms

Aligning Strategy, Demand and Capacity

What's the Problem?

How Do We Align Demand to Capacity?

Allocation and Focus Challenge

- Competing priorities
- Frequent tradeoff decisions
- High multi-tasking

“Add more people or reduce your competing goals, period”

- Quarterly Planning Attendee representing the “Voice of the Customer”

Enterprise Visibility (EVR) Rooms

Where Quarterly Portfolio Planning Occurs

Visibility Room Value Statement

Balance Supply vs Demand

Accelerate Throughput via Enterprise Imp. Removal

Enable Teams to "SWARM" around top Priorities

Only "Pull" Work You Can Complete within the Quarter

Understand How our work Aligns to our Priorities

Visibility into Inter-Team Dependencies

Clear priorities for Strategic Work NEXT QTR

Improve our "Concept to Customer" Team Design

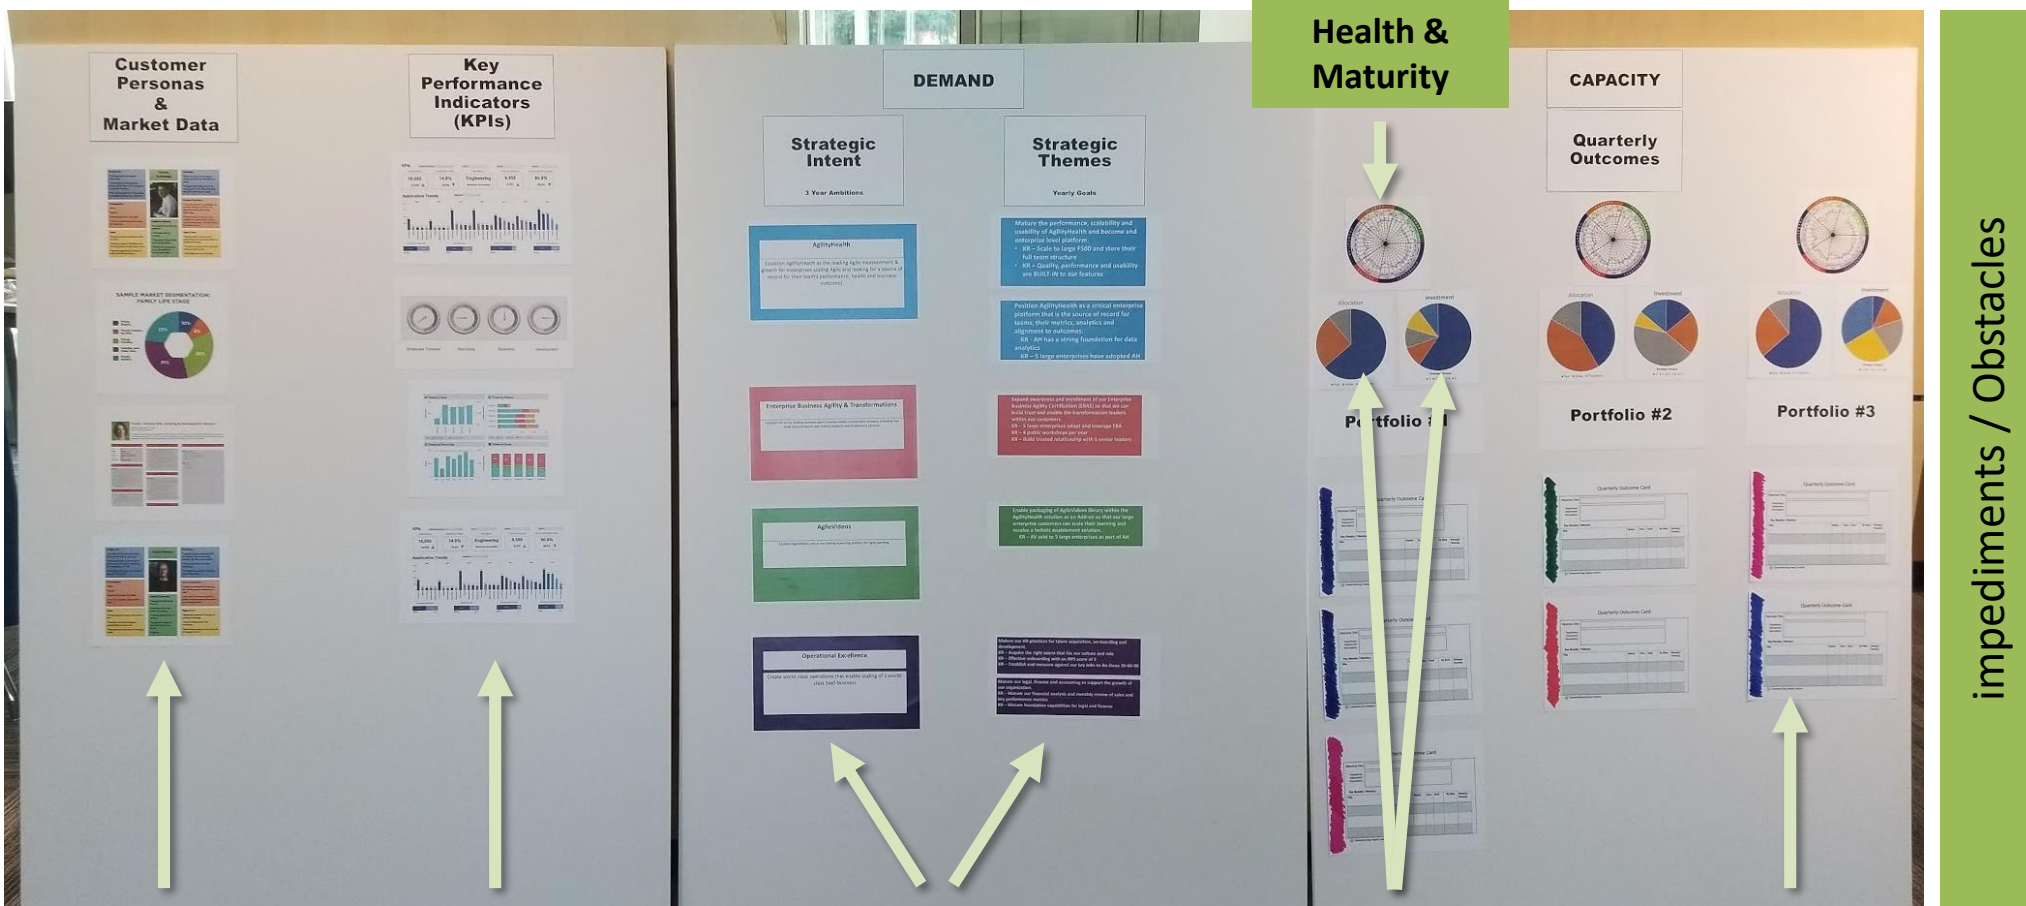

Overall Visibility Room Value Hypothesis

We believe that visualizing supply and demand will result in better alignment and more focus for the organization. We succeed when the organization is able to make decisions that help employees have more impact.

December Visibility Room Value Hypothesis

We believe that visualizing our strategic direction as clearly stated outcome increments with a single prioritization, and having teams pull from that strategic outcome backlog first before including their local backlog items will result in more of our highest value work getting to done within Q3 for our organization. We succeed when teams self-report increased engagement in achieving strategic outcomes, and we improve our ability to project which outcomes can be achieved in the near term for better coordination.

Implementing LPM

Enterprise, Portfolio, and Teams of Teams Levels

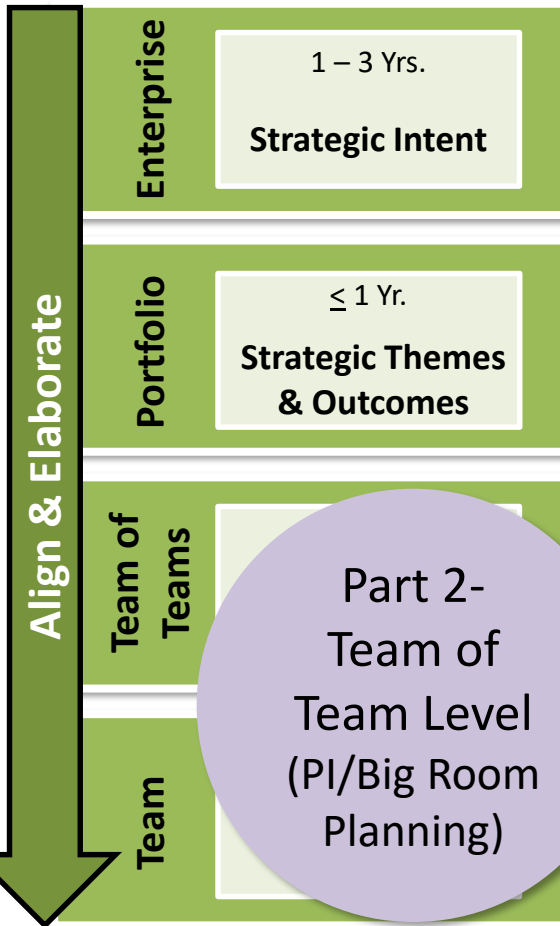

Planning Cadence – Portfolio Level

Strategy

Planning Cadence – Team of Teams

Strategy

Day 1:

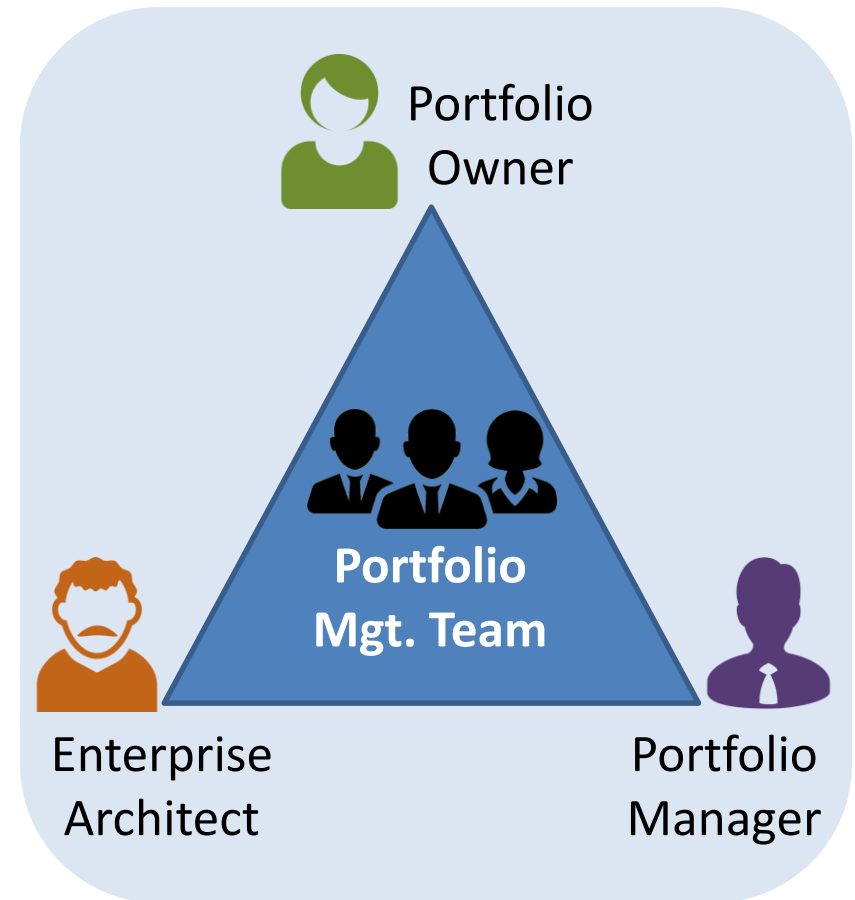

- Vision & strategic themes
- Present quarterly outcomes and top features
- Architecture vision and practices
- Team breakouts & planning
- Draft plan review

Day 2:

- Team breakouts & planning
- Final plan review and alignment
- Team capacity, roles and allocation adjustments
- Review dependencies, risks, skill gaps
- Confidence vote
- Planning retrospective

LPM Team

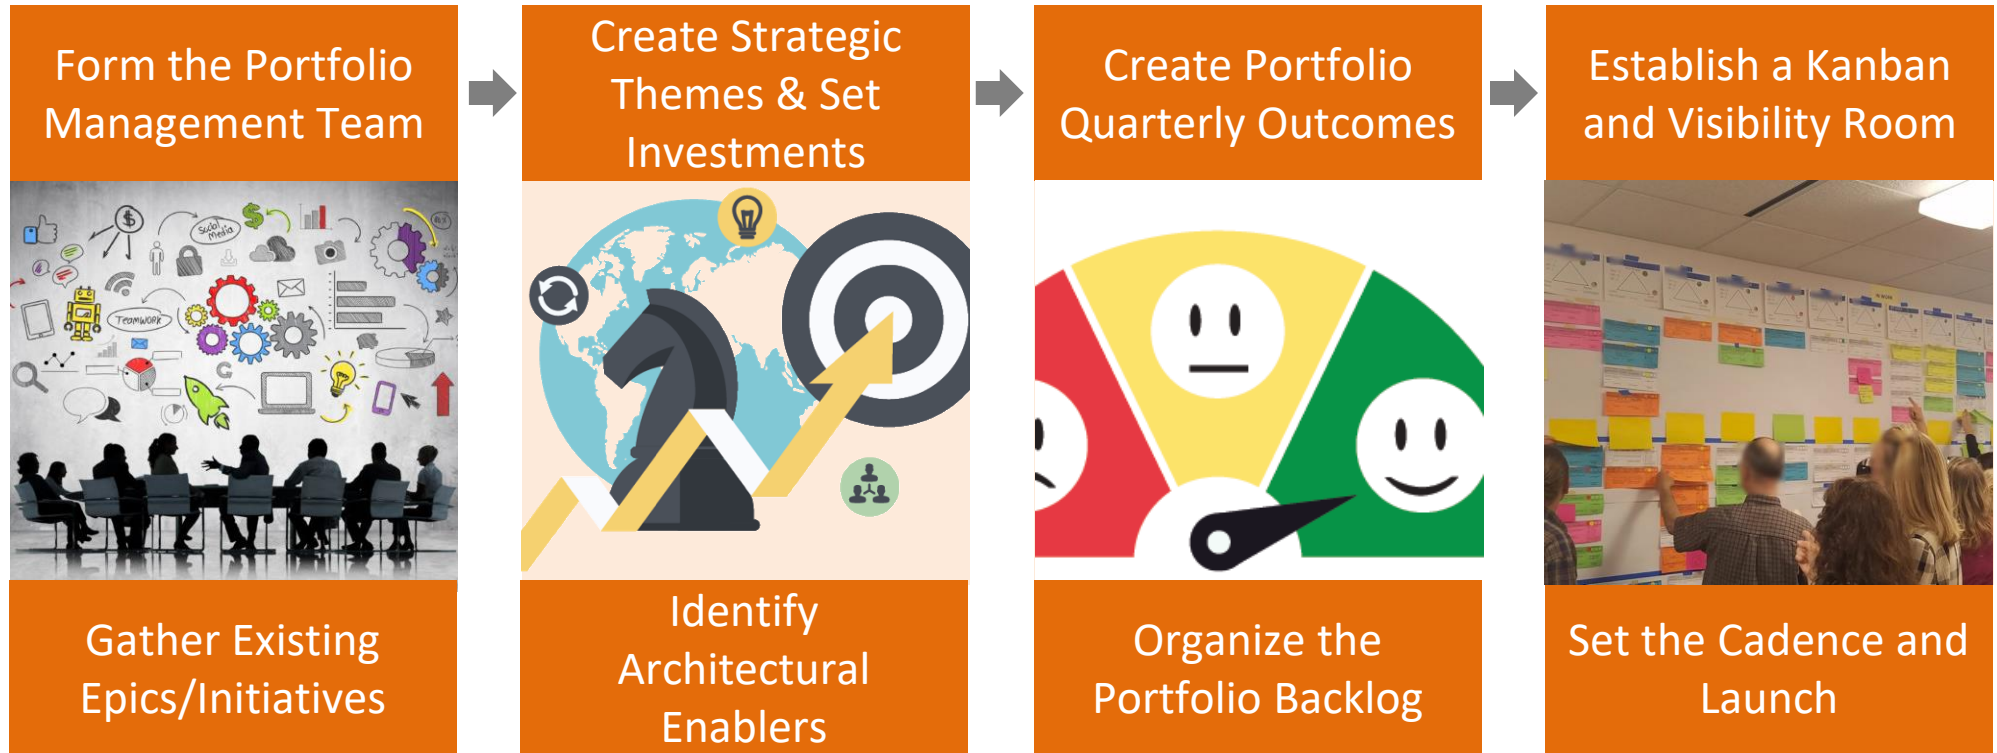

- Aligns Strategic Intent & Themes
- Aligns outcomes & initiatives (epics)
- Reviews, approves & prioritizes portfolio work
- Manages the Portfolio Kanban & backlog
- Performs quarterly planning
- Reports progress toward outcomes, investment & performance targets

Portfolio Kanban Room

	Ideas	(WIP = 5) Analysis	(WIP = 3) Approval	Backlog	Strategic Themes	Next QTR	This QTR	Done	
EPICS						 	Business Outcomes		
					Team of Teams 1			 	
						Team of Teams 2			
						Team of Teams 3			
					Team of Teams 4				

Portfolio Mgt: Implementation Path

“Consider the importance of designing the allocation of teams towards outcomes and being empowered to make changes every 6 or 12 months to maximize the throughput of outcomes.”

Summary

- Limit organizational Work-In-Progress (WIP)
- Make all work visual
- Ensure cross functional team alignment around customer value creation activities
- Connect Work to the Strategy and Vision
- Use Visibility Rooms at each level to Align Demand and Capacity

Lean Portfolio Management
"Stop starting and start finishing"

Overview

Lean Portfolio Management is applying lean thinking to managing enterprise, program and product portfolios to provide a fast and flexible flow of high-value work. This approach focuses on delivering the most valuable work first while limiting work-in-process, limiting interruptions and aligning the work to the organization's intended outcomes and team capacity.

Lean Portfolio Management prioritizes alignment and achievement of business outcomes over focusing on work and deliverables. It is a results-based approach incorporating adaptive planning in quarterly or less increments, high visibility and alignment and inspection and validation of real results.

Principles of Lean Portfolio Management:

- Focus on fast and frequent delivery of customer value
- Shift from tactical to strategic
